Rocky Mountain Rambles

III.

A beautiful specimen of *Abies concolor* in the Wasatch Mountains, Utah.
Elevation 8500 feet

In two previous numbers I referred to some of the interesting features of the east slope of the Rockies. The west slope contains many interesting physiographic features, besides a great wealth in plants. It was my pleasure during the summer of 1900 for the first time to gaze upon the rugged scenery in the Black Canon of the Gunnison, west of Gunnison.

The railroad making its way through the narrow defile, the steep sides of the gorge with a sparse growth of

spruce, Douglass fir, pines and cedars, and the broken rock piled in all conceivable forms, the water dashing over the rocks and passing swiftly down the canon, was a sight not soon to be forgotten. I have several times since gone over the same region with as much delight last summer as the first time. At Cimarron the gorge becomes so narrow and the rocky cliffs so abrupt that the railway leaves the Gunnison and passes up the Cimarron and over the divide to Montrose. The region over the divide is mostly covered with a scrubby growth. For the first time one meets in these woods a native apple, the *Peraphyllum ramosissimum*, which is a low shrub growing over the hills. Everywhere throughout the region a form of our eastern *Lobadium*, the *Rhus Canadensis* var. *trilobata* and a form of the dwarf white oak (*Quercus undulata*) is common, and on these hills it forms thickets. The common service berry of the west is also abundant (*Amelanchier alnifolia*). The western *Cleome* (*Cleome lutea*) is also more plentiful along the roadsides in the Montrose country and in waste places. In these oak woods one finds a great deal of painted cup (*Castilleja miniata*).

Leaving Grand Junction we pass down the valley of the Grand River which here and there opens up into broad expanses where one finds such familiar trees as the Cottonwood (*Populus deltoides*), a few willows like the Sandbar Willow (*Salix interior*), the Buffalo Berry (*Shepherdia argentea*), and the Silver Berry (*Eleagnus argentea*).

The region beyond is a high undulating plateau with the familiar Western Sagebrush (*Artemisia tridentata*), Greasewood (*Sarcobatus vermiculatus*) in alkali flats and Salt Grass (*Distichlis spicata*). The ascent up the valley from Helper, Utah, is rather abrupt. The dry hillsides contain a great deal of an interesting Wild Foxglove (*Penstemon barbatus*) with ample racemes of bright scarlet flowers which is worthy of a place in any garden. There are also blue-flowered species which should find a place in our gardens. The ascent up the valley to the summit of the divide is marked by open meadows and dense thickets of willows. This feature is characteristic of all the mountain peaks.

L. A. Pammel

Ames, Ia.

An American Rival to the Barbadoes

Visitors to the Barbadoes are wont to bring home photographs of a certain palm drive leading to the home of the Empress Josephine.

As a matter of fact, away up in north-central California at Sacramento, there is a street, leading toward the capitol, which is almost a duplicate of that one. It is shown in the accompanying picture.

The palms are not quite so tall, but with these on the one side of the walk and the more deciduous shrubbery on the other hand, the effect is even more beautiful.

Happy New Year! Old 1908 with its joys and its sorrows, its hopes and its disappointments, with all it had to bless or to vex, has gone and experience and reminiscence is all it has left with us. And now we look well to the east, to the sunrise of a new and, we all hope, a better year. Wise is he who has watched the indicator on the dial and in his planning for the coming weeks and months, has carefully hoarded the knowledge which comes only to those who are on the alert, and can draw upon it for inspiration in the struggle which now begins anew. Eager to fulfil its legitimate mission, zealous for the

honor and lustre of the name it bears, HORTICULTURE has done its best during the year now gone to live that wisdom which has its birth only in studious investigation, persevering toil and ripe experience and to pass it on in concrete form so that it may open to those who properly apply it, avenues of profitable and happy employment otherwise unattainable. This policy we shall still adhere to and we shall gratefully welcome the assistance and co-operation of all friends of horticulture.

The seed catalogues for 1909 are beginning to arrive. Some are triumphs of art and business sagacity; others are not, but on the average a great advance has been made from the standard of a few years ago when crude illustrations of impossible things on cover and inside pages were the rule. We occasionally see one which recalls the old days, with cover designs showing marvels calculated to make the rural folk gape, autos loaded with onions bigger than the chauffeur's head, ears of corn as long as the wagon seat and other amazing products but these fantastic outbreaks are the exception, nowadays, and the aim of the up-to-date catalogue maker is to show things just as they are. As to the text matter there seems to be a tendency in the direction of more concise and simple descriptions and to refrain from grandiloquent overpraise of varieties but there is still plenty of room for further reform in this respect. Taken all in all, the seed catalogues wield a mighty influence and, as such, they must be classed among the most beneficial agencies in the dissemination of horticultural knowledge and the sharpening of the public appetite for gardening diversions.

"Since the giant cactus, which is by far the most impressive feature of the desert vegetation of the Far Southwest, was studied and named by Dr. George Engelmann, in 1847, it has been known to botanists as *Cereus giganteus*. Now Dr. N. L. Britton and Dr. J. N. Rose of the New York Botanical Garden have found that it is not a *cereus* at all, but belongs to a separate genus, of which it is the only species. They propose to name the genus *Carnegiea* in honor of Andrew Carnegie."—*New York Sun*.

Undoing one another's work has long been a ruling passion with many of our esteemed friends, the botanists, and genus and species-splitting their ever-besetting sin. The establishment of this monotypic genus in honor of the Laird of Skibo looks questionable. With all due respect to the learned gentlemen mentioned in the above extract we are disposed to credit Dr. Engelmann and our German contemporary Schumann with a better knowledge of the spiny inhabitants of the desert than even our New York and Washington scientists. We know of none who have done more devoted and painstaking work on the Cactaceae and Coniferae and allied classes of plants in America than Dr. Engelmann and it is to be regretted that the name given by him should not be permitted to stand.

PLANT BREEDING.

MONSTERA DELICIOSA.

HORTICULTURE:

I wish to ask for a little information. I am a grower of seed peas and am studying to improve my varieties also to produce new varieties where I think there is a need of them. Can you refer me to books or literature bearing on above subject, and by whom published or could you furnish me with such books as I desire? Darwin I believe wrote books bearing on these matters also Bailey of Cornell University. Can you give me names of these books and where I could obtain same?

Thanking you in advance for any information which you may give, I am

Sincerely yours,

(Signed) J. VERNON SHEAP.

In reply to the above query we would name the following publications:

Bailey's Cyclopaedia of American Horticulture—under the head of Plant-Breeding.

W. S. Harwood. New Creations in Plant Life.

Charles Darwin. Animals and Plants under Domestication.

L. H. Bailey, Plant-Breeding. Cross-Breeding and Hybridizing—with a brief bibliography of the subject. pph. The Philosophy of the Crossing of Plants considered in reference to their improvement under Cultivation. pph.

E. L. Sturtevant. Observation on the Hybridization and Cross-Breeding of Plants.

E. Williams. Hybridizing and Cross-Breeding. pph.

Francis Darwin. Cross and Self-Fertilization.

There are also numerous other publications on the subject, which may be consulted at the library of the Massachusetts Horticultural Society.

FRUITING STRAWBERRIES UNDER GLASS.

EDITOR OF HORTICULTURE:

Dear Sir,—Will strawberries bear in hot houses without bees to carry the pollen? B. A. R.

Answering your inquiry in regard to strawberries fruiting under glass without bees to carry the pollen, I will say that bees would be an advantage when the operation is to be carried on in a large way, and especially so if some imperfect varieties are to be grown with the perfect ones. Where only a few plants are to be grown bees will not be necessary to carry the pollen and with the perfect flowering varieties artificial pollination will not be necessary, but if the weather is dark and moist at the time the plants bloom it will be necessary to pollinize with a small camel's-hair brush. The main thing is to keep the house dry and airy at the time the plants are blooming, so that the pollen will ripen naturally and spread itself.

WILFRID WHEELER.

CAN'T DO WITHOUT IT.

Enclosed find one dollar to renew my subscription to HORTICULTURE. I am one of your first subscribers and am going to stay by you. Can't do without it. It is getting better and better with every issue.

H. D. SEELE.

Elkhart, Ind.

Some time ago we published a picture of *Monstera deliciosa* in fruit, and it may be of interest to our readers to see how it looks in bloom, as it is somewhat uncommon. When grown in the stove or warm greenhouses it will make luxuriant leaves but seldom

flowers. The plant is always interesting, however, on account of its peculiar perforated foliage. The specimen shown herewith is growing in a corner of the carnation house, in full sun. We are indebted to the grower, M. J. Pope, for the photograph.

PERSONAL.

R. C. Kiel is now with the Hopedale Nurseries, Hopedale, Ill.

William Clubb of Boston has taken a position with L. L. May & Co., St. Paul, Minn.

W. H. King, the Albany florist who fell in front of his home, breaking his leg, is slowly improving.

Miss Dorothea A. Broome is in charge of the Lakeside Floral Co.'s store at Calumet, Mich.

Arthur E. Thatcher has succeeded the late Louis Sander at the Arnold Arboretum, Jamaica Plain, Mass.

George L. Perry of Coldwater has taken a position as manager of the Central Nursery & Floral Co., Kalamazoo, Mich.

Mr. Arthur Brown of Walkerville, Ont., and Miss Grace Young of Amersham, England, were married at St. Matthias Church, Montreal, on December 25.

Wm. R. Smith, of the Botanical Gardens, Washington, who has been seriously ill for the past ten days, is now reported as being much better and is able to sit up for a short while at a time. This will be grateful news for thousands who love the "Grand Old Man of Horticulture." Mr. Smith has been in Providence Hospital for the past two weeks. Owing to his advanced age much solicitude has been felt by his friends.

OBITUARY.

Dennis Lee.

Dennis Lee, gardener for Paul A. Huebener of Yonkers, N. Y., was found in the stable with his skull crushed and suspicion points to the coachman as the perpetrator of the deed.

H. J. Ball.

Henry J. Ball, for the past twenty-five years a successful orchardist of Santa Clara County, died in San Jose, California, on Dec. 16, at the age of 76. A widow, two daughters and a son survive him.

Alexander Newett, Sr.

Alexander Newett died at his home at Lawndale, Chicago, Dec. 18, in his eighty-second year. He was a native of Ireland, came to this country at the age of 22 and started in the florist's business in Chicago about 30 years ago. A daughter and five sons survive him, one son, Alexis, being connected with the Stuppy Floral Co., of St. Joseph, Mo.

OUR EXCHANGES.

Gleanings in Bee Culture for Dec. 15, is full to overflowing with interesting practical information on the fascinating employment of bee keeping. It has also a poultry department. Bee culture comes very close to being a department of horticulture and works well as a side issue with those engaged in any horticultural pursuit. "Gleanings in Bee Culture" is published by the A. I. Root Co., Medina, Ohio, semi-monthly and is well worth the price—\$1.00 a year.

NEWS OF THE CLUBS AND SOCIETIES

WASHINGTON HORTICULTURAL ASSOCIATION.

The Washington Horticultural Association at its fifth annual convention in Spokane, Dec. 8 to 11, when H. K. Gilbert of North Yakima, president of the organization, presided at the eight sessions, adopted resolutions, recommending the enactment of a law by the Legislature of 1909, prohibiting the liquor traffic, pool-selling and race-track gambling at county, state and inter-state fairs; the repeal of the state horticultural law and the enactment of one which could be enforced; making the National Apple Show an annual affair; the insertion, if possible, in the local option law, if enacted, making the unit no smaller than the county.

The association put itself on record as favoring the immediate improvement of public highways and a practical method of raising funds to bring this about; that industrial training in the public schools be adopted; also encouraging the growing of sufficient nursery stock to supply the demands of orchardists in the state; encouraging the importation and protection of song and insectivorous birds, and requesting the legislature to appropriate \$2,000 for the publication of the annual horticultural report. The Porter apple box bill, submitted to the last Congress, was condemned.

These officers were elected for 1909: President, J. L. Dumas, Dayton; first vice-president, M. O. Tibbitts, Cashmere; second vice-president, F. P. Benson, Prosser; secretary, Levi Grant Monroe, Spokane; treasurer, H. W. Greenberg, Spokane. The next annual meeting will take place at Wenatchee the first week in December.

Recommendations by the legislative committee were adopted as follows: That the legislature appoint a state horticultural commissioner and inspectors for 20 or more districts; that adequate provision be made for assistant inspectors during the busy season; that the commissioner and district inspectors be appointed for indefinite terms and be removed only for neglect or inefficiency or that an inspector may be removed by a petition of the majority of the owners of commercial orchards in his particular district; that the inspectors shall be state officials and paid as the other state officers.

It was also urged that the legislature enact a law legalizing the apple and pear boxes at present in use; that the name and address of grower and shipper may be stamped on each package; that infected fruit where found by the inspector may be repacked by the owner or in the case of non-appearance of the owner that the inspector shall pack the same at the expense of the owner; that infected fruit used for by-products may be sold or shipped to the state with proper restrictions, and that all nurseries be fined 10 times the original cost of trees sold not true to name.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Registration of Plants.

Public notice is hereby given of the application of the Conard & Jones Company, West Grove, Pennsylvania, for the registration of the plants specified below. These applications for registry were filed in this office on Dec. 23, 1908, and any person knowing of any reason why the registration of these names should not be made is requested to communicate with the undersigned.

Canna "Wawa": Parentage, Maidens Blush x a seedling; soft pink flowers, green foliage, 3 to 4 ft. high, nicely rounded flowers.

Canna "Mont Blanc Improved": Mont Blanc Improved has the same vigorous constitution and luxuriant green foliage as its antecedent, Mont Blanc. It has large flowers which are almost pure white and produced in great profusion; height about 4 ft., foliage green.

Rose "Climbing Mosella": New climbing rose, a sport from the bush Rose Moselin and identical in the appearance of blossoms.

W. N. RUDD, Sec'y.

December 23rd, 1908.

GARDENERS' AND FLORISTS' CLUB OF BALTIMORE.

Control of Insect Pests.

The Gardeners' and Florists' Club held the semi-monthly meeting on the 25th, and considering the holiday season the attendance was excellent. Professor A. B. Gahan, assistant horticulturist at Maryland Horticultural College, read a paper on "The Control of Some Insect Pests of the Plant House." He said, in part, that potassium cyanide is recognized as a practicable treatment, when properly handled, for most pests. The amount of the gas which different plants will stand varies widely. He had frequently treated coleus badly infested with mealy bugs with a strength of 3-4 of an ounce per 1000 cubic feet without injury to the plants, but it required several repetitions to kill them all. The eggs were not affected. Roses and chrysanthemums were treated with excellent results. The gas proved more efficient and cheaper than tobacco fumigation. Violets are uninjured by four ounces of cyanide per 1000 cubic feet and a charge of four or five ounces should be used for them. The exposure should not be for less than one hour, and two hours' exposure results in no injury to the plants. It is against white fly, thrips, mealy bug and the aphids that it is especially valuable. Against the scale insects the cyanide treatment is not effective, as the scale covering protects the insect from any strength of gas which would not be fatal to tender growing plants. Plants are less liable to injury when the fumigating is done at night. A long exposure to a moderate amount of gas is less likely to cause injury to the plant, and is at the same time more effective against the insects than is a shorter exposure to a heavy charge.

MASSACHUSETTS HORTICULTURAL SOCIETY.

Free Horticultural Lectures.

A notable course of nine lectures on subjects of horticultural interest is announced by the Massachusetts Horticultural Society to be given at Horticultural Hall, Boston, on Saturday mornings at eleven o'clock, beginning Jan. 9.

These lectures are free to all and after the reading of the papers opportunity is given for full discussion of the topics treated.

The inaugural meeting of the society will be held on the first Saturday of the new year at twelve o'clock. At this meeting the president will make an inaugural address, and the annual reports of officers and chairmen of committees will be presented.

The lecture program is as follows:

January 9. The Yeast of the Soil. By Wm. H. Bowker, Boston.

January 16. Garden Insects and How to Control Them. By Prof. E. Dwight Sanderson, Durham, N. H.

January 23. Ornamental Gardens and Garden Materials. Stereopticon illustrations. By Prof. E. A. White, Amherst.

January 30. The Effects of Conditions of Growth in Certain Horticultural Plants Upon Susceptibility to Fungous Diseases. By Prof. B. M. Duggar, Ithaca, N. Y. (The John Lewis Russell Lecture).

February 6. The Etherization of Plants for Forcing Purposes. By Prof. William Stuart, Burlington, Vt.

February 13. Plant Breeding. Stereopticon illustrations. By Prof. Herbert J. Webber, Ithaca, N. Y.

February 20. American Landscape Architecture. By Prof. F. A. Waugh, Amherst.

February 27. Rural New England. By Mrs. Charlotte R. F. Ladd, Sturbridge.

March 6. The Propagation of Plant's by Various Methods. By Jackson Dawson, Jamaica Plain.

WM. P. RICH, Sec'y.

NEWPORT HORTICULTURAL SOCIETY.

A regular meeting of this society was held on the evening of Dec. 22nd, with a good attendance of members, and President Robertson in the chair. After the routine business had been settled, A. McLellan started a discussion on the dahlia disease which was so prevalent throughout the New England States the past season. Mr. Volquardson gave it as his opinion that this trouble is often caused by a species of aphid, which inhabit and feed on the under side of the foliage, and when left undisturbed in dry, warm weather multiply very rapidly, quickly weakening the constitution of the plant. The speaker said the best remedy he had found was water applied with some force to the little pests with a syringe or hose. Red spider was also admitted by those present to be a powerful agent toward bringing on this disease and the same treatment as for the aphid is good.

Suppose that during 1909 we all try to be fairly decent.

A black man with a white inside is better than a white man with a black inside. An expensive lily bulb of superior quality is better than a cheap one of inferior quality. We want you to try a case or so of our best quality of Easter Lily Bulbs—the very best produced in Japan.

Write us a postal for prices. Wholesale only.

CLUB AND SOCIETY NOTES.

The Rose Festival Association of Portland, Ore., will celebrate Feb. 22 as "Rose Planting Day," and will invite the military and fraternal organizations to assist in its celebration.

The National Horticultural Congress in session at Council Bluffs, Ia., elected officers for 1909 as follows: President, W. S. Keeline; vice-president, J. H. Shawhan; secretary-treasurer, G. W. Reye, Council Bluffs.

The Southwestern Iowa Horticultural Society at their meeting at Council Bluffs on Dec. 16 elected officers as follows: President, J. M. Bechtel; vice-president, R. Mackenzie; secretary, W. M. Bomberger.

The State Horticultural Society at its recent meeting in Springfield, Mo., passed a resolution asking the legislature to enact a law making it a misdemeanor to kill quail within a period of five years, as they deem their destruction detrimental to the orchard and farming interests.

The Gardeners' Mutual Protective Association of New Orleans have elected officers as follows: President, V. Zirmmer; vice-president, W. Orth; secretary, John Parr; treasurer, I. Meyer. C. R. Panter, as chairman of the committee on grievances, was instructed to make an effort for better facilities for gardeners at the French market.

At Wilmore, Pa., they are agitating the formation of a horticultural society for Cambria County, and a meeting for organization is to be held at Wilmore on Jan. 16. Great enthusiasm prevails over the project. A correspondent in a Johnstown paper in a communication tells of the great advantages to accrue. He adds:

"And is this to be a gathering of smooth-tongued bachelors and crusty old widowers, such as our State organization appears to be? Not much! The ladies are certainly expected to be in evidence here as elsewhere when anything worth while is to be accomplished. Welcome, thrice welcome are they—and let them come without money and without price."

The State Horticultural Society will have to take a back seat. Wilmore seems to be all right.

FREEZING ASPARAGUS AND RHUBARB ROOTS FOR FORCING

It is necessary that these roots be frozen before forcing. There is not the slightest risk in shipping them now. Best roots in country. Big money in forcing them.

WARREN SHINN, Nurseryman, Woodstown, N. J.

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. Gladiolus are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white Gladiolus. First-size bulbs, 1½ inches and up, \$2.00 per 100; \$18.00 per 1000. Bulbs 1½ to 1¾ in. \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, flaked rosy crimson; the best forcer. Selected bulbs, \$1.75 per 100; \$15.00 per 1000.

Branchlevensis (true). Flery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1¾ in. and up, \$1.50 per 100; \$14.00 per 1000.

Bulbs 1½ to 1¾ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation. \$1.00 per 100; \$9.00 per 1000.

ARTHUR T. BODDINGTON

SEEDSMAN

342 West 14th Street,

NEW YORK CITY

NEWS NOTES.

Salem, Mass.—E. F. Costeller & Co., have given up their retail store on Essex street.

Scranton, Pa.—A fire started in the boiler room of McClintock's greenhouses at Jefferson and Electric Av., but the loss was slight.

Jeffersonville, Ky.—While the family of Edward McCulloch were sleeping on December 19 a greenhouse a few feet from their house was burned to the ground. An overheated furnace is supposed to have been the cause.

Rochester, N. Y.—The widow of the late George Ellwanger has been allowed \$12,632 as reimbursement for the education of her daughter, Julia, nineteen years of age. The Court has also set aside \$5,000 per year until the daughter is 21.

Baltimore, Md.—Edwin A. Seidewitz, who charged from his store on Lexington Street and located on Charles Street, has had a new plate-glass front put in, and having it finished in time for the holidays gained a decidedly fine opportunity for displaying his goods.

Onarga, Ill.—The Mosbaek Greenhouse Co., who recently advertised their plant for sale, have decided to continue in the business and have engaged Charles W. Reimers of Louisville, Ky., as manager. Mr. Reimers is well known to the trade, having been in the business for twenty years.

Chico, Cal.—A total shipment of 1900 young peach and prune trees from an Oregon nursery to F. B. Schell was found to be affected by the peach root borer and condemned. They will either be returned or burned in Chico.

The Massachusetts Railroad Commissioners have been notified by the American Express Company's counsel that a new schedule of rates with a minimum charge of 20 cents on small parcels would go into effect on Jan. 1. This means a rebate of one-half of the advance recently made which was protested against by the Boston Merchants' Association and other commercial bodies.

CYCLAMEN GIGANTEUM

5, 6 and 7 in. pots—50c, 75c, and \$1.00 each.

Extra heavy stock of the very best quality.

Flower Market Reports.

BALTIMORE The rise in price of cut flowers of all sorts and conditions incidental to the holiday season has been about on a par with preceding years. Callas, lilies, carnations, sweet peas, roses, with a few other incidentals of less note, have made up the bulk of the cut flower trade. It must be admitted however, that roses have not measured quite up to the usual standard. Violets have not yet been quite equal to the demand. A few yellow chrysanthemums of excellent quality were seen at the Exchange. In plants the poinsettia easily took the lead. There were also some very well grown plants of *Ardisia crenulata*. Nothing novel was developed worthy of note. Material was pretty well cleaned off. The Exchange did business quite equal to, possibly a little in advance of, the preceding year. Taking the entire year it is more than probable that the flower and plant grower has as little reason for complaint—owing to financial depression—as any business.

Very general satisfaction **BOSTON** is expressed over the trade for Christmas and the succeeding week which now closes. There were some grievous disappointments, to be sure. Those folks who were long on white carnations and short on crops of colored material had just reason to feel a little downcast for the former was unsalable and the latter brought elegant prices, and the sale far exceeded the supply. The best seller in the entire list was the American Beauty rose, in any grade from two to twelve dollars a dozen, wholesale. Next in value were Richmond and Killarney. Bride and Bridesmaid fell short of last year's record. In all varieties of roses the cheaper grades, say from two to eight dollars a hundred, enjoyed a hungry demand from florists in the country towns, who were glad to get something that they could use at moderate prices. In carnations the bright colors, of course, were far in the lead, but Enchantress also seemed to please the popular fancy and sold well. While carnations, stevia, white narcissi and sweet peas ran far behind, the carnations proving the worst. The demand for violets, callas, gardenias, poinsettias, cattleyas and lilies was very strong. On asparagus, smilax, adiantum and other green goods there was a bad reaction. For ten days previous the call for decorative greens of all kinds was exceptionally strong, but it fell far two days before the holidays. The sales of holly had been very heavy, but there was too big a supply. There was less evidence of the storing up of flowers in advance than ever before. In fact, we have heard not a word of complaint on that score, and the growers are entitled to great credit. Beyond a doubt the flower trade has been permanently strengthened in consequence of their following out this wise policy. As to the plant trade, the story may be told in a few words. Excepting a few azaleas, poinsettias and some straggling odds and ends, everything in the plant line was cleaned up, the demand, not only in the city but far and near, out-of-town, being unprecedentedly active. Azaleas, poinset-

tias, Lorraine begonias and cyclamens held the front line.

BUFFALO Holiday week passed with a good record. While prices were not as good on some lines as previous years it may be said that in other respects results were better. The supply of carnations was excellent and stock excellent, there being a good quantity of red which were in greatest demand and commanded the highest price. Beauties were in good supply and while prices held firm there was no scarcity in this line, the best demand being for Richmond and Killarney. Violets sold exceptionally well. Lily of the valley was in good supply and sold readily as well as mignonette, cattleyas, gardenias and sweet peas. There was an over supply on Harrisii and Giganteum lilies which had little or no demand. Reports from the different florists state that this year's plant trade exceeded previous years, while all Christmas greens trade fell off to a certain extent. The shipping trade was excellent and thanks to the weather man for holding open a few days of mild weather and without snow, causing no late trains or frozen stock.

Present reports confirm **DETROIT** the claim of a better Christmas trade than one year ago. Orders began to come in quite freely by Tuesday and somewhat relieved the usual and very embarrassing crush of the last two days. The tendency of purchases seems to indicate a preference for plants and baskets. Violets at \$5.00 per 100 were a poor drawing card but carnations and roses enjoyed a liberal patronage. Orchids and gardenias were much in demand but short in supply. Wholesalers cleaned up very well and report a great increase in the sale of boxwood, leucothea and ferns. Extremely fine Richmond, La Detroit and Rhea Reid, were shipped in by Robt. Klage of Mt. Clemens.

A good Christmas business was expected, but it has been very much better than anybody thought it could be. There were many more individual orders but not so many large orders as in former years. Everything sold well. Cut flowers were cleaned up nicely and whatever bore a flower, in the plant line, went off. Poinsettias and Lorraine Begonias took the lead, while azaleas, cyclamens, Fuchsia thiersii and oleucina followed in the order named. Of foliage plants, Boston fern with its various sports sold best, the original Boston fern still outselling its offspring. The weather was ideal especially for delivery as no special care had to be taken in wrapping. Holly did not sell so well and our commission men offered the cases at 50 cents on Thursday morning, but it did not work and many cases are left. The quality was very poor.

Seed Trade

The "Canners' Convention" which opens at Louisville, Ky., Feb. 1st next, promises to eclipse any previous national gathering of the Canners and Allied Industries. As stated the Convention opens on Monday, Feb. 1st, and continues for one week.

Contrary to the usual custom, there will be really no hotel headquarters at this convention. All meetings are to be held at the Armory which has been donated for the purpose. While the canners are in session the machinery is to be stopped, but will be started again immediately after each adjournment and will be kept running at night up to ten o'clock at which time the hall will be closed. It is the purpose of those having the matter in charge to allow the general public to enter in the evening, an admission fee of 25c being charged to all who are not members either of the Canners or Machinery Supply Mens' Association. If the present plans of the officials of the Canners Association are carried out, each member will have to pay \$2.00 for a badge or button showing their membership, and each and every assistant they may bring with them will have to pay the same. The machinery and supply men are expected to pay \$1 each. Assuming that all those who attend the convention ante up, it will put into the treasury of the Canners Association from eight to ten thousand dollars, but it is predicted by many that the smaller canners will balk at this tax and especially where they have brought one or more assistants.

Just on what principles the canners propose to tax the machinery and supply men who have to pay the rental of the hall in the way of floor space, and who pay annual dues of \$25.00 each for admission to their own show, has not been explained, nor indeed has any effort been made to offer an explanation. This action on the part of the Canners' Association is very generally resented by the machinery and supply men, not that they mind the \$1 tax, but because they do not see by what right it is imposed on them; however they will no doubt consider it wise to step up and settle rather than challenge the edict of the canners. Already there is much criticism on the inadequate hotel accommodations of Louisville for such a gathering, but, just how well founded this criticism is, will be more definitely known after the convention.

Final estimates on practically all crops have been rendered and deliveries in accordance therewith are being made, and the figures which were furnished "Horticulture" several weeks ago have not been materially changed. It was stated many weeks ago that the Sweet Wrinkled Peas such as Advancers, Horsfords, Surprise and Admirals, would be very scarce and difficult to secure at any price. The seed has proved this prophecy to have been correct, although several growers of peas have decided to take advantage of the very high prices ruling and have sold considerable quantities of their seed stock, which has greatly relieved the situation; the consequence of this action has resulted in planting stock for another year of the varieties named, being so scarce that

many of the growers have exhausted their supplies and while they are still able to offer Alaskas quite freely, are compelled to limit the quantities which they will stock of the varieties above named, or refuse to take orders for them altogether.

Again referring to the matter of spot seed, Alaskas seem to be obtainable at a price which shows a weakening tendency and whereas Alaskas sold readily at \$5.00 per bushel during October and November, it is predicted by many that they will be purchasable before the convention closes at \$4.00 or under. This is borne out by the fact that a few of the growers have already cut their prices on future Alaska seed from 25 to 50c. per bushel below the figures at which they started to book orders for future delivery. Just how they are going to square themselves with their early purchasers is not apparent and it looks as if they would be compelled to reduce their prices on this variety on all their early orders to the figures which they are now quoting.

The predictions made in "Horticulture" during the fall as to the abundance of onion seed of the yellow varieties have been amply verified, as well as the further prediction that prices on onion seed for the 1909 crop would be very much lower than the past year. It is understood that some of the California growers are quoting onion seed for next fall's delivery of the yellow varieties from 60 to 70c. The Flat Reds from 75 to 80c.; White Globe at \$1.25 and White Portugal at about an even dollar. No doubt most of our California friends have considerable reserves of the yellow varieties which they will carry into next year and many of their orders will be filled next fall from year-old seed.

On the other hand, vine seeds, especially the musk-melons and cucumbers are quoted somewhat above last year's prices, but this has been expected and will not be a surprise to any one; this is largely due to the general crop failures of these lines the past season. The farmers are asking more and as a consequence the grower is compelled to advance his prices, but these advances are comparatively small and are generally accepted philosophically by the trade.

The 1909 retail catalogues are beginning to make their appearance and as a rule are an improvement over those of any previous year, showing much care and labor in their preparation. They are very creditable to the seedsmen who by the way, are quite generally looking for an excellent business the coming season. It is hoped that they will not be disappointed.

Reference was made some time since to the probable shortage in the Burpee's Bush Lima Beans and this has materialized according to schedule. It is very difficult to procure this variety at all and when quoted prices range from \$6.00 to \$7.00 per bushel. Green Pod beans are generally in shorter supply than the wax varieties and are quoted at almost even prices, one or two varieties such as Black Valentine being practically unobtainable at any price. The writer was informed that

one dealer who was fortunate enough to have about fifty bushels of these beans, sold them to a southern seedsmen for \$5.50 per bushel and he stated that he could easily have gotten \$7.00 had he asked it. Seed stock of this variety is very short and prices for the coming year will probably rule high.

The joint action of the Wholesale Seedsmen's League and the American Seed Trade Association in petitioning Congress for specific duties on all seeds, should receive favorable consideration from our Solons as it seems to be a practically unanimous sentiment.

Bloomington, Ill.—The capital stock of Funk Bros. Seed Co., has been increased from \$25,000 to \$50,000.

Chicago, Ill.—The National Seed Co., of 5th avenue, Chicago, have sold their business to the W. W. Barnard Co., who will use it for their retail trade. The location is an excellent one. Mr. Rouse and Mr. Stewart will both be retained for the present at least and the business will be pushed.

CATALOGUES RECEIVED.

California Nursery Co., Niles, Cal.—Price List 1908-1909 of Trees, Palms, Shrubs, etc.

Wood, Stubbs & Co., Louisville, Ky.—"Blue Ribbon Seeds," Spring Catalogue for 1909. Cover in colors, quite attractive.

Forest Nursery & Seed Co., McMinnville, Tenn.—Special List of Seedling Ornamental Trees and Shrubs, Nursery Growth Stock, Seeds, etc.

W. E. Marshall & Co., New York, N. Y.—Seed Catalogue for 1909. A very creditable production for this young and progressive house.

Johnson Seed Company, Philadelphia, Pa.—Wholesale Price List for Market Gardeners and Truckers." "Neat but not gaudy" cover in green tints.

ROBERT SIMPSON
CLIFTON, N. J.

E. S. Miller, Wading River, N. Y.—Trade Price-List of Bulbs and Hardy Flowers for Spring, 1909. Offers a good selection of gladioli and lilies especially.

Amzi Godden Seed Co., Birmingham, Ala.—Southern Truckers' Guide, 1909. This catalogue, as its name indicates, is devoted mainly to vegetable and forage crops and covers the field fully.

C. S. Harrison, York, Neb.—Price List of Select Nursery Co.'s specialties for Spring, 1909. The Bulletin of the Nebraska Park and Forestry Society which accompanies the catalogue is a very interesting document.

John Lewis Childs, Floral Park, N. Y.—Rare Flowers, Vegetables and Fruits.—Profusely illustrated and replete as usual with wondrous things. Cover page devoted to a new Burbank "creation" said to bear delicious fruit in three months from seed.

Henry Mette, Quedlinburg, Germany.—Trade Catalogue of Vegetable, Flower and Farm Seeds for 1908-1909. Established in 1787 and owning about 3000 acres of ground this firm would naturally be expected to issue a catalogue of more than ordinary scope. Such this catalogue is.

W. Atlee Burpee & Co., Philadelphia, Pa.—Farm Annual for 1909. "The plain truth about the best seeds that grow," is the motto which, in company with a beautiful sweet pea cluster adorns the first cover page of this strictly up-to-date publication. A number of fine colored plates add brilliancy to the contents.

Wm. Elliott & Sons, New York City.—Seed Catalogue for 1909.—The cover of this, the 64th spring edition from this long-established house, is, as usual, elaborate and unique. The title page shows an inviting balcony and lawn scene well depicted in natural colors. The contents—illustrations and all—are of the kind to enthuse the buyers.

Of Interest to Retail Florists

SOME CHICAGO CHRISTMAS DECORATIONS.

At Weinhorber's fancy boxes and baskets filled with blooming plants of one, two or even three varieties seemed to be the popular offering. The store was tastily decorated but the palm house was especially beautiful and the arrangement afforded extra sales room which is a valuable adjunct at a holiday time. Two shelves running the entire length of the house just below the glass, three and four feet from the floor, also the walls behind, had been smoothly covered with green moss. The pillars were all closely wound with green wreathing and the glass lightly draped with wild smilax. Against this background and on the green benches the scarlet poinsettias and fancy baskets appeared to best advantage. From the festoons above hung many red immortelle balls and when this place was lighted with electricity it made a tempting picture to show customers.

At Paul Blome & Co.'s the small conservatory in the rear was prettily arranged and two days before Christmas most of the plants were the tag which florists love to adorn their plants with.

A miniature lake in Wittbold's Clark street window was nicely done. It was irregular in outline and the shore relieved with dwarf Japanese trees and araucarias. Another window was entirely in red with the ever popular poinsettia as a centre. Festoons of broad red ribbon and red chenille added brilliancy.

H. R. Hughes had an especially sensational window for Christmas. The large show room was divided into two parts, the one a snow scene with a church vestibule in which lay a tired news boy with his papers. The other represented the dream of the homeless waif—a happy home scene. The picture attracted crowds.

FRANK POLITES.

We present herewith a picture of
this enterprising Philadelphia retailer
whose attractive flower store is located
at 1416 Chestnut street, Philadelphia.
A few weeks ago we published the news
of the opening of his new branch store
at 13th and Chestnut street. Among

foreign born citizens there are few
who have borne themselves more
bravely or successfully in the warfare
of life than Frank Polites. He has
built up a fine business and is re-
spected by everybody.

Florists report Christ-
ALBANY, N. Y. mas business as above
the average. Danker,
Eyles and Gloeckner are all well
in line with reception and in-
auguration decorations in all of which
palms, ferns, poinsettias and bright
colored material figure prominently.
Killarney roses will have the place of
honor on the speaker's desk at the
Capitol.

A review of the
WASHINGTON. market on the 22nd
showed an advance
of one-third on price of nearly all cut
blooms. and on the afternoon of the
23rd prices had advanced to one-half
more. Pending the New Year sales
are holding their own. One of the
prettiest novelties for this market
shown by a local florist was an array
of imported English holly trees.

H. BAYERSDORFER & CO., 1129 Arch St., Phila., Pa.

Flower Market Reports.

CHICAGO The Christmas trade with few exceptions was highly satisfactory. Most of the retailers as well as wholesalers sold out everything at their own price. The only fault really to be found was with the quality of the stock, some of it having been kept too long, a condition that comes as regularly as the holidays themselves. Had all the stock been first-class there would probably have been enough for the demand but after taking out the unsaleable there was a shortage and many orders had to be refused. The warm fall had hurried the usual Christmas rose crop through ahead of the season and Beauty, Richmond and Killarney were especially short. Carnations of the best quality would not go around and all other stock was not in excess.

Plants.

Chicago's Christmas plant trade was the heaviest on record and exceeded the most sanguine expectations. This was due in part to the fine quality offered, and in part to the sharp advance in price of flowers. In some of the best retail stores the help worked the entire night making up hampers of plants ranging all the way up to thirty-five dollars.

Azalea Madam C. Petrick made a good impression for Christmas. Its superior keeping qualities as compared with Simon Mardner were particularly noted.

Frank Oechslin, one of Chicago's most successful plant growers is working up stock of the double poinsettia for another year when he will grow it quite extensively.

Christmas Greens.

There was a great deal more Christmas green shipped into the Chicago market than could be disposed of. Ten days before Christmas holly was quoted at four and five dollars per case respectively for southern and eastern stock but the price dropped to one-half that before Christmas day. Saturday in the wholesale district looked every bit "the day after" as the huge loads were hauled away for burning. One hundred boxes of holly were counted in one block to say nothing of the immense lots consigned to the produce commission merchants on South Water St. in car-load lots. In short the green goods business was badly overdone.

Bells.

A deluge of Christmas bells seemed to have descended upon Chicago. What at first seemed to be a valuable acquisition in the way of decorative stock

was sadly overdone. Red bells of every size and of various materials were offered in every store and met with ready sale, but by the middle of the week there began to appear white bells, green bells, purple bells and all sorts of combinations of these colors. The effect was shocking to the point of disgust. How can the taste of the public be cultivated when the trade constantly offends in this way though we are glad to say the worst offenders were the street fakirs.

On the whole the **PHILADELPHIA** trade is well satisfied with the volume of Christmas business done and the prices received. The clean-up in cut flowers and plants was far better than 1907, and while prices were a trifle lower if anything, other features more than made up for that. The quantity of stock received was about the same as last year, and the quality never better. One leading wholesaler declared that there was no salted stock on the market. We might say, in parenthesis, that the lesson dinned in the grow-

ers' ears for years by HORTICULTURE and others, combined with disastrous returns, seems to have at last borne good fruit, and it looks as if the growers had put that piece of human folly behind them for good and all. Plants, flowers, greens—everything, were in brisk demand, and the volume of business done, according to those the writer has interviewed, the largest on record. One leading retail house stated that they ran short of plants by the morning of Wednesday, and were put to extraordinary shifts to replenish. One result of this was a crowding of customers on to cut flowers. Anything presentable in the shape of a flowering plant found a ready market and towards the last even palms were going. There was no special run on any one thing and no striking novelty developed. In cut flowers the scarce items were cattleyas and, in spots, American Beauty roses. Cut poinsettias sold well, especially the smaller ones. A good many of the large, high priced heads hung fire.

(Continued on page 14)

EVERYBODY KNOWS

NEW YORK CHRISTMAS REPORT.
Cut Flowers.

Christmas business was good, total results exceeding last year. The stock most in demand ran in about the order as herein mentioned. Gardenias easily had the call with American Beauties, the latter not being in heavy supply; in fact some growers were off crop, and the price held steady at an advance over a year ago, of 20 per cent. Cattleyas of the best grade moved well. The cut of Richmonds and Killarneys was sufficiently large to supply all buyers, and the difference between the lowest and top price was considerable. Killarneys of extra length of stem and fine flowers were no exception in a supply that was larger than ever before for a holiday. There was only a limited supply of the new roses. Bridesmaids were off crop, which helped to sell other pink roses. Brides were not so plentiful as to become a problem as to how to dispose of them. A light crop with some

growers did not affect the general supply of carnations which were plentiful—too much so to command uniform prices. Reds were in fair demand at lower quotations than usual for Christmas. In some cases averages were below a year ago. As usual, the white carnation was the poorest seller, and many were left or closed out at low figures. Prices ruled from 3 to 12 cents, and at the higher figure but few were sold. Because the supply of violets was not particularly heavy, they were generally cleaned up. The best trade was not clamorous for them but they have not lost all their popularity, as that seems to be measured by the price—75c. to \$1.50. Paper Whites were not so much in evidence as usual; lilies a little more so. Results on poinsettias were not altogether satisfactory, as all of them were not disposed of. Even with a small quantity of mignonette in the market it did not seem to be wanted particularly. Of lily of the valley there was plenty—

some very fine, most of it good and a smaller proportion almost useless. Hyacinths and cypripediums received little notice and the call for green stock was ordinary. Since Christmas business is light. Bridesmaids and Brides appear to be coming along a little faster.

Plants.

The best commentary on the Christmas plant market is the fact that there is nothing left. Everybody cleaned out—growers, wholesalers and retailers alike. Conditions have never been more satisfactory. Practically nothing in the flowering line is left for the New Year's trade but a few azaleas.

FLOWER MARKET REPORTS.

(Continued from page 17)

Lilies were in over supply and demand limited. We heard of but one jobber who dipped a little too deep in holly. He had two hundred cases left out of one thousand and this was caused mainly by some of his regular customers having misled him as to their probable wants. Holly wreaths, and stock of that kind in the outlying sections—where they usually sell so well—were a great disappointment. The dealers failed in forecasting the business and suffered great loss. Lycopodium was also largely overdone and much of this is now being swept to an ignoble resting place. If you ask me what was the most striking feature on the market I would say—Jardine roses at fifty a hundred. They were a revelation to many as to what this rose is capable of. While American Beauty roses were scarce in spots, there was no time during the week that they could not be got by the thousand at two or three of the wholesale places that make a specialty of them and have proper contracts with their growers. And prices held steady too. Killarney was never better. White roses were draggy, as were also all other white flowers. Paper whites were an exception. A whole lot of smilax and plumosus growers seem to think there are more funerals at Christmas than other times. Its red that's wanted—not green. Accessories of plumosus sort are in steady demand the whole season. It is a mistake to think there is a rush for them at any of the holidays. Christmas, nineteen hundred and eight, will go down to

history as the steadiest and best gauged market of any year to date—by grower, wholesaler and retailer. Each department deserves some of the credit. Not forgetting that sanitary balance wheel, the trade press. The schoolmaster has been abroad to some purpose.

All the retailers as INDIANAPOLIS well as the growers report a big

Christmas trade, well ahead of last year. Weather conditions were unusually favorable to the growers. Beauties and select stock of all kinds brought top-notch prices. Stock in general was of excellent quality, each supply about equal to demand. Orchids, sweet peas, violets and Beauties had a tremendous demand. Pot plants had the usual heavy run, but cut flowers were disposed of in great quantities. Nothing especially new in any line was noticeable. The call for pot poinsettia and red carnations was a little ahead of the supply. Holly and evergreens were never more plentiful in this market, and the result was that prices were lower than usual. The buying of evergreen began a week earlier than usual and kept up till Christmas Day. The usual quantity of boxwood balls, red and evergreen wreaths, were in evidence.

STANDARD FLOWER POTS

Packed in small crates, easy to handle.

RHODES DOUBLE CUT PRUNING SHEAR

Pat'd June 2, 1903.

RHODES MFG. CO., GRAND RAPIDS, MICH.

THE only pruner made that cuts from both sides of the limb and does not bruise the bark. Made in all styles and sizes. We pay Express charges on all orders. Write for circular and prices.

A twelve inch fall of snow on the afternoon and evening of the 22nd December sent prices of all flowers soaring upward. Not for years has there been such a scarcity of all kinds of flowers, nor has there been a higher standard of prices. Azaleas and Christmas greens were shown in greater quantities than anything else. Carnations brought from \$10 to \$12 per 100. Red carnations commanded \$15 per 100, and before the evening of the 24th could not be bought at any price. The heavy fall of snow so retarded business that more than one retailer did not leave his store the entire night. Every form of delivery was brought into requisition. Violets were about the only thing that did not take a tremendous jump in price. The Virginia violets wholesaled at \$1.00 per 100, while the New York flowers commanded \$3.00.

BUSINESS CHANGES.

Fruitville, Cal.—H. Hayashi & Co., have bought the stock of A. Galloway, florist.

Wilkesbarre, Pa.—The Dewey Park greenhouses have been leased by Ira G. Marvin.

Fairmont, W. Va.—The H. Weber & Sons Co., Oakland, Md., have purchased the business of E. M. Hall, retail flower and seed dealer.

Why My New Curved Iceless Eave is Far Superior to Anything on the Market Today

- 1st. No sash bars incased in iron, thereby eliminating all danger of bars decaying.
- 2nd. Can be used in conjunction with iron frame construction, thereby doing away with that very objectionable feature, "columns."
- 3rd. Roof bars with drip grooves, which act as conductors to carry away the condensation: Result, the driest roof ever used for greenhouse purposes.
- 4th. **THE MOST IMPORTANT OF THEM ALL.** The very small increase in cost over the ordinary style of construction which makes it possible to be used for commercial as well as private purposes.

William H. Lutton, Horticultural Architect and Builder

The FLORISTS' HALL ASSOCIATION OF AMERICA. insurer of 29,000,000 sq. ft. of glass. For particulars address
John C. Esler, Sec'y, Saddle River, N. J.

A COMPARISON

When you compare the cost of the wooden house with our Iron Frame House, bear in mind that the Iron Frame costs less to erect, less to keep in repair, and gives you greater returns in quantity and quality of flowers, than the best cypress house made. This construction pays for itself many times over.

The next best proposition is our Half Iron Frame House. Send for circular.

Hitchings & Company
1170 Broadway New York

THE POST QUESTION

Along twenty years or so ago we put up a large range of greenhouses at Scarborough, N. Y., and used wrought iron posts—not steel, mind you—but wrought iron. We have recently dug up several of those posts and find they are just as good as ever.

Now we believe it stands to reason that a solid post with no joints from the plate down, has the advantage of increased strength; so in many of our jobs we are now using the solid *Guaranteed Wrought Iron Post*. Not the rolled steel post mind you, which in a few years always rusts entirely off at the ground—but *Guaranteed Wrought Iron*.

This subject is thoroughly gone into on pages four to eight of our *Handy Hand Book*. If you haven't this book—send for it.

Lord & Burnham Co.

PHILADELPHIA: 1215 Filbert St.

WHY THE U-BAR WINS

If you would just take the time to go and see a U-Bar house and talk with a U-Bar gardener, then you would appreciate how downright truthful we are in saying it is the lightest, most productive house built.

The main structural point of the U-Bar house is the combining of the rafter and roof bar in one, making the U-Bar. This combination is no larger than the single roof bars used in other houses. It does away entirely with the heavy iron supporting members, and makes possible the only successful curved eave.

The glass is spaced 24 inches instead of 16.

The core bar is soaked in a chemical preservative, before putting it in the galvanized steel U-Bar casing.

All iron parts are painted with a special aluminum finish which remains bright for years without attention.

To sum it up then—the U-Bar is indisputably the highest type of greenhouse construction. The ideal construction for private estates, parks, public institutions and florists' show rooms. Send for the catalog.

Rocky Mountain Rambles

IV.

The Wasatch Mountains are marked by numerous short canons with an abundance of water. Looking west one sees the broad open plain dotted with small farms and fruit orchards. This, the Salt Lake desert, has been largely redeemed with the water coming from the mountains. The Wasatch Mountains contain but few species of forest trees. The *Abies concolor*, always beautiful, is a characteristic conifer at lower altitudes, and with it the Douglass Fir (*Pseudotsuga Douglasii*) which nowhere in this region obtains the magnificent proportions it does in Washington and Oregon. The Lodge Pole Pine and Engelmann Spruce at higher altitudes are magnificent forest trees. The Quaking Aspen (*Populus tremuloides*) is associated with these conifers, covering extensive areas. On some slopes a hard maple much like the eastern species but a smaller tree, *Acer grandidentatum*, is found, also a dwarf bush maple, the *A. glabrum*, and on the dry slopes the *Parshia tridentata*, a small shrub of the rose family and the Mountain Mahogany (*Cercocarpus parvifolius* and *C. ledifolius*) are beautiful, but not generally adapted to dry situations as they grow in very dry soil. The more moist situations along the mountain streams contain a great abundance of the Osier (*Cornus stolonifera*) which is certainly different from the plant of the east of the same name. The Dwarf Birch (*Betula occidentalis*) which I believe now goes by a different name, has the brownish cherry colored bark. Such places may abound with the Salmonberry (*Rubus Nutkanus*), and along the border of the brooks at 9,000 and 10,000 feet a great deal of the *Mertensia Sibirica*, a close relative of the eastern Lungwort (*M. Virginica*), well known in our Iowa woods and in gardens.

I cannot refrain from saying something about the home adornment in the Salt Lake Valley. Trees were planted everywhere in the streets; looking over the valleys from some mountain top one can see dotted every-

Lodge Pole Pine (*Pinus Murrayana*) and Subalpine Fir just below timber line, near Ogden, Utah. Elevation 9200 feet.

where the village with the Lombardy poplar. I have never seen the tree show off to greater advantage than here, the spire-like tree planted in every Mormon village. The Mormons made good use of other trees like the Box Elder, which grows to perfection here making beautiful shade trees. It does not look like our eastern tree; straight and with dense foliage, they are of singular beauty here. Black Locust (*Robinia Pseudacacia*), Honey Locust, English Walnut, and many other trees have been planted here with beautiful effect.

In the gardens one finds the usual eastern plants, sweet peas, nasturtiums, dahlias, verbenas, phlox, and many others. One is astonished at the large number of European weeds that find a congenial home in the streets, the usual plantains, bull thistle, spearmint, lamb's-quarter, horehound, catnip, caraway, and in many places poison hemlock.

Ames, Ia.

Single Geraniums

Amidst an ever increasing taste for furnishing rooms, or simply for show purposes in the conservatory, the single geranium has taken a prominent place, and many of the newer introductions have exhibited such lasting qualities amid unusual and uncongenial surroundings, that in house decoration they are from time to time subjected to, that their value as decorative plants has made rapid strides within the past few years.

The small flowered irregular petalled trusses of a few years ago are giving way to varieties with strong, erect spikes, large well-formed flowers and colors of beautiful harmony and softness, extending from pure white to deepest crimson and including several forms of a rare bluish pink shade. It naturally follows, of course, that a great many of the newer introductions turn out bad;

Mountain Mahogany (*Cercocarpus ledifolius*) growing in the rocks, near Ogden, Utah. Elevation 8500 feet.

in fact many varieties are positively ugly by reason of harsh contrasts of color. "Freak" singles, such as the cactus geranium I also consider highly objectionable and not worth house room.

Double geraniums seem to me to be the most popular geranium in America but why they should be more popular than the English round flower section I could never quite make out. I have always held that if the public were given an opportunity to see a collection of singles in full flower, the popularity of the doubles would suffer a severe relapse. One reason for this is the fact that the singles have a greater variation in color than the doubles, and are much more graceful, and better adapted for decorative effect.

During the last ten or fifteen years so many fine new varieties have been raised as to almost make one wonder when they will reach the limit of perfection; in fact, we can almost see raisers beginning to despair whether improvements can be effected on them. As a rule we look for new varieties in this class, from such growers as Cannell, or Lemoine, but there is at least one well-known American firm who make a specialty of geraniums and who in the future may be depended upon to give us varieties fully as good as the French or English importations.

If one wants a good show of flower during the early winter months or for Christmas week, we must start propagating about the beginning of February. The method which we follow and which I think is about as good as any is to put the cuttings singly into small pots of light sandy soil and place them where they will get a little bottom heat. Give them one good watering and then keep them to the dry side until they are rooted. Geraniums of the round-flower type may be grown to almost any size by keeping the plants well pinched, and growing them in a house moderately warm, as they like a little warmth, but plenty of air should be given when it can be done, and the plants should have plenty of room at all times, else they are apt to become scraggly and drawn. Great attention should be paid to watering. It is better to find a dozen plants too dry than one too wet. There is a remedy for the first evil, but none for the latter, which often causes decay and death. A good compost for geraniums is one made up of fresh fibry loam, well decomposed cow manure, with a little leaf soil and sand. As a rule I think six-inch pots are found

to be the most suitable and serviceable size to flower them in, as a geranium will bloom more freely in a medium sized pot than in a large one.

For any one who wishes to grow a few varieties of real merit I can strongly recommend the following: Paul Crampel, bright scarlet; Jaquerie, crimson; Ian McLaren, salmon; Gertrude Pearson, pink; Duke of Bedford, dark crimson with white eye; Juste Oliver, rosy cerise; Emile Zola, a rich salmon, one of the very best; J. M. Barrie, a peculiar shade of pink, flowers very large; The Seider, red; The Queen, pure white; Reformer, a very compact grower, with large trusses of reddish flowers.

W. W. Brown.

North Easton, Mass.

Roses Under Glass

SELECTION OF WOOD FOR CUTTINGS.

It may safely be said that in the selection of wood for cuttings lies a good deal of the future success or failure of the plants, yet, how few of us while engaged in cutting off wood give a thought to this most important point. Among almost all varieties of roses there will be found a percentage of plants which, while very vigorous in growth and with a wealth of foliage, persistently refuse to make buds during the winter and seem, in spite of the best treatment we are capable of giving them, to devote their entire vitality to producing blind wood.

As a plant raised from a cutting is merely a perpetuation of the original stock, in order to avoid perpetuating disease, weakness, or any other undesirable feature, we should be very careful in selecting wood. Those plants which have failed to make buds will, of course, offer an abundant supply of wood, which, producing no revenue, invites one to use it in preference to denuding the plants that show an inclination to produce flowers.

Robust, healthy plants that have proved themselves free bloomers should always be selected, as these characters will undoubtedly under careful cultivation, be maintained and possibly accentuated in the young stock if this system of selection is followed year after year.

Close-jointed, well-ripened wood from this class of stock will produce plants of a more uniform size and habit, and under normal conditions, the productiveness seldom fails to satisfy. By confining as much as possible our selection of wood to short-jointed growths we secure cuttings of a more uniform condition of ripeness than if long stems are taken, as it is quite obvious that only a limited number of eyes on such a stem can be in proper condition for propagating. Particularly does this care in selecting wood apply to Beauty and Richmond. These varieties make none too many flowers at their best, therefore it is to one's interest to exert every influence that can be brought to bear in encouraging the growth and proper development of flowering stems.

J. E. Simpson

HOUSE OF SINGLE GERANIUMS

Grown by W. N. Craig, North Easton, Mass.

FLORICULTURAL EDUCATION.

In a paper by Charles N. Page of Des Moines, read before the Society of Iowa Florists, December 9, 1908, and recently published, the following statement occurs:

"During the past year I have corresponded with most of the agricultural colleges in the United States, but I find that none of them is prepared to train a young man in commercial floriculture. Although the Missouri Botanical Garden and the Illinois Agricultural College have courses which would be of considerable benefit, they are far from complete."

Two years ago the Horticultural Department at Massachusetts Agricultural College was reorganized and a Horticultural Division was formed. This Division is composed of independent departments of pomology, floriculture, landscape gardening and market gardening. The floriculture course aims to give instruction in strictly commercial floriculture. As at present organized there is given in the first three years of the course those subjects upon which the foundations of floriculture are based, namely, botany, bacteriology, entomology, soils, fertilizers, plant propagation, the propagation, care and identification of trees and shrubs, general horticulture and market gardening, together with other subjects such as mathematics, history, English and some of the other languages. In the senior year the course becomes more scientific, practical and technical, and the first half year is largely taken up in the consideration of details of greenhouse design and construction, greenhouse equipment, such as types of benches, beds, ventilators, and the like, also greenhouse heating. In the last half year the time is wholly occupied in the study of cultural methods of commercial florists' crops, methods of marketing, design work and decorating. A student may receive instruction in any of the subjects suggested by Mr. Page. The course is so planned that the student devotes much time to the details of growing plants by practical greenhouse work, in addition to the lectures of the class-room. Observation trips to commercial establishments are taken from time to time, and on each of these trips the student is provided with a written syllabus in which is noted the special features he is to observe. A written report of the trip is required at a later date. This year thirteen seniors are taking the course, six of whom intend to take up commercial floriculture, the remaining seven taking the course in preparation for work in landscape gardening, or in the management of private estates. It is expected that with the new equipment the number of men electing this course will increase rapidly.

The requirements for admission to this course are based upon the studies covered in the high school courses of Massachusetts high schools. In other words, the high schools are the training schools for the agricultural colleges.

To provide for a class of young men who have not had the advantages of a high school education a short course in floriculture has been started this year. This course covers ten weeks beginning January 5, and closing March 10. The only requirements for

New Greenhouses and Instruction Building for Floriculture and Market Gardening at Massachusetts Agricultural College.

entrance to this course are that the individual shall be at least eighteen years of age and of a good moral character. Tuition is free and board and room rent reasonable. Already the registration for this course has reached the capacity of the teaching equipment and a number who wished the course could not be accommodated. The aim of the course is to give as thoroughly as the limited time will permit the principles of greenhouse construction and management essential for success in commercial floriculture. No attempt is made to develop experts in the growth of greenhouse crops. Such expertness comes only after years of practical experience in growing some individual crop. It is hoped, however, that those taking the course may find their lives broadened and their capacity for intelligent work increased by these few weeks of study. The men taking the short course in floriculture are required also to take the lectures given in soils, fertilizers, insects and diseases of greenhouse crops. Aside from the daily lectures of the course, talks will be given each week by experts on special subjects. The men secured for the course this year have been eminently successful in the various subjects on which they are to speak, and the college is to be congratulated on the hearty co-operation these men have given the work.

The facilities for giving instruction along this line will not be surpassed by any institution in the United States when the new range of greenhouses and the new instruction building for the departments of floriculture and market gardening are completed. This will be about March 1, 1909. The Legislature of 1908 made an appropriation of \$34,000 for the erection of a commercial greenhouse range and an attached building. This instruction building is a substantial, two-story, brick structure of pleasing architecture and contains above the basement three class-rooms, a large laboratory, two offices, a coat room, janitor's room and 2 work-room. In the basement are soil-rooms, a cool room for bulbs, storage rooms and lavatories. Adjoining this building on the east is a palm-house, the dimensions of which are 25 by 42 feet. This house is strictly commercial in type and is intended for the propagation and growth of commercial varieties of palms. Adjoining the palm-house is a small house for orchids and another for ferns. A students' house, 26 by 50 feet, joins the orchid-house on the east, and from the east end of the students' house an alley 12 feet wide and 116 feet long runs directly south. Extending east and west

from this alley there is a violet house, cucumber house, tomato house, rose house and a carnation house, the dimensions of each house being 24 by 50 feet. The alley house will be used for propagation and for growing general plants. The contractors for this range were Lord and Burnham Co., of New York. The range consists of four two-thirds span house and three even-span houses, and with the connecting houses all are built on concrete foundations. Three of these houses are iron frame and the remainder are of the half-iron frame type of construction. The houses are heated by steam from the central heating plant of the college.

In courses of instruction along all lines there is more or less criticism, and in floriculture the chief criticism seems to come from the practical men. It is to the effect that the courses are not up to date. The agricultural colleges need the hearty co-operation and assistance of the practical men in keeping their courses up to date and a closer affiliation will be advantageous to both. Suggestions of methods for strengthening the courses are always welcome and the views of the work from men engaged in it are appreciated. It is the aim of the floriculture department of Massachusetts Agricultural College to keep closely in touch with the practical interests and to offer a course that will train men along all lines of floriculture.

E. A. White,

Amherst, Mass.

PRIMULA OBCONICA GRANDIFLORA.

No florists' plant has shown greater advancement within a few years than has the plant illustrated on our cover page in this issue. In the best strains now offered are to be found full, round flowers with size and substance approaching the finest grade of the chinensis, with a good proportion of bright pink colors and with the advantage that they are as useful for cut flower purposes as for plant use. Plants not sold for the holidays or which have been used for cut flower production may be again brought into full bloom for spring sales either as plants or cut flowers. *P. obconica* seed is late in ripening and is not available until late in January, and as old seed has very poor germinating quality it is always best to depend upon the fresh seed.

Useful hints

For the past few weeks we have devoted considerable space to what florists have been doing in the way of store adornment and window decoration to attract the attention of the passer-by. Such notes are made, not for the purpose of puffing or flattering the individual mentioned but to

serve as useful hints for those of our readers who are engaged in similar lines. The wise and provident merchant will draw suggestions from such paragraphs and jot them down for use when the season comes around again next year, not to be copied but to be used as a stimulant to thought as to how to individualize and amplify them when plans are being made for the season's campaign.

Worthy of imitation

"You are not right on if your limousine isn't decorated with fresh cut flowers every day. The fashionable florist has standing orders for the favorite blooms that "go with" the furnishings of madame's car, not to mention the dress and furs she wears."—*Boston Herald*.

We don't know the author of the above lines but it bears the impress of some good sensible florist who made wise connection with some equally sensible newspaper correspondent. How much better for the florists' industry and for those engaged in it, how much more refining for the flower-buying public this is than the sensational stories so often poured into the ears of credulous reporters by some charlatan about the scarcity of flowers, the rapacity of growers and inflation of prices, with the result that page after page of newspaper space is devoted by ignorant and silly writers to persuading the public that the florist is a robber, his products undesirable and that artificial flowers are to be preferred to the real article. If the florists in every community would make it their business to supply their local newspaper with some such note as the one above quoted, don't you think it would help the flower trade? Wonder how many florists know that an "auto vase" to hold fresh flowers is one of the novelties of the present season.

Christmas trees and the forests

Protests against the use of evergreens as Christmas trees are again being circulated through the daily papers by well-meaning people who imagine they are doing something practical to stop forest destruction. The argument against the time-honored use of these trees, that they are sources of danger to life and property from fire, is a strong one, as all will admit, but that the practice contributes in any appreciable degree toward the threatened forest famine is not worth serious consideration. Hon. Gifford Pinchot's views, as widely published, and commented upon in these columns last year cover that question fully. Trees suitable for the holiday use are not found in the forests nor in dense young growth, as a rule, but as isolated specimens on cleared land and there is no reason why they should not be as legitimate and profitable a crop for the owners as anything else that might be planted thereon. To those who wish to read up on practical forestry we would recommend *Conservation*, a monthly periodical published by the American Forestry Association, Washington, D. C. The price is \$1.00 per year and this includes annual membership in the Association. Each issue contains from 50 to 60 pages of interesting reading, handsomely illustrated, and every citizen of the United States should be enrolled as a member.

NATIONAL CHRYSANTHEMUM SOCIETY.

Winter Show.

On the 2d and 3d of December the above society held an interesting exhibition of late flowering chrysanthemums and other flowers in the Crystal Palace. The competitive classes were well filled and the keenness of those who entered for the various prizes was a noteworthy feature. Some displays of vases, baskets, etc., filled with chrysanthemum blooms and beautiful autumn foliage helped to raise the general artistic effect. A large number of entries also in the dinner table decorations helped to enliven the show and in the cut bloom classes many of which were for three blooms of each variety in a vase there were grand examples of noble, massive Japanese blooms that would have done honor to a show early in November. It may interest American readers to know that the old painted green show board is not yet abolished and still finds favor with some exhibitors of cut blooms. We cannot go into details over this part of the show which is very extensive and where amateurs and gardeners meet in friendly rivalry for the valuable money prizes and others offered by the society. There were also some fine exhibits in the group of pot plant classes.

In the big trade exhibits a gold medal was awarded to H. J. Jones for a fine collection 42 feet in length. As a piece of floral decoration it was of the highest order of merit. Ferns, palms, dracaenas and other ornamental greenery interspersed with big vases containing large specimen and decorative blooms made a striking appeal to the visitors' attention. Snowdrift, a new white incurved, Mme. G. Rivol, J. G. Day, H. J. Jones 1908, Mrs. Leigh, White Victoria, Mrs. Wakefield and others were in fine form. Another gold medal was awarded to Norman Davis. He, too, had a fine lot entirely composed of singles, set up in vases and baskets with maidenhair ferns and autumn foliage. Among his novelties in singles were Pollux, Juno, Aureole Boreale, Vesta, Pegasus, Perseus, Urna Major, etc.

W. Wells & Co. had a large silver medal. He staged a big collection of singles well arranged and with great taste. Henry Cannell & Son also received a large silver medal. This was a double barrelled lot composed on one side of decorative chrysanthemums and on the other of zonal pelargoniums for which the firm is justly famous. Some grand novelties among the latter were staged and as we have personal acquaintance with many of the varieties we have no hesitation in recommending to the lover of the zonal, Carmania, Lucania, Mauretania, Caronia, Cymric, Arabic, Saxonia and a few of the older ones such as Mentmore, King Vic or, Prince of Orange, Lady Warwick—grand flowers for the greenhouse of any lover of the zonal.

A grand exhibit of fruit came from the government of Nova Scotia. Apples in cases and on plates were highly colored and of the finest quality. A few pears were also shown. The best of the apples were: Bismarck, Emperor, Prince Albert, Smith's Red, Blenheim Blue Pearmain, Maiden's Blush.

The government of British Columbia also sent fruit—a fine lot and most attractively displayed, which, like the preceding, received a large silver medal. The apples of premier merit were: Warner, Cox's Orange Pippin, Newtown Pippin, Wealthy, Salome, Spitzenberg, Baldwin, Jonathan, Hubbardston's Nonsuch, and a few others.

C. HARMAN PAYNE.

CHICAGO CARNATION SHOW.

The annual Chicago carnation display will be held by the Horticultural Society of Chicago in cooperation with the Chicago Florists' Club at the Art Institute, Chicago, Jan. 14, 1909, from 1:30 p. m. to 5 p. m.

There will be no competitive judging and no prizes will be awarded. Certificates of merit of the Horticultural Society will be given to all new varieties scoring 35 points or over and the grand silver and bronze medals will be available for award either to new varieties of unusual merit or the displays of older varieties which in quantity, variety and quality shall be considered worthy.

All varieties will be staged with the display card of the grower or exhibitor and every effort will be made to secure the best possible advertising returns to the exhibitor. Express charges on all exhibits will be paid by the society. C. W. Johnson of Rockford, Ill., will act as judge and M. P. Miller of Wilmette will superintend the exhibition.

It is believed that in the matter of publicity to the trade and in the number of florists visiting this show it will be only second to the convention of the National Society. Originators of new varieties cannot afford to miss having their productions on exhibition here. It is strongly urged that exhibitors will advise J. H. Burdett, Assistant Secretary, 1411 First National Bank Building, Chicago, as early as possible as to the number of varieties they will show and the quantity of each so that proper arrangements for vases and staging room may be made. The exhibits should be addressed to M. P. Miller, Art Institute, Chicago, and shipped so as to arrive not earlier than January 13th and preferably on the morning of the 14th.

Do not forget to inclose in the box full directions, labels and display cards. Also advise the Assistant Secretary in advance of the shipment, if possible, by mail.

W. N. RUDD,
Committee, LEONARD KILL,
L. COATSWORTH.
J. H. BURDETT, Assistant Secretary.

WORTH MORE THAN ITS PRICE.

Enclosed find \$1 for 1909 for HORTICULTURE, which is worth a deal more than the subscription price to all interested in gardening of all kinds, to all lovers of flowers, trees, shrubs, etc., and all new ideas that tend to improvements in the vegetable world generally.

WM. SWAN.

Plymouth, Mass.
Frank C. Emerson of Keene, N. H., salesman for the Chase Nursery Co., has accepted a position as manager of a fruit farm near Orlando, Fla.

PERSONAL.

Visiting Boston this week, Mr. and Mrs. John H. Taylor, Bayside, N. Y.

E. B. Washburn, Chicago, has returned from a holiday trip to Bay City, Michigan.

Mr. Dilloff, representing Schloss Bros., New York, is reported a visitor at Albany.

John J. O'Reilly has taken a position as manager of the C. P. Grimmer Flower Co.'s store on West St., Boston.

Charles Sanders, head gardener for H. G. Eyres, Albany, N. Y., who has been ill with pneumonia, is able to be out again.

David Grillbortzer, of Alevandria, Va., has been seriously sick at his home from an attack of gripe, but he is now on the convalescent list.

Among the very welcome visitors to Boston this week are Mr. and Mrs. Harry Bayersdorfer of Philadelphia. It is, as Mr. Bayersdorfer assures us, just a recreation trip, but Mr. B. can no more stay away from the business centres and his friends who congregate there than a fish can live out of water. So we have enjoyed the privilege of a look at him.

A COMMENDABLE PROJECT.

It is proposed to establish a free bed for the use of florists, gardeners, seedsmen and others of the horticultural fraternity who may require medical attendance, at Grace Hospital, Boston. The plan is to collect the amount necessary by subscription, and Mr. W. R. Weston has undertaken the work. Anyone who would like to contribute to this most worthy object or desiring to know more concerning it can address Mr. W. R. Weston at the Hospital, 144 Kingston street, Boston. We hope the response from the craft in and around Boston will be prompt and generous.

1909.

Why speak of the scythe and the hour-glass,

As the birds so long have sung?
Why should we notice how Time may pass,
So long as the soul is going?
Let wrinkles come and the head grow gray—

It's never a cause for tears,
For Methuselah hoped and laughed, no doubt,
When he had nine hundred years.

They fail to learn their lesson right
And take the dress for gold,
Who think gray hair, a wrinkle or two,
Are marks of growing old,
Joy's songs may be as gladly sung,
And 'ere in better time.

If the heart keeps time with the proper beat
In December than in June.

So, when it haps in the run of days
That we turn the New Year page,
Why point to Time, with his deuced scythe,
Or other signs of age?
What is it, in truth, that has been brought
By the seasons in their whirl,
When a boy, a tight-waisted, promising lad,
Gives a good-bye kiss to a girl?

No talk of tombstones on Life's road;
No milestones of the past,
But dreams of Hope and songs of Joy,
Each merrier than the last,
And whether we're eighty, or twenty, or ten.

Let this New Year's promise be:
Not Nineteen Hundred and Nine years old,
But that many years still to live,
—P. H. Doyle, in P. Star Post.

Society of American Florists and Ornamental Horticulturists

New Governing Board.

On Friday, January 1st, 1909, a new line of officers assumed their respective duties in the S. A. F. J. A. Valentine of Denver, Colorado, succeeds Frank H. Traendly of New York City as president; F. G. Gillett of Cincinnati, Ohio, follows George W. McClure of Buffalo, N. Y., as vice-president. The first official act of President Valentine on January 1 was the appointment of Judge William J. Vesey of Fort Wayne, Indiana, and Eugene Dailledouze of Brooklyn, N. Y., for three-year terms as directors to succeed Theodore Wirth, Minneapolis, Minn., and E. V. Hallock, Queens, N. Y., whose terms have expired. F. H. Traendly replaces W. J. Stewart as a member ex-officio on the Executive Board, on which Mr. Stewart has continuously served in one or

EUGENE DAILLEDOUZE

the other capacity since 1887. The officials who hold over are Secretary W. N. Rudd, Treasurer H. B. Beatty and Directors J. K. M. L. Farquhar, Samuel Murray, John Young and George Asmus.

The Executive Board will meet in March at Cincinnati, O., to make preliminary arrangements for the Convention to take place in Cincinnati next August and transact other important business.

Both of the new members of the Board are well known among members of the Society and in the trade generally. Eugene Dailledouze was for many years in the firm of Dailledouze Bros., being the elder of the three brothers who succeeded to the business of their father who was a gardener of renown and a pioneer in carnation growing in America. Since the retirement of his brothers recently from the firm, Eugene Dailledouze has been sole proprietor and the product of this big establishment is among the best shipped to the New York cut flower markets. Mr. Dailledouze was third president of the American Carnation Society and presided at the

first Boston meeting of that body in 1895.

W. J. Vesey was born April 19, 1857, on a farm in La Grange County, Ind. At the age of 21 he was admitted to the practice of law at Fort Wayne where he has since resided. In 1899 he was appointed Judge of the Superior Court by the Governor to fill an unexpired term, and at its expiration resumed the practice of law. Impelled by his love for flowers he formed a partnership in 1892 with his wife under the name of W. J. & M. S. Vesey and built a small commercial plant which has now increased to an establishment of 150,000 feet of glass devoted largely to wholesale trade and in connection with a handsome retail store in Fort Wayne. Judge Vesey, apart from his law practice, is a director in several banks, trust companies and manufacturing enterprises and his connection with the flower business is largely recreative, the supervision of the business being mainly in the hands of the junior member of the firm.

Other Appointments.

President Valentine has made the following appointments:

STATE VICE-PRESIDENTS.

Alabama—J. L. Parker, Birmingham.
California (Northern)—Samuel Lundy, 1176 Washington street, Oakland.
Colorado—M. A. Benson, Denver.
Connecticut—Frank S. Platt, 376 State street, New Haven.
District of Columbia—Wm. H. Ernest, Washington.
Florida—E. N. Reasoner, Oneco.
Georgia—A. C. Oelschig, Savannah.
Idaho—J. W. C. Deake, Twin Falls.
Illinois (Northern)—H. N. Bruns, 1409 N. Madison street, Chicago.
Illinois (Southern)—H. B. Dörner, Urbana.
Indiana—Irwin C. Bertermann, Indianapolis.
Iowa—Roy F. Wilcox, Council Bluffs.
Louisiana—Chas. Eble, 106 Baronne street, New Orleans.
Maine—Wm. Miller, Mt. Desert Nursery, Bar Harbor.
Maryland—R. A. Vincent, White Marsh.
Massachusetts (East)—F. E. Palmer, Brookline.
Massachusetts (West)—A. J. Lovelless, Lenox.
Michigan (East)—A. Pochelon, Detroit.
Michigan (West)—H. Smith, Grand Rapids.
Minnesota—S. D. Dysinger, 30 W. 5th street, St. Paul.
Mississippi—S. W. Crowell, Rich.
Missouri (South)—Fred H. Meinhardt, 7140 Florissant avenue, St. Louis.
Missouri (North)—W. L. Rock, 1116 Walnut street, Kansas City.
Nebraska—Lewis Henderson, 1519 Farnum street, Omaha.
New Hampshire—H. C. Stache, Manchester.
New Jersey—Geo. A. Strohlein, Riverton.
New York (East)—Harry A. Bunyard, 342 W. 14th street, New York.
New York (West)—Wm. L. Keller, Rochester.
North Carolina—W. Rehder, Wilmington.

Oklahoma—Geo. Stiles, 139 W. Main street, Oklahoma City.

Ohio (North)—E. B. George, Painesville.

Ohio (South)—C. E. Critchell, 36 E. 3rd street, Cincinnati.

Pennsylvania (West)—T. P. Langhans, 504 Liberty street, Pittsburgh.

Pennsylvania (East)—E. A. Stroud, Philadelphia.

Rhode Island—Peter S. Byrnes, Wickford.

South Carolina—C. A. Moss, Spartansburg.

Tennessee—M. Stauch, Nashville.

Virginia—H. Brown, 5 W. Broad street, Richmond.

Wisconsin (East)—N. Zweifel, 14th street and Groeling avenue, Milwaukee.

Wisconsin (West)—C. E. Schafer, La Crosse.

Washington Representative:—William F. Gude, 1214 F. St., Washington, D. C.

JUDGE WILLIAM J. VESEY

Botanist:—Prof. John F. Cowell, Botanic Garden, Buffalo, N. Y.

Pathologist:—Dr. B. M. Duggar, Ithaca, N. Y.

Entomologist:—Dr. S. A. Forbes, Urbana, Ill.

Tariff and Legislative Committee:—Benj. F. Hammond, Fishkill-on-Hudson, N. Y., Chairman. F. R. Pierson, Tarrytown-on-Hudson, N. Y.; Patrick O'Mara, Grand Street, Jersey City, N. J.; J. D. Eisele, Riverton, N. J.; E. A. Meeley, Washington, D. C.; Patrick Welch, Boston, Mass.

National Council of Horticulture:—E. V. Hallock, Queens, N. Y.

Committee on School Gardens:—E. V. Hallock, Chairman, Queens, N. Y.; P. O'Mara, Grand St., Jersey City, N. J.; F. E. Palmer, Brookline, Mass.; F. R. Pierson, Tarrytown, N. Y.; J. F. Cowell, Botanic Garden, Buffalo, N. Y.; Benj. Hammond, Fishkill, N. Y.

Dept. of Plant Registration.

Public notice is hereby given of the application of The Dingee & Conard Company, West Grove, Penna., for the registration of the plant specified below. This application for registry was

THE FLORIST SUPPLY HOUSE OF AMERICA

SPECIAL NOTICE

During the month of January Only

A SPECIAL DISCOUNT of 10 Per Cent

on our Celebrated Standard Wheat Sheaves which every one knows are the best. Order now and get this liberal

DISCOUNT ONLY FOR THE MONTH OF JANUARY

NEW EASTER BASKETS JUST ARRIVING

H. BAYERSDORFER & CO., 1129 Arch Street, Philadelphia, Pa.

filed in this office on December 31st, 1908, and any person knowing of any reason why the registry of this name should not be made is requested to communicate with the undersigned.

Rose—"Charles Dingee"—New Rose originated with us. A cross between White Maman Cochet and Hermosa. Exceedingly strong grower, large heavy foliage resembling Maman Cochet growing ordinarily to a height of two feet; ever-blooming. Large, deep double flowers of good substance produced on long stiff stem. Color delicate rose tints in the center gradually shading off into pale blush and creamy white.

W. N. RUDD, Secretary.

December 31st, 1908.

AMERICAN CARNATION SOCIETY.

The schedule of premiums for the eighteenth annual meeting, to be held at Indianapolis, Ind., has just been received. The meeting will take place on Wednesday and Thursday, January 27 and 28, 1909. All exhibits should be addressed to A. F. J. Baur, "German House," Indianapolis, Ind., whether carnations or other goods. Entries should be made with the secretary, Albert M. Herr, Lancaster, Pa., not later than January 15, otherwise a charge of \$1.00 for each variety entered later will be made. Local arrangements are well perfected and the premiums include several valuable special prizes. We shall refer to these more fully in a later issue, but everyone interested should send at once to Secretary Herr for a copy of the schedule. The headquarters of the Society will be at the New Denison Hotel and the exhibition will be held at the German House.

The Boston delegation will leave the South Station, Boston, by the Big 4 route at 1.45 Monday the 25th, and due to arrive in Indianapolis at 3 p. m. the next day. Going in ample time to secure hotel accommodations.

Through Pullman car. The fare one way is \$26.29; for party of ten or more a slight reduction. Berth \$5.50, making the whole fare one way \$25.80.

Those intending to go please notify at once M. A. Patten, Tewksbury, Mass.

News of the Clubs and Societies.

KANSAS HORTICULTURAL SOCIETY.

The 43rd annual meeting of this society was held in the Supreme Court room of the State House at Topeka. The afternoon of the first day, Dec. 29th, was given to reports of the trustees of the various congressional districts. They were not altogether encouraging; untimely freezes late in the spring were very disastrous. The apple crop was somewhat spotted, some sections producing a fairly good crop and some scarcely any. In short, the year was not a satisfactory one. Small fruits did fairly well. Plums and cherries were light and peaches good in spots.

In the evening an address was given by the president of the Nebraska Park and Forest Society. The subject was "Practical and Ornamental Forestry." He spoke of the millions of acres of waste land in low places which should be put to work raising houses and barns, and emphasized the especial value of Norway poplar, cottonwood and bull pine in various sections.

Dec. 30 was given over to various reports. A. H. Greisa of Lawrence had a paper on originating new fruits for Kansas. In the afternoon, two interesting papers were read, one by Geo. C. Richardson on "Planting and Management of the Orchard," another by J. Treadway on "The Family Orchard." A sharp discussion arose on pedigreed fruit trees, one party insisting that scions should always be cut from the very best bearing trees, the other claiming that it made no difference whatever where you get your scions, so that they were true to nature. Of course, it was a question of thoroughbreds and scrubs. It was hard to make a practical orchardist believe that scions from a perfectly barren tree made trees just as good as those from a prolific and continuous bearer. The evening was given to the "Selection and Preparation of Food" and to the Food Value of Fruit." The morning of Dec. 31 was given to brief papers on garden topics.

Some way, there was a sort of feel-

ing that the society was not accomplishing all that it might do. The writer was called on to give an outline of the Minnesota plan, which joined together all the affiliated interests of the state—incorporating the rose society, ladies' auxiliary, plant breeders' society and forest society, into one splendid whole—giving place for all. The Kansas and Minnesota societies are of the same age, and yet the latter, in spite of the greatest obstacles, has forged ahead to take first place of all our state societies, with a membership of nearly 2900. Such an example is worth following.

C. S. HARRISON.

Delegate for Minnesota and Nebraska.

MINNESOTA STATE FLORISTS' ASSOCIATION.

The monthly meeting was held at Merriam Park, Dec. 15, with President Wirth in the chair. The exhibits at this meeting were very numerous. Mr. Jorgenson from L. S. Donaldson exhibited some fine roses, carnations and violets. Holm & Olson showed cyclamens and Begonia Gloire de Lorraine, also a seedling from same named Gertrude which looks very promising. Among other exhibitors were Messrs. Nagel & Son, primulas, Lakewood Cemetery, poinsettias and Carl Hangan, violets.

The committee on diplomas, etc., decided to accept the style used by the Connecticut Horticultural Society. The seal will have a cypripedium (Minnesota state flower) in the centre.

Mr. Jorgenson read a very interesting report on the national flower show. Mr. Wirth exhibited plans for the proposed Floricultural Building at the state fair grounds, one main building 150 x 150 x 65 ft. high, glass sides and roof, two show houses one on each side of main building, and two greenhouses which can be used for exhibits or to grow plants for decorating the grounds. After a thorough discussion of the subject, the committee was asked to submit the plans to the board of man-

New Rose **White Killarney**

Come and see White Killarney growing at our Scarborough houses, and you will say at once, as every one does who has seen it, it is

The Best White Rose

they have ever seen. You need it if you want to be up to the times, and it will pay you better than any other white rose that you can plant. You will regret it if you do not plant it this year, and you will not regret it if you do.

Big lots are being booked. Get your order in early. Send us order at once, while you think of it. Get early stock. It will not cost you any more to order to-day, while you think of it, than it will two months from now. Be the early bird that catches the worm.

Strong young plants, 2½-inch pots, own-root, ready for delivery beginning February 15th, 1909. \$30.00 per 100; 250 for \$70.00; 500 for \$125.00; 1000 for \$250.00. Grafted plants, ready for delivery beginning March 1st, 1909, \$5.00 per 100 additional.

MY MARYLAND

This new rose, which was introduced last season in a limited way, has proved to be one of the best roses ever introduced. Every one is enthusiastic in regard to its merits, and it will be planted very largely by the largest, most progressive and most up-to-date growers, who have already placed large orders for it.

It is a strong, healthy, and vigorous grower, producing long stems and long pointed buds, exquisitely fragrant. The color is a soft salmon-pink. This is a rose that we can recommend in the highest terms, as we are sure it will prove very, very satisfactory. It is a welcome addition to our limited list of really first-class varieties for indoor culture; and it is not only a fine midwinter rose, but is also unusually good during the summer months.

Strong plants, 2½-inch pots, own-roots, \$10.00 per 100, \$90.00 per 1000
Grafted plants. \$0.00 per 100, \$150.00 per 1,000.

F. R. PIERSON, Tarrytown-on-Hudson, NEW YORK.

gers of the state fair and to get busy, working for an appropriation to carry out part of the plans as a beginning.

J. Smith showed a photograph of a Lilium auratum, bearing 222 flowers. A. Swanson will read a paper on "What Flowers Do Toward Civilization" at the meeting of the State Agricultural Society on Jan. 12, 1909.

PASADENA GARDENERS' ASSOCIATION.

The Pasadena Gardeners' Association treated their friends, the Los Angeles Florist Club, to a smoker. It is believed to be the first one of its kind ever held in this part of the West, by a florist club. A few weeks ago the Los Angeles Florist Club had gathered in the Pasadena crowd and treated them to the best of everything—in fact, extended "a welcome to all."

The meetings have been held to bring about a more social and friendly intercourse between the two associations and all others interested in horticulture. The meeting was opened by Neil Campbell, who extended a welcome to all. Addresses were also made by Dr. Houghton of Los Angeles; J. J. Reeves of Rodeo Nurseries; J. G. Morley, Los Angeles City Park superintendent, and others. The choir of the Los Angeles and Pasadena German Singing Orchestra was in attendance and rendered some very fine songs, which made it all the more lively. At the conclusion refreshments were served and a most enjoyable time was brought to an end.

H. E. GEORGE.

AMERICAN ROSE SOCIETY.

We have received the preliminary schedule of prizes for the annual exhibition of this Society to be held at Buffalo, N. Y., on March 17 to 20. There are in all 64 regular prizes. The special prizes, of which we understand there is a large and tempting list, will be announced later. Only one special is mentioned in the present list, and it is good enough to make the rose grower "sit up and take notice." First prize

of \$200 is offered by Philip Breitmeyer and second prize of \$100 by Arthur T. Boddington for display of hardy roses in bloom, exhibit to consist of 100 or more plants, in 30 or more varieties, not more than 10 plants of one variety, in pots or tubs, 6 in. or larger.

The Newport Horticultural Society voted to have its annual ball early in February, and a committee was appointed to make the necessary arrangements.

GERANIUMS

Send us \$18.50 and we will send you 1000 Geraniums from 2 in. pots, in 20 good sorts, our selection. We will send you a collection that will please you, and meet the approval of your trade, and we don't care how critical it is. We have been sending out these collections for several years, and are willing to stake our reputation on them.

Our stock is the largest and most complete in the country. We have an immense lot ready for shipment, from 2 in. pots. We do not send out rooted cuttings. We have good Standard sorts at \$2.00 per 100, \$18.50 per 1000 and up to Newer Varieties at 50 cts. each. Send for our Special Geranium catalogue.

LOBELIA

KATHLEEN MALLARD. The new blue double Lobelia, nice stock from 2 inch pots, 50c per doz., \$2.00 per 100, 50c for \$9.25.

WE HAVE READY TO SHIP THE FOLLOWING from 2 in. pots at \$2 per 100

Verbenas, Lemon Verbena, Achyranthes, Black Prince and Minnesota Fuchsias, Coleus, Lobelia Crystal Palace, Hardy English Ivy, Smilax, Salvia, Drer's Superba Single Petunia, Dwarf Double Alyssum, Ageratum, Hardy Chrysanthemums.

R. VINCENT JR. & SONS CO., White Marsh, Md.

MASSACHUSETTS HORTICULTURAL SOCIETY.

Saturday, Jan. 2, was annual meeting day with the Massachusetts Horticultural Society. It was called at noon and President Stephen M. Weld was in the chair.

The president's address first referred to the fact that the society was still spending more money than it got from its income, which he said was not a businesslike proposition. He hoped that the new year would see the present deficit wholly made up. He urged the members to bear in mind how much funds and additional members were needed.

During the year 27 new members were elected, making the present membership 838. There have been 24 deaths in the ranks. There were thirteen exhibitions held, and public interest in these has been well sustained. In regard to the giving of prizes, General Weld said there is an increasing desire on the part of some of the members to have the society give medals in place of money. He believed it was the true ground on which the society shall ultimately have to distribute rewards for merit.

Reports of secretary and librarian and the chairmen of the various standing committees were presented in full.

George McWilliam exhibited a beautiful specimen in flower of a seedling calanthe, a cross between C. Regneri (the straight, bulbous variety) and Sandhurstiana. It is a beautiful flower, white with pink and bright crimson marked lip and is particularly remarkable for the fact that it fills in or "bridges over" the interim between the flowering of the early and late flowering varieties.

Standing Committees for 1909.

Finance—Walter Hunnewell, Chairman; Arthur F. Estabrook, Stephen M. Weld.

Library—C. S. Sargent, Chairman; George B. Dorr, Samuel Henshaw, Charles S. Minot, Henry P. Walcott.

Lectures and Publications—William J. Stewart, Chairman; John A. Pettigrew, William P. Rich, Mary L. Ware, F. A. Waugh.

Prizes and Exhibitions—John K. M. L. Farquhar, chairman; Robert Cameron, William N. Craig, Edward MacMulkin, C. S. Sargent, William Sim.

Plants and Flowers—T. D. Hatfield, Chairman; Duncan Finlayson, Peter Fisher, Thomas Roland, William Thatcher.

Fruits—Wilfrid Wheeler, Chairman; Harry F. Hall, Edward B. Wilder.

Vegetables—Josiah B. Shurtleff, Jr., Chairman; John W. Duncan, George D. Moore.

Gardens—Charles W. Parker, Chairman; William H. Bowker, Arthur H. Fewkes, Thomas J. Grey, T. D. Hatfield, Julius Heurlin, Wm. P. Rich, J. B. Shurtleff, Jr., Thomas H. Westwood, S. M. Weld, Wilfrid Wheeler.

Children's Garden—Mrs. R. G. Shaw, Chairman; Mrs. E. M. Gill, Mrs. Katharine P. Peabody, Mrs. Dudley L. Pickman, Miss Margaret A. Rand, Mrs. John E. Thayer.

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. Gladioli are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white Gladiolus. First-size bulbs, 1½ inches and up, \$2.00 per 100; \$18.00 per 1000. Bulbs 1¼ to 1½ in. \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, faded rosy crimson; the best forcer. Selected bulbs. \$1.75 per 100; \$15.00 per 1000.

Branchleyensis (true). Fiery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1¼ in. and up. \$1.50 per 100; \$14.00 per 1000.

Bulbs 1¼ to 1½ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation. \$1.00 per 100; \$9.00 per 1000.

ORDONEZ BROS.

Madison, N. J.

FLORISTS' CLUB OF WASHINGTON.

The regular monthly meeting of the Florists' Club of Washington was held on the evening of Jan. 5. It was known as Ladies' Night, and there was a large attendance of florists with their wives and friends. The business session was unusually short and the formal committee's report from the flower show was held over till next meeting. Gude Bros. showed a very fine vase of My Maryland rose. The Awards Committee, consisting of Peter Bisset, Jno. Robertson and George Cooke, awarded it a first-class certificate. The roses were afterward distributed among the talent of the evening.

There will be the regular yearly nomination of officers at next meeting, the election to take place in March. Willis Serfrass, representative of the firm of Poehlmann Bros., of Chicago, was a visitor of the evening. After the adjournment of the business session, the rest of the evening was given over to a musical hour, which was followed by dancing and refreshments.

FLORISTS' CLUB OF PHILADELPHIA.

Dorothy Gordon, the Joseph Heacock Co.'s new pink carnation, was the center of attraction at the regular monthly meeting of the 5th inst. A special committee had visited the home of this variety the previous Thursday and reported as follows: "Dorothy Gordon resembles Pink Enchantress in color and form but is superior to that variety in being of a more uniform color, also larger and of greater substance, apparently as free a bloomer and of stronger constitution and stiffer in the stem. We find on test the keeping qualities to be good, the flowers kept in an ordinary potting shed being salable four days after being cut." (Signed) Edwin Lonsdale, J. Wm. Colfesh, Robt. Craig, Alphonse Pericat of Collingdale exhibited a superb collection of Cattleya Trianae of unusual size and fine colors. Robert Kift and others addressed the meeting on the Christmas trade. Among out-of-town visitors were C. Keur, Holland, and P. T. Barnes of Harrisburg.

NORTH SHORE HORTICULTURAL SOCIETY.

At the regular meeting Jan. 1, of the North Shore Horticultural Society at Manchester-by-the-Sea, Mass., the following officers were elected: President, James Salter; vice-president, Dr. W. H. Tyler; secretary, John D. Morrisson; financial secretary, Herbert Shaw; treasurer, James McGregor; librarian, George Duncan; executive committee, A. E. Parsons, J. W. Carter, James B. Dow, Joseph Clark, William Swan.

The annual banquet of the Society will be held in the Town Hall, Manchester, Mass., on Wednesday evening, Feb. 10, at 6.30 o'clock, followed by an entertainment and dance. Tickets limited to 165. Members desiring tickets will please notify the secretary of the committee, Robert A. Mitchell. All tickets unsold Feb. 5 will be offered to the public. Last year's banquet was voted the best yet. The committee are bestirring themselves to make this year's affair up to the standard or better.

TARRYTOWN HORTICULTURAL SOCIETY.

At the regular meeting of the Tarrytown Horticultural Society held Thursday evening, Dec. 31st, the following gentlemen were elected to office for this year: President, Abel Weeks; vice-president, John Woodcock; treasurer, Edward W. Berrien; secretary, E. W. Neubrand; corresponding secretary, Wm. Jamieson. Executive committee: Wm. Scott, J. W. Smith, J. Brunger, Robert Angus, Alex. Mailand, Wm. Jamieson, Robt. Ballantyne, Thos. A. Lee. Directors: F. R. Pierston, Isaac Kegua, Wm. Scott, Dr. R. B. Coutant, J. W. Smith, Hon. I. P. Willard, D. McFarlane, Robt. Angus.

The monthly prize was for twelve best carnations, offered by Wm. Jamieson, and was awarded to James Stuart, gardener to Mrs. F. A. Constable, Mamaroneck, N. Y.; also special mention for a vase of Euphorbia Jacquiniaeflora, which was greatly admired.

The committee appointed to arrange for the annual dinner of the society, have selected the Florence Hotel for Wednesday evening, Jan. 13th, 1909, at 7.45 P. M. An invitation is extended to representatives of florists' and local papers and kindred societies, and we hope to see some of our friends with us on the above date.

L. A. MARTIN.

NEW LONDON COUNTY HORTICULTURAL SOCIETY.

The annual meeting of the New London County Horticultural Society was held at Buckingham Memorial Hall, Norwich, Conn., Jan. 4, 1909. The following officers were elected: President, S. A. Gilbert; vice-presidents T. W. Head, Rev. N. P. Carey; secretary and treasurer, Frank H. Allen; librarian, Chas. T. Beasley; board of directors, T. W. Head, N. P. Carey, Otto Ernst, Alfred Flowers, R. R. Wilcox, H. F. Parker, F. H. Allen, S. A. Gilbert, G. Neumann and O. E. Ryther; show committee, Otto Ernst, R. R. Wilcox, H. F. Parker, N. P. Carey, F. H. Allen, S. A. Gilbert, G. Neumann, Chas. T. Beasley, Oswald Lange, J. Stevens, M. Shea and W. W. Ives.

CLEVELAND FLORISTS' CLUB.

The Cleveland Florists' Club at its last regular meeting, Dec. 28th, decided to hold its Annual Carnation Exhibit in its club rooms, 2610 Detroit avenue, on Feb. 8th. All out-of-town exhibits must be sent to above address, in care of Isaac Kennedy, Secretary, and must be prepaid.

CLUB AND SOCIETY NOTES.

The officers for 1909 in the Kentucky Society of Florists are: Fred L. Schulz, president; Robert Miller, vice-president; H. Kleinstark, secretary; Joseph Wettle, treasurer.

The first lecture of the season under the auspices of the Massachusetts Horticultural Society will be given by W. H. Bowker of Boston, in Horticultural Hall, on January 9, at 11 o'clock. Subject, "The Yeast of the Soil."

The Revere Rubber Co., Boston, has issued an attractive calendar which brings their specialties prominently before the user at just the season they are most needed.

THE L. E. MARQUESEE GREENHOUSES SOLD.

Mrs. Marquisee has sold to Harry and James Bellamy the greenhouses and stock of the late Louis E. Marquisee. The brothers have been associated for many years with the late Mr. Marquisee. They are men of long and large experience in the florist business, and have hosts of friends, both amongst the craft and outside, who wish them success in their undertaking. They are men of the strictest integrity, and anyone doing business with them will have no cause to regret it.

The greenhouses will remain till July 1st. A permanent location has not been selected, but no time will be lost in doing so, and the grounds prepared for an early start. Orders for the new white carnation Marchioness, are coming in, and will be filled in rotation.

The firm will be known as Bellamy Bros., successors to L. E. Marquisee.

"MARCHIONESS" ORDERS.

HORTICULTURE:

Gentlemen:—The late Mr. Louis E. Marquisee before he died stated that he had received several orders for his new white seedling carnation "Marchioness." His papers have been searched, but so far no memoranda of same can be found.

Will you kindly allow us to ask those who gave their orders to Mr. Marquisee to communicate with us at once, thereby avoiding disappointment and delay?

Thanking you in advance,

Respectfully yours,

BELLAMY BROS.

Syracuse, N. Y.

ANOTHER VALUABLE DEVICE.

The Lauten Fumigator which is being advertised in HORTICULTURE by The Wilson Plant Oil and Fertilizer Company, is highly spoken of by grow-

ers who have given it a trial. It is the invention of Fred. Lautenschlager, the well-known representative of Kroeschell Bros. Co. The accompanying cut shows how, by its peculiar construction, this device vaporizes the tobacco stems and gives off steam, not smoke, thus obviating any anxiety as to danger from combustion gases. The fumigator is of the simplest construction, will last a lifetime, gives the maximum of efficiency with the minimum of cost, and by its peculiar down-draft system promises to revolutionize the method of insect extermination under glass.

SEEDS OF "THE BURPEE-STANDARD"

TO MARKET GARDENERS AND FLORISTS:—

PHILADELPHIA, January 1, 1909.

In this BLUE LIST the same varieties of seeds are offered as in our Retail Catalog, but the prices are lower. It is only fair that those who plant for profit and, consequently, use larger quantities of seeds, should buy at lower prices than does the private planter. The Market Gardener and Florist, however, whose earnings depend upon product of the seeds planted, recognizes more surely even than the amateur the necessity of FIRST-CLASS STRAINS that can be relied upon to come true to type.

The steady increase from year to year in the BURPEE BUSINESS is due to the constantly widening circle of planters who have confidence both in the quality of our seeds and the faithfulness of the service rendered. We owe hearty thanks to many friends who have so kindly recommended BURPEE'S SEEDS to their neighboring gardeners.

We are exclusively a mail-order house and never travel a single mile to solicit an order! Neither do we annoy you by "follow-up" letters. We annually travel many thousands of miles, however, both in America and Europe, to inspect our contract-growing crops and conduct on our Pennsylvania and New Jersey farms the largest and most complete trial grounds in America. We thus know the truth of our motto

Burpee's Seeds Grow and are the Best Seeds that Grow

It is not astonishing, therefore, that for years we have had the largest mail-order seed trade in the world.

We are Specialists in Seeds.

Our entire attention is devoted to producing and distributing Seeds. — Seeds only and only Seeds of the Best Quality. Our aim is to do *this one thing well*, — consequently we do not handle Dutch bulbs, small fruits, nursery stock, nor other kindred lines such as fertilizers, implements and poultry supplies.

The small illustration herewith shows the Fifth Street frontage of THE BURPEE BUILDING, our main city warehouse. Here we are pleased to welcome all customers who may have occasion to visit Philadelphia and to give those interested an invitation to inspect our Pennsylvania and New Jersey farms during the growing season. We have nothing to conceal and are always glad to show everything of interest both in the city warehouses and on our trial grounds and seed farms.

In accordance with our long-established custom when introducing novelties of unusual merit, we offer special cash prizes on the first season's trials of the unique new DWARF-GIANT TOMATO and EARLIEST CATAWBA CORN. Both are well worthy, of thorough trial by market gardeners whose trade demands *quality* in vegetables.

The introduction of sterling Novelties, generally, is not directly a money-making proposition to us. Frequently our entire sales the first year, as with two unique Bush Limas, THE FORDHOOK and THE BURPEE-IMPROVED, introduced in 1907 (when they sold at 12 beans for a quarter), do not suffice to cover the cost of the varieties and expense of introduction. Just like the conduct of our extensive Trial Grounds, however, the introduction of such novelties pays indirectly in helping to extend our trade. Our business is our pleasure. The interests of buyer and seller should be really mutual. We would not seek your trade did we not *know* that we could give you one hundred cents in value for every dollar expended.

The prices printed have been fixed at actual values as they appear to-day (December 28, 1908). Whenever possible, however, should stocks warrant, we shall be pleased to make **quotations by mail or wire** to buyers of large quantities of any special varieties. Trusting you will favor us with an order and that you may have a successful and profitable season,

We remain, sincerely yours,

Burpee Building:

475 and 477 North Fifth Street,
476 and 478 York Avenue.

Other Warehouses:

463 North Fifth Street,
468 and 470 York Avenue.

PHILADELPHIA, PA., U. S. A.

Seed Gardens and Trial Grounds at FORDHOOK FARMS, Bucks County, Pa.,
and at our new SUNNYBROOK FARM, in Gloucester County, New Jersey.

W. Atlee Burpee & Co.

ABOVE is repeated *verbatim* the introduction from BURPEE'S BLUE LIST — the most complete Wholesale Seed Catalog for those who plant for profit and which is now ready for mailing. If you as a Florist or Market Gardener appreciate the value of quality in seeds and are willing to pay a fair price for the best it is possible to procure, we shall be pleased to mail you a copy of this catalog. We must ask you in applying, however, to name *this trade paper* as the BLUE LIST is never intentionally sent to any private planter. If you have not already received our Retail Catalog BURPEE'S FARM ANNUAL for 1909, we shall be pleased to send you this also.

SWEET PEAS are a great specialty with us and we have the largest and finest collection in America. Our prices are higher than those of some other houses but the care with which the varieties are grown and the quality of the seed in every case warrants the prices charged.

While it is not our custom to advertise "Seasonable Seeds," with prices, from time to time, yet we are always prepared with fresh, new crop seed of the choicest quality and make this prominent announcement that ALL FLORISTS and MARKET GARDENERS who subscribe to the trade papers may apply now and have on hand for reference when occasion may require both our catalogs.

W. ATLEE BURPEE & CO., PHILADELPHIA, PENNA.

Seed Trade

Contrary to general expectations up to a very recent period, Dreyer's Bush Limas are proving very short, and growers of these beans have been compelled to reduce the estimates of deliveries on their contract orders. Just why there should be this ever-recurring shortage in these Bush Limas is not apparent. It is not chargeable to short crops alone, but doubtless to quite an extent to short acreage. It is well known that the California bean growers do not take kindly to the Bush varieties of Limas, and demand a materially higher price than for the Pole varieties. The men who grow these beans on contract for the seed trade are seeking to keep prices down to the farmers, and often will not pay what is demanded, which may be entirely proper, but sometimes there is too wide a range between what they want to pay the farmer and what they ask the seedsmen, and this frequently results in a much smaller acreage than should be planted for the quantities booked; and then with a short crop deliveries are bound to be very light. The writer has learned of specific instances where seed sent to growers was never put out at all, either as the result of negligence or because the grower could not place it at a price satisfactory to him, and this after contracting to have the beans planted at a price named by himself. There seems to be only one solution of this problem, and that is, for those who do enough in this line to make it worth while, to place their own men on duty.

Eastern growers of wax and green pod beans are compelled to pay the growers an average of about 25 cents per bushel over last year's prices, as for several years ordinary white beans have sold readily at from 25 to 50 cents per bushel over the prices which seedsmen have been paying for colored or garden beans, and as the former out-yields the latter from ten to twenty-five per cent, the farmer sees no advantage in growing them. Seedsmen and canners should know these facts and not resist the advance which the grower is absolutely compelled to ask, and the same may be said of peas.

It is reported that market gardeners are not ordering as heavily as last year, particularly of beans. Dealers should note this fact, as it is liable to have a marked influence on demand. It is said that green beans did not sell at remunerative prices last season, and as a result farmers and gardeners allowed part of their plantings to ripen, hence they have raised their own seed in many instances, and will not have to buy of the seedsmen.

Prices on cucumber seed show a weakening tendency, which is not surprising excepting to a few who are always chronic bulls on every reported crop shortage, and talk famine prices often with a very imperfect knowledge of actual conditions. The shortage in musk melon seed is genuine, many varieties being scarcely obtainable at any price excepting at retail.

The advance in prices of garden beets, though not sensational, has been from 25 to 50 per cent., and is well maintained, the tendency being toward higher levels. Another such shortage

as has been inflicted on the trade for the past two years, and something really sensational in the way of prices may be looked for, as reserves are now practically exhausted and we must depend on next season's crops entirely.

Only last month, the Department of Agriculture asked for bids, on a large number of items in seeds for spot delivery. It was generally assumed that the Department had been disappointed in some of its purchases, or was planning to enlarge this year's distribution, but so far as known to the trade the purchases from these bids have been very small, if any. Still more recently bids have been invited on surplus stocks for next year's distribution, the same to be opened on January 15 next. Those who responded to the former invitation will probably not be able to materially increase their offerings, though they may want to change prices, generally downward, which may prove just a trifle embarrassing. It is an interesting situation.

I. Rosnosky, representing H. F. Michell Co., Philadelphia, has been interviewing the Boston trade during the past week.

The Leonard Seed Co. have added still another retail store. It is at Roseland. This makes four in Chicago.

Des Moines, Ia.—The St. Louis Seed Co. will retain their retail business but have disposed of their mail order business to the Iowa Seed Co.

Portland, Me.—S. C. Allen and F. A. Kendall, formerly with Kendall & Whitney, started in business in the Oxford building on January 1.

Cincinnati, O.—The settling of the foundation under one of the supporting posts of the building at Eggleston avenue and Fifth street, into which the J. Chas. McCullough Co. is moving, caused some excitement last week, but examination results in the report that there is nothing serious the matter with the building.

CATALOGUES RECEIVED.

W. W. Rawson & Co., Boston.—Plant Talk for January.

R. W. Johnson, Northboro, Mass.—Folder of new strawberry, Paul Jones.

Henry Saxton Adams, Wellesley, Mass.—Little Green Book of Choice Seeds, 1909.

Frederick Roemer, Quedlinburg, Germany.—Wholesale Catalogue of Choice German Flower Seeds.

Charles E. Fendall & Son, Towson, Md.—Recent Introductions in Strawberries, especially the sensational "Fendall."

Gillett & Ohmer, Cincinnati, Ohio.—Illustrated Catalogue of Wire Designs and Supplies for Florists' Use—a model in its way and "all to the good."

H. F. Michell Co., Philadelphia, Pa.—Wholesale Catalogue for Florists and Market Gardeners, Spring 1909. A business document from cover to cover, well illustrated and full of good suggestions.

Charles H. Totty, Madison, N. J.—Chrysanthemum Novelties and Standard Varieties for 1909. Illustrated. No chrysanthemum grower is up to date without Totty's catalogue. It is indispensable.

Iowa Seed Co., Des Moines, Ia.—Seed and Plant Catalogue for 1909. Cover in colors—roses, pansies, tomatoes, etc., in gorgeous array. Seed corn occupies a space of several pages, including a colored insert of corn varieties.

A. F. Longren, Des Plaines, Ill.—Felder of carnation novelties, Lucille and O. P. Bassett, both sterling varieties worthy to be universally grown. Lucille is white flushed with soft pink in centre and O. P. Bassett is a bright Christmas red.

Bridgeman's Seed Warehouse, Rickards Bros., Prop's, New York City.—Annual Catalogue of Seeds, Plants and Implements for 1909. This catalogue is very creditable to the popular young men who have succeeded to the Bridgeman business established 85 years ago. A vase of sweet peas in grey tints adorns the front cover page, and lettuce and cauliflowers the back.

R. & J. Farquhar & Co., Boston, Mass.—Garden Annual for 1909. This is the gem of the spring catalogues thus far received. In paper, type, illustrations and make-up it is an example for the seed trade of "how to do it." The cover illustrations—Iris palda Dalmatica on front and Hybrid Delphiniums on back—are among the best pieces of commercial artistic color work we have ever seen. The iris is particularly beautiful. The imprint shows that it was done in Brussels, Belgium.

Henry A. Dreyer, Philadelphia, Pa.—Dreyer's Garden Book for 1909—71st Annual Edition. This is a big volume of 256 pages, well filled with text and illustrations, with heavy blue cover lettered in gold. Four very fine color plates are presented—one of aegileas, one of H. T. roses, one of sweet peas and one of vegetables. Every department of gardening art is thoroughly covered in this elaborate production, which is a veritable vade-mecum for the plant and flower lover.

LAWN MAKING.

Leonard Barron's little volume is a readable compendium of modern thought and practice on lawn making. The author has been particularly happy in reflecting in easily understandable language the best ideas of the men who really know. This is the only book of its kind and will do a vast amount of good in educating the general public in correct methods. The chapters devoted to seeding are worthy of an expert. The only contribution the writer can think of, to add to its value, would be in the line of recommending a greater variety of species in the lawn mixtures; Crested Dogstail for instance. This is a deep rooting grass, and will do well even in dry situations, so it is a mistake to class it among the kinds that only do well in shady situations. In America we have to depend on Kentucky Blue as a basis for our lawn mixtures, instead of the *Lolium perenne* of European practice. Crested Dogstail, in addition to its other good qualities, is exactly the same shade as Kentucky Blue, and blends finely with that variety. Every first-class seed house uses it in making up their finest mixtures. Mr. Barron has done a great injustice to this variety in placing it in a subordinate position. Red Fescue is another good species for some purposes, and is not mentioned at all. Sweet Vernal and Hard Fescue are also deserving of higher consideration. Supplemented with "Barenbrug on Grasses" any student of the theory and practice of lawn making will be well equipped if all the points are well digested.

G. C. WATSON.

These books can be got from the publication department of HORTICULTURE at the advertised price of \$1.00, and it will be money well spent for every seedsman, florist, nurseryman, landscape gardener, country superintendent and others in responsible positions—to procure these up-to-date "vade mecum's".

Of Interest to Retail Florists

CHICAGO HOLIDAY AFTERMATH.

As a result of the remarkable demand for plants during the recent holidays, Chicago plant growers are making special preparations to turn out a much larger Easter product than ever attempted heretofore. Some retailers who thought they were buying liberally in advance duplicated their orders twice over for plants at Christmas. It would be hard to find better azaleas for the time of year than were offered in Chicago this year. Cyclamens and poinsettias sold well, and when placed in hampers brought in some stores the highest prices ever reached. Green plants also sold with surprising readiness at a time when color is so much in demand.

Most of the cut flowers offered were good. The unusual call for plants did not seem to cut down the sale of cut flowers, but simply increased the volume of business done. One store is said to have handled at retail one thousand orchids and one hundred thousand violets, which gives an idea of what a good holiday trade means

in Chicago. All are agreed that prices held up well, showing some drop after Christmas Day, and nearly reaching normal after New Year's Day. At the beginning of this week trade was below the average owing, no doubt, largely to the warm weather and partly to the aftermath.

HOLIDAY MISHAPS.

Cleveland, O.—A lantern used for
heating purposes exploded in the deliv-
ery wagon of the J. M. Gasser Co.,
partially destroying the plants and
flowers with which it was filled.

Cleveland, O.—The delivery wagon
of Albrecht & Smith was hit by an
automobile on Christmas eve, and a
general shaking up of the orders was
the result with consequent damage to
the stock.

Racine, Wis.—A horse attached to
the delivery van of the North Side
Greenhouses in turning the corner of
State street hit a post, and demolished
the rear wheels of the wagon, but the
flowers were saved.

NEWS NOTES.

Washington, D. C.—G. C. Shaffer,
florist, has increased his floor space
by the addition of three rooms in the
rear.

The annual meeting of stockholders
and election of officers of the Chicago
Flower Growers' Market, took place
Jan. 5.

Ed Eisner, S. Halstead St., Chicago,
experienced his first Christmas in his
own store and it was a good beginning.
Mr. Eisner was for many years with
Samuelson.

The Kensington Flower Shop, Bos-
ton, has a big electric sign which may
be seen afar off and shows that the
proprietor appreciates the value of ef-
fective advertising.

Graniteville, N. Y.—Robert Thomp-
son, florist, has been acquitted of the
charge of arson recently brought
against him and his complete inno-
cence established by the court.

Chicago, Ill.—A. Magnuson on the
North side had the finest cut chry-
santheums the writer saw during
Christmas week. The varieties were
Jeanie Nonin and White and Yellow
Chadwick.

Mrs. C. Lundberg, whose husband
was struck and killed by the street
car last June, has bravely gone on
with the business and the trade are
glad to know she has been able to
meet with success.

BUSINESS CHANGES.

Harbor Springs, Mich.—T. J. Fet-
ters of the Feters Floral Co., has dis-
posed of his interest to Henry Babcock,
who will carry on the business.

Flower Market Reports.

BOSTON The week following New Years opened auspiciously, but the hot weather crippled business badly, increasing the product, impairing the quality and reducing the quality generally so that everything has been weak and brilliancy is lacking while present weather conditions exist. Prospects appear good, however, and the general sentiment is that the season opened very encouraging and promises a good year for the cut flower interests. A tour of the rose houses shows that high quality blooms are a certainty for the coming weeks.

BUFFALO The closing week of the old year ended very satisfactory to the trade. A fairly good cleaning up was had on everything. Roses, carnations and other stock were not overplentiful and prices held firm, the demand being heavy in the rose line especially for Killarney, Richmond, Reid and Bridesmaid. Carnations were in good supply and moved rapidly. Lily of the valley, violets, narcissi and other stock sold well. There is an abundance of stevia and other greens.

CHICAGO Warm, moist weather prevails in Chicago with the usual depressing result on business and on growing stock. The week opens with a very light trade. There is nothing in the way of local affairs to cause a sharp demand for flowers and the market is feeling the reaction after a good holiday trade. There is plenty of good stock, though such may not be the case by the time this reaches its readers if the unreasonable weather continues. Most of the unsold holly and other Christmas green has been hauled away, leaving the market a little bare in consequence.

PHILADELPHIA While prices did not rule so high during New Year's week as around Christmas, trade kept up well and there was a satisfactory demand. The demand for cattleyas slackened up and there is now enough of these to fill all wants. Crops of American Beauty roses have dropped off a little. Liberty and Richmond are of good quality and prices steady but moderate. Killarney and Jardine bring fine prices. Carnations are a trifle less plentiful. Lily of the valley is in better demand and cleans up well. Gardenias are being offered freely much below Christmas rates. Violets are rather on the scarce side. Early French daffodils are arriving.

WASHINGTON The week succeeding Christmas proved to be as good for the florist as the week previous had been. It was characterized by a loosening up on most everything that had been scarce at Christmas except red carnations, which still continue scarce. Prices held their own. Some fine panises from near-by growers are being sent in now, and sweet peas are shown in quantities and of very fine quality.

Detroit reports that business in that city is keeping up satisfactorily since the Holidays. The supply is short on some things, especially roses. Violets are picking up in quality and quantity and sell well.

OBITUARY.

Charles Kaehlert, Jr.

Charles Kaehlert, Jr., born June 2, 1883, died on Dec. 21. His father is proprietor of the South Side Greenhouses, Joliet, Ill. He leaves a widow.

Margaret McClements.

Miss Margaret, sister of Samuel McClements of Pittsburg, Pa., passed away on Christmas eve.

Christopher Cordes.

Christopher Cordes, one of the old-time gardeners of Chicago, died on Dec. 27, at the age of 65. A widow and four sons survive him.

Arnold Reckhard.

Arnold Reckhard, landscape gardener of Poughkeepsie, N. Y., died at his home on Dec. 22, aged 51.

Arthur E. Clark.

Arthur E. Clark of East Weymouth, Mass., well known to the trade in the vicinity of Boston, succumbed to an attack of pneumonia on Dec. 24. He was 30 years of age and leaves a widow and two children.

W. F. Cooper.

W. F. Cooper, of Medway, Mass., for many years engaged in the greenhouse business, dropped dead at his home on Jan. 4. He was 76 years of age. A widow and two sons survive him.

The sympathy of the trade is extended to U. J. Virgin of New Orleans, whose little son, Irby Joseph, passed away on Christmas Day.

DURING RECESS.

The Astoria Florists' Bowling Club of Long Island City, N. Y., had a Ladies' Night on Tuesday, Dec. 29. As this date happened to be the 56th birthday of W. H. Siebrecht, that estimable gentleman provided a splendid supper which, needless to say, was thoroughly enjoyed. Speeches of appropriate character for the occasion were made by several of the guests. It was arranged that on Thursday, Jan. 7, the club would visit the Flatbush Bowling Club and try conclusions with them on their alleys. Mr. Siebrecht's touring car being placed at the disposal of the club for transportation. Scores were made as follows:

Siebrecht, Sr.	168	130	117
Donaldson	133	190	182
Kessler	211	155	124
Miesem	190	198	117
Siebrecht, Jr.	119	88	130
H. Siebrecht	104	107	104
Donfer	172	181	—
Lawrence	97	116	127
Shaw	153	110	127
Jacobson	149	111	115
Pleckween	125	109	88

MOVEMENTS OF GARDENERS.

Hollywood, Cal.—J. R. Hills, formerly with J. W. Wolfskill, has taken a position on the estate of William Haerle.

William Fisher, formerly assistant gardener to H. Gould, has been appointed gardener to Commodore Lutgen, Villa Linta, Redding, Conn.

William B. Jones, who has been greenhouse foreman the past four years for Mr. Griffin at the E. T. Gerry estate, Newport, R. I., has taken a position as gardener for T. J. Manson at East Hampton, L. I.

EVERYBODY KNOWS

Park, Cemetery and Landscape Gardening cannot be properly done without the aid of an accurate leveling instrument.

Bostrom's Improved Levels, No. 2 at \$15.00 and No. 1 at \$20.00, are conceded by all who KNOW to be the only Levels on the market which meet all the requirements, at the price.

Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make.

Shipping weight 12 lbs. Description on request.

NEW YORK MARKET.

After a generally satisfactory holiday trade which was maintained with greater steadiness after it got under way than in some past years the usual reaction has set in and since New Year's day trade has been rapidly weakening. The result is a steady decline in values from day to day which is hastened by the increasing supplies of carnations and roses, due in part to the very warm weather of the past few days. Predictions are for a very cold wave to follow and doubtless by the time these notes get into print there will be "something doing" in the wintry line, which may stop for a while at least the downward tendency of the market. We hope to see good paying values prevail for the next few weeks. It will be better for all interests.

In ordering goods please add "I saw it in HORTICULTURE."

NEWS NOTES.

Grand Rapids, Mich.—At a meeting of the directors of the Grand Rapids Greenhouse Co., Charles W. Garfield was elected a director and later president of the company in place of F. M. Strong, deceased.

Winchendon, Mass.—The boiler house connected with the greenhouses of W. H. Rhuland was destroyed by fire on Jan. 1, but fortunately the plants were not injured. The loss is estimated at \$4500.

An observant and always-alert grower asserts that much of the "diseased" Easter lily plants which some forcers complain of are the direct result of injudicious treatment while growing. He gives as an infallible rule in successful lily forcing: "Get a temperature and stick right to it; fluctuations are fatal."

The compromise rate of 20 cents an-

FANCY and DAGGER

Extra fine, \$1.50 per 1000. Bronze and Green Galax, \$1.25 per 1000, \$7.50 case of 10,000. Leucothoe Sprays, \$1.00 per 100, \$7.50 per 1000.

RECEIVERS & SHIPPERS OF CUT FLOWERS.

CONSIGNMENTS SOLICITED.

nounced by the American Express Company as a minimum charge on small parcels locally, which was accepted by the Boston merchants, is not satisfactory to the New Hampshire people, who assert that the old rate of 15 cents was sufficiently profitable and should be restored.

Why My New Curved Iceless Eave is Far Superior to Anything on the Market Today

- 1st. No sash bars incased in iron, thereby eliminating all danger of bars decaying.
- 2nd. Can be used in conjunction with iron frame construction, thereby doing away with that very objectionable feature, "columns."
- 3rd. Roof bars with drip grooves, which act as conductors to carry away the condensation: Result, the driest roof ever used for greenhouse purposes.
- 4th. THE MOST IMPORTANT OF THEM ALL. The very small increase in cost over the ordinary style of construction which makes it possible to be used for commercial as well as private purposes.

William H. Lutton, Horticultural Architect and Builder

THE TEST PRACTICAL

The practical part is this: to manufacture materials only, is one thing, but to prove their defects by erecting them ALSO, is quite another. We both manufacture and erect our own materials, which gives us every chance to see defects and make improvements. The question is do you or do you not want the up-to-date enduring construction? If you do, then get into communication with us.

Send at once for Half Iron Frame Circular.

WHY THE U-BAR WAS CHOSEN HERE

The owner lives in a large city where space is both valuable and limited. He wanted a house that would fit attractively in this limited space. The many nearby buildings shutting off the light made it absolutely imperative that it should be the lightest possible construction in order to secure best growing results. For these reasons he chose the U-Bar. Is he satisfied? Well, his neighbor recently built one too, and you know neighbors talk things over. You better send for our catalog.

Roses Under Glass

PROPAGATION

Before filling in the sand, the propagating bench should be thoroughly overhauled and repaired. Spaces between the boards and places where the sand is likely to run through should be covered with thin strips of wood—laths, for instance, or caulked firmly with sphagnum. See that the pipes underneath the bench are in good condition as it is of utmost importance that a uniform temperature be maintained during the entire period of root formation.

Sand for roses should be clean and sharp, not too gritty, and free from any decomposing matter. Some growers prefer to sterilize their sand, but with proper care good results are obtainable from the ordinary material. When the bench is filled moisten the sand well and pound it down firm leaving a depth of about four inches.

CUTTINGS

About the style of cuttings so much has been said that there remains very little to be added. A good sized cutting with three or four eyes seems to have become generally adopted, and as, in these push-and-go-ahead days the desire is for a large plant in the shortest possible time, the medium is perhaps the best that could be employed.

In making the cutting use a sharp knife and cut clean and short, almost straight across, as the smaller the wound the quicker will be the healing process and more uniform the arrangement of the young roots. Keep the wood and cuttings well moistened until the cuttings are placed in the sand.

About 1 inch apart in the row and from two to three inches—as size of cuttings suggests—between the rows will be close enough to place the cuttings. Overcrowding is often the cause of many of the cuttings decaying in the sand, and should by all means be avoided. As soon as a batch is inserted in the sand they should be given a thorough watering and, if necessary, shaded.

TEMPERATURE

The temperature at which to maintain the sand is rather an open question as some of the new varieties of roses do not take kindly to the treatment bestowed on Chatenay or Richmond, for instance. Most of the older varieties strike well in a sand temperature of 62 degrees with the house at 52 to 54 degrees, but until we have learned a little more about the habits of the new roses we cannot say with any degree of certainty that this temperature is suited to them.

SPRAYING AND WATERING

Spray the cuttings frequently during bright weather, as the moisture on the foliage is a great factor in helping to produce a good and uniform strike. The cuttings are very sensitive to erratic watering, therefore a careful examination of the sand previous to the performance of this duty becomes absolutely necessary. Leaves which may fall from the cuttings should be re-

moved as soon as they are noticed. If allowed to remain, a fungus growth quickly forms on them which, spreading itself to the cuttings depletes their number in an incredibly short time. Constant care and proper treatment alone are contributable to the propagator's success in bringing out a goodly percentage of well-rooted cuttings.

J. E. Simpson

Lorraine Begonias

The illustration shown on the cover page will give readers of HORTICULTURE a fair idea as to how the society ladies of England like their greenhouse arranged. In the house illustrated there were somewhere over a thousand large plants used, besides hundreds of hanging baskets. Nothing but the pink Lorraine was used, and needless for me to say the effect was simply bewildering to those who saw it for the first time. This style of showhouse within recent years has become remarkably popular in England. I am not quite sure but I think that it was the late Baron Rothschilds who first started the craze of devoting long ranges of glass to one particular kind of flower. At Waddeson Manor, Buckinghamshire, one of the most up-to-date private establishments in Britain, many original ideas of this kind were carried out, and here it was where the all one color idea got its start.

I remember visiting a large establishment in the south of England a few years ago, where over three thousand Lorraines were grown for show purposes alone. A long range of five houses were entirely given up to them and as usual the roof was completely hidden with hanging baskets. It was there where I first saw the mirror arrangement done to perfection. All the doors and partitions of the houses were made so that they could be removed when the begonias were brought indoors, and at the extreme end of the range a clever arrangement of mirrors gave one the impression of an endless house of begonias. So cleverly were the mirrors arranged and so perfect the deception that the visitor's reflection did not appear on the glass until he was within two or three yards from it.

A show house of this description might to some appear to be too much of one thing to be appreciated, but somehow I think that a range of glass in a public garden or park arranged in this fashion would draw more people in a week and interest them more than the choicest collection of plants would draw in a year. The idea is worth the consideration of some of our philanthropists.

Support

the S. A. F.

In his little address to the florists of America which appears in this issue, President Valentine makes a reasonable and well-grounded appeal to the sense and good judgment of the trade. It is due to Mr. Val-

entine and to all those officially associated with him in the good work to which the national society is committed that his words be given respectful and thoughtful consideration. Furthermore, every individual dependent upon any department of the floricultural industry owes it to himself—even from the most selfish standpoint—to give such aid as he can in the struggle to secure for him relief from burdens which are costing him dearly. "God helps those who help themselves."

We shall not be surprised if within

Chrysanthemums

from seed

a year or two the offering of carefully fertilized seeds of at least one

class of chrysanthemums—the single

earlies—should be taken up as a specialty by firms in this country and abroad who have heretofore dealt only in young plants under name. These varieties produce seed in abundance and the raising of plants from seed is simple enough. Chrysanthemum growers are well aware of the fact that plenty of varieties equal in all respects to the named parents can be found in any batch of seedlings from these sorts. This was plainly demonstrated in the chrysanthemum show at Boston last fall when an extensive array of seedlings from W. N. Craig suffered nothing in comparison with the exhibits of the best imported named varieties. As small pot plants to be sold at popular prices, as are Chinese primroses and cinerarias, for instance, the general florist ought to do a big and profitable trade in season with these easily grown subjects.

Reports received from the important

The flower

market

flower centres indicate the usual reaction and shrinkage of values generally from holiday standard to the scale of prices

which were in effect previous to the Christmas activity. An assurance that even these rates would run along without material change until Easter would undoubtedly be hailed with joy by the growers but there is no reason to doubt that the customary slump may be looked for about the time Lent comes in and the plants begin to respond to the warm sun of early spring and consequently much anxiety is now felt over the situation for it is much easier to break prices than to restore them, and it is only natural that solicitude should be expressed as to the duration of the present inactivity and its influence upon the standard of values for the few critical weeks in which lies any hope of reimbursement for the year's labor. Extreme fluctuations are always to be deplored but nobody has yet perfected any practical way to prevent their recurrence in the course of a business dealing with a product not only perishable but uncertain as to supply and demand. While this remains true there will be periods in which the product must be sold below cost and therefore we must also have compensating periods when the goods must return more than a reasonable profit, otherwise disaster is inevitable among the producers.

PERPETUAL FLOWERING CARNATION SOCIETY.

The fifth show of the above society was held on December 9 in the Royal Horticultural Hall, London, Eng., and a very brilliant display was made. Secretary E. F. Hawes and the officers are to be congratulated on the result. The schedule provided for 38 classes of collections, groups, vases, bouquets and table decorations, most of which were well filled. Section C, open to members, included several prizes presented by American growers, viz.: E. G. Hill, Fred Dörner and the F. R. Pierson Co. New varieties were judged by the Floral Committee on the following scale: Color 20 points, size 20, fragrance 10, substance 10, calyx 5, habit of plant 20, form 15—100. To obtain a first-class certificate, a novelty must obtain 85 points, and 75 for an award of merit.

A gold medal was awarded to Mr. Leopold de Rothschild for a finely flowered collection in pots. The blooms were superb and consisted among many others of Jessica, Eclipse, Beacon, Winsor, Melody, Flamingo, Enchantress, Lady Bountiful, Mrs. M. A. Patten, etc.

Bell & Sheldon had a fine lot—carnations and winter flowering sweet peas. They, too, received a gold medal, having a fine display of unnamed seedlings and beautiful bouquets of Aristocrat, Britania, Beacon, Mrs. H. Burnett, White Perfection and others.

Hugh Low & Co. made a grand display in the middle of the hall with a large circular stand having shelves all around it. Ornamental greenery was interspersed with vases of cut blooms of the best and most up-to-date carnations. Unnamed seedlings were in quantity, Helen Gode, Winsor, Victory, Beacon, Rose Enchantress, Britannia and many more besides.

A gold medal, the first prize in Class 1, was awarded to W. E. Wallace, a fine collection of cut blooms on a table 10 feet by 3 feet.

An imposing lot of Rose Doree was made by Mr. Lancashire, and was awarded a silver medal. There were ten large vases of it, besides several smaller ones. A big bloom and a soft delicate color.

H. Burnett had a large silver medal for a group in great variety. Fortuna, Snowball, Winona, Rose Pink Enchantress and others previously named were shown in large numbers.

A similar award went to Cutbush & Son, whose flowers were staged in tall stands. Jas. Veitch & Son had a good lot of American sorts. Winona, Melody, Afterglow, Mrs. T. W. Lawson, Winsor were only a few of the most meritorious. They also showed a long group of winter flowering begonias that made a fine array of color.

G. Engelmann also had a large silver medal for carnations. Seedlings in quantity, also My Maryland, Red Lawson, Winona, Andrew Carnegie, Beacon, etc.

Heath & Son showed Yellow Queen and Golden Glory.

A silver medal went to the American Carnation Nursery at Sawbridgeworth for an imposing display of well-grown flowers staged in good form, and including Victory, Boston Market, The Belle, Imperial, Afterglow and all the better known standard kinds.

G. Lange showed a fine lot in vases

and received a large silver medal, as also did John Peed & Son, and C. E. Waters. There were several other exhibitors of rock plants, foliage plants and other things of interest.

C. HARMAN PAYNE.

PUBLICATIONS RECEIVED.

Chrysanthemums. A practical treatise on their propagation, cultivation, training, raising for market, exclusively out of doors in the garden or field. By Dr. J. H. Thomas. Price, 25c.

Bulletin 213 of the New Jersey Agricultural Experiment Stations, by John B. Smith, Sc. D., is a very valuable treatise on Insecticide Materials and Their Application, with Suggestions for Practice. Spraying machinery, nozzles, the various poisons used in the work, analyses of certain proprietary compounds, mineral oils, etc., with directions for their mixture and use for different purposes and kindred topics are well covered, and the pamphlet is a good thing to have handy for reference. We are pleased to see that it has a good word to say for B. G. Pratt Company's Scalecide, a preparation continuously advertised in HORTICULTURE.

The Nineteenth Annual Report of the Missouri Botanical Garden has been received. It is a volume of nearly 300 pages and there are 35 full page plates. Among the valuable botanical contributions is a paper by Prof. C. S. Sargent, describing and classifying one hundred and three species of Crataegus indigenous to Missouri. Nearly one half of the book is devoted to an Ecological Cross Section of the Mississippi River in the Region of St. Louis, a very elaborate production of much scientific interest by Henri Huss. In the report of the Director, Professor William Trelease shows that the institution is being conducted on a high plane of usefulness, and its affairs are prosperous in all departments.

Bulletin 259 of the Department of Horticulture, Cornell University, is devoted to the peony. The author is J. Eliot Coit. The bulletin will be found very valuable as a reference book by peony fanciers. It comprises 80 pages, illustrated with numerous portraits of varieties, giving much information on the history, culture, classification and description of varieties which appear to be fairly authentic as to nomenclature and description. In an introductory note Prof. John Craig intimates that this bulletin is only a beginning of the work contemplated and will be followed by others as fast as definite results are reached. A bibliography of peony literature is included in this number.

The twenty-fourth annual convention report of the Society of American Florists and Ornamental Horticulturists has been received from Secretary Rudd. It is a publication of 276 pages, similar in make-up to the preceding annual reports and containing the proceedings in full of the convention at Niagara Falls last August, reports of State Vice-presidents, Entomologist, Botanist, Pathologist, details of the trade exhibition, bowling contests, etc., with a list of the officers, committees and members, and statistics of mem-

bership. Brief reports of the transactions of the American Carnation Society, American Rose Society, Ladies' Society of American Florists and Florists' Hall Association are also included.

We miss two familiar features of the preceding annual reports—the frontispiece portrait of the president-elect and the list of plant introductions for the year. The reports of entomologist, botanist and pathologist are new and useful features but we believe the list of plant introductions would add value to the volume. The list of members, life and annual, totals \$89.

PROMOTING ROOT GROWTH IN ROOT CROPS.

What means have we growers and cultivators by which we can induce or further root-growth in such forms as carrots, parsnips, turnips, beets, ginseng and similar commercial roots?

In a case like any of the above our aim is to get large roots, not taps. What can we do, presuming the crop is worth the effort? W.

The best means to promote root growth in the crops referred to is to give each plant space enough for the proper development of its root. Given sufficient light and air the nitrogenous food which under crowded conditions produces excessive leaf growth, will be stored up in the roots. In this country we are apt to neglect the thinning of the root crops. In Europe turnips are usually sown in drills two and a half feet apart and the plants thinned to eight inches distant in the drill, by means of a sharp hoe the blade of which is the correct width for the purpose. The result is that the turnip roots usually fill the eight-inch spaces. The same care is bestowed in thinning other root crops such as carrots, parsnips, beets and mangels, giving each sufficient space according to its growth, for full development of the root.

Occasionally an insufficient root-growth may result from acidity of the soil; this may be corrected by a liberal application of air-slacked lime. In most cases, however, it is the result of crowding the plants.

OUR EXCHANGES.

The Long Island Agronomist is sending out as a 1908 year-end supplement a reprint of "Agricultural Enquiries" from Judge Richard Peters' Book, published in 1796.

The Fern Bulletin, quarterly issue for October, 1908, has been received, and we add it with pleasure to our treasury of valuable literature. It is as usual, carefully compiled, and contains a number of interesting scientific contributions from eminent fern students, illustrated with original drawings. It is the official organ of the American Fern Society. Published by Willard N. Clute & Co., Joliet, Ill.

A serviceable little desk tray, for ashes or pins or other odds and ends comes to us with the compliments of W. Atlee Burpee & Co. A medalion in the center shows an ideal musk melon and tells us where to buy "seeds that grow." Burpee has such winning ways.

NEWS OF THE CLUBS AND SOCIETIES

PITTSBURGH FLORISTS' AND GARDENERS' CLUB.

At the regular meeting of the Club on the evening of Jan. 5th about fifty members were in attendance. There was one election to membership, and five nominations. E. Blind and W. A. Clark were appointed to audit the accounts.

The president called attention to the fact that at the Washington convention of the Carnation Society in January, 1908, an invitation had been extended to the Society to hold their next convention in Pittsburgh, in January, 1909, and asked the sentiment of the Club as to inviting the convention for 1910. The sentiment seemed to be wholly favorable, and the secretary was instructed to prepare a letter of invitation.

The nomination of officers for 1909 resulted in the following names being presented: President, F. Burki; vice-president, P. S. Randolph; treasurer, H. L. Blind; secretary, H. P. Joslin; assistant secretary, C. S. Crall. Executive Committee: E. C. Reineman, Jno. L. Wyman and Jno. Bader.

It was Rose Night, with a competitive display by the private gardeners on primulas, cyclamens and roses. R. Pierson Co., sent a large vase of White Killarney, staged by their Mr. Fotheringham, and the S. S. Pennock-Meehan Co., sent roses Mrs. Jardine and My Maryland. The Waban Rose Conservatories sent some magnificent blooms of White Killarney which arrived too late for the meeting but were exhibited next day at the rooms of the Pittsburg Cut Flower Co.

White Killarney was for the first time before our Club and there was universal appreciation of its fine blooms. My Maryland was also new to us, and though Mrs. Jardine is grown here to some extent it had not before been exhibited. Letters from the exhibitors were read in which, for Mrs. Jardine, they claimed that many growers did not handle it properly; that it was as fine as any pink rose they were receiving, but was not a summer rose. My Maryland, on the contrary, is a good summer rose, a strong feature about it being that it does not fade out when hot weather comes.

The judges, Jas. Hutchinson, D. Fraser and Harry Bunyard, awarded first class certificates to F. R. Pierson Co., for White Killarney and S. S. Pennock-Meehan Co., for Mrs. Jardine and My Maryland. Cultural certificate to Pittsburg Rose and Carnation Co., for roses Bride, Bridesmaid, Richmond, Madame Cusin and Bon Silene buds. Favorable comment was made on carnation seedlings from the Finlayville Floral Co., and on primulas from North Side Park Conservatories.

In the private gardeners' competition the committee awarded first prize for *Primula sinensis* and *Primula stellata* to N. C. Madsen, gardener for R. H. Boggs, Sewickley, and for 12 Tea roses to W. J. Wiseman, gardener for D. M. Clemson, Pittsburg.

CHICAGO FLORISTS' CLUB.

The Chicago Florists' Club held their annual election Thursday, January 7th,

with the following result: President, Geo. Asmus; vice-president, T. E. Waters; recording secretary, J. H. Pepper; corresponding secretary, F. J. Johnson; treasurer, E. F. Winterson; trustees, Leonard Kill, J. F. Klimmer, H. N. Bruns, C. H. Fisk and August Pochmann.

In the absence of President Leonard Kill and Vice-president Geo. Asmus, Mr. Benthey was elected chairman. As Mr. Benthey was also chairman of the Nominating Committee he called Harry Phillips to the chair. After the report of the Nominating Committee had been read, nominations were made from the floor. After considerable discussion of the by-laws pertaining to elections the voting took place.

Mr. Benthey reported for the Transportation Committee that no reduction would be made in the rates to the Carnation Convention. The Chicago

GEORGE ASMUS

President-elect Chicago Florists' Club.

florists will leave for Indianapolis via the Panhandle route at midnight, Jan. 26th and reach Indianapolis at 6 A. M. the 27th. Sleepers can be occupied till 7.30. It is expected that Chicago will be well represented. Fare each way \$3.70, sleeper extra.

AMERICAN CARNATION SOCIETY.

Carnations Registered.

By John S. Pfeuffer, Irvington, N. Y.—Mrs. Pfeuffer, parentage, Prosperity and Floriana; color, white splashed with deep pink; size, 3 1/2 inches; habit, strong, healthy grower, stiff long stems, heavy bloomer (Dec. and Jan.), never bursts calyx, very fragrant and an excellent keeper.

By Henry Eicholz, Waynesboro, Pa.—Washington, a dark pink sport of Enchantress; in color a dark glowing pink; size of flower four inches, habit identical with Enchantress.

Registered provisionally, subject to cancellation by the Society.

Alvina. Parentage, Lawson and a pink seedling; color, clear cerise pink; size, 3 to 3 1/2 inches; habit, ideal; calyx burst proof, floriferousness phenomenal, stem up to thirty inches.

ALBERT M. HERR, Sec'y.
Lancaster, Pa.

NEW JERSEY FLORICULTURAL SOCIETY.

The monthly meeting and annual installation exercises took place on January 8, conducted by Rev. H. Lightie, an honorary member, and President Malcolm MacRorie, Vice-President Edwin Thomas and Treasurer William Reid were duly installed. Secretary-elect John Dervan finding it impossible to give the necessary time as secretary resigned and a new election was ordered at which Joseph B. Davis was elected unanimously and entered upon his duties. The policy of the society was outlined among which the holding of special Carnation, Dahlia and Chrysanthemum nights was determined on and closer social relations with sister societies. An invitation was given by Joseph A. Manda on the part of the Morris County gardeners and representation promised at their smoker this week. The treasurer's report gave a cheerful balance and the secretary's showed an increase of members, while it noted with regret the deaths of David A. Rose and William Barr. Among the committees appointed by President MacRorie are eight of younger and more energetic men to attend to much of the outside work of the society and select the attractions for the monthly meetings.

The floral display for the evening consisted of *Cattleyas maximum* and *Trianae alba* from Thomas Jones of Short Hills, carnation Georgia from James D. Cockerott, hybrid *Cypripediums* from Edwin Thomas, gardener for George Graves; carnations Lady Bountiful, Enchantress and Winsor from William Reid, gardener for S. & A. Colgate, carnations from John Hayes, gardener for Charles Munn, freesias, violet Governor Herrick and carnation Rob Roy from Max Schneider, gardener for Charles Hathaway.

JOSEPH B. DAVIS.

CONNECTICUT HORTICULTURAL SOCIETY.

The annual meeting of this society was held in the County Building, Hartford, Jan. 8, President Huss in the chair. Officers for the ensuing year were elected as follows: President, J. F. Huss; vice-president, J. Gerard; treasurer, W. W. Hunt; secretary, A. Cummings, Jr.; botanist, Geo. W. Smith; pomologist, C. H. Siernan; librarian, C. S. Comstock; executive committee, C. H. Siernan, Amos Reynolds, J. M. Adams, J. Gerard, C. S. Comstock. A summary of the treasurer's and secretary's reports shows the society to be in a most active and prosperous condition. During the season twenty-two meetings have been held; at nine of these meetings exhibits of plants and cut flowers in season have been tabled. The annual dahlia and chrysanthemum shows both proved very successful and should do much to encourage the committees in their future efforts. The following cultural awards were made during the season: Diplomas 29, certificates of merit 33, honorable mention 4. The membership roll shows a substantial increase of forty-seven new members.

A pleasing incident of this meeting

was the presentation of a handsome china closet to President Huss. Geo. W. Smith made an able and appropriate presentation address, which well conveyed the esteem and sentiment of the members. In concluding his address Mr. Smith complimented the society on having as its president a man who, in addition to his genial personality, is a noted worker in the interests of horticulture and the welfare of the society.

NEW YORK FLORISTS' CLUB.

The January meeting of the New York Florists' Club was a sort of inaugural session and the attendance was large and representative. The retiring president, C. B. Weathered addressed the meeting in a few felicitous words, thanking the members for the assistance in maintaining the prestige

of the country would prosper in proportion as we have more love and less fashion in floral matters.

The other incoming officers were then severally introduced and responded briefly and the retiring officials presented their reports. Retiring treasurer Allen's report showed the treasury to be in excellent shape and same was confirmed by Mr. Marshall for the Board of Trustees, a balance of \$3150.81 being duly accounted for. The various committees for the coming year: legislative, essays, awards, exhibition, house, outing, bowling, etc., were then appointed by the president. It was voted to donate to the Chrysanthemum Society of America one silver and one bronze medal of the New York Florists' Club for award at their next fall exhibition.

Harry Turner reported for the com-

LENOX HORTICULTURAL SOCIETY.

Saturday, Jan. 2, being an ideal night, the members of the Lenox Horticultural Society turned out in full force to support the newly-elected officers, which argues well for the new year. The meeting was full of interest from start to finish. President Allan Jenkins occupied the chair. Messrs. Arthur Rescane and James Kenzie were elected active members of the society. Percy Ellings was unanimously elected assistant secretary. It was voted to hold the society's annual ball, which is always looked forward to with much interest in Lenox and vicinity, also dinner, the committee for the former being Messrs. J. Clifford, H. P. Wookey and W. Jack; for the latter Messrs. E. Jenkins, A. H.

NEW YORK FLORISTS' CLUB OFFICIALS.

President Hallock Gives a Beefsteak Dinner to the Retiring and Newly Elected Officers and the Trade Press.

of the organization through the year of his incumbency and then introduced his successor E. V. Hallock who, after courteously putting a motion of thanks to the retiring officers proceeded to express his views on the duty and work of the club for the coming year. He said that a president counts for naught without the support of loyal members and while fraternal fellowship is all right in its way yet the club stands for much more than that. "A germ of thought is often worth a pound of advice" and every member would be expected to devote some of his best thought to the interests of the club during the coming year. He referred to the movement for horticultural education and its influence on the future happiness of the people and declared that the floricultural interests

mittee on awards that they had journeyed to Scarborough and examined the new rose White Killarney as growing there and had awarded 89 points and a certificate. Awards for the evening were a cultural certificate to Harry Turner, for some superb blooms of hybrid amaryllises, certificate of merit to J. A. Peterson for new Begonia "President Taft," vote of thanks to F. W. Fletcher for Violet "Baronne Rothschild." On a fern shown by G. Giarres the committee reported that it would defer judgment until it could have an opportunity to compare same with other existing sports of Nephrolepis.

The next meeting will be Carnival Night and three prizes are offered by A. H. Langjahr for 25 blooms of a variety not yet disseminated. The club has now eight life members.

Wingett, A. J. Loveless, S. Carlquist and F. Heoremans, the dates to be decided by the committees.

The following questions were asked and created lively discussion: What is the proper depth to lay drain tile? The proper depth recommended by those present for average soils was from three to four feet, from thirty to forty feet apart, though instances were quoted where drains laid to the depth of four feet in heavy clay soils had failed to bring about the desired results, and from two and a half to three feet in heavy tenacious soils had been found more satisfactory. It must be taken for granted that the shallower the drains are laid the closer they should be together; for instance, drains laid at the depth of four feet should be effective for a distance of

twenty feet on either side, consequently 40 feet apart is considered the proper distance, while drains laid at three feet or less should be correspondingly closer together.

Is bleeding injurious to vines or trees? The general opinion was that bleeding as it is understood horticulturally was not necessarily dangerous to vines or trees in a thoroughly healthy condition, and while it is not recommended to wilfully prune vines or trees when they are apt to bleed, numerous instances were cited where maple and birch trees had bled profusely and yet showed no signs of material injury.

Why is it that standard fruit trees are planted in preference to pyramid or bush? The consensus of opinion was that pyramid or bush trees were preferable to standards in many ways. First, that nearly three times as many could be planted per acre, they were much easier to prune and keep clean and could be got into full bearing in lesser time, and better fruit could be produced, but they were not so long-lived as standards.

Visitors: J. Beaton, of R. & J. Farquhar & Co.; T. J. Grey, Boston, and Jas. B. McArdle, New York.

G. H. INSTONE, Secretary.

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

The next regular monthly meeting of the Gardeners' and Florists' Club of Boston will be held at Horticultural Hall, Boston, on Tuesday evening, Jan. 19. This being the first meeting of the year the officers elected at the December meeting will be installed. Following the custom adopted for several years past, ladies are cordially invited to be present on this occasion. An appropriate entertainment will be furnished and the exhibition table will be, as usual, an attractive feature.

CLUB AND SOCIETY NOTES.

The fifth annual meeting of the Alabama State Horticultural Society will be held in Mobile, January 26th and 27th.

A. E. Chilman, gardener for Mrs. Bowen, lectured upon *Gladiolus* before the Mt. Desert Horticultural Society, Bar Harbor, Me., on January 14.

At the annual meeting of the Cumberland County (Me.) Horticultural Society on January 6, J. L. Robinson was chosen president and Dr. C. H. Leighton of Westbrook, secretary.

"Small fruit culture" is the subject of the conference scheduled by the Worcester County Horticultural Society, Worcester, Mass., for Jan. 21, and Wilfrid Wheeler of Concord, Mass., is the chief speaker.

The next lecture before the Massachusetts Horticultural Society will be given by Prof. E. Dwight Sanderson, Durham, N. H., on January 16, at 11 o'clock, in Horticultural Hall, Boston. Subject, Garden Insects and how to control them.

The Albany Florist Club held its annual meeting on January 7 and elected the following officers: President, F. Goldring; vice-president, F. Henkes; treasurer, F. A. Danker; secretary, J. Butts; trustees, W. C. King, A. E. Whittle, P. Hyde, E. Meaney, F. Snare, W. Kurth. After the meeting a spread was enjoyed at German Hall.

The Southampton (N. Y.) Horticultural

Society met on Jan. 7 and elected officers for 1909 as follows: President, W. F. Halsey; vice-president, U. G. Ager; secretary, B. C. Palmer; treasurer, Julius King. During the winter a course of lectures will be carried on, the first one to be given on Jan. 21, by H. B. Fullerton; subject, "The lure of the land."

The Virginia State Horticultural Society met at Lynchburg on Jan. 7 and had a profitable session. Dr. J. B. Emmerson advocated the growing of chestnuts, and Hon. A. McNeill of Ottawa, Canada, urged co-operation in selling fruit. The Emmerson cup went to Dr. Parsons of Massie's Mills for best collection of apples. Officers were elected as follows: President, W. W. Sproule; treasurer, Walter Whately; secretary, H. L. Price, Blacksburg.

DURING RECESS.

The Astoria Florists' Bowling Club on Thursday journeyed to Flatbush in

PHILIP F. KESSLER.

Wm. H. Siebrecht's large touring car. After visiting the different greenhouses and enjoying a good supper, they proceeded to the bowling alleys and took up the business of the evening. Mr. Kessler of the Astorias offered three valuable prizes for the three highest scores in the second game. Although Mr. Kessler made the highest score, he of course did not compete. The result is shown below:

FLATBUSH.		ASTORIA.	
Zeller	124	Finsmann	125
P. Dailledouze	127	Donaldson	178
H. Dailledouze	177	Mieson	153
Wicker	145	W. H. Siebrecht	115
Reddy	124	Jacobson	167
Schnautz	136	H. Siebrecht	92
Schnautz, Jr.	166	Lewington	141
O. H.	132	Kessler	183
Eigsten	112	Siebrecht, Jr.	96

The prize winners were J. Donaldson, H. Dailledouze and P. Jacobson. The Astorias invited the Flatbush Club to come to their alleys some time in February.

OBITUARY.

J. T. Montgomery.

J. T. Montgomery, a carnation specialist of Toughkenamon, Pa., died on January 1, after a brief illness.

S. S. Brenneman.

S. S. Brenneman of Webb City, Mo., died December 26, aged 62. He was born at Harrisonburg, Va., and had conducted a florist business in Webb City since 1896.

George Burnham.

George Burnham, who was early identified with the corn packing industry of the country, and is well known among the seedsmen, died at his home in Portland, Me., on January 1.

S. L. Smith.

Samuel L. Smith, at one time employed in the greenhouses of H. L. Crawford at North Easton, Mass., died in Brockton on January 4, at the age of 46. A widow, three sons and a daughter survive him.

Lewis B. Paine.

Lewis B. Paine, who with his two sons has been engaged in the florist business in Randolph, Mass., for several years, passed away on January 1, at the age of 63. A widow, three daughters and three sons survive him.

Robert Smith.

Robert Smith, for many years a gardener at Wellesley College, died at his home in Dorchester, Mass., on December 5. It is thought that grief over the sudden death on Sunday previous of his wife, to whom he had been married over a half-century, was the cause. He was born in Scotland in 1826 and came to this country in 1854. Four children survive him.

Martin Griffin.

Martin Griffin, who came to this country almost 55 years ago from Ireland and who has been for the past 50 years florist to the Treasury Department at Washington, died at his home in that city, January 9th. Two years ago, in trying to save his wife, who was burned to death, he was badly burned, and within the past year has had to give up all business. He is survived by five sons and three daughters.

Carew Sanders.

The shock caused by the burning of his residence at 5738 Vernon avenue, St. Louis, Sunday, from which, a helpless invalid, he was rescued by his nurse, Mrs. Enis Halton, hastened the death of Carew Sanders, 82 years old. He died Wednesday evening, Jan. 6, at St. Luke's Hospital.

Mr. Sanders was a well-known florist and writer on horticulture. He conducted the Sanders nurseries at 5600 Delmar avenue until 20 years ago, when he retired and turned the business over to his son, C. C. Sanders. For many years Mr. Sanders contributed to horticultural magazines and journals, and was interested in the "city beautiful" movement.

He was born in Sussex, Eng. He

followed the occupation of florist in England up to the age of 21 years, when he came to America and secured employment in Cincinnati, where he remained for a time, later going to New York, where he was married to Miss Susan E. Samson. After his marriage, Mr. Sanders again returned to Cincinnati, and was engaged as florist for Joseph Longworth, grandfather of Congressman Nicholas Longworth. In 1857 Mr. Sanders removed to St. Louis.

Many beautiful floral designs were sent to the funeral by the local trade and friends. The St. Louis Florist Club, of which Mr. Sanders was a member for 22 years, sent a handsome wreath. The pall bearers were Fred C. Weber, Theo. Miller, J. J. Beneke, C. A. Kuehn, Fred Ammann, Frank Fillmore, E. H. Michel and F. H. Feinhardt. Many other members of the fraternity attended.

LONSDALE ON HYBRIDIZATION.

On Friday evening, Jan. 8th, Edwin Lonsdale was to have read a paper on hybridization and cross-fertilization to the students of the National Farm School, Bucks Co., Pa. At the last moment Mr. Lonsdale found it impossible to be present and the paper was sent to Mr. Fancourt, who read it in his stead. The students were intensely interested. Mr. Lonsdale took them back to the time of Theophrastus, who first saw the necessity of impregnating the date palm. He gave a history of the evolution of the carnation from the time of William the Conqueror to the present world-wide recognized American perpetual flowering varieties. He told of the earlier work of the European rosarians and of the later systematic efforts of Henry Bennett. His history of the pansy was a lesson in itself. Phloxes and other annuals were treated in a masterful manner. He spoke of the latest achievement in systematic hybridization in the results obtained in the Wichuraiana roses and Meehan's Mallow Marvels. At the close of the reading the students gave a hearty vote of thanks to the author.

FLORISTS' HAIL ASSOCIATION.

Secretary Esler of the Florists' Hail Association, calls the writer's attention to the fact that in condensing the report of that association for publication, certain important statistics were left out, and he wishes that members will correct the records as published in the annual report of the S. A. F. & O. H. by adding the following:

Extra half and extra whole insurance upon 7,354,293 square feet of glass, making a total risk upon 29,092,566 square feet of glass.

W. N. Rudd, Secretary, S. A. F.

AN ASSIGNMENT.

J. F. & D. J. Quinn, florists, of Harvard street, Brookline, Mass., have made an assignment. It is understood that the amount of liabilities is quite large. The firm have been heavy buyers at the Boston Flower Market and several prominent growers are hard hit.

A WORD FROM THE PRESIDENT OF THE S. A. F.

To each member of the S. A. F. and O. H. I send greeting and best wishes for the New Year.

This is to be an important year for the florists—the tariff is to be revised and you are all interested in the result. In addition to that it is necessary to follow up the work which has previously been inaugurated in the way of securing equitable rates from express and railroad companies, and the recognition of just claims presented against them. It is evident that a society that is strong numerically and financially can do more for its members than a weak one can, and I appeal to both your loyalty and to your self-interest when I ask you to at once assist in securing additional members. There are about nine thousand florist establishments of all kinds in this country and our society has a total membership of nine hundred, so that each member might find it possible to secure nine new members.

Of course we do not expect such results but it is not too much to expect that each member will get at least one new member, and thus quickly double our membership. No florist can consistently say you "Nay", for there is not one of them whose business importance has not been increased by the fact that for over twenty years our society has been consistently working to promote the calling in which he is engaged. If any men can afford to stay out of the society it would be the big concerns whose financial strength and whose volume of business would entitle them to a respectful hearing from any corporations with which they do business. But these very concerns are the ones you are certain to find enrolled on the books of our society. May it not be that some portion of their success is due to having associated with other bright men at our conventions and to the added enthusiasm bound to come from contact with successful men in the same line of work?

To my mind the annual report which is mailed to each member is of great value. It contains a complete list of the members with their addresses, and to those who do not have a regular directory of the florists of the country, it furnishes names of florists in nearly all the states. This list contains the live progressive men with whom it pays to do business.

If you had to send an order to be filled in a town where there were two florists and you knew nothing of either except that one belonged to the S. A. F. and O. H. and the other did not, would it take you long to decide as to which one you would take a chance on? Is not that point alone enough to bring the retailers into the fold?

We hope that the Tariff and Transportation Committee will be such diplomats that they will secure just what they want from Congress and that the Express Companies will concede all the things that can reasonably be asked of them.

But if a strong navy is a guarantee of peace to a nation, we may well assume that a strong membership and a full treasury will be our best reliance in securing the remedies we seek.

When the next annual report is published it will show how many new

membership fees have been sent in by each old member—Let your name be prominent among these active workers for the good of the society.

So I urge upon you to at once go to work and secure new members (not next month, but now) and thus render to the society the loyal service she has a right to expect from you; at the same time making your membership more valuable to yourself.

Yours for a larger and more powerful society. J. A. VALENTINE, President.

APPRAISERS' DECISION.

Before Board 3, December 10, 1908.

No. 20084.—Evergreen Seedlings—Norway Spruce—Protest 167628 of Wells, Fargo & Co. (New York).

Norway spruce, classified as evergreen seedlings under paragraph 252, tariff act of 1897, was claimed to be dutiable under the provision in the same paragraph for ornamental trees. Protest overruled.

Waite, General Appraiser: * * * The importers have offered no evidence in support of their contention. The appraiser makes a special report, which reads, in part, as follows:

Norway spruce is one of the commonest of the evergreens. It is never referred to or classified in commercial catalogues as anything other than evergreen, nor is it ever placed in the same group with what are called ornamentals—i. e., maples, chestnuts, elms, etc. The particular stock under consideration was a seedling, not grafted.

(The appraisers' conceptions concerning evergreens and "ornamentals" seem to be badly mixed. The decision itself may be a proper construction of the law but the ignorance displayed in the last four lines is awful.—Ed.)

ELM COURT FARM CLUB ROOM.

A striking example of the way a keen business man may care for the well-being of his employees is furnished by Mr. Wm. Douglas Sloan at his large estate in Lenox, Mass., where he has recently erected for the various employees a comfortable club room well heated and ventilated, and lighted by electricity. Installed therein is a pool table of the finest make, and a phonograph of the latest design furnishes musical entertainment. Chess, checkers, dominoes, cards and a well stocked library make the club attractive to the young men, keeping them interested and amused and away from the more or less harmful and expensive attractions of the adjacent city of Pittsfield. Mr. Sloan has not only earned the gratitude of his employees but has made a splendid investment that will bear continuous interest in more efficient work and in the mental, moral and physical well-being of his employees.

The Illinois Heater & Mfg. Co., 40th street and Wentworth avenue, Chicago, have now three acres of ground and a brick factory, 50x100 ft., at Downer's Grove. This will give them room for their rapidly increasing business in the manufacture of self-watering window and porch boxes, hanging baskets, lawn and cemetery boxes, jardinières, etc. This company will open an office in the down-town district of Chicago in a short time, probably on Lake street, and will be prepared to push their business better than ever before.

DISCOUNT ONLY FOR THE MONTH OF JANUARY

NEW EASTER BASKETS JUST ARRIVING

H. BAYERSDORFER & CO., 1129 Arch Street, Philadelphia, Pa.

NEWS NOTES.

J. A. Peterson of Cincinnati, O., has named a new begonia for President-elect Taft.

Oakland, Cal.—The Bay Tree Nursery Co., has recently started a sales yard on Telegraph Avenue.

Lockview, Pa.—A. T. Linn, of Finleyville, has bought the greenhouses of T. J. Allen and will continue the business.

Woonsocket, R. I.—S. Colitz, doing business under the name of the Rustic Flower Store, has moved to 306 Main St.

Miss Kate Furbish, a well-known botanist of New England, has recently given her entire collection of drawings to Bowdoin College.

Dran Hunt of the State School of Agriculture and Experiment Station, State College, Pa., in his annual message urged the need of a greenhouse and horticultural building.

Winchendon, Mass.—H. J. Whittemore, owner of the greenhouses occupied by W. H. Rhuland that were destroyed by fire January 1, has started plans for rebuilding on a more extensive scale.

Brooklyn, N. Y.—An overheated stove caused a fire in the greenhouse of Frank Albrecht, florist of Evergreen, on January 7, which destroyed about \$4000 worth of plants. The damage to the house is placed at \$2000.

Somersworth, N. H.—G. S. Ramsburg has nearly completed the rebuilding of his greenhouses that were destroyed by fire some two months ago and is rushing the work along in order to get his stock under way for Memorial Day.

Pasadena, Cal.—The Tournament of Roses was held for the twentieth time on January 1 and witnessed by fully one hundred thousand people. The day was perfect as to weather and the beautifully decked procession was two hours in passing.

A conference between the State Commissioner of Agriculture and leading horticulturists of the State at Albany,

N. Y., on Jan. 8, resulted in a decision to send to each nurseryman a warning against the brown tail moth which had been found in some importations of nursery seedlings recently arrived from France.

The nurseries of Salt Lake County, Utah, suffered considerably in December on account of the heavy snowstorms and frosts which caught the orchardists with their fall work about half completed, but by close observance of the weather practically every tree was saved, says Inspector J. P. Sorenson in his report.

The report of the fruit committee of the New Jersey Horticultural Society in session at Taunton on Jan. 7, reflects great credit on the products of the state. J. H. Barclay of Cranbury carried off the highest honors with some magnificent specimens of apples; Lemuel Black, Hightstown, C. B. Horner, Mt. Holly, and N. H. Conover, Riverton, had good exhibits. Chas. Black of Hightstown spoke on "Dwarf Apples—Are They Practical for Fillers." President Black urged legislation to prevent the manufacture and sale of adulterated fungicides and insecticides, and warned farmers and fruit growers to watch the railroads lest they be discriminated against in the proposed advance of freight rates. Howard G. Taylor of Riverton was elected secretary.

PATENTS GRANTED.

- 906,626 Fruit Harvester. George G. Schreiber, Hammond, Ind.
- 906,641 Grate. Eli L. Long, Cheektowaga, N. Y.

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. *Gladiolus* are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white *Gladiolus*. First-size bulbs, 1½ inches and up. \$2.00 per 100; \$18.00 per 1000.

Bulbs 1½ to 1¾ in. \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, flaked rosy crimson: the best forcer. Selected bulbs. \$1.75 per 100; \$15.00 per 1000.

Brenchleyensis (true). Flery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1½ in. and up. \$1.50 per 100; \$14.00 per 1000.

Bulbs 1½ to 1¾ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of *Gladiolus* in cultivation. \$1.00 per 100; \$9.00 per 1000.

ARTHUR T. BODDINGTON, Seedsman, 324 W. 14TH STREET, NEW YORK CITY.

The New Crested SCOTTII FERN...

NEPHROLEPIS SCHOLZELI

NEPHROLEPIS SCHOLZELI

This crested sport of Scottii will hold the same position to all the crested forms of Nephrolepis that Scottii now holds to the Boston. It is entirely distinct from all others and will become even more popular than its parent, with which it is identical in every way except that the pinnae are subdivided, giving it a beautiful crested appearance.

We have shown the plant at the exhibitions noted below and have been awarded the following honors:

SHAW GOLD MEDAL, St. Louis Horticultural Society, Nov. 3rd, 1908, for "Best plant, of decided merit for cultivation, not previously an article of North American commerce"

SILVER MEDAL, offered by the Society of American Florists, through the St. Louis Horticultural Society, Nov. 3rd, 1908, for "The most meritorious plant, or flower of American origin."

CERTIFICATE OF MERIT of the Horticultural Society of St. Louis, Nov. 3rd, 1908.

SILVER MEDAL, Pennsylvania Horticultural Society, Philadelphia, Nov. 3rd, 1908, for the best new plant.

CERTIFICATE OF MERIT, Massachusetts Horticultural Society, Boston, Nov. 6th, 1908.

CERTIFICATE OF MERIT, Dutchess County Horticultural Society, Poughkeepsie, N. Y., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Morris County Gardeners and Florists' Society, Madison, N. J., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Chestnut Hill Horticultural Society, Philadelphia, Pa., Nov. 4th, 1908.

We are booking orders now which will be filled in strict rotation June 1st, 1909.

Price per doz., \$3.50; per 100, \$25.00; per 1000, \$200.00. Twenty-five supplied at hundred rate and five hundred at thousand rate.

HENRY A. DREER, 714 CHESTNUT STREET, PHILADELPHIA, PA.

New Rose **White Killarney**

Come and see White Killarney growing at our Scarborough houses, and you will say at once, as every one does who has seen it, it is

The Best White Rose

they have ever seen. You need it if you want to be up to the times, and it will pay you better than any other white rose that you can plant. You will regret it if you do not plant it this year, and you will not regret it if you do.

Big lots are being booked. Get your order in early. Send us order at once, while you think of it. Get early stock. It will not cost you any more to order to-day, while you think of it, than it will two months from now. Be the early bird that catches the worm.

Strong young plants, 2½-inch pots, own-root, ready for delivery beginning February 15th, 1909. \$30.00 per 100; 250 for \$70.00; 500 for \$125.00; 1000 for \$250.00. Grafted plants, ready for delivery beginning March 1st, 1909, \$5.00 per 100 additional.

MY MARYLAND

This new rose, which was introduced last season in a limited way, has proved to be one of the best roses ever introduced. Every one is enthusiastic in regard to its merits, and it will be planted very largely by the largest, most progressive and most up-to-date growers, who have already placed large orders for it.

It is a strong, healthy, and vigorous grower, producing long stems and long pointed buds, exquisitely fragrant. The color is a soft salmon-pink. This is a rose that we can recommend in the highest terms, as we are sure it will prove very, very satisfactory. It is a welcome addition to our limited list of really first-class varieties for indoor culture; and it is not only a fine midwinter rose, but is also unusually good during the summer months.

Strong plants, 2½-inch pots, own-roots, \$10.00 per 100, \$90.00 per 1000.

Grafted plants, \$2.00 per 100, \$150.00 per 1,000.

Seed Trade

WHERE REFORM IS NEEDED.

From the first number of HORTICULTURE this worthy publication has upheld the seed business. A great deal has been said lately about the deterioration of seeds and in all reason our trade papers may keep at it until there is such an awakening that some of the growers who are forever contracting at cut prices will sit up and take notice. When wholesale seed growers expect to place growing contracts with farmers for less than the farmer can afford to properly care for the crop for, then turn about and slash the prices to the seed houses for the sake of business, it means a tendency toward degenerate stock.

The leading market gardeners from one end of the country to the other would gladly give a higher price for seed if they were sure of increasing quality. There are two classes of grabbers in the seed business; the wholesale grower that grinds down the grower to a neglectful basis, and the seed buyer that buys his stock on a price basis. These are fellows to fight. We are glad to see that HORTICULTURE stands for a square deal in this

most important branch, and it is to be hoped that this publication will continue its energies and do what it can to hammer out of business the rascals who cause failure when all other conditions are perfect for a successful crop.

THOMAS L. BROWN.
So. Manchester, Conn.

THE WESTERN FLOWER SEED TRADE.

One of the best known seed houses in the middle west states that they are getting without trouble all the flower seeds they have ordered. Apparently, there is no lack of stock except in sweet peas. This shortage is in old-standard varieties, principally in lavender. Dorothy Tennant is one of the scarce varieties in this color. There is an over-abundance of white peas and a good supply of Blanche Ferry. In *Salvia splendens*, seed of the large-panicked strain seems scarce, while the common is plentiful. There is no shortage of pansies, asters or verbenas. Most of the flower seeds are imported, though some important items are produced in the United States. California strains of all seeds are scarce this year. The seed industry is growing in the western part of the United States, but so far it has not been able to supply more than a small proportion of what is needed.

of unpopped corn ready for planting, with the price per pint attached. It ought to sell the goods.

The La Grange Floral & Seed Co. will open for business as soon as the store they are to occupy is completed. They have a fine location on 5th avenue. La Grange is fifteen miles west of Chicago. The firm is composed of Mrs. Walter Scott, president; W. F. Baker, secretary, and Walter Scott, business manager. Mr. Scott came to La Grange from England sixteen years ago, and is well known as a successful landscape gardener, which business he will also continue.

CATALOGUES RECEIVED.

Peacock Dahlia Farms, Williamstown June., N. J.—Folder of Peacock's "Peerless Cut Flower Dahlias."

Dingee & Conard Co., West Grove, Pa.—Dingee Guide to Rose Culture. "Sixty Years Among the Roses" is the inscription on the cover of this catalogue, which is lavishly adorned with roses in colors and a portrait of Charles Dingee, founder of the Dingee & Conard Co. The book is profusely illustrated with handsome rose portraits.

Elmer D. Smith & Co., Adrian, Mich.—Chrysanthemums and Asters, 1909. As might be expected of anything emanating from the headquarters of this widely-known chrysanthemum authority, the present catalogue is quite up to date and very complete in its lists of new and desirable sorts in all classes. The illustrations are excellent for comparison of varieties.

Joseph Breck & Sons Corp., Boston, Mass.—Seed and Implement Catalogue for 1900.—It's a beauty throughout and fully up to the tradition of this long-established house. A heavy cover in pale grey tint with the name vignettied into a big cluster of double blue corn

W. H. ERNEST

28th and M Street WASHINGTON D. C.

NOTES.

Charleroi, Pa.—Earl Lutes has purchased the seed business of Theo. J. Allen.

President Watson S. Woodruff has called a meeting of the Executive Committee of the American Seed Trade Association for Friday, January 22, at the Hotel Astor, New York City.

The Pennsylvania Seed Improvement Association at its meeting on January 4, elected A. S. Haines, West-town, president; W. M. Evans, Bloomsburg, vice-president; Prof. F. D. Gardner, State College, secretary and treasurer.

The Holmes Seed Co., Harrisburg, Pa., have a good window display of popcorn just at present. A big basketful of popcorn, all popped ready to eat, stands alongside another big basket

flowers, gives richness and simplicity at the same time, and there are some unique features in the make-up which give special distinction to the contents.

A. T. Boddington, New York.—Boddington's Seeds and Bulbs, Spring 1909. A unique cover design of sweet peas conventionally treated, in crimson, green and gold, gives especial distinction to this volume and lures one to want to look inside, which is the main purpose of cover adornment. The reader who follows the impulse and does look inside will undoubtedly be heard from, for it is full of temptations for the flower lover.

Peter Henderson & Co., New York.—"Everything for the Garden," as big and handsome as ever—even more so—has come to hand for 1909. In its external appearance it is refined and beautiful and the contents fully bear out the inscription, "Everything for the Garden." There are three full page colored plates of tomatoes, sweet peas and roses, respectively. In general make up the book is a model for the catalogue maker and also for the dealer who seeks to present his goods to best advantage when the buyer begins to contract the garden fever.

INCORPORATED.

Mykawa, Texas.—Waverley Gardens Nursery Co.; C. F. Smith; C. F. Carson, I. M. Taylor; capital, \$10,000.

Boston, Mass.—F. B. Shattuck Co., landscape gardening; president, S. J. George, Winthrop; treasurer, W. J. Patten, Boston capital, \$50,000.

Beverly, N. J.—Davison Cranberry Co., E. A. Miller, F. McIlvaine, G. D. McIlvaine; capital, \$15,000; to grow cranberries, fruit seeds, etc.

SOME INTERESTING CARNATIONS

The award committee of the New York Florists' Club with representatives of the trade press visited on invitation the greenhouses of the F. R. Pierson Company at Scarborough, N. Y., on Saturday, January 9. The visit was primarily for the purpose of inspecting the rose White Killarney, on which the award committee was to make report, but opportunity was taken by Mr. Pierson to show the visitors through the carnation houses and, later on, to extend lavish hospitality on the return to New York City.

There are three carnation sports besides a number of seedlings that will be found very interesting by those who will take the trouble to visit Scarborough. The Lawson Winsor is, as its name indicates, a Lawson colored sport from Winsor. The color is fully equal to, if not even brighter than, that of Lawson, and in form of flower, length of stem and floriferousness it appears to far excel that famous variety. The Daybreak Winsor is a beauty which will be hard to beat. It has every good quality of Winsor with

a glowing soft pink color which the name Daybreak does not do full justice to. Prosperity Lawson is another sensational flower, a sport from White Lawson mottled with pink after the style of Prosperity. It has been admired greatly by those who have seen it. Among the seedlings is one which is to be named Pierson. The best description of it is to say that it is a mammoth Wm. Scott. In color, form of flower and habit generally it is closely reminiscent of the famous old variety, but in size of bloom and length of stem it is several times magnified. It is, in fact, one of the largest flowers produced as yet.

BUSINESS CHANGES.

Flower Market Reports.

BOSTON

Snow is falling rapidly as we jot down these notes, and the conditions do not promise any immediate change from the listless character which has distinguished the flower trade as a whole since the early part of January. While prices have changed but little, demand is exasperatingly weak on most lines, although the quality of the stock is extra good on the average and it cannot be said that the product is or has been thus far noticeably heavy. The shortening up of the cut which is caused by inclement weather is no longer any advantage to the market, as now-a-days so large a proportion of the aggregate production finds its outlet through small distributors whose sales are disastrously affected by stormy weather that the advantage at one end is more than offset by the loss at the other. Out of town demand is no better than the home demand at present, and the shippers find things unpleasantly dull.

The week ending January 9 was a rather dull one. Roses, especially

the short grade, have been rather scarce, while select Killarney, Richmond and Beauty have been in good supply and demand light. The first part of the week found carnations in only fair supply, but nearing Friday shipments came in heavy with light demand. A sprinkling of floral work moved a good portion of the light colors together with lilies of the valley and sweet peas. There has been little or no demand for violets since the holidays. The Charity Ball and other social functions are booked for the coming week and will keep the market awake.

Chicago market has been up and down during the past week. Like the thermometer, it has had its rise and fall. On the 6th, Chicago experienced the coldest weather in three years, and shipping trade was light when the thermometer was registering ten degrees below. The market is well filled with flowers and while there is not a glut or even a very near approach to one, there are more flowers of some varieties than can be used to good advantage. Killarney is not so good as earlier in the season, while Bridesmaid is at its best and preferred by many customers. Budlong has exceptionally fine Brides and Bridesmaids, with heavy stems thirty or more inches long, and the writer thinks them the finest seen here this season. Beauties in short and medium move well, but the very long ones are going rather slowly. There is an abundance of paper whites, daffodils, and some tulips, but they do not move very rapidly. The coming carnation convention at Indianapolis is an interesting topic of conversation, and it is expected that the attendance from Chicago will be good.

INDIANAPOLIS

The cut flower market continues to be on a good basis with supply and demand fairly proportionate. A little cold snap curtailed the supply of roses and carnations to some extent. There has been quite a weakening of prices in general since New Year. Beauties and Teas

continue to sell well, the quality being a bit off. Good violets seem to be a little on the scarce side. Bulbous stock is coming in more freely, paper whites and Roman hyacinths predominating. Lilies are not over plentiful but sufficient to meet the demand. Orchids, lily of the valley, sweet peas and mignonette are in good supply and move well. Plant trade is holding up well, quantities being moved daily.

Last week was PHILADELPHIA. not so good: stock more plentiful and trading rather dull so that average conditions receded a little. American Beauty roses were a redeeming feature, the crop of these being well cut out for the time being—not nearly so many good ones as around Christmas and the quality on the whole only fair. Liberty and Richmond roses sold well but all varieties of pink roses were almost a bugaboo, and white roses also dropped back a notch. Carnations very plentiful and of fine quality. Violets more plentiful and prices lower. Lily of the valley in good demand. Receipts of Roman hyacinths and paper whites largely diminished and cleaning up at rather better prices. Easter lilies too many; mignonette accumulating; sweet pea market has improved. Greens selling up better and now in fairly healthy condition. Out-of-town trade has dropped off. Supply business brisk—especially in ribbons.

WASHINGTON There is not much change to report in the Washington floral world. Of course, the holiday rush has quieted down some but there are so many social functions on the tapis that there is a steady de-

mand for good flowers of nearly all kinds. There is no overplus for the greater part of the time since the New Year opened has been very dark and cloudy. There is an unusual demand just now for Killarney roses and pink carnations, also paper white narcissus and lily of the valley, caused by a succession of debutantes.

PHILADELPHIA NOTES.

J. Horace McFarland, of Harrisburg, Pa., gave an interesting lecture before the Civic Improvement Association, Lansdowne, January eighth.

Arthur Niessen, of the Leo Niessen Co., stole a march on his many friends January sixth when he slipped quietly off to Baltimore and got married. His well known modesty should have taken a back seat to our keen desire to dance at the wedding, and thus testify in a small way how much we think of him.

James Walsh, late decorator for Graham, has been located in Camden, since September first. He makes and sells his own flags and does quite a business in co-operation with other florists as well as on his own account.

Henry F. Michell Co., have now got their two stores at 1018 and 518 Market street running, both fully equipped. A large consignment of tuberous rooted begonias and gloxinias was being opened up in excellent condition at date of our last call.

Montreal, Que.—White & Co. lost several hundred dollars' worth of plants on Jan. 7 through a fire which started in the basement in the rear of the store from an overheated furnace.

EVERYBODY KNOWS

Park, Cemetery and Landscape Gardening cannot be properly done without the aid of an accurate leveling instrument.

Bostrom's Improved Levels, No. 2 at \$15.00 and No. 3 at \$25.00, are conceded by all who KNOW to be the only Levels on the market which meet all the requirements, at the price.

Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make.

Shipping weight 12 lbs. Description on request.

15.00 to 25.00	15.00 to 25.00

NEW YORK MARKET.

This market has been very sluggish for the past two weeks. There is an abundance of very choice material daily on the tables in the wholesale marts—fit in quantity and quality to supply a heavy and exacting demand, but much of it must find its outlet through bargain channels. The street corners seem to be the main distributing centres for the once patrician violet, and high grade material of all kinds makes its appeal for appreciation from many places where its beauty is strongly in contrast with its surroundings. With every recurrence of such a period as this the problem of the disposal of the common run or stock which must at all times preponderate becomes more and more difficult. The prices quoted in our tabulated reports must not be taken as arbitrary but rather as a guide—and a very elastic one at that—in estimating comparative values. Cattleya Trianae are coming in freely and can be bought in quantity at minimum rates this week. In quality they have never been finer. Some florists' windows display them in plant form—beautiful specimens with abundant bloom. Well flowered camellias as small pot plants are a prime window attraction. Julius Roehrs of Rutherford, N. J., makes a specialty of these. Lilacs, white and

pale-tinted, are among the handsomest things shown. Double flowered peaches are also exquisite.

NEWS NOTES.

It is said that Thorley's new establishment at the corner of Fifth avenue and Forty-sixth street, New York, which he is to occupy next fall, is to be modelled after the Pavillon d'Armenonville, the famous Parisian restaurant in the Bois de Boulogne. It will be known as "The House of Flowers."

Chicago, Ill.—The annual meeting of the Flower Growers' Co. of Chicago, was held on January 5 and officers were elected as follows: President, W. L. Tonner; vice-president, A. Henderson; recording secretary, John Sinner; financial secretary and manager, Percy Jones; treasurer, M. R. Hills.

We will allow on all orders of
Sheaves and Wire Work
15 per cent discount. Orders of \$30 or up 20 per cent. This for the month of January only.

J. STERN & CO.
125 N. 10th St., Philadelphia, Pa.

Buyer's Directory and Ready Reference Guide

Advertisements under this head, one cent a word. Initials count as words.

Display advertisers in this issue are also listed under this classification without charge. Reference to List of Advertisers will indicate the respective pages.

Buyers failing to find what they want in this list will confer a favor by writing us and we will try to put them in communication with reliable dealers.

WILSON PLANT OIL & FERTILIZER CO. CHATHAM New Jersey

For Trees, Plants, Shrubs and Flowers

USE

THE NIAGARA BRAND LIME SULPHUR SOLUTION

It destroys Scale Lice, Spiders and all forms of Aphides, AT THE SAME TIME Mildew, Blight, Rust and other Fungus difficulties.

Used in Winter or Summer. — No other remedy has been so universally effective.

Niagara Brand ARSENATE OF LEAD for chewing insects is equal to the best and better than the most. Ask about our Green House sprayer. Address—

NIAGARA SPRAYER CO., - - Middleport, N. Y.

WIZARD BRAND MANURES

Dried, screened and packed in bags of 100 lbs. each.

PULVERIZED SHEEP MANURE

PURE — UNIFORM — RELIABLE

A strong and quick acting manure, highly recommended for carnations and chrysanthemums.

SHREDDED CATTLE MANURE

EASY TO HANDLE AND APPLY

Stronger and better in every way than rough manure. Lasts much longer on the benches. Unequalled for mulching and feeding roses, liquid manuring and mixing with bench and potting soil. Used by all the largest growers.

Ask Your Supply Man or Write Us for Circulars and Prices.

Why My New Curved Iceless Eave is Far Superior to Anything on the Market Today

- 1st. No sash bars incased in iron, thereby eliminating all danger of bars decaying.
- 2nd. Can be used in conjunction with iron frame construction, thereby doing away with that very objectionable feature, "columns."
- 3rd. Roof bars with drip grooves, which act as conductors to carry away the condensation: Result, the driest roof ever used for greenhouse purposes.
- 4th. **THE MOST IMPORTANT OF THEM ALL.** The very small increase in cost over the ordinary style of construction which makes it possible to be used for commercial as well as private purposes.

PALM HOUSES

Square ones like this, with curvilinear roof and dome are decidedly ornamental and give an attractiveness to the entire range; but a straight gable, curvilinear house is less expensive.

Of less cost still, is one with the straight roof and high sides, but you don't get quite as much head room. Send for illustrated circular, it shows our several kinds.

Hitchings & Company

And This Is The House His Neighbor Built

Last week you recall we showed you a snug little U-Bar proposition that was so satisfactory to the owner that he said as much to his neighbor — and his neighbor built one. It, too was a case of limited space, and is located between the drive and dwelling, in fact, the vestibule faces one of the main entrances.

The usual greenhouse construction, with its heavy members would have been impractical here, because the dwelling shades the greenhouse a part of the day — a light, the absolutely lightest house was necessary — the U-Bar "filled the bill."

And did you send for the catalog?

The New Crested SCOTTII FERN...

NEPHROLEPIS SCHOLZELI

NEPHROLEPIS SCHOLZELI

This crested sport of Scottii will hold the same position to all the crested forms of Nephrolepis that Scottii now holds to the Boston. It is entirely distinct from all others and will become even more popular than its parent, with which it is identical in every way except that the pinnae are subdivided, giving it a beautiful crested appearance.

We have shown the plant at the exhibitions noted below and have been awarded the following honors:

SHAW GOLD MEDAL, St. Louis Horticultural Society, Nov. 3rd, 1908, for "Best plant, of decided merit for cultivation, not previously an article of North American commerce."

SILVER MEDAL, offered by the Society of American Florists, through the St. Louis Horticultural Society, Nov. 3rd, 1908, for "The most meritorious plant, or flower of American origin."

CERTIFICATE OF MERIT of the Horticultural Society of St. Louis, Nov. 3rd, 1908.

SILVER MEDAL, Pennsylvania Horticultural Society, Philadelphia, Nov. 3rd, 1908, for the best new plant.

CERTIFICATE OF MERIT, Massachusetts Horticultural Society, Boston, Nov. 6th, 1908.

CERTIFICATE OF MERIT, Dutchess County Horticultural Society, Poughkeepsie, N. Y., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Morris County Gardeners and Florists' Society, Madison, N. J., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Chestnut Hill Horticultural Society, Philadelphia, Pa., Nov. 4th, 1908.

We are booking orders now which will be filled in strict rotation June 1st, 19.9.

Price per doz., \$3.50; per 100, \$25.00; per 1000, \$200.00. Twenty-five supplied at hundred rate and five hundred at thousand rate.

MARKET and 49th STREETS., PHILADELPHIA, PA.

ROSES

We have a fine stock of large, dormant field-grown plants, on own roots, including **Crimson Rambler**, **Dorothy Perkins**, **Clio**, **Alfred Colomb**, **Francois Levet**, **Jack**, **Prince Camille de Rohan**, **Magna Charta**, **Irish Brunner**, **Giant of Battles**, and many others at \$6.00 per hundred; \$150.00 per thousand. Send for list. **Roses, Dahlias and Cannas** a specialty.

THE DINGEE & CONARD CO. W. Grove, Pa.

Selenepedium grande albo-marginata

The subject of the illustration is a fine variety of *Selenepedium grande*, differing from the type in being of a lighter shade of color and by the white margin of the dorsal sepal and the petals. Among the many varieties and hybrids of *Selenepediums*, *S. grande* is one of the best if not the best, and one can't help but admire it when seen in bloom. Some of the *Selenepediums* have the habit of dropping one flower as soon as the next one on the scape is opening, but in this variety the individual flowers remain on the scape much longer and frequently three or four flowers will be open at one time on the same scape which makes the plant more desirable.

Selenepediums like to grow in a house where the temperature does not go below 60 deg. at night in winter with a rise of 10 to 20 deg. through the day, according to the weather. I like to grow them in the warmest corner of the house; there they will always be on the move, either growing or flowering and for that reason will at all times require plenty of moisture at the root and a spraying overhead in bright weather will do no harm to most varieties, except *S. caudatum*, *S. longifolium* and their hybrids. These latter seem to like a dryer and somewhat cooler atmosphere.

Osmunda fibre is evidently the best compost to grow them in on account of its open nature and lasting quality. Plenty of drainage must be provided and the pots should be so placed that the air can freely circulate among the roots. About once a week the plants are

watered with weak liquid manure (one quart of undiluted manure water to three gallons of clear water).

Somebody might ask how strong the undiluted manure water is. In a barrel (60 gallon gasoline) I put two pailsfull of cow manure and a 6-inch pot full of Clay's Fertilizer; then fill up with water obtained from a catch-basin into which the drainage from the horse stables runs. This water seems to be very rich in ammonia. What ever there is in it, the plants like it and soon pay for the extra trouble taken. I have used this manure water on all my orchids for the last six years with good results and if time permitted me should use it still more extensively.

M. J. Ope

Naugatuck, Conn.

Pruning Peaches

In the peach house, pruning is one of the most important operations. To have the proper fruiting wood for this year's crop depends upon whether the trees were properly cared for the past year when disbudding was done and the proper training depends upon how the new wood was tied in. A perfectly trained tree can only be secured by great care in the first training and pruning. All of the strong and rank growth must be taken off unless it is needed to form the shape desired. Cut off the wood that fruited last year when possible and leave the bottom new wood to take its place.

When peaches are in flower all the air possible should be given; keep the atmosphere dry. To ensure fertilization some gardeners put a hive of bees into the house when the trees are in flower, with great success. If this is done it is well to have an opening on the outside of the house so they can get back to their hive if they should get out of the ventilator, which they will naturally do if the day is warm. When the peaches are in full bloom the outside entrance could be closed up for a few hours and make them all come out into the house. Others use a camel's hair brush to distribute the pollen. I prefer tapping the trees with my hand, to dislodge the pollen, three or four times a day; this must be done when the house has ventilation on, or dried up with fire heat.

When the fruit is set and the growth starting give them a good syringing every bright morning and in the afternoon on bright days when closing the house up. This should be done early, so they can dry up before sunset. A good watering should be given as soon as the fruit is set for now root action has started. This should be done with the chill taken off. The best and easiest way I have found is to have a faucet attached to the hot water pipe and run the water into a barrel, then use a Kinney pump to syphon the hot water from the can and water through the hose. This should be done early in the morning while the water is good and hot.

 A Word
 to the
 American Carnation
 Society

A few days more and all eyes and ears will be trained on Indianapolis. The American Carnation Society occupies a position of peculiar responsibility in its relation to the floral industry and to the

great flower-loving public which lies beyond. At last year's meeting of the Society the subject of the obligations of the introducer to the grower and what the latter has a right to expect from the former was freely discussed. The claims of the grower and dealer on the Society itself are no less paramount. Such advancement as the carnation has made in recent years in popularity and in commercial importance is credited, and justly so, to the well-directed work of the American Carnation Society in a large degree. Naturally the trade look to the Society to still exercise a salutary maternal influence and to so foster the lusty child whose protection it has assumed that it will continue to grow strong and healthy not only as a brilliant demonstration of the hybridizer's art and the grower's skill but as a commercial product indispensable to all classes of the public. As we have before urged, nothing will more effectively accomplish this much-to-be-desired result than to show to the people at every opportunity the possibilities of the carnation as a decorative flower for all occasions. The carnation is worthy to be elevated away from the lowly position it has occupied too long in so many florists' hands, as a mere ground work for pillows, anchors and other funeral design work. The society, by encouraging artistic displays of the use of the carnation in other ways, can do much to widen its sphere, increase the demand and stay the sagging of values which is so discouraging to the grower who, having done his part so well, yet finds himself helpless when it comes to realizing a fair return for his investment and labor.

The apple is coming to its own. World-renowned and first of all fruits in history from the Garden of Eden down through legend and mythology and, as Downing asserts, succeeding better in the United States than in any other part of the world, it is only now that a large section of our country is beginning to realize its pre-eminent value as a commercial crop. Even in New England, whence apples were exported in considerable abundance to the West Indies in 1741, and to England as long ago as 1773, it has been deemed necessary at a recent convention of governors and other dignitaries, to urge upon the people the great possibilities that lie in commercial apple-culture on their own abandoned lands. We are inclined to look upon the development of the apple industry in the northwest as something of very recent birth, yet it is true that forty years ago a collection of twenty-five varieties sent from Nebraska to the exhibition of the Massachusetts Horticultural Society, at Boston, created a sensation by their fine appearance. We have given space, of late, to some interesting matter and impressive pictures, from time to time, illustrating the apple craze which has stirred the horticulturists of the west to unprecedented activity and which prompted President James J. Hill of the Great Northern Railroad in his speech at the opening of the Spokane Apple Show,

to predict that in a quarter of a century, the value of the apple crop of the northwest would exceed the combined value of the wheat, ore and timber production. Perhaps some of our readers may look upon this topic as rather outside the legitimate sphere of HORTICULTURE, but it is well to remember that the history of horticulture shows that in all cases the useful came before the beautiful. The tree valued first for its timber and fruit, soon becomes appreciated for its shade and its beauty, and the garden devoted to ornamental plants and flowers follows close upon that intended for food production only. So we propose to be on friendly terms with the apple men.

Policy versus principle The fact of enlightened, reputable business men feeling themselves coerced into the payment of considerable sums of money which they have neither legal nor moral obligation to pay—and that to the United States government—seems incomprehensible. Nevertheless, un-American as it may seem, not a few of our leading importers of seeds and bulbs have felt themselves so coerced; believing that it was good policy to forestall the over-zealous appraiser by voluntarily adding sums in excess of the actual foreign prices to their import invoices and paying additional duty thereon. This they have done to facilitate delivery of the goods and also to avoid the possibility of any addition by the appraiser to meet his notions of foreign market values and which might be large enough to involve a penalty. The decision of the Board of United States General Appraisers sustaining in full the appeal of R. & J. Farquhar & Co. of Boston against such advances and penalty—an account of which appears elsewhere in this issue—will do much to clear the situation. In this instance a large importation of bulbs was advanced in value and held by the appraiser for over four weeks and was not released until the importing firm had called the attention of the Treasury Department to their grievance. The local officials learning from the importers of their complaint to Washington lost no time in clearing the goods. Then followed a hearing in Boston at which the importers' appeal was sustained in part; a further appeal and subsequent hearing in New York at which the importers were fully upheld. Reflect for a moment on the trouble and expense the importers have been put to in obtaining vindication in this instance and then note that there is no redress against the loss due to the action of the incompetent appraiser who first examines the goods and as in this case wrongfully causes the importer to bear it. We have known of several recent instances where live plants have been held ten and eleven days after entry was made and duty paid. In one lot there was an almost total loss, yet here again the importer was the victim of the delinquency of the examiner, and without redress. Messrs. Farquhars' persistent fight for prompt service and against the imposition of unfair charges will, we believe have a most salutary effect and should stimulate importers in other cities to demand from the government prompt and efficient service. Horticultural importations are now of sufficient magnitude to fully justify importers in demanding on the part of the government the employment of examiners who have practical knowledge of the goods they pass upon—even if they may not be broad enough in experience to know that the Hollander will never be found guilty of selling anything at less than its market value.

European Horticulture

ASIDEPOGON FORMOSUS

Pretty, elegant, decorative grasses are always acceptable in the formation of plant groups in the flower garden and as solitary specimens on the lawn; and the subject of this note is one of these. It will reach a height of 3-1-2 feet to 6 feet; the leafage is narrow, 1-3 to 1-2 an inch, slender and readily moved with the least breath of wind. The plant is of vigorous growth and requires the simplest cultivation.

The life of the plant extends over several years, but it is better treated as an annual. Seeds can now be obtained from most of the larger seedhouses, and sowings should be made, as a rule at the end of January and throughout February, and early in March. A warmth of 65 degree Fahr. hastens the vegetation of the seeds; usually the germ becomes visible in 5 to 6 days. When the plants are 1-1-2 to 2 inches high they should be pricked off into pans, and placed on a warm bed, and in a month they must be potted, and kept in a warm frame, rather close at the first, air being afforded daily in fine weather. If to be planted out in May and June the plants should be repotted into 4-1-2 inch pots and kept for a time in warmth till established in the new soil, accustoming the plants gradually to the open air when well rooted.

PRIMULA MALACOIDES

This promising introduction of Mr. Bulley's by means of seeds was sent to him by his collector, Mr. George Forrest, from Yunnan. In Yunnan the plant is sparsely distributed, and is only found in the Tali valley, where Father Delavay discovered it and sent material to Paris. The plant was described by Franchet in 1886. Forrest found the plant in large numbers in the Tali valley, in moist sunny places. *Primula malacoides* belongs to Franchet's section monocarpiceae of the genus. To this section belong three other Chinese species: *P. Forbesi*, *P. androsacea*, both in cultivation; this last-named likewise introduced by Forrest; and *P. gemmifera*, not yet introduced to gardens. Franchet adopted the name *malacoides* from the similarity of the leaves to those of *Erodium malacoides*. In general *P. malacoides* reminds one of *P. Forbesi*, but the novelty is larger, and considerably freer in flowering which on the other hand contradicts its affinity to the monocarpiceae section. *P. malacoides* bears seed abundantly and is easy to increase by division.

For open air cultivation this apparently hardy *primula* has scarcely any importance, but as a pot plant for decorative purposes it may be valuable, especially by reason of its long season of flowering. The pale red or lilac red color of the blooms and the flower-stalks of a nearly gray tint are not sufficiently taking for the taste of today; but time and cultivation will alter these properties. As *P. malacoides* can be grown with but little trouble and is easy of propagation, it will probably become a general favorite.

Sandercock Moore

AMERICAN CARNATION SOCIETY

Eighteenth Annual Meeting to be held in Indianapolis, Ind., Wednesday, and Thursday, January 27 and 28, 1909

OFFICERS FOR 1908-1909.

President—M. A. Patten, Tewksbury, Mass.

Vice-President—A. F. J. Baur, Indianapolis, Ind.

Secretary—Albert M. Herr, Lancaster, Pa.

Treasurer—Fred. Dorner, Jr., Lafayette, Ind.

Directors.

M. A. Patten, A. F. J. Baur, Albert M. Herr, Fred Dorner, Jr., Eugene Dailedouze, Wm. Weber, Wm. Gammage, J. S. Wilson, J. F. Wilcox.

Judges.

W. N. Rudd, Morgan Park, Ill.; Wm. Nicholson, Framingham, Mass.; Peter Fisher, Ellis, Mass.

Officers of State Florists Asso. of Indiana.

President, J. S. Stuart, Anderson, Ind.; **1st V. President**, H. Junge, Indianapolis, Ind.; **2d V. President**, Chas. Knopf, Richmond, Ind.; **Secretary**, A. F. J. Baur, Indianapolis, Ind.; **Treasurer**, H. L. Wiegand, Indianapolis, Ind.

Finance.

Chas. Knopf, J. S. Stuart, W. W. Coles, Geo. Wiegand, Peter Wieland.

Entertainment.

H. L. Wiegand, F. S. Smith, F. H. Lemon, F. B. Alley, J. A. E. Haugh.

Exhibition.

F. Huckreide, E. A. Nelson, R. F. Harritt, J. A. Evans, H. Schilling.

Reception.

A. F. J. Baur, F. E. Dorner, J. Heidenrich, Ernest Reiman, E. M. Hyatt.

Press.

H. Junge, J. A. Reiman, H. Heller.

Meetings and Exhibition.

The meetings and exhibition will be held in the German House. There will be sessions, morning and afternoon on Wednesday and Thursday for the annual reports of officers and committees, election of officers and other business of the Society and papers and discussions on topics of timely interest are promised. The Question Box

is expected to bring forward some fruitful themes for consideration.

Entertainment.

The State Florists' Association of Indiana has completed all preparations for the comfort and entertainment of

Baur, "German House," Indianapolis, Indiana.

Express charges on all exhibits must be prepaid.

Special tables will be provided for exhibits not intended for competition.

The Society provides vases of uniform size for exhibitor's use, respectively for 100, 50 and 25 blooms. It is obligatory upon exhibitors to use these vases for Classes A and B and for entries for Certificate of Merit.

In all other classes exhibitors have the option of using either the Society's vases, or providing their own.

Rules and Regulations.

1st. A charge of \$1.00 for each variety, entry of which has not been made with the secretary on or before January 15.

2nd. All entries not staged before 1 p. m., January 27th, will be disqualified from any and all competition excepting for "Certificate of Merit."

3rd. None but members of the Society are eligible to compete for prizes, medals or certificates.

4th. All exhibits for competition must have the variety correctly labeled, if a named sort, or numbered if an unnamed seedling. The Society will furnish a uniform card for this purpose, and varieties not labeled or numbered with this card

will not be judged in any of the classe. The secretary will typewrite these cards for exhibitors who get their entries in early enough for him to do it, and furnish them to the exhibitor in Indianapolis any time during the morning of January 27.

5th. The same vase is not allowed to compete for more than one prize, excepting those entered for Certificate and where otherwise stated.

Judges' Scale of Points.

This scale shall be employed in judging all seedlings for Certificate of Merit, or for any special prize, and in all classes where competition is

MARCELLUS A. PATTEN

President American Carnation Society

the visitors. Much good natured rivalry for the honor of extending hospitality has developed between the delegations from various Indiana centres and Indianapolis, as the head centre of activity, is full of enthusiasm.

A theatre party has been arranged for the enjoyment of the ladies on Wednesday evening and a smoker on the same evening for the gentlemen. On Thursday there will be a banquet for ladies and gentlemen at which it is expected the Governor of the State will be present to extend a formal welcome.

THE EXHIBITION.

Address all Exhibits to A. F. J.

W. N. RUDD
Judge

close, it shall be used to arrive at a decision:

Color	25	Substance	10
Size	20	Form	15
Calyx	5	Fragrance	5
Stem	20	Total	100

Rules Governing the Award of Certificates of Merit.

A variety must have been bloomed not less than three years; not less than fifty blooms must be shown, and an entrance fee of \$5.00 is charged for each variety. The variety must be properly labeled with the Society's Card. (See Rules and Regulations.)

Preliminary Certificate.

This can be completed for by two-year-old seedlings, twelve blooms or more to be shown, and an entrance fee of \$2.00 paid for each variety. The variety must be properly labeled with the Society's Card. (See Rules and Regulations.)

General Premiums.

Class A—Open to all varieties, Seedlings or Standard Sorts, 100 blooms to a vase. First prize, \$10.00; second prize, for each number.

No. 1, White; 2, Flesh pink being

those shades of pink of a flesh or salmon color; 3, Light pink being those lighter shades of pink, verging on the true pink and lighter than Lawson; 4, Dark pink being as dark or darker than Lawson, including all so-called cerise not dark enough to be classed as red; 5, Red or carmine, including all shades of red that can not be classed as scarlet or cardinal; 6, Scarlet or cardinal, to include those bright shades now commonly known in the trade as scarlet; 7, Maroon, to cover those shades now known as crimson; 8, Yellow or yellow variegated; 9, White variegated; 10, Any other color; to include any color decidedly distinct from other colors specified.

Class B—Open to all varieties disseminated prior to July 1st, 1908, 50 blooms to a vase. First prize, \$5.00; second prize, \$3.00, for each number.

No. 11, White Enchantress; 12, White Perfection; 13, Any other white; 14, Enchantress; 15, Any other flesh pink; 16, Winsor; 17, Welcome; 18,

A. F. J. BAUR
Vice-President

varieties, arrangement and general effect to be considered.

Bertermann Bros. Co., Indianapolis, a Sweepstake Prize as follows: \$40 for first; \$30 for second; \$20 for third; and \$10 for fourth. Prize to be awarded to the best four vases in the 100 Class (A). The winner of each of these prizes is to duplicate the vase of carnations within ten days after the close of the show to whomsoever the prize giver specifies.

Indiana Floral Festival Association, \$25 in gold for the best vase of 100 carnations, one variety, grown in the state of Indiana. (Separate from Class A.)

H. W. Field, Northampton, Mass., \$10 for the best vase of 50 blooms of President Seelye.

American Carnation Society Medals.

Class C—A Gold Medal will be given for the best vase of 100 blooms, any variety, any color. A Silver Medal will be given for the second best vase of 100 blooms any variety, any color. A Bronze Medal will be given for the

PETER FISHER
Judge

Rose Pink Enchantress; 19, Afterglow; 20, Any other light pink; 21, Lawson; 22, Aristocrat; 23, Any other dark pink; 24, Red Chief; 25, Victory; 26, Beacon; 27, Any other scarlet; 28, Harlowarden; 29, Octoroon; 30, Any other crimson; 31, M. A. Patten; 32, Variegated Lawson; 33, Any other white variegated; 34, Any yellow variegated; 35, Any other color (same as No. 10 in Class A). Three prizes may be awarded under No. 36.

Special Prizes.

Special prizes are offered as follows: By Baur & Smith, Indianapolis, Ind., \$10.00 in gold for the best 50 blooms of carnation "May".

A. Wiegand & Son, Indianapolis, Ind., \$25 Silver Cup to the best vase of 100 blooms, one or more varieties, quality arrangement and general effect to be equally considered. (Separate from Class A.)

The State Florists' Association of Indiana, a \$50 Silver Cup for the best vase of 200 blooms, in five or more

third best vase of 100 blooms, any variety, any color.

Special Medals of the Society of American Florists.

Class D—A Silver Medal will be awarded for the best vase of 50 blooms of carnations not yet disseminated. A Bronze Medal will be given for the second best vase of 50 blooms of carnation not yet disseminated.

The variety to be in all cases of American origin.

Judges are to reserve awards in this class if in their opinion the exhibits are not worthy of the medals.

Hotel Accommodations.

Following hotels are recommended to members of the American Carnation Society during their meeting in Indianapolis, January 27-28, 1909:

	American	European
New Denison Hotel.....	\$2.50 up	\$1.00 up
Claypool Hotel.....	2.50 "	2.00 "
Hotel English.....	2.00 "	1.00 "
Grand Hotel.....	2.50 "	2.00 "
Hubel Hotel.....	2.50 "	2.00 "
Imperial Hotel.....	2.50 "	2.00 "
Lorraine Hotel.....	2.50 "	2.00 "

The New Denison Hotel will be headquarters for this meeting. It is conveniently located so that meeting and exhibition hall and banquet hall can all be easily reached from it. The reception committee wishes to announce that it will meet all trains at the Union Station and escort all visiting delegates to which ever hotel they may designate, so look for them; they will be there.

FRED. R. HUKRIEDE,
Chairman of Reception Committee.

Boston to Indianapolis.

President Patten and his party will leave Boston for Indianapolis by the Lake Shore Limited from South Station at 1.45 p. m., Monday, January 25, due to arrive in Indianapolis at 3 p. m., Tuesday.

Chicago to Indianapolis.

The Chicago delegation will leave the Union Station over the Pennsylvania R. R. at 12.01 o'clock, Tuesday night, January 26, arriving in Indianapolis, January 27 at 6 a. m. The

special car (or cars) will be at the disposal of delegates as early as 10.10 in the evening and will be left at Indianapolis and occupants may remain aboard until 7.30 a. m. F. F. Bentley is chairman of the transportation committee.

Silver Vase Given by A. Wiegand & Sons.

AMERICAN CARNATION SOCIETY.

Carnation Registered.

By A. C. Brown, Springfield, Ill.—Governor Deneen, Parentage, Enchantress and President Roosevelt; color, royal purple; size of flower, 3 to 4 inches; habit, similar to Enchantress, somewhat less grass, leaves broader and heavier, blue green in color.

By S. Knudsen, Boulder, Col.—Arapahoe Glacier, Parentage, White Lawson and Lady Bountiful; color white; size of flower, 3½ to 4 inches; habit, etc., growth resembles Lawson but much stronger, early and continuous.

ALBERT M. HERR
Lancaster, Pa.

CHICAGO CARNATION SHOW.

Twenty-eight vases of new and standard varieties of carnations made a very creditable show at the Art Institute on Jan. 14th. The flowers were slow in arriving and at noon the outlook was not very encouraging, but by two o'clock everything was in shape, with Uncle John Thorpe the presiding genius. The sight of M. R. Miller, of Wilmette, quietly superintending everything, brought back the big show of a few weeks ago. C. W. Johnson, of Rockford, Ill., arrived and assumed his duties as judge.

While the attendance cannot be said to have been large, it was fair and a good beginning. The rival red carnations, O. P. Bassett and Pres. Taft occupied opposite ends of a long table, while Bay State, Lucile and Seedling 500—three varieties about which there was a great difference of opinion—with Sarah Hill and White Enchantress, filled to excellent advantage the space between them. The other tables contained a fine showing of older varieties and seedlings. Poehlmann Bros. had vases of Victory, Winsor, Beacon, White Lawson, Lawson, White Perfection, Enchantress and Winona an admirable collection.

Mount Greenwood Cemetery Association showed De fiance and four vases of seedlings; #204 A, light pink,

"Greenwood", a still lighter pink No. 11004 C, and a vase of mixed seedlings.

F. Dorner & Sons Co. sent a collection including Pink Delight, a delicate shell pink introduced this year.

Wanoka Greenhouses exhibited a deep maroon and a white tinted pink in center, unnamed. They stood their trip well. Chicago Carnation Co. exhibited a magnificent vase of White Enchantress. Much attention was given to their No. 500, a light pink regularly overlaid with deep pink. It is one of the last seedlings raised by the late James Hartshorne. This firm also showed the new white Sarah Hill.

Lucille, introduced by A. F. Longren and grown by Fred Bahr, of Highland Park, Ill., is after the type of Prosperity. Bay State is the famous new variegated. It was exhibited by Albert Roper, of Tewksbury, Mass., and showed no indications of its long trip. The F. R. Pierson Co. sent a vase of White Killarney roses which arrived in perfect condition. Bassett & Washburn sent specimen plants of Formosa lilies fully 5 ft. high, and Peter Reinberg sent a vase of American Beauties.

The report of the judges awarded points as follows to the new carnations entered.

	Points.		Points.
O. P. Bassett	86	Mary Tolman	82
Bay State	83	Pink Delight	84
Lucille	81	No. 175-06, Dorner	85

Co.	79	Cem. Asso.	81
Wm. Taft	75	Greenwood	88
Wanoka	81	11004, Mt. Gr. Cem.	80
Apple Blossom	87	Asso.	

NEW CARNATION MRS. J. C. VAUGHAN.

STATE FLORIST ASSOCIATION OF INDIANA SILVER CUP
To be competed for at Indianapolis.

THE BOSTON MARKET SHOW.

The preliminary premium list of the Boston Co-operative Flower Growers' Association's annual flower show to be held at Horticultural Hall, February 27-28, 1909, has been issued. The complete schedule will be issued about the first of February. Copies of this preliminary list may be had on application to George Cartwright, 1 Park street, Boston, or E. Allan Peirce, Waltham, Mass. There are 62 regular and special premiums listed. Committees are constituted as follows:

Wm. H. Elliott, chairman, Brighton; E. Allan Peirce, secretary and treasurer, Waltham, Mass.; Geo. Cartwright, Park St., Boston; S. J. Goddard, Framingham; Wm. Sim, Cliftondale; Wm. R. Nicholson, Framingham. Carnations—E. Allan Peirce, Waltham, Mass.; S. J. Goddard, Framingham, Mass.; Wm. Nicholson, Framingham, Mass.; M. A. Patten, Tewksbury, Mass.; Peter Fisher, Ellis, Mass. Roses—W. H. Elliott, Brighton, Mass.; Alex. Montgomery, Natick, Mass.; Eben Holmes, Montrose, Mass.; Harry Budlong, Providence, R. I. Violets, Sweet Peas and Miscellaneous—Wm. Sim, Cliftondale, Mass.; Wm. Spilsbury, Woburn, Mass.; Thomas Pegler, Park St., Boston, Mass.; Herman Ulrich, Waverly, Plants and Bulbs—L. W. Mann, Randolph, Mass.; E. Sutermeister, Readville, Mass.; Thomas Roland, Nahant, Mass.; Geo. Butterworth, So. Framingham; F. J. Dolansky, Lynn. Judges—S. J. Reuter, Westbury, R. I.; Thos. Roland, Nahant, Mass.; A. H. Fowkes, Newton Highlands, Mass.; E. A. Wood, West Newton, Mass.; A. H. Lange, Jr., Worcester.

NEWS OF THE CLUBS AND SOCIETIES

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

That this organization has grown to be a very strong factor in the horticultural life of Boston was plainly evidenced in the great throngs of members and ladies that filled the lecture hall of the Massachusetts Horticultural Society on Tuesday evening, 19th inst. It was the inaugural meeting for the new officers and, according to custom, ladies night and the gathering was worthy of the occasion. The retiring president Mr. Westwood opened the meeting with a brief appreciative address thanking the members, officers and committees for their faithful work and co-operation and bespeaking the same support for his successor Mr. Downs, whom he introduced in well-chosen words amid much applause.

President Downs' speech of acceptance was graceful and pertinent. He made many thoughtful suggestions as to the activities of the club for the year to come. He advocated the establishment of a hospital bed for florists and gardeners overtaken by sickness or injury, the offering of a club trophy to be competed for at the coming florists' market exhibition in Horticultural Hall, a closer affiliation and exchange of visits with sister organizations, an employment bureau for members, the enlargement of the scope of the exhibition department and redoubled efforts to draw into the ranks every gardener and florist within the club's jurisdiction. These sentiments were all generously applauded and at a later hour Mr. W. R. Weston was given an opportunity to explain the hospital project the result of which was the appointment of a committee of five members to look into the matter fully and report later.

Secretary W. N. Craig's report for the year showed an average attendance of 170 at the meetings of the past year, the largest being 325 on ladies' night and the smallest 112, in May. 46 new members added during the year. The secretary seconded the president's suggestion of an employment bureau and favored the establishment of life memberships in the club at \$25.00. Twelve new members were duly proposed and elected.

The treasurer's report was presented by assistant treasurer Peter Miller and showed a gain of \$205 in the cash on hand for the year after paying all obligations. The report from the landscape study class was also satisfactory. The exhibition judges for 1909 were appointed as follows: Eber Holmes, chairman, Geo. M. Anderson, Jas. Wheeler, M. A. Patten, C. Holbrook, Rob't. McGorum, Kenneth Finlayson and J. F. Flood. Refreshment committee: J. P. A. Guerin, chairman, G. W. Butterworth, W. Nicholson, Jr., P. J. Turley, Messrs. Lindsey, Murray and Barry.

Alternating with the above recorded business transactions were costume dancing by the Stewart Sisters Quartette, tenor solos by the famous Scotch tenor, Stuart Moncur and songs by Miss Hannigan—the latter already well-

known to the members of the club. The entertainment was of a high order and the artists were repeatedly recalled.

The exhibits of the evening and awards to same by the judges were as follows: Wm. Sim, violets Baronne Rothschild, Boston, Kaiser Wilhelm and Princess of Wales; honorable mention for Kaiser Wilhelm, which Mr. Sim predicts will shortly supersede Princess of Wales. Violets Baronne Rothschild from F. W. Fletcher, Princess of Wales from H. T. Woods and G. Bleichen, Lady Campbell from H. F. Woods. A handsome crimson seedling carnation from Lewis Small, Tewksbury; honorable mention, Carnations Bay State and fine scarlet seedling from A. Roper; honorable mention to the latter, Yellow seedling carnation Kanariebird, from Henry Schrade, Saratoga Springs, N. Y., (a cross between a pink seedling and Lawson). Improved Primula Kewensis from T. Coles. Mushrooms from John F. Flood. All not otherwise specified received a vote of thanks.

President Patten of the American Carnation Society extended a cordial invitation to all who could do so to go to the meeting of that society at Indianapolis next week.

Ice cream, cake and coffee were served later in the evening.

ST. LOUIS FLORIST CLUB.

This club held its regular monthly meeting on last Thursday afternoon. The meeting was an important one and the attendance quite large, with a few from the suburban towns, this being the first meeting since the holidays.

The trustees reported that they had not yet found a new meeting hall, but hoped to report on one by the next meeting. The Smoker Committee reported that they would hold the Smoker on the evening of the next club meeting, February 11th. A very important letter was read from President Valentine of the S. A. F., which will receive proper attention from the president in due time. The chair appointed Messrs. Ammann, Bencke and Augernuller to draft resolutions on the death of Carew Sanders, which read as follows:

Whereas, Our beloved friend and fellow members, Carew Sanders has been called to his eternal rest; and

Whereas, In our association with him for many years we found him a loyal friend to the interest of this club and possessed of that noble spirit which endears a man to his fellowmen; therefore, be it

Resolved, That we hereby record our sense of the inexpressible loss which this club and all branches of our profession have sustained in the removal of Carew Sanders from the scenes of his earthly labors and our grateful recognition of his useful services in the cause of horticulture.

The club voted to hold its annual carnation meeting February 11th, and the Smoker will take place the same evening in another hall close by. A general discussion then ensued as to the holiday trade in plants and flowers which it appears, was about 25 per cent. better than any previous Christmas.

The meeting then adjourned to a nearby cafe where a general good time was had and refreshments served.

NASSAU COUNTY HORTICULTURAL SOCIETY.

The regular monthly meeting of the Nassau County Horticultural Society was held in Pembroke Hall, Glen Cove, N. Y., on Wednesday, January 15, the new president, Mr. John Everett occupying the chair. There was an unusually large attendance, nearly sixty members being present. The result of the monthly points competition was as follows: Mr. Knight, poinsettias, 95-2-3; Trepass, mignonette, 77-2-3; Reul, Enchantress carnations, 75; Gale, do., 81-2-3; Cleres, Winsor carnation, 84; Elmslie, Beacon carnations, 83-1-3; Wilson, Princess of Wales violets, 80-1-3; Gaut, moschosa, 89-1-3.

There was also a fine display of flowers and plants for exhibition, the most conspicuous of which was a magnificent plant of Eucharis Amazonica shown by Mr. Knight who received a cultural certificate. Mr. Trepass showed a carnation seedling which was much admired. The president appointed Messrs. Jaenicke, Matz, Holloway, Ashworth, Garrett and Duthie to do duty as judges at the monthly exhibition during the ensuing year. Three new members were elected and two proposed.

Messrs. Matz, Meyer and Jaenicke were appointed as committee to ascertain if a suitable lot could be acquired upon which a horticultural hall could be built. The N. C. H. Society is nothing if not ambitious. On behalf of Thorburn & Co., New York, Mr. McTaggart offered a prize of \$10 for twelve dishes of vegetables grown from Thorburn's seeds, the prize to be competed for at the fall show.

The society's annual dinner takes place this month. With "Jed" Everett as chairman of the entertainment committee a good time is assured.

WM. H. MacKENZIE, Cor. Sec.

CANADIAN HORTICULTURAL ASSOCIATION.

Harry Philpot gives us the following report. The Executive Board of the Canadian Horticultural Association met at Toronto, January 12. All of the officers and all but two of the Executive Committee were present. The chief business transacted was the completing of arrangements for the annual meeting of the society which will be in Toronto in November, at the time of the Chrysanthemum Show in the same place. They are perfecting arrangements to invite and entertain the S. A. F. at Montreal in 1910, if that society can be induced to accept. They expect to send a strong delegation to Cincinnati.

NEW HAVEN COUNTY HORTICULTURAL SOCIETY.

At the last meeting of this society the following officers were elected for the current year: President, John H. Murray; vice-president, Walter Koella; treasurer, David Kydd; secretary, F. H. Wirtz; board of managers, Ernest Carroll, Thomas Pettit, Wm. Beattie, R. Bell, Wm. Symons. At the next meeting John H. Slcombe will give a talk, the subject to be announced later.

F. H. Wirtz, Sec'y.

MASSACHUSETTS HORTICULTURAL SOCIETY.

The "January Exhibition," held in Horticultural Hall, Boston, on Saturday, Jan. 16, was very large—probably the most extensive ever held at this season, although the weather was very cold. The carnation display by Patten & Co. and others, was most creditable. Among Patten's novelties were Hattie Starritt yellow variegated, Sara Nicholson crimson and Genevieve white. Mrs. J. Montgomery Sears, gardener W. C. Ritchie, was represented in many classes including *Primula Kewensis*, *obconica grandiflora* and *chinensis*, *Celsia arcturus*, *Clerodendron Pallas*, Lorraine begonias, cyclamens, camellias and an amaryllis, 18 months from seed, of singular beauty—a very dark crimson maroon. The finest Chinese primroses ever shown here came from Wm. Whitman, gardener Martin Sullivan, who also showed *P. stellata* and *obconica* in excellent shape. E. J. Mitton, gardener J. Lawson, was also represented by grand *P. Chinensis*. From Mrs. J. L. Gardner, gardener Wm. Thatcher, the primroses in all classes were fine. Altogether a distinct advance in type was apparent in the primroses, as a whole. Bellevue Greenhouses showed some handsome mushrooms.

Awards were as follows:

Primula Kewensis—Six plants in not less than five-inch pots: First, Mrs. Frederick Ayer; second, Mrs. J. M. Sears; third, Mrs. J. L. Gardner.

Primula Sinensis—Six plants in not less than six-inch pots: First, Wm. Whitman; second, E. J. Mitton; third, Mrs. J. M. Sears.

Primula Stellata—Six plants in not less than six-inch pots: First, Wm. Whitman; second, Mrs. J. L. Gardner.

Primula Obconica Varieties—Six plants in not less than six-inch pots: First, Mrs. J. L. Gardner; second, Mrs. J. M. Sears; third, Mrs. Frederic Ayer.

Begonia Glorie de Lorraine—Six plants: The second prize to Mrs. J. M. Sears.

Cyclamens—Six plants in not over seven-inch pots: First, Mrs. J. M. Sears; second Mrs. A. W. Blake.

Carnations—Fifty blooms of any named variety not disseminated: First, M. A. Patten, Sara Nicholson. Four vases, distinct varieties, twenty-five blooms each: First, Chas. S. Strout; second, M. A. Patten; third, S. J. Goddard.

Gratuities—Wm. Whitman, display of *Primulas*; Mrs. J. L. Gardner, display of *Primulas*; Chas. S. Strout, vase of *Carnation Winsor*; Miss E. Jackson Clark, violets; S. J. Goddard, *Freezia Purity*; Mrs. J. M. Sears, display.

Silver Medal—M. A. Patten, *Carnation Sara Nicholson*.

First Class Certificate of Merit—Mrs. J. M. Sears, Seedling *Amaryllis*.

Honorable Mention—H. F. Woods, *Violet Comet*; M. A. Patten, *Carnation No. 595*.

Mushrooms—Twenty-four specimens: Bellevue Greenhouses.

Forced Vegetables—Rane & Hall.

NEWPORT HORTICULTURAL SOCIETY.

This society held a regular meeting on the evening of Jan. 12 with an at-

tendance of members that was very encouraging to its officers. The regular business being quickly disposed of some time was then devoted to the exchange of ideas about the holding of exhibitions for the year. Some objections were raised to holding the usual two shows on account of the heavy expenses involved, but as the society has already accepted offers of several handsome premiums to be competed for at two seasons of the year it is safe to expect that the two shows will be voted for and that keener competition than usual will be the rule, as it is evident that there is a desire by a majority of the members that the premiums should be more equally distributed than they have been the past few years, and this condition of affairs will no doubt tend to make the coming exhibitions excel the high standard of excellence which they have been reputed for in the past.

SOCIETY OF AMERICAN FLORISTS.

National Flower Show Committee.

Chairman W. F. Kasting directs me to call a meeting of the Committee of Fifty to take place at Indianapolis, January 28th, at 10.00 a. m.

The Executive Committee will meet the same day at 2.00 p. m.

The business of the Committee will be wound up finally.

J. H. BURDETT, Secretary.

Chicago, January 15th, 1909.

Ladies' Society of American Florists.

A meeting of all members of the Ladies' Society of American Florists attending the Carnation Convention at Indianapolis, Ind., is called for Wednesday morning, Jan. 27, 1909, at 10 a. m., in Exhibition Hall.

MRS. J. C. VAUGHAN, Pres.

MRS. CHAS. H. MAYNARD, Sec.

PENNSYLVANIA HORTICULTURAL SOCIETY.

The regular monthly meeting was held on the 19th inst. Dr. Henry Skinner, professor of entomology, gave an illustrated lecture on diseases caused by insects, and the remedies. His lecture was along the lines of civic improvement, the abatement of swamps, mosquitoes, malaria, yellow fever, etc., and was very interesting and instructive.

The first prize for *Primula Chinensis* went to Wm. Fowler, gardener for Mrs. Geo. B. Wilson, for vase of *Laelia ancrpis alba*; and to Jas. Goodier, gardener to C. G. Roebeling, for *Cypripedium aureum Roeblingiana* and *Cattleya Trianae alba*. The annual spring show will take place March 23rd, 24th and 25th.

CINCINNATI FLORISTS' SOCIETY.

A meeting was held on the evening of January 9, at the office of William Murphy, for the purpose of arranging local details for the convention of the Society of American Florists to be held in Cincinnati next August. An executive committee was appointed, consisting of President J. A. Peterson, Vice-President C. E. Critchell, Secretary A. Sunderbruch, Treasurer D. Rusconi, G. Adrian, E. A. Forder, William Murphy, J. W. Rogers, Richard Witterstaetter and E. G. Gillett.

CLUB AND SOCIETY NOTES.

The State Florists' Association of Indiana, met at Indianapolis, on January 12. The officers were re-elected for the coming year.

January 28, E. W. Breed, of Clinton, will speak on the Value of Trees, before the Worcester County Horticultural Society, Worcester, Mass.

The Detroit Florists' Club will hold a carnation show, February 18, and possessors of novelties are invited to send exhibits to the Michigan Cut Flower Exchange.

The new entertainment committee of the Milwaukee Florists' Club, Gus Roesch, Will Zimmerman and Eugene Oestreicher, appointed on January 7, already have plans on foot for a dance early in February.

The Sedgwick County Horticultural Society of Kansas, at their last meeting endorsed the bill of Representative Matson, providing for the punishment of dealers selling fruit trees under false labels.

The Rhode Island Horticultural Society's annual meeting was held at Providence on January 20. Secretary Rich and Wilfrid Wheeler were present as guests, representing the Massachusetts Horticultural Society.

At a meeting of the executive board of the American Civic Association, held December 4, Richard B. Watrous, of Milwaukee, was elected to the position of secretary made vacant by the resignation of Clinton R. Woodruff.

The next lecture in Horticultural Hall in the course by the Massachusetts Horticultural Society will be given on January 23, at 11 o'clock, by Prof. E. A. White; subject, Ornamental Gardens and Garden Materials; with stereopticon illustrations.

The American Association of Park Superintendents are arranging a series of photographs of park views and construction work to be exhibited at the Alaska Yukon Pacific Exposition. The park superintendents hold their next meeting in Seattle and the opportunity for emphasizing the work they are accomplishing seems opportune.

The State Florists' Association will meet at Springfield, Ill., on February 16 and 17, in Arion Hall. The Florists' Club has appointed a committee to take charge of the exhibition and issued a circular regarding space. W. T. Homburg, 829 South Second Street is secretary of the club and will give further information to all interested.

Conservation of our national resources was the topic under consideration at the first meeting of the year, January 13, of the Worcester County (Mass.) Horticultural Society. Arthur J. Marble was the principal speaker. His address was vigorous and his denunciation of certain people in public life and their unpatriotic course on

public questions was refreshingly frank and timely.

How to Control Insects was the title of a lecture by Prof. E. Dwight Sanderson, of the New Hampshire Agricultural Experiment Station, before the Massachusetts Horticultural Society on Jan. 16. Prof. Sanderson had the largest audience which has been seen at a lecture for a very long time, and the many questions that he was called upon to answer indicated how deeply the public is interested in this subject.

At the twenty-second annual meeting of the State Florists' Association of Indiana, held at Indianapolis on January 12, carnations exhibited were recognized as follows: New carnation, by Charles Knopf, of the Charles Knopf Floral Company, Richmond, "Admiration," 85 points out of a possible 100; "Mrs. Charles Knopf," 78 points; "Ruby," 81 points; new carnation, "Shasta," by Baur & Smith, Indianapolis, 85 points. Honorable mention to B. F. Hensley, Anderson, and Stuart & Haugh, Anderson.

FIRE RECORD.

Westwood, Mass.—The greenhouses of Charles S. Danrell were damaged by fire on January 6.

Ashland, Neb.—In the recent fire that destroyed the greenhouse of Dr. A. S. Mansfelde, many rare plants were lost.

New Brunswick, N. J.—A fire which started in the boiler house on the morning of January 13 destroyed the rose and carnation houses of R. W. Johnson, Bellevue Farm. The valuable orchid collection was saved. The loss is estimated at \$15,000; no insurance.

Chicago, Ill.—Four houses belonging to the plant of the Guardian Angel Orphan Asylum, Ridge avenue, were completely destroyed by a fire which started in the boiler room on January 7. The larger range of houses was saved but the contents were frozen. The loss will aggregate about \$6000.

Alex. Weiczeroski lost his greenhouses by fire on the morning of January 12.

NEWS NOTES.

The estate of August Dressel, a former florist of Chicago who went into bankruptcy eight years ago, has paid the creditors 100 cents on the dollar and left a balance for the bankrupt.

Newport, R. I.—Mrs. Goelet, widow of the late Robert Goelet, has ordered two of her Newport greenhouses put out of commission for the purposes of economy, it is said.

Mrs. Goelet is a sister to George Henry Warren, and her fortune is rated at \$20,000,000.

The Nurseryman and Seedsman, our well-known English contemporary, has been purchased and will be published henceforth by W. J. Bruce & Co., 35 Surrey street, Strand, London. W. C. Mr. Bruce is highly spoken of by acquaintances on this side of the Atlantic and we wish him success.

PERSONAL.

Harry E. Klunder has gone out of business in Chicago and has returned to New York City.

Chicago Visitors: F. A. Benthley, Jr., New Castle, Ind.; Mr. Kalisch, of Kalisch Eros. Co., St. Louis, Mo.

Visitors in Boston—E. J. Fancourt representing S. S. Pennock-Meehan Company, Phila.; Ernst Bitterhoff, Berlin, Germany.

Visitors in Albany: R. E. Hall, representing J. Stern & Co., Philadelphia; Morris Cohn, of Wertheimer Bros., New York; R. Greenlaw, representing N. F. McCarthy & Co., Boston.

Mr. D. J. Coughlin, Newport, R. I., who was dangerously ill for several weeks, is now able to attend to his usual duties as gardener for E. Rollins Morse and his many friends are very pleased to see him about again.

Chicago visitors—C. E. Heite, vice-president of the W. L. Rock Flower Co., Kansas City, Mo.; Geo. Bancroft, Cedar Falls, Iowa; A. T. Pyfer, manager Chicago Carnation Co., Joliet, Ill.; H. E. Philpot, Winnipeg, Man.; G. W. Johnson, Rockford, Ill.; Harry Brock, Burlington, Iowa.

The Washington florists are very much elated over the fact that one of their number, Wm. F. Gude, has been elected to the highest office in the Chamber of Commerce. Mr. Gude has for a long time been closely associated

WM. F. GUDE

with the business interests of Washington, and it is a subject for congratulation to the Washington public that so representative a man should have been chosen to the presidency of this influential organization.

The Ionia Pottery Company are sending out a calendar for 1909. The attraction which gives special value to it is "Julia." Julia is appropriately garlanded with roses, and deserves a place in every florist's office.

During Recess

MORRIS COUNTY GARDENERS' AND FLORISTS' SOCIETY.

Seldom, indeed, does one breathe an atmosphere as full of good nature and fun as there was in Madison on the occasion of the thirteenth annual smoker of the society. The entertainment part was preceded by a short business meeting. The secretary reported for the year ten monthly meetings, two special meetings, nine monthly exhibitions, one annual flower show, twenty-eight cultural certificates and eleven certificates of merit were awarded. Sixty-eight members in good standing, ten new members. During the year six resigned, five to locate in distant places. He further reported that all within the club was harmonious and the public begins to look on the society as a permanent institution, which we hope will prove true. The treasurer reported a cash balance on hand after all bills are paid of \$479.01.

Mr. Herrington, our past president, went through the ceremony of installing H. B. Vyse as president. Mr. Vyse began by welcoming the guests in the name of the society, in a neat speech. About one hundred and thirty members and guests partook of the viands and enjoyed the talent, which was very good. Cigars, coffee, sandwiches and "Totty's celebrated punch" were served with a free hand. The inclemency of the weather prevented the attendance of many members, as well as guests from a distance. But we all had a good time. The "Mayor of the Bowery" and Billy Carter were good and, as heretofore, we had lots of local talent in song and recitation, among whom were the Goebel Brothers, John R. Mitchell, Percy Herbert, A. Herrington, Samuel Wyatt, Richard Carey, "Al" and "Billy" Rickards we can't do without, and they made lots of fun for us. Wm. Sperling, from Stump & Walter, Arthur T. Boddington, Wm. Turner, N. Butterback, Harry Turner and a delegation of our Orange friends helped us to make merry. The singing of Auld Lang Syne and a loud three cheers for the Morris County Society ended an enjoyable time.

E. REAGAN, Sec'y.

TARRYTOWN HORTICULTURAL SOCIETY.

The tenth annual dinner of this flourishing society was held at the Florence Hotel, Tarrytown, N. Y., on Wednesday, January 13. It was in all respects a splendid affair and everyone present was delighted. It was pronounced the best the society has ever had. The menu was a corker.

Mr. A. H. Brown acted as toastmaster, and speeches were made by J. Austin Shaw, M. D. Raymond and Wallace Odell of the local press, Surgeon Frank V. Millard, F. R. Pierson, Robt. E. Patterson of the local bank, Messrs. Dunbar of Dobbs Ferry, Wilson of Chatham, N. J., Lee of White Plains, and several others. The tables were prettily decorated with Glorie de Lorraine begonias and carnations from the different private estates and vases of a variegated sport from carnation Mrs. M. A. Patten and White Killarney from F. R. Pierson Co.

CARNATIONS, RUBY AND MRS. CHAS. KNOPF.

MRS. CHAS. KNOPF

Mrs. Chas. Knopf is showing up well this year and gives promise of being a valuable commercial variety. It resembles Enchantress in color but is of a more lively, bright shade without

the salmon cast and does not fade out on the edges of the petals. The blooms are very large, beating Enchantress at its best and the calyx does not split as much as in that variety.

WHITE KILLARNEY.

Waban Rose Conservatories, always the Mecca of visiting rose growers, is at present especially so on account of the widespread interest in that most beautiful of all rose introductions, White Killarney. Seeing this rose as grown here one is disposed to agree with the assertion of one visitor that it would turn out to be a white running mate for American Beauty. This Waban variety is a much heavier flower than the parent Killarney, carrying never less than twenty-three petals to the flower and sometimes up to forty, while the maximum number in Killarney proper is twenty-three. In modeling it is a picture, and the 324 ft. house filled with it in full bloom is an inspiring sight. Grafting young stock is progressing rapidly, 25,000 being now in the cases. Mr. Montgomery is greatly pleased with direct results from advertising in HORTICULTURE, which has brought him orders from Germany, Bermuda and Canada in addition to those from domestic sources.

LEAF CUTTINGS OF ANTHURIUM.

The Gardeners' Chronicle records that at the meeting of the Scientific Committee of the Royal Horticultural Society (England), on December 8, Mr. Chittenden, secretary, showed a plant illustrating a method of reproduction in Anthurium Dechardii. Mr. Blakey, of Wisley Surrey, had inserted a leaf taken off the plant with its base intact but without any part of the stem, in a propagating pit. Four buds had been produced on the inner surface of the basal part of the leaf and numerous roots had developed. Two of the shoots had grown out into rhizomes 10-12 inches in length, bearing at their tips well developed plants, and the other two shoots had grown

out for a short distance. This fact may point out a useful hint to gardeners who may wish to propagate anthuriums in quantity.

NOTES ON WEATHER AND ITS EFFECT ON OUTDOOR PLANTS IN NEWPORT, R. I.

- 1908, Dec. 13—First snow of season, depth $\frac{1}{2}$ inch.
Dec. 18—Second snow of season, depth 1 inch.
1909, Jan. 5—Temperature 46 degrees at 7 a. m.; unprotected parsley, brussels sprouts and kale still good for use and pansies, dandelions and honeysuckle Halliana in flower.
Jan. 8—Temperature 14 degrees at 7 a. m.
Jan. 14—Third snow fall, average depth $2\frac{1}{4}$ inches.
Jan. 15—Large patches of private hedges and honeysuckle vines in sheltered positions with leaves still green.
Jan. 17—Fourth snow storm, average depth 3 inches.
Jan. 19—Temperature 7 degrees at 6 a. m.; coldest to date.

LIRIODENDRON CHINENSE.

This introduction from China by Messrs. J. Veitch & Son, in rapidity of growth and hardness is the equal of the North American *L. tulipifera*. The flowers are smaller than those of that species and the petals are less broad. It was at first thought to be merely a geographical form of *L. tulipifera*, but both Sargent and Hemsley consider the plant distinct enough to be classed as a species. In its native habitat it is, according to Hortus Veitchii usually found growing to a height of 15-20 feet. The tree is illustrated on p. 429 of The Gardeners' Chronicle for December 19, 1908, from

RUBY

Blooms sent into the wholesale markets have brought \$1.00 per hundred more than Enchantress and it is well liked by critical buyers.

Ruby is a very large, strong-growing crimson, with excellent form, stem and color. The flower stands high above the calyx, giving it a fine finish. Wherever this variety has been tested it has demonstrated its pre-eminence in this color.

a specimen growing at Kew, which at 8 years of age is 10 feet in height; and as the leading growth made during the past summer is 4 feet in height, the tree promises to grow to greater dimensions than in its native country; and to make an interesting addition to the arborescent Magnoliaceae.

CHRYSANTHEMUM EDITH DE CLAUSONNE.

A valuable addition to any collection of chrysanthemums is without doubt Edith de Clausonne, an introduction of the chrysanthemum specialist, H. Hermann Strauss, of Zurich, who also some few years ago introduced Mlle. Marguerite Desjonis to commerce. In regard to the size of the flower Edith de Clausonne is much larger than Mlle. Marguerite Desjonis, with extra good cultivation twice as large; and well adapted as an exhibition flower. One capital property of E. de Clausonne is its freedom in flowering, every bud-crown and terminal developing good blooms; so that cultural failures are entirely averted. The color is pure white with a green centre; and in the full meaning of the phrase it is a florist's flower in the highest grade.—*Chas. Torbeck*, in No. 50, 1908, *Mollers Deutsche Gartner Zeitung*.

BOUGAINVILLEA LATERITIA.

This rare and beautiful species of Bougainvillea with its peculiar shade of red has been claimed by some to be useless as a pot plant. As seen growing at the Newbold conservatories at Jenkintown, Pa., the magnificent form and wealth of blossoms under pot culture would seem to raise some doubt as to that dictum. Samuel Bathelor, the gardener at Newbold's, is very successful with it.

VICK QUALITY ASTERS

THE STANDARD OF EXCELLENCE

**INTRODUCED BY US

VICK'S VIOLET KING

and many other money-making varieties.

SEND FOR OUR ILLUSTRATED ASTER BOOK for Florists. It incorporates our experience for more than twenty years of Aster growing, during which time we have introduced more high grade varieties than all other American Seedsmen combined.

IT'S FREE.

HOW TO GROW ASTERS

A little hand-book for practical uses of Aster growers. PRICE 10 CENTS, or free with an order of Aster seed.

OUR BEST NOVELTY

VICK'S MIKADO PINK, PREMIER OF SHELL PINK ASTERS. For years we have seen the necessity of a good mid-season Comet type shell pink Aster. Now we have it, and it's a beauty. Every wholesale florist who has seen it praises it extravagantly. Just the thing to grow between the extra early and the late flowering varieties. Habit similar to non-lateral Branchings. Stems straight, long and strong. Plant vigorous, flowers very large and yet very dainty. Petals long and narrow and gracefully reflexed. Crown completely covered. Color a charming sea shell pink. Sold this year by packet only. Each 25c.

Vick's Mikado White and Rose

Every grower ought to have both of these colors to go with Vick's Mikado Pink. Although we have catalogued these two colors before, we have never heretofore had enough stock to fill orders. We have a splendid stock this year, and prices are lower than ever before.

Mikado White and Rose: 1-64 oz., 20c.; 1-32 oz., 35c.; 1-16 oz., 50c.; 1-8 oz., 85c.; 1-4 oz., \$1.50; 1-2 oz., \$2.75; 1 oz., \$5.00.

TWO MORE NEW ASTERS

VICK'S IMPERIAL LAVENDER. Vick's Imperials, Daybreak and Purity, are known wherever good Asters are grown. VICK'S IMPERIAL LAVENDER possesses all of the splendid qualities of Daybreak. Color a

pure lavender. Will sell well in any market. 1-64 oz., 40c.; 1-32 oz., 60c.; 1-16 oz., \$1.00; 1-8 oz., \$1.50; 1-4 oz., \$2.50; 1-2 oz., \$4.50; 1 oz., \$8.00.

VICK'S NON-LATERAL BRANCHING. For several years we have been working to produce a branching plant with fewer, stronger, longer stems, without being sapped by side buds and shoots. We now have a strain in which the whole strength of the plant goes into from nine to fifteen stems, all of which produce exhibition flowers. Two colors only, white and rose. 1-32 oz., 25c.; 1-16 oz., 40c.; 1-8 oz., 60c.; 1-4 oz., \$1.00; 1-2 oz., \$1.75; 1 oz., \$3.00.

OTHER RECENT VICK INTRODUCTIONS.

VICK'S EARLY BRANCHING. Similar to the well-known Standard Late Branching. Season about a week or ten days earlier. Two colors, white and rose. 1-16 oz., 25c.; 1-8 oz., 40c.; 1-4 oz., 70c.; 1-2 oz., \$1.30; 1 oz., \$2.50.

VICK'S ROYAL PURPLE. Flowers similar to Branching. Stems start close to the ground. Very few lateral stems. Season medium early. Goes well with Early Branching. 1-16 oz., 25c.; 1-8 oz., 40c.; 1-4 oz., 70c.; 1-2 oz., \$1.30; 1 oz., \$2.50.

VICK'S UPRIGHT WHITE. There is a heavy demand for this variety. Flowers similar to Branching, but stems grow directly upwards, leaving more room for cultivation. Splendid shipper. Last year we could not furnish seed enough. 1-16 oz., 30c.; 1-8 oz., 50c.; 1-4 oz., 75c.; 1-2 oz., \$1.25; 1 oz., \$2.00.

VICK'S CARDINAL. For brilliancy in color and profusion of bloom this Aster surpasses all others. Especially adapted for bedding, where it makes as gorgeous a showing as Scarlet Salvia. Each plant resembles a huge bouquet. 1-32 oz., 25c.; 1-16 oz., 40c.; 1-8 oz., 60c.; 1-4 oz., \$1.00; 1-2 oz., \$1.75; 1 oz., \$3.00.

Obituary

Theodore K. Gibbs.

We regret to announce the loss of Theodore K. Gibbs, of Newport, R. I., who died in Pasadena, Cal., Jan. 16th, where he went in the autumn for the benefit of his health. He was a native of Newport and was in his 69th year. During the civil war he was appointed an officer of the army from Rhode Island, and by his gallant conduct was quickly promoted to the rank of major. Later in life he returned to Newport and spent much of his time and wealth in improving his estate, which is now from a horticultural point of view, one of the most interesting places in the city, as it probably contains a larger variety of plants than any place in Newport. Major Gibbs also took an active interest in many public institutions which received much benefit from his wise counsel and generous gifts. He was a member of the Newport Horticultural Society, a frequent contributor to its exhibitions and much of the past success of this society was due to his generous help. His loss is indeed severely felt by all.

JAMES ROBERTSON

Lord Annesley.

Those of our readers who are interested in beautiful shrubs and trees

from the subtropical, and more temperate parts of the world, will learn with regret that the Earl of Annesley died on December 15, at the age of 77 years, at his residence, Castlewellan, in the County Down, Ireland. The climate of this part of the country is particularly favorable to the growth of trees, shrubs and plants in general, from South Africa, China, Japan and New Zealand, of which Lord Annesley had the finest collection growing in the open air that is found in Greater Britain. A very interesting book illustrated by 70 photographs taken by his Lordship, was published by him in 1903, entitled, "Beautiful and Rare Shrubs."

Arthur Mellor.

Arthur Mellor formerly well known in Lowell, Mass., and in flower trade circles in Boston, died at Phoenix, Arizona, on Saturday, January 16. Mr. Mellor, when quite young was employed by Dudley Hartford in a flower store in Lowell after which he worked for Edwin Sheppard and later for George Patten. He then started in partnership with George Saunders as Mellor & Saunders but after two years was forced to give up and go to Arizona on account of ill health. He was a young man of agreeable manners and genial personality and his demise will be regretted by many friends in the trade. He leaves a wife, besides father and mother and four sisters.

James McBride.

James McBride, the veteran florist of Weymouth, Mass., died on January 10, at an advance age. Funeral services were held on January 13, and the floral offerings included remembrances from Joseph Breck & Sons, Patrons of Husbandry, and others.

J. W. Crane.

John W. Crane, a florist of Bathany, O., died on January 13, in his seventy-third year. He is survived by a widow.

Chicago.—Negotiations are under way pending a settlement with the United States Express Co. for the loss of \$500 by J. P. Brooks, at Morton Grove, Ill. Mr. Brooks had ordered a new pump to replace a defective one in his greenhouse plant and it was brought out by the Express Co. Though Mr. Brooks, with three men and a team, met the train to take the pump, the express messenger refused to deliver it because the local agent was not at the station. It was carried on and returned the following day, but the stock in the greenhouses received a serious set back. Mr. Brooks has the sympathy of the other florists, and the Express Co. is severely criticized.

Fairmont, Minn.—The Fairmont Nurseries have recently acquired forty acres of land adjoining their present nursery.

ROSES UNDER GLASS.

Rose Grafting.

From experience and observation it has been demonstrated that grafted stock has proven itself to be more vigorous and better able to stand the sudden changes, which have been so often injurious to roses. For grafting, Manetti stocks are held in high esteem. The Manetti stock should be potted into as small a pot as possible, usually 2½ or 2¾ inch, and placed in a house where the temperature is about 45 or 50 degrees. Never allow them to become dry, neither should they be kept soggy. When the eyes begin to swell, they should be grafted and directly put into propagating case.

When selecting the scions take only healthy and well-ripened stock, which shows an eye not yet started. In order that you may have a plentiful supply, it is a good plan to leave two or three eyes on the plant when cutting flowers. In performing the work, use a sharp knife to ensure a clean cut, and as the scions must not be allowed to become dry or shrivelled, it is best to place them in a dish of water until used.

There are many methods of grafting, varying according to size of stock or scion. The method most in practice is as follows: Cut back Manetti stock to about two inches above the pot, making an oblique cut about three quarters of an inch long; cut the scion in the same way so that the two will match as nearly as possible; of course it is not possible to have them always match, but it is essential to have one side perfect. The funda-

mental principle of grafting is the direct communication between the layers of inner bark in each of the parts to be united. Raffia is the best tying material to hold the scion in place.

When the work is completed and the plants are placed in the case, they should be watered thoroughly and kept damp, holding the temperature

as near to 75 degrees as possible, taking care to avoid draughts. The scion should adhere in about fourteen days. When the uniting parts are forming a callus, a little air must be given each day, for the first few days gradually increasing until the plants are hardened. Watch out for the Manetti each morning and see that it throws no shoots. RICHARD J. HAYDEN.

LIBRARY NOTES.

Since our last communication to the readers of HORTICULTURE, under the above heading, quite an unusually large pile of new gardening books, English and foreign has accumulated on our table and we hasten to dispose of some of them by a few short notes.

The Book of the Pansy, Viola and Violet, by Howard H. Crane. This is one of the John Lane series of Handbooks of Practical Gardening, of which there are now no fewer than 33 volumes. The author is a young man, well known as a practical cultivator and his book is the most complete and up-to-date one on the subject. Price, 75 cents.

The Book of Fern Culture, by Alfred Hemsley. Another book in the same series as the preceding, and got up in identical style. There are 25 nicely executed process engravings; and the author is well known as a practical gardener and journalist, well qualified for the task he has set himself. He has an experience of over 40 years, during which time he has been largely associated with fern culture, therefore, he speaks as one with authority. Price, 75 cents.

The Journal of the Royal Horticultural Society of London.—Part I, Vol. XXXIV.—has recently been issued. We notice too that the Society has obtained a supply of the Repertoire de Couleurs, published not long since by the French Chrysanthemum Society. Members of the R. H. S. can purchase it at a reduced price, but why not use its proper title instead of calling it "Color Chart"? There is another French work in colors which might be easily mistaken for the Repertoire if the title is not correctly given.

Beautiful Flowers and How to Grow Them, by Horace J. Wright and Walter P. Wright. This is a work, the nature of which is fully indicated by its title. It is being published in 17 parts, at 25 cents the part. There will be in all 100 colored plates with figures in the text in black and white. The authors are well known experienced horticultural writers and the book will no doubt serve a useful purpose.

pose. The first number is devoted to the Rose. The plan adopted is a selection of the best, most popular and most beautiful flowers for adorning gardens, greenhouses and windows to the number of 100.

The Country Home. This is a new monthly magazine, published by A. Constable & Co. Those who reside or get their living in the country will find many articles of interest in it. The garden, rural industries, bee keeping, poultry, pretty country homes and other kindred subjects are more or less fully treated by experienced writers. It is well illustrated with photo-blocks and there are 48 pages of text in each number. Price, 12 cents, monthly.

Little Gardens and How to Make the Most of Them, by H. H. Thomas. A capital little volume of real practical utility to the dweller in town or suburb. The text numbers 150 pages and is freely illustrated. Price, 40 cents.

Garden Rockery—How to Make, Plant and Manage It, by Francis George Heath. A nicely printed little handbook on a popular subject, liberally illustrated with neat photoengravings executed in fairly good style. Price, 60 cents.

Les Nymphaes dans l'Ornementation des Jardins, by J. Guernier. A nice little booklet of 40 pages in paper wrappers with numerous illustrations dealing with water lilies for the garden. The botanical characteristics,

description of types, the use of hybrids, the selection of appropriate positions, the soil, propagation and planting, together with a list of varieties are given in a brief manner. Price, 15 cents.

C. HARMAN PAYNE.

PUBLICATION RECEIVED.

Progressive Poultry Culture, by Dr. A. A. Brigham. Published by The Torch Press, Cedar Rapids, Ia. Poultry keeping for profit or for pleasure is a fascinating pursuit in which many of our horticultural friends find recreation and ever-increasing charm. To such enthusiasts whether veterans or beginners Dr. Brigham's text-book will prove a "companion, guide and own familiar friend." It comprises 294 pages of the principles and practice of breeding, brooding, feeding, marketing, exhibiting and general management and is illustrated with many excellent cuts.

For Early or Late Forcing

HARDY AZALEA, MOLLIS—This hardy Azalea is becoming more popular every season to force as a pot plant; it is a profitable plant to handle, as it can be grown at a minimum cost; when in bloom it is useful for decorative purposes, and also appeals to the retail buyer as a house plant. We have an exceptionally fine lot of well budded plants, 15 to 18 inches high, \$4.50 per doz; \$35.00 per 100.

RHODODENDRON, PINK PEARL—As an ideal pot plant, nothing can equal this beautiful variety. The individual flowers as well as the trusses are of gigantic size, while its color, a beautiful pearly pink, cannot be improved upon. We believe this is one of the coming pot plants, and when it becomes more plentiful and lower in price it will be very popular. You should try a few plants and become acquainted with it. A limited stock of good plants, about 15 inches high, with 5 or more trusses, \$1.50 each.

DEUTZIA, Extra strong field grown plants for forcing.

GRACILIS.....	\$1.25 per dozen; \$8.00 per 100; \$70.00 per 1000
“ Rosea	1.25 per dozen; 8.00 per 100; 70.00 per 1000
LEMOINEI	1.50 per dozen; 10.00 per 100; 90.00 per 1000

For a full line of seasonable stock see our wholesale list, issued January 1st

HENRY A. DREER, Philadelphia, Pa.

AN IMPORTANT APPRAISERS' DECISION.

The Board of U. S. General Appraisers in New York have just made a decision which will be of great benefit to importers of bulbs, inasmuch as it sets aside the arbitrary foreign market values of Dutch bulbs established by the New York appraisers.

The case involved is Re-appraisal No. 49657 on 64 cases of bulbs imported by R. & J. Farquhar & Co. of Boston, in the S. S. Statendam, from Rotterdam, and invoiced August 13th, 1908. The appraiser at Boston advanced the invoice prices of tulips, hyacinths, and polyanthus narcissus, after having forwarded the invoice to New York for the opinion of the appraisers there; the advance carrying with it a large penalty. In taking this action the Boston appraiser states that he believed the invoice to be an honest one but that the bulbs had been bought at less than market value.

Messrs. Farquhar appealed from the appraisers' advances, claiming that the invoice represented actual value of the bulbs at time and place of shipment. They showed that the prices of hyacinths given in the Holland catalogues printed and distributed to the American trade did not represent their market value in Holland, where they were freely offered to other countries at prices much lower. Foreign catalogues giving such prices were put in evidence. The appraiser's values had been based largely on the prices quoted in such catalogues and, therefore, did not represent the true market values in Holland. General Appraiser Waite at the first hearing in Boston sustained Messrs. Farquhar's appeal as to hyacinths, and also as to polyanthus narcissus which they claimed and showed to be freely offered in Holland at the prices invoiced. He also allowed the importers' contention on invoices of certain varieties of tulips, but denied it in respect to certain other tulips. It was on these last that the case came before the full Board. Here again the importers maintained that their invoice prices and not those of the appraiser represented the correct foreign market value of the tulips. They stated that tulips were offered to the different countries by the Holland growers at prices more nearly uniform than hya-

cintus were. They contended that the government was in error in fixing a standard of value on any variety of tulip without reference to size and quality of the bulbs, even although they might be imported as first size. They exhibited samples in support of their contention, including samples of so-called first size tulips from certain growers, some of which were fifty to seventy-five per centum larger than the first size of the same variety from other growers. It was also shown that there was little uniformity in the bulb prices in Holland—that the exporters sold their bulbs at all sorts of prices—and that there were no regularly established export prices.

The task of Messrs. Farquhar was rendered more difficult by the course taken by many importers who, when making their entries, voluntarily add to their invoice prices, not because of undervaluation, but as the easiest way of securing prompt delivery of the examination packages and of avoiding penalties as they have seen it. In the light of this decision it would seem that such humiliating compromising methods should now be unnecessary if the importer only insists upon his rights and demands prompt service and justice.

MASSACHUSETTS AGRICULTURAL COLLEGE.

Eber Holmes of Montrose, Mass., gave a very instructive talk before the classes in floriculture last Wednesday. Mr. Holmes spoke on methods followed in the propagation and culture of roses, and he treated the subject in a practical, comprehensive manner. Nineteen are taking the short course in floriculture. These are:—J. B. Allen, Haverhill, Mass.; L. E. Avery, Plymouth, Mass.; R. A. Badger, Tolman's, Randolph, Vt.; H. T. Barstow, South Hadley, Mass.; Harry Badger, New York City; E. F. Belcher, South Framingham, Mass.; J. C. Bibber, Freeport, Me.; P. A. Derr, Williamsport, Pa.; G. A. Felch, Felch's Greenhouses, Ayer, Mass.; N. J. Fennelly, Galvin's, Boston, Mass.; R. M. Forbes, Worcester Conservatories, Worcester, Mass.; W. S. Finlay, E. G. Hill Co., (Richmond, Ind.) Zanesville, O.; Esther M. Johnson, Cambridge, Mass.; F. L. Midgeley, Worcester Conservatories, Worcester, Mass.; E. M. F. Perrin, Potsdam, N. Y.; A. A. Phelps, Southboro, Mass.; E. A. R. Schmitz, Danvers, Mass.; A. L. Galerneau, Totman's, Randolph, Vt.; Harlow Welch, Boston. Many of these young men will return to their former positions, but few desire positions after March 15th.

The observation trip last Saturday was to the commercial establishment of H. W. Field, Northampton. This range is strictly up-to-date in every respect, and is one of the very best in central Massachusetts. All of Mr. Field's crops were in excellent condition and the trip was an excellent object lesson of how a range of greenhouses should be run. Detailed written reports of the trip, including a sketch to show the location of all the houses, have been prepared by each short-course student. This week the trip will be to Mt. Holyoke College Conservatories. E. A. WHITE.

Amherst, Mass.

California Privet.

We have 20 acres to offer for sale this Spring. All 2 years old. 2 to 3 1/2 ft. high, 8 to 12 branches and well graded. We are making orders daily now. \$2.75 per 100; \$22.50 per 1000. \$500 at 1000 rates. Packing Free. Cash with Order.

JOHN BENNETT, Atlantic Highlands, N. J.

PHILADELPHIA NOTES.

Henry F. Mitchell left on the 19th inst. for a short vacation at Pinehurst, N. C.

Alexander Forbes, et Peter Henderson & Co., N. Y., was the guest of W. Alice Burpee at the monthly dinner of the Poor Richard Club on the 18th inst.

John Westcott and Robert Craig leave on the 30th inst. for a combined business and pleasure trip to Cuba and the Isle of Pines.

Samuel S. Pennock received his first consignment of oranges last week from his grove in Florida. If there is a florist in this neighborhood who has not got a box he is a wonder. S. S. P. is like John Wanamaker—he can sell anything from hams to hairpins.

Mr. Thomas, late chief assistant for Mr. Lonsdale at Girard College has been appointed to an important position in the horticultural department of the University of Illinois. Reward of merit.

Geo. Walther, of 63rd street and Eggleston avenue, Chicago, completed his conservatory just in time for the Christmas trade. He now has the largest retail store in the South Side. Mr. Walther has a good idea for the front corner. It is separated from the rest of the windows by glass partitions and has a glass door opening into the store. This gives him a fine corner show window, cool enough to keep flowers without ice, and warm enough to prevent freezing. The main entrance is just at the side of this corner.

EXPERIENCE

keeps a dear school, but fools will learn in no other, and scarce in that.

Five or ten dollars a thousand more for lily bulbs is a difference of only one-half to one cent a bulb. If only one bulb in ten produce one more flower, it pays.

Still some haggle over price, trusting to luck instead of common sense for quality.

A shrewd buyer of bulb's buys from a reliable source, pays for quality and insists on getting it.

We will appreciate your inquiry for prices on reliable bulbs.

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. Gladiolus are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white Gladiolus. First-size bulbs, 1½ inches and up. \$2.00 per 100; \$18.00 per 1000.

Bulbs 1½ to 1¾ in. \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, flaked rosy crimson; the best forcer. Selected bulbs. \$1.75 per 100; \$15.00 per 1000.

Brenchleyensis (true). Flery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size: bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1½ in. and up. \$1.50 per 100; \$14.00 per 1000.

Bulbs 1½ to 1¾ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation. \$1.00 per 100; \$9.00 per 1000.

Come and see White Killarney growing at our Scarborough houses, and you will say at once, as every one does who has seen it, it is

The Best White Rose

they have ever seen. You need it if you want to be up to the times, and it will pay you better than any other white rose that you can plant. You will regret it if you do not plant it this year, and you will not regret it if you do.

Big lots are being booked. Get your order in early. Send us order at once, while you think of it. Get early stock. It will not cost you any more to order to-day, while you think of it, than it will two months from now. Be the early bird that catches the worm.

Strong young plants, 2½-inch pots, own-root, ready for delivery beginning February 15th, 1909, \$30.00 per 100; 250 for \$70.00; 500 for \$125.00; 1000 for \$250.00. Grafted plants, ready for delivery beginning March 1st, 1909, \$5.00 per 100 additional.

MY MARYLAND

This new rose, which was introduced last season in a limited way, has proved to be one of the best roses ever introduced. Every one is enthusiastic in regard to its merits, and it will be planted very largely by the largest, most progressive and most up-to-date growers, who have already placed large orders for it.

It is a strong, healthy, and vigorous grower, producing long stems and long pointed buds, exquisitely fragrant. The color is a soft salmon-pink. This is a rose that we can recommend in the highest terms, as we are sure it will prove very, very satisfactory. It is a welcome addition to our limited list of really first-class varieties for indoor culture; and it is not only a fine midwinter rose, but is also unusually good during the summer months.

Strong plants, 2½-inch pots own-roots, \$10.00 per 100, \$90.00 per 1000.

Grafted plants, \$20.00 per 100, \$150.00 per 1,000.

F. R. PIERSON CO., Tarrytown-on-Hudson NEW YORK.

58-60 Wabash Ave.,
CHICAGO

150,000 ROOTED GARNATION CUTTINGS READY

We have won more prizes on carnations this season than any other carnation grower, which goes to show that our stock is in the very best condition and grown to the highest standard of perfection. No sign of disease on our place.

White Enchantress We have the largest and best stock of the pure White Enchantress, winning first wherever we show it, \$4.00 per 100, \$15.00 per 1000.

Splendor a true pink, is an excellent commercial variety, resembling the old favorite variety, Wm. Scott, \$7.00 per 100, \$5.00 per 1000.

Lawson-Enchantress is all we could desire in a variety. Does very well with us, \$4.00 per 100, \$50.00 per 1000.

Andrew Carnegie one of our best paying varieties. An early and continuous bloomer. \$6.00 per 100, \$50.00 per 1000.

White Perfection Our stock of this variety won the Highest Honor at the National Flower Show, \$3.00 per 100, \$25.00 per 1000.

Beacon Extra fine stock. \$4.00 per 100, \$15.00 per 1000.

Aristocrat beautiful variety. Very best in this color. \$4.00 per 100, \$35.00 per 1000.

Also the following varieties.

Defiance, Afterglow, Lloyd. \$6.00 per 100, \$50.00 per 1000.

Winsor, Enchantress, Rose Pink Enchantress, Melody, pink, Victory, red. \$3.00 per 100, \$25.00 per 1000.

ORDERS BOOKED NOW FOR THIS MOST PROMISING VARIETY.

S. J. Reuter & Son, Inc., WESTERLY, R. I.

The two novelties, Mrs. Chas. Knopf and Ruby give great promises as commercial varieties. Both are free producers. We have them both growing side by side with the standard sorts and they have demonstrated now that they are here to stay. Mrs. Chas. Knopf is at this time especially good being larger and of better form and color than Enchantress. Ruby is a very large, perfectly formed flower with excellent stem and it has a good crimson shade not too dark.

Seed Trade

AMERICAN SEED TRADE ASSOCIATION.

WATSON S. WOODRIF, Orange, Conn., Pres.; J. C. BOLANOS, Antioch, Neb., First Vice Pres.; C. L. KENDALL, Cleveland, O., Sec'y and Treas. Twenty-seventh annual convention, June, 1909.

WHOLESALE SEEDSMEN'S LEAGUE.

E. W. BRUGGERHOFF, Pres.; BURDET LAND, Neth., Sec'y.

About Seed Limas.

IN a recent issue of HORTICULTURE the annual shortage in the crop of seed Lima beans, particularly of the dwarf varieties, was discussed and a large share of the responsibility was placed on the California growers. Recently the writer met the most extensive grower of seed Limas in California, and discussed this matter with him, and it is only fair to give his side of the question.

He says in effect what is generally conceded, that the farmers or ranchers have been reluctant to grow seed beans because they have been getting almost as much for commercial beans which yielded nearly double per acre. For the last two years they have received from four to four and a half cents per lb., while the growers could not afford to pay over four and a half cents, hence they have not been able to get their beans on the best land nor with the best ranchers, thus they have been handicapped with their crops, and the small yields, though not a fair test of the relative merits of the seed and commercial beans, have been used as an argument against them. Owing to the decline in the price of commercial beans—they are now selling at three and three-quarter cents—the better class of ranchers are willing to grow the seed Limas at four and a half to five cents, and the gentleman referred to thinks there will be no complaint of short crops this year, and samples will also be better. Amen! So mote it be.

"Johnny-on-the-Spot."

January 15th was the date set by the Department of Agriculture for the opening of the bids for supplies of seeds for next year's distribution. Our buoyant friend, Major Braslan, who is always in the forefront of the battle, had pitched his tent in Washington ready for the fray. He is always Johnny-on-the-spot on such occasions, and with his three energetic assistants is combing the country over, keenly alert to every noise that sounds like an order. They will return to the coast richly laden with the spoils of the east.

Canner Prospects.

There is not much activity in canned goods at present, and packers are viewing the future with some anxiety, especially in the lines of peas, beans, corn and tomatoes, but with the steady revival of business all over the country consumption will increase, and the present surplus stocks are likely to disappear before another season's pack is placed on the market. Unless both the output

of canned goods and seeds are exceptionally large, there is likely to be a brisk demand for canners' seeds next autumn, and the growers of such seeds need not begin to lie awake o' nights worrying about a market for their goods.

The Ramblers' Club.

The annual dinner of the "Ramblers' Club," which always takes place during the week of the Canners' Convention, promises to be a "hummer" this year. It costs \$25.00 to belong to this select organization, and the membership is limited to fifty. Each member may have one guest, but there are always a number of "specially invited" guests, so that the number present this year will not be less than one hundred, and may considerably exceed that number. It is stating an obvious fact to say that invitations to this dinner are never declined. The membership is confined exclusively to the Machinery and Supplies Association. Canners are not eligible.

Notes.

The mail order houses having sent out their catalogues are now awaiting with confidence the response. Let us hope it will be most gratifying.

Rocky Ford, Colo.—The stock of the Elbert Seed Co. was sold at public auction on January 11 and bought in by W. B. Mandeville, cashier of the National Bank, for \$800.

The seedsmen of California are reported to be much encouraged over the prospects for the coming season. The timely rains, though light, have been sufficient for plowing for seeds, and the ground is in much better condition than for many years.

CATALOGUES RECEIVED.

Grod & Reese Co., Springfield, O.—Spring Trade List, 1909, for florists, nurserymen and dealers only.

S. L. Allen & Co., Philadelphia, Pa.—List of "Planet Jr." Farm and Garden Implements. New edition.

Johnson Seed Company, Philadelphia, Pa.—Wholesale Price List, Season of 1909. For Market Gardeners and Truckers.

W. Atlee Burpee & Co., Philadelphia, Pa.—Wholesale Catalog "for Seedsmen and Dealers only who buy to sell again," "Red List." Send for one.

G. Edward Schultz, Washington, D. C.—Seed Annual for 1909. A neat publication. New Lettuce "All Heart" has the post of honor on the cover.

H. F. Michell Co., Philadelphia, Pa.—Spring 1909 Wholesale Catalogue for Florists and Market Gardeners. This catalogue is for the trade only.

Leonard Seed Co., Chicago, Ill.—Market Gardeners' Catalogue. Well printed and handsomely illustrated. Gives the market gardener an extensive choice of good things.

D. McNeill Plant and Fruit Co., Sarcoxie, Mo., and Durant, Okla.—1909 Catalog and Price List of Strawberry Plants. This concern has 250 acres of strawberries—75 varieties.

W. W. Wilmore, Denver, Colo.—Trade List, Spring of 1909. Dahlias,

Gladioli, Peonies and Hardy Plants. Also regular list for general circulation, on heavy paper and handsomely illustrated.

Leonard Seed Co., Chicago, Ill.—General Catalogue of Garden, Vegetable and Flower Seeds. Covers brightly adorned with flowers and vegetables in colors on a richly paneled background.

Pape & Bergmann, Quedlinburg, Germany.—This comprehensive catalogue has a very attractive cover illustration in colors, of a dainty miss with watering pot, sprinkling a cluster of 4-leaved clover foliage.

James Smalley & Co., McPherson, Kansas.—Garden and Field Seed Annual, 1909. The covers of this catalogue are embellished, one with a chrysanthemum the other with ears of corn, on a background of oak leaves done in dark purple ink.

Dobbie & Co., Rothesay, Scotland.—Spring Catalog, 1909. Compares favorably with the best American catalogues, which is saying a good deal. The cover is pearl enamel, gold lettered on front and adorned with a beautiful group of new sweet peas in colors.

Conard & Jones Co., West Grove, Pa.—New Floral Guide for 1909. New Rose Barbarossa, bright crimson, adorns the front cover page and on the back is a collection of five other handsome roses in colors. The catalogue is well gotten up and ought to bring in the orders.

Weeber & Don, New York.—Garden, Farm and Flower Seeds for 1909. An attractive catalog, well printed and with a particularly interesting list of novelties and specialties in sepias. Seth Low Musk Melon occupies the front cover page and on the back appears a fine lawn picture.

H. F. Michell Co., Philadelphia, Pa.—1909 Book of Seeds. A large catalog, with copious illustrations and bristling with the enterprise characteristic of this hustling house. Lawn views and giant cosmos embellish the covers, paneled in dark green with white embossed lettering. There is one plate in colors—subject, gladioli.

R. Vincent Jr. & Sons Co., White Marsh, Md.—1909 Wholesale Trade

ROBERT SIMPSON
CLIFTON, N. J.

List of Vegetable, Greenhouse and Bedding Plants. The Messrs Vincent have a very extensive establishment and their business in these specialties is among the largest in the country. On dahlias, geraniums and pompon chrysanthemums particularly their preeminence is generally recognized.

J. M. Thorburn & Co., New York, N. Y.—Seeds, 1909. Here is front-rank example of seed catalog art. An embossed medallion with garlands of cosmos in colors outlined with gold makes a cover ornament decidedly unique. Illustrations, arrangement and typographical work are of the highest order. The lists are very complete in flower, vegetable, grass and tree seeds.

NEWS NOTES.

Echo, Ore.—Frank Skinner of Grant County has purchased five acres of land and will establish a market gardening business.

Worcester, Mass.—Daniel F. Kavanagh has purchased three of the greenhouses of the late Stephen Salisbury and started in the florist business.

Chicago, Ill.—The Setterberg Landscape and Nursery Co. are located in the Monadnock building, room 1305, with a sales office at 4488 Perry Ave.

San Francisco, Cal.—L. O. Beery has started in business at 101 Valencia street with ornamentals and general nursery stock.

M. Sievers has taken a ten years' lease of the store at corner of Powell and O'Farrell streets, at a rental of \$72,000.

Of Interest to Retail Florists

NATURE AS A GUIDE.

On more than one occasion have I been asked if a knowledge of art was necessary for one desirous of arranging flowers tastefully, the blending of colors being the first consideration. One must not of necessity be an artist in the strictest sense in order to accomplish such an end, as the means are at the disposal of any who will become the simplest student of nature. The fields, the forests and streams, the mountainside, beautiful landscapes, glorious sunsets, all gorgeous in bewilderingly beautiful tints are but few of the examples furnished by nature for man's study. He who will but observe and copy them is not apt to go astray, as there is naught in nature but what is abundant in harmony. What is most desired is an avoidance of those hideous combinations of color too often handed out as

art parcels and which are expected to be accepted as such.

No more striking illustration of the pernicious practice of color abuse can be found than that furnished by the fashionable milliner whose product of the present day must, in many instances, offend one's sight, but is accepted because it is purely Parisian. Imagine a bonnet or hat trimmed with black, blue and green roses, red lily of the valley and white foliage together with equally frightful matter fashioned into a heterogeneous mass, and you may be sure of such a production adorning the head of a metropolitan belle. As is well known to all, the sense of seeing being more delicate than either of the others, is most easily and lastingly offended. Another instance has just come to my mind, and in order to show how deeply an impression may be made by things unpleasant, will tell of a dinner party given by one of Boston's most prominent men about town and practical joker, to a number of female friends at a fashionable hotel. A noted florist

Moore-Livingston Co., Patentees and Mfrs., Lansdowne, Pa.

of the Hub and the manager of the
hotel were enlisted in a secret with
the following program to be carried
out.

The dinner table was covered with
damp and musty linen, napkins to
match, and furnished with rusty
knives and forks, chipped china of
many and ancient patterns, mouldy
confections and partly decomposed
fruit, etc., etc.

A wire frame in the form of a
mound, the convex side being covered
with the most dismal of dark tulips
and other overripe flowers of equal
darkness, with no light colored blossoms
to brighten the object, operated
as a cover for a centerpiece. The
whole thing was violently hurtful to
the sight, but it answered the purpose.

In due time the ladies were ushered
into the dining room where they were
confronted with this wondrous piece
of work and welcomed by their host,
who, by the way, attempted an apology,
the ladies in the meantime showing
signs of having been humiliated,
in fact were about to retire from the
apartment when at a given signal from
the host a number of attendants
who had been concealed behind
screens, and drilled for the work,
sprang to the table and in the twinkling
of an eye had every piece of
offensive matter removed and their
places filled with the establishment's
choicest china and silver. The mournful
centerpiece remained in position,
however, until the finish of the repast,
when it was quietly lifted, revealing
most exquisite corsage bouquets for
the women. As a surprise the affair
was a success and referred to frequently
in after years, but most particularly
on account of the impression made
at the start by an offensive display.

It must be apparent to all that in
order to get before us an object offensive
to our sight it is necessary that we
purposely depart from nature's offerings
and adopt its antithesis. Follow
nature and its colorings will not
carry us away from the harmony it
so readily bestows. W. H. LONG.

NEWS NOTES.

New York, N. Y.—The branch store
of A. LeMoult recently established in
the Bronx, is proving a decided attraction.
Mr. LeMoult has recently moved
his main store to larger quarters at
202 Bowery.

Detroit.—The inauguration of Mayor
Philip Breitmeyer on January 12 was
one of the most brilliant spectacles
seen in this city in a long time. The
floral display was unprecedented for
such an occasion. The new Mayor's
address has the right ring to it and

the popular florists' candidate is
plainly starting in to make a record
creditable to himself and gratifying
to his myriad of friends.

Flower Market Reports.

WHOLESALE FLOWER MARKETS.

PER 100.
TO DEALERS ONLY.

BOSTON Business is slow, very slow. A decided falling off from last week and not quite explicable. In roses, Bridesmaid and Bride are the worst sufferers from the cave-in; Richmond, Beauty and Killarney are holding their own pretty well. Quality is good generally, so the growers have done their part, all right. Last week's business here was quite satisfactory on all lines. At present carnations are on the toboggan and violets are at the foot of the toboggan and in distress. Lily of the valley is a companion in misfortune, and sweet peas are getting there entirely too fast. Yellow narcissi find a receptive market and are thus an exception to the general rule. Improvement is hoped for as the best part of the season is yet to come.

CHICAGO There has been an unusual market for white flowers during the past week. White roses have been in such demand that the supply, particularly in short and medium, was sometimes hard to fill. Brides being off crop with most growers. White carnations also were in good demand. There are some nice tulips in the market, some especially fine in pink and yellow but they do not sell very readily. Jonquils have sold well during the past week. The market for home grown violets has been affected by the quantity shipped here from the East, the price varying with conditions favorable or otherwise to shipping, but on the whole the market for the week has been satisfactory.

INDIANAPOLIS The usual after holiday depression is in evidence. The unsettled weather has been rather unsatisfactory for rose growers. There is a scarcity of good Beauties while good supplies of other roses are to be had. Killarney is increasing in favor and promises to be a good rival to the old favorite Bridesmaid. There is a good supply of fancy carnations, also longformis; the demand for the latter is a little slow. The demand for bulbous stock is not as good as it might be. Daffodils, sweet peas, freesias, paper whites, lilacs, lily of the valley and violets are seen in quantities. Tulips are in fair supply, but not eagerly sought for on account of short stem. A good supply of all kinds of greens finds a ready demand. There is quite a good variety of flowering plants on the market but the demand is unusually light for this season.

PHILADELPHIA Neutral conditions prevailed during the past week prices being kept on a stable footing by the shortening up of supplies. Stock generally has been on the short side and business far from brisk; but these two factors taken together keep the situation on an even keel. In American Beauty roses the only good ones were the specials. Neither Richmond nor Liberty are very plentiful. Bridesmaids have improved wonder fully and are now giving the new pink varieties a good run. White roses are rather draggy as to demand. A few very choice Marylands have been seen

around. The supply of carnations has slackened up, and with quality up to high water mark, prices remain firm. Violet market is in fair shape. Cattleyas plentiful and fine. Cypripediums enough for the demand. Sweet peas moving a little better. Lilies slow. Mignonette excellent and going well. Freesia just commencing to arrive. Daffodils scarce. Paper White and Roman hyacinths shortened up.

WASHINGTON The effect of the inclement weather upon the market is a scarcity of almost everything, and consequent stiff prices. Violets are higher than the same quality was at Christmas. Richmonds are easily taking up the lead in the rose line. Killarneys running second in demand and bringing about the same figure. White lilac is quite scarce. Gude Bros. are supplying the entire Washington market and even shipping to Philadelphia. It eagerly responds to the call at \$2.00 per dozen. Everything is brisk; Washington is primarily a city of social activities, which is something for the florist to be thankful for.

INCORPORATED.

Texarkana, Tex.—The Texarkana Seed and Implement Co.; K. H. Leonard, C. C. Rarcliff, R. P. Dorrough; capital, \$2,500.

Troy, N. Y.—Northern Orchard Company of Peru; F. L. Porter, W. L. Brown, John McL. Stevens, F. E. Foote; capital, \$15,000; dealers in fruit and produce.

Elgin, Ill.—Batavia Greenhouse Co., capital, \$8,000.

ESTABLISHMENT AND RESIDENCE OF FRANK BEU, CHICAGO.

The little picture herewith reproduced, furnishes a very good illustration of a type of moderate-sized, prosperous florist establishment to be found in almost any community of

sufficient size. Ten years ago Mr. Beu bought four small greenhouses and by industry and careful attention to business and the assistance of his capable wife has now twelve houses, 25 x 125 ft., all new and up-to-date in equipment, with over two acres of land. The Chicago wholesale market furnishes an outlet for a large portion of the product.

The U-N-I-T Sprayer, advertised in another column, is highly recommended by Poehlmann Bros., Fred Burki and other equally reliable florists and gardeners, and fills the bill for the purpose intended. Send to the manufacturers for full particulars. You will not regret it.

Detroit.—The Woodmere Floral Co. is erecting a new brick store with all modern equipments.

EVERYBODY KNOWS

Park, Cemetery and Landscape Gardening cannot be properly done without the aid of an accurate leveling instrument.

Bostrom's Improved Levels, No. 2 at \$15.00 and No. 3 at \$25.00, are conceded by all who KNOW to be the only Levels on the market which meet all the requirements, at the price.

Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make.

Shipping weight 12 lbs. Description on request.

NEW YORK MARKET.

While conditions may fairly be said to maintain an unchanging attitude for the past week, yet it is very evident that the product, as a whole, is steadily on the increase and unless a better tide of cut-flow soon begins to move the inevitable results will be a diminishing of values all along the line which will be as unseasonable as it will be unfortunate for the producer. Quantities are good, generally, and it is now full time for the mid-season rush to commence if there is to be any. Carnations are abundant and inclined to accumulate in wholesalers' hands and certainly need whatever impetus the Carnation Society's meeting next week may give to the divine flower. Cattleyas are very plentiful, also the gardenias, which share with them the honor of ultra-fashionable favor. Violets are still finding their best comfort on the "curbstone" market. Bulbous stock of all kinds is on the increase.

HORTICULTURE:

Enclosed check for my subscription to HORTICULTURE to January first, 1910. My kind regards and best wishes and may HORTICULTURE continue to flourish and prosper.

Very truly yours,

T. D. S.

BUSINESS CHANGES.

Why My New Curved Iceless Eave is Far Superior to Anything on the Market Today

- 1st. No sash bars incased in iron, thereby eliminating all danger of bars decaying.
- 2nd. Can be used in conjunction with iron frame construction, thereby doing away with that very objectionable feature, "columns."
- 3rd. Roof bars with drip grooves, which act as conductors to carry away the condensation: Result, the driest roof ever used for greenhouse purposes.
- 4th. **THE MOST IMPORTANT OF THEM ALL.** The very small increase in cost over the ordinary style of construction which makes it possible to be used for commercial as well as private purposes.

HEADER FACTS

You know that it is not safe construction to depend on a couple of nails, toed into the header, to hold the bars.

The same roof bar brackets that are such stiffeners on our eaves, we also use at the header.

An angle purlin stiffens the cy-press header, which is grooved for the glass, and milled with a drip gutter.

Other construction facts shown in new circular—send for it.

What Are You Doing About Sash This Year?

Going to keep on spending your money for the open mortise kind that are a few cents cheaper, and which in a short time go all to pieces—or will you invest in the L & B kind, made with blind mortises, snug, weather-proof joints and round iron tie rod—the Sash That Last? Saw some of these L & B sash at Stamford, Conn. last week, that are thirty-three years old, and apparently good for years yet. How is that for lasting? Send for our Sash Circular and prices.

Lord & Burnham Co.

BOSTON: 819 Tremont Building. PHILADELPHIA: 1215 Filbert St.

LAST WEEK AND WEEK BEFORE

We talked with you about two propositions where ground space was limited and the very lightest possible greenhouse was necessary, because the nearby buildings would somewhat shade them—and so just because it is the lightest house, the U-Bar was chosen.

Now here is another case in the same City, where space was not a question—there was plenty—but attractiveness was decidedly important.

You see the greenhouses are one of the most prominent features of the layout and are connected direct to the dwelling by a loggia, that is glass enclosed during the coldest months. And so once more the U-Bar construction was chosen.

Seems to us you never sent for that catalog—did you?

Grafted, 2½ in. pots, \$20.00 per hundred, \$150.00 per thousand; Own Roots, 2½ in. pots, \$10.00 per hundred, \$90.00 per thousand.

ORDERS BOOKED NOW FOR THIS MOST PROMISING VARIETY.

S. J. Reuter & Son, Inc., WESTERLY, R. I.

The two novelties, Mrs. Chas. Knopf and Ruby give great promises as commercial varieties. Both are free producers. We have them both growing side by side with the standard sorts and they have demonstrated now that they are here to stay. Mrs. Chas. Knopf is at this time especially good being larger and of better form and color than Enchantress. Ruby is a very large, perfectly formed flower with excellent stem and it has a good crimson shade not too dark.

In writing to Advertisers kindly mention Horticulture

For Early or Late Forcing

HARDY AZALEA, MOLLIS—This hardy Azalea is becoming more popular every season to force as a pot plant; it is a profitable plant to handle, as it can be grown at a minimum cost; when in bloom it is useful for decorative purposes, and also appeals to the retail buyer as a house plant. We have an exceptionally fine lot of well budded plants, 15 to 18 inches high, \$4.50 per doz: \$35.00 per 100.

RHODODENDRON, PINK PEARL—As an ideal pot plant, nothing can equal this beautiful variety. The individual flowers as well as the trusses are of gigantic size, while its color, a beautiful pearly pink, cannot be improved upon. We believe this is one of the coming pot plants, and when it becomes more plentiful and lower in price it will be very popular. You should try a few plants and become acquainted with it. A limited stock of good plants, about 15 inches high, with 5 or more trusses, \$1.50 each.

DEUTZIAS, Extra strong field grown plants for forcing.

GRACILIS..... \$1.25 per dozen; \$8.00 per 100; \$70.00 per 1000

SPECIAL SOCIETIES IN ENGLAND

Under this denomination may be counted such as are devoted to the Sweet Pea, the National Auricula, the National Chrysanthemum, Perpetual Flowering Carnation, National Dahlia, with which last the London Dahlia Society is now amalgamated; and the National Rose Society. Most, if not all these societies, can look backwards on a year of successful effort and of prosperity. The National Rose Society, which for several years was in a languishing condition, has received increased support from the gardening public, and has increased its membership. At the end of 1907 the members numbered 2,484, and new members have since joined to the number of 666. At the recent annual meeting Mr. Edward Mawley was the recipient of one hundred pounds in recognition of his valuable services as honorary secretary.

The cultivation of the newer varieties of sweet peas is extending rapidly in England, and also on the continent, and the membership of the National Sweet Pea Society has increased from 602 to 779. So beautiful are the varieties now in commerce, and so great is the admiration of the public that we may hope in a few years to see the last of the old inferior varieties banished from our gardens. The dwarf "praecox" varieties are only awaiting the attention of the cross-breeder ere taking their deserved place as forcing plants for late winter and spring, and as objects for general decorative purposes in the summer months.

The National Carnation and Picotee Society has recently sustained a great loss in the death of its president, Martin R. Smith, who was the most successful raiser of carnations and picotees this country has ever known. This society, as also the National Auricula and Picotee, and the Perpetual Flowering Carnation Societies have all had their special exhibitions in the past year. All are doing useful work in their special spheres. The National Dahlia Society and the London Union have joined hands—a fact that will most probably tend to increase the usefulness and prestige of the newly instituted body.

The National Chrysanthemum Society maintains its hold on the public, and is well supported. The show held at the Crystal Palace on December 2 and 3 was of average merit, but the entries were slightly fewer than on some former occasions. Fourteen new varieties were presented to the floral committee, but only two were awarded a certificate of merit, viz., *Aurora Boreale*, a

single flowered variety of large size with reddish bronze colored florets that run into yellow at the base; and *Kathleen May*, a decorative variety of a deep crimson tint and having an "anemone" centre. The following fine varieties were observed, viz., *Kitty Gullivan*, cerise red; *Mrs. Wynne*, an incurved flower; *Helen Williams*, a yellow sport from *Madame R. Oberthur*; *Snowdrift*, *True Gold*, *Mrs. Wakefield* (*terra cotta color*). *Pollox* and *Juno* were fine yellow varieties shown by *Mr. Norman Davis*.

HELIOTROPE FRAU G. VON POSCHINGER

This new variety of heliotrope is but little, if at all, known to English gardeners; yet it is an ideal plant for the greenhouse, brings large corymbs of blooms of a beautiful blue tint, the corymbs supported on strong stalks; and is not at all tender in constitution. It possesses all the good properties a heliotrope should have. Well grown examples of the plant in smallish pots have been disposed of in Germany for 12s. a plant—a high price for such subjects. A plant of this variety was figured in "*Moller's Deutsche Gartner-Zeitung*," Nov. 11, 1908.

DRACEANA BROOMFIELDI

This species was imported for the first time by John Broomfield from the South Sea Islands in the year 1878, but the plants were found to be dead on arrival. An importation made in 1897 was more successful, and the plant was shown at Ghent in 1898. Apparently the plant is not readily propagated, and although ten years have flown since that year it has remained scarce, which is remarkable for so fine a species. A variety of the plant, *D. B. superba*, appeared in 1903 for the first time, and a specimen of it was exhibited at Ghent last year. The leaves are edged in a lively manner in the variety.

Frederick Moore

Mexican Ivy

Epimedium alpinum is the proper name of the plant, the leaves of which have been sold extensively this season in Chicago for florists' use, under the name of "Mexican Ivy." This plant is a native of Japan. We have a nearly allied native plant of our own, *Vancouveria hexandra*, which is found abundantly in the northwest section of the U. S. and in western Canada. The foliage is very much like that of *Epimedium* and could be used in the same manner.

The American Carnation Society is still in session at Indianapolis as we go to press. Such news of the meeting up to the present moment as we have been able to give in this issue is transmitted entirely by telegraph, the great distance precluding the

sending of any part of it by mail in time for publication on our regular day and we do not think it would be fair to our readers as a whole to send out the paper one day late. Such detailed reports as might suffer in precision or clearness by telegraphic transmission we have preferred to hold back until our issue of next week when we shall be able to give them in fuller and more interesting and intelligible form, in connection with the closing proceedings and the story of the banquet on Thursday evening.

Visitors to the F. R. Pierson Company's carnation houses at Scarborough, N. Y., all notice and comment approvingly on the graceful effect of the sweet peas which are trained on the numerous upright supports throughout the houses. Mr. Pierson says that the returns from these peas amount to a sum not to be despised and their effect in slightly tempering the bright sunlight is good so it is just so much added to the aggregate income from the house. It is easy to detect the thrifty grower by the way in which the odd corners in a greenhouse are utilized. We often wonder why so many growers tolerate so much unoccupied and wasted space in their establishments, forgetting apparently that every square foot of bench surface under glass costs just so much in cash for maintenance. These men would not think of harboring an idle employe on the place yet they thoughtlessly maintain idle space which in many instances costs more than a man would.

A certain European dealer in tree and grass seeds has seen fit in a recent communication to one of our contemporaries to reflect upon the reliability and business integrity of the American dealers in Kentucky Blue Grass (*Poa pratensis*). We do not like to see such statements as the one in question which we have good reason to believe is an unfounded vilification of an important industry conducted by honorable merchants. We are assured by those in a position to know that there are some of the most reliable firms in the seed business in central Kentucky that can be found on the globe. No doubt there is a quantity of old Blue grass in existence but we are quite sure that nine men out of every ten in the seed business know the location of same. There is also plenty of guaranteed high-class new crop seed in stock and any buyer wanting to purchase same from responsible people will get just what is represented. Perfection does not exist, of course, in the seed trade any more than in any other line of business and, as Mr. Brown intimated in his contribution on this topic to HORTICULTURE under date of January 16th, if there should be as much competition for quality as there is for price there would be a material improvement in the results obtained from the seed sown but this does not justify a general condemnation of an industry in which unreliability is certainly the exception, not the rule.

Carnations in the West

HOUSE OF SPLENDOR
Chicago Carnation Co.

HOUSE OF WHITE ENCHANTRESS
Chicago Carnation Co.

No one should go to Chicago without taking the trip to Joliet and visiting the houses of the Chicago Carnation Company. Their motto is "Not the largest but the best" carnation establishment, and they are fast making a record to this effect. During a recent visit we noted White Enchantress, the strain that won the \$100 cup at the National Show, and Splendor, which they will grow extensively another year; it blooms two weeks ahead of any others. Defiance is not proving satisfactory with them, as it splits badly. Aristocrat is a favorite by reason of its length of stem and productiveness. Carnegie on account of its upright habit, admits of nearly double the number of plants being grown in the same space.

But the pride of the place is Seedling 509, one of James Hartshorne's last productions. Three-fourths of the petal is a pure rose pink, the other fourth is a border of a light flesh pink. The effect is decidedly striking.

Four thousand blooms daily is the output of this company to the retail stores. The numerous prizes won and the success attained by them show what can be done by careful selection and thorough cultivation. A. T. Pyler is the present able manager.

GARDENERS' AND FLORISTS' CLUB OF BALTIMORE.

The semi-monthly meeting of the Gardeners' and Florists' Club was held on Jan. 25. Attendance good and meeting interesting. The question box revealed the fact that some of our rose growers are experiencing difficulty with My Maryland. One reported having visited Mr. Cook's establishment quite recently and that at the home of this rose no trouble of any kind existed; on the contrary the conditions both in the flowering bed and in the propagating bench are such as to leave nothing to be desired. Mr. Cook will be invited to the next meeting to give full information as to cultural necessities, etc.

The next meeting will be Carnation Night. Consideration was given to the idea of offering premiums for the new-

er varieties and inviting exhibits from all over the country. This was finally abandoned and just Carnation Night, without frills, was the final conclusion. A letter was read from the Sports Committee of the Philadelphia Club,

suggesting a tri-city bowling contest between Philadelphia, Washington and Baltimore, three games at each city. This was referred to the bowling team, and the contest will take place in the near future.

ARISTOCRAT
As Grown by Chicago Carnation Co.

AMERICAN CARNATION SOCIETY

Eighteenth Annual Convention at Indianapolis — A Magnificent Exhibition—Splendid Attendance.

The convention opened under the most favorable auspices, with a magnificent exhibition, splendid attendance and weather like May. A short session was held at noon, when Fred Burki, Eugene Dailledouze and S. S. Pennock were appointed as extra judges. The regular session opened at 7.30 p. m. with an eloquent address of welcome by City Attorney Bowen, which was loudly applauded. This was responded to by E. G. Gillett, who rose to the occasion in his appreciative remarks on the hospitality extended and the splendid facilities provided for the meeting and exhibition. President M. A. Parfen was then introduced and after an enthusiastic welcome read his address, as follows:

ADDRESS OF THE PRESIDENT.

Ladies and Gentlemen of the American Carnation Society: We have been already in Indianapolis long enough to learn that we are among indulgent friends. As eighteenth president I also extend you a welcome and wish you all a prosperous and happy New Year, and a successful convention on this our third visit to Indianapolis.

The past year has been a trying one to the florists. The depression in business has laid a heavy hand on many, but the future looks bright. Let us be alert and ready to take advantage of the improvement in business.

Many new varieties of carnations have been introduced the past season; time will tell how many will prove worthy of perpetuation. Anyone sending out a new variety should exercise due care to have the stock healthy, cuttings good and well rooted.

The carnation is still the popular flower, and as our Society stands for the advancement of the carnation, continue it so. The raisers of new varieties have made marked improvement, but have not reached perfection yet.

I think it generally understood that this Society does not necessarily endorse a variety as a profitable kind to grow commercially, because it has been successful in obtaining a prize.

At the National Flower Show at Chicago, last November, under the auspices of the Society of American Florists, the interest in carnations was indeed manifested by the enthusiasm of the many visitors. This was probably the largest exhibition of carnations at a fall show ever held in the country, and was a credit to the exhibitors.

As our conventions are held in different parts of the country, some members lose interest when the conventions are held at a distance and drop out. As our society creates an interest in

the carnation and the proceedings at our meetings are quoted over the entire country, every florist receives the benefit to a certain extent and ought in justice to the society to become a member, even if unable to attend.

Some florists have been growing their carnations on concrete benches; it would be interesting if they would relate their experiences. It probably is economy to build of concrete if the plants do equally as well as on the wooden benches. Many growers have dispensed with the use of bone, and claim that their plants do just as well, if not better.

Last year the Experiment Station at Washington devoted a lot of work to carnations, which was appreciated by all who had the privilege of visiting the greenhouses and listening to Dr. B. T. Galloway, Chief of the Bureau of Plant Industry. We might get more good from this Bureau if we would try, for the officers are ready to work with us.

What about having pot grown carnations at our exhibitions? This has been called to your attention by former presidents, but we don't seem to make any headway in the matter. I think it would be a good thing for the introducers of a new variety to have a well grown pot plant in a pot to show with the cut flowers. It certainly would be of interest to intending purchasers.

Would it not be well to offer prizes for collections of three or more pot grown carnations, say \$10.00, \$6.00, \$4.00. It would give more material to make an exhibition and tend to create more interest in the divine flower. Pot carnations years ago were quite a source of revenue to the florists.

At the convention of the S. A. F. at Niagara Falls, last August, the Carnation Society voted the sum of \$25.00 to be sent as a premium to the Perpetual Flowering Carnation Society of England.

I would suggest that the salary of the secretary be increased if possible.

I hope all our members will wear a carnation in memory of the lamented President McKinley, on January 29th.

I wish to thank you for the loyal support given me, especially the secretary, Mr. Albert M. Herr, and Vice-President A. F. J. Baur, also the directors.

The press, which has been so friendly to us, is entitled to all the thanks we can give it.

To the members of the local society for the arrangement and details of the exhibition, we are under obligations and grateful to each and every one.

Treasurer Fred Dörner, Jr., followed with the financial report:

-----------------------------	-----------

F. E. DÖRNER, Treas.

Secretary A. M. Herr then read his report for the year:

SECRETARY'S REPORT.

Mr. President and Fellow Members of The American Carnation Society.

Your Secretary begs leave to report having issued the Report of our Annual Meeting in due time and having mailed the same to all members in good standing.

January 4th the Premium List was issued and mailed to all members on our books; this list was made up as per instructions from your Board of Directors at a meeting held in Washington last January. The usual effort was made to secure advertisements for this list by your Secretary. A circular letter was sent to every member on our books and about 300 possible advertisers who were not members of this Society. This was followed up by a personal letter to a hundred or more whom your Secretary thought should advertise with us. The result is \$105 worth of advertising, not one fifth enough for the work of solicitation necessary to get it, and I again recommend that this part of our Premium List be abolished.

An innovation this year was a request made to every member of this Society to add to our Class B. of named varieties any variety they might want to see inserted, providing they would pay the premiums, if any were awarded. This was followed up by an appeal made through the trade papers and the result was one addition, that of Afterglow, by R. Witterstaetter, Cincinnati, Ohio. This manager response may have been due to this feature not being properly understood and partly owing to financial depression. At least it is to be hoped that we as individuals will have pride enough in our Society to see

that this part of our Premium List is well filled for another year.

In membership we have 32 who have not paid their dues for 1908 and 41 new members so that we are gradually gaining in membership as the new list will no doubt be increased considerably at this meeting. There were several deaths during the year, but no notice being received by your Secretary, no official announcement can be made.

I want to thank the President and Vice-President for their assistance during the past year and beg pardon for the few errors that have occurred during the same period. I also want to thank every member of this Society for their hearty co-operation during the fourteen years I have served them as Secretary, and bespeak for my successor the same helpful spirit from them.

This Society has advanced the carnation and its methods of culture somewhat near perfection. To continue its mission it must take up the work of popularizing the flower with the buying public, and as far as possible correct the evils and make improvements in the buying and selling end of the business.

We need a Secretary who either has ample time of his own to devote to its affairs or sufficient clerical force to have them attend to all of the details between meetings and one to whom the salary is no object for the amount of work done. With me it has been a labor of love for fourteen years, years which I can look back over with many pleasant memories and for which I feel amply repaid by the acquaintance of the men I have been working with, and that is all of you, for we have all worked together or we would not be where we are.

But a few years ago, as some of you know, I was bumped pretty hard financially, and as the hardest part of the work of this Society extends from November 1st, with the solicitation of advertisements, until some time in March with the sending out of the Annual Report without any intermission, right in my own busy season, it makes too much work for me (work that I could not possibly have given the attention I did had it not been for the kindly assistance of Mrs. Herr) and feeling that I can not give this work the attention it should have I hereby tender my resignation to take effect at the end of our official year (April 1st).

ALBERT M. HERR, Secretary.

This was received with a vote of thanks.

A letter of thanks was read from the Perpetual Flowering Carnation Society of England for the trophy sent by the American Carnation Society.

Invitations for the next meeting were then presented from Pittsburg and Milwaukee, Mr. Clark speaking for Pittsburg, and Mr. Zwifel for Milwaukee.

The judges' report was then presented as follows :

List of Awards.

Class A, 100 blooms to a vase. White—Stratford Flower Farms first, with Lady Bountiful; The E. G. Hill Co. second, with White Enchantress. Flesh Pink—F. Dörner & Sons Co. first, Pink Delight, second, Chicago Carnation Co., Enchantress. Light Pink—F. Dörner & Sons Co. first, Wanda, second, A. C. Brown. Dark Pink—The E.

Carnation Dorothy Gordon

DOROTHY GORDON

Seedling by Jos. Heacock Co. (Lawson Enchantress.)

We present herewith illustrations of Joseph Heacock's sterling novelty, Dorothy Gordon, showing individual flowers and also plants as they appear growing in Mr. Heacock's houses the first week in November after having been planted three months. This

variety is a cross between Lawson and Enchantress and the color is similar to that of Rose Pink Enchantress. It was awarded a certificate at the Washington meeting of the American Carnation Society, scoring 86 points. Its strong points are its constitution, size and productiveness.

Vesey, second. Beacon—Chicago Carnation Co., first; E. G. Hill Co., second. Any other scarlet—Chicago Carnation Co. with Carnegie. M. A. Patten—A. C. Brown, first; Wieland & Olinger, second.

Class C. The Gold Medal for best vase of 100 blooms, any variety, any color, was won by A. Roper with Bay State. The Silver Medal went to Balleldorze Bros. for Seedling 404, and the Bronze Medal to Bassett & Washburn for O. P. Bassett. The silver S. A. F. medal went to F. Dörner & Sons Co. for Seedling, the bronze to A. C. Brown for Superba.

Special Prizes.

The Wiegand Silver Cup was won by Bertermann Bros.; the State Florists' Association cup by E. G. Hill Co.; Indiana Floral Festival Association prize by E. G. Hill Co. with Afterglow; H. W. Field, cash, to F. R. Pierson Co.

Preliminary Certificates.

Preliminary certificates were awarded to W. W. Coles, for Mrs. W. W. Coles; Chas. Knopf Floral Co., for Admiration; one each to A. C. Brown and N. Z. Zwick, and three to E. G. Hill Co., for varieties under number. Certificates of merit were awarded to several fine productions. The full report will be in the next issue of the bulletin.

The report was laid on the table until Thursday. The next business was the nomination of officers.

Fred Burki and A. M. Herr were nominated for president. Mr. Burki declined the honor, but allowed his name to stand for vice-president; Louis Reuter, secretary; A. F. J. Baur, treasurer; Fred Dörner, director for three years. The meeting then adjourned and the evening was spent enjoyably at the smoker and in bowling.

Thursday's Session.

The session on Thursday morning opened at eleven o'clock. The judges reported a complete list of sweepstakes awards; first to E. G. Hill Co. for Afterglow; second, Bassett & Washburn for O. P. Bassett; third, to F. R. Pierson Co. for Victory; fourth, to Strafford Flower Farm for Lady Bountiful.

Election of Officers.

NIAGARA.

E. G. HILL CO.'S NIAGARA (No. 142) WHITE

The variety illustrated is one of a number of very handsome and promising seedlings by the E. G. Hill Company. Good whites with the per-

fection of form and finish shown in the accompanying illustration are not over-abundant, and Mr. Hill has undoubtedly secured a "trooper" in Niagara.

There is a good Customer somewhere for every good thing you have to offer. *Horticulture* can help you to find him

ADVERTISE

business, and the result was as follows: Albert M. Herr, president; Fred Burki, vice-president; Fred Dörner, Jr., treasurer; Richard Wittertaetter, judge. The ballot for secretary resulted in the election of A. F. J. Bauer. W. J. Stewart then read his paper on "The Relationship between Producer, Wholesaler and Retailer." F. R. Pierson, J. C. Vaughan and August Poehlmann were appointed a committee to prepare resolutions on the death of L. E. Marquisee.

A vote was passed after considerable discussion that ninety points must be received on any variety before it can receive the society's gold medal, eighty-eight points for the silver medal and eighty-six for the bronze. H. B. Dörner then proceeded to read his paper on "What the Experiment Stations Are Doing for the Carnation Grower."

Notes.

J. A. Peterson made a fine display of decorative foliage and flowering plants.

F. Dörner & Sons Co. had some choice seedling carnations, H. W. Riemans flowering and foliage plants.

A. Wiegand & Sons a large variety of flowering plants and artistic floral arrangements.

The exhibits of The F. R. Pierson Co. of Nephrolepis superbissima and White Killarney rose, of Waban Rose Conservatories of White Killarney, and of Weiland & Olinger of roses and tulips will have more extended attention next week.

FUMIGATING WITH HYDRO-CYANIC ACID GAS.

So much has been said regarding this matter that it seems almost unnecessary to write further on the subject, but in answer to many queries I take this opportunity of giving my experience, for the general good, hoping that it may result in the prevention of, at least some of the difficulties which apparently do much to prevent its general use among florists and gardeners.

We have used it successfully for the past two years, in preference to any other fumigating agent, with most uniformly during the chrysanthemum season, from the time the plants are boxed, until the flowers are cut, we use it on violets with good results, on tomatoes and melons. For killing

white fly it has no equal. In peach houses after the fruit is set, in rose houses, in houses of miscellaneous plants and flowers, calceolarias, cinerarias, cyclamens, schizanthus, callas, Liliun longiflorum, Harrisii, speciosum and candidum, and in carnation houses we have employed it constantly and have never hurt a plant by its use. Many dislike to use it because it is known to be deadly in its action on all insect life, and also to indiscreet or careless operators, but there is absolutely no need to run any risk what ever in its application, the only precaution necessary being to get out of the house quickly, and keep out until next morning.

We always fumigate at night and proceed as follows, for a house 50 x 20 feet: The house is closed, and the floors dampened. An earthen bowl is used, and 2 ounces sulphuric acid and 6 ounces of water are put together in the bowl, which is then carried into the house and placed on the floor near the center. Be sure that everything is all right at this time, and that the door is left open, for a hasty retreat is necessary. Then add quickly 1 ounce cyanide of sodium, and get out of the house quickly, close and lock the door and leave it so until next morning. I usually put the cyanide in the corner of a small box, as it can be readily turned out of this. It is very important that none of the cyanide be allowed to get into the mixture of acid and water until the final moment, as this forms the gas which is so destructive and the greatest care must be taken not to breathe any of it while placing the cyanide at the last moment or any other time. It is also advisable not to stand long over the cyanide itself while preparing it, and for this reason the granulated kind is preferable as it needs less handling.

In the summer time when it is not advisable to keep a house closed all right, an outside door can be thrown open, after the gas has been in the house about four hours, and allowed to remain open an hour before entering; by this time there will be no danger.

An important matter which is often overlooked, and one of the principal causes of injury to plants is that the foliage on the plants themselves must be dry at the time of fumigating, or trouble will surely follow neglect of this precaution. Used in this way we

have found it safe and efficient, and if any are in doubt about the quantity required, I advise such to go slow, using it by degrees until the desired effect is accomplished. I experimented for myself until I found out the necessary quantity for each of my houses, and have discarded everything else for fumigating purposes.

ALFRED J. LOVELESS.

New Rose **White Killarney**

Come and see White Killarney growing at our Scarborough houses, and you will say at once, as every one does who has seen it, it is

The Best White Rose

they have ever seen. You need it if you want to be up to the times, and it will pay you better than any other white rose that you can plant. You will regret it if you do not plant it this year, and you will not regret it if you do.

Big lots are being booked. Get your order in early. Send us order at once, while you think of it. Get early stock. It will not cost you any more to order to-day, while you think of it, than it will two months from now. Be the early bird that catches the worm.

Strong young plants, 2½-inch pots, own-root, ready for delivery beginning February 15th, 1909, \$30.00 per 100; 250 for \$70.00; 500 for \$125.00; 1000 for \$250.00. Grafted plants, ready for delivery beginning March 1st, 1909, \$5.00 per 100 additional.

F. R. PIERSON CO., Tarrytown-on-Hudson NEW YORK.

NEWS OF THE CLUBS AND SOCIETIES

NEW ORLEANS HORTICULTURAL SOCIETY.

The regular meeting of this society was held January 21. In the absence of President Steckler, Vice-President Scheuermann presided, with Chas. R. Panter, secretary. A large number of members was present. After interesting talks on plants and flowers, the results of the November Flower Show were considered and plans laid for another exhibition in the spring of 1910. The reports of secretary and treasurer showed that a loss of \$326 had been sustained on the flower show. The original loss was \$600, but the members who won prizes donated the amounts to the Association. A letter was read from Prof. W. Newall, of the State Crop Pest Commission, warning the horticulturists to look out for the fish-tailed moth. This destructive moth had been found on plants and flowers imported from France to New York. R. Eichling read an interesting and instructive paper entitled "The Forcing and Growing of Bulbous Stock for Cut Flowers in the Southern States." Mr. Eichling showed some rare specimens of lilies, callas, hyacinths, etc., which he had grown under the methods he advocated.

The members paid their yearly dues in advance, so that the nucleus of a fund could be established for a flower show in the spring of 1910. If the public show interest and responsiveness this exhibition will be given on grander lines than ever before attempted.

J. A. Newsham exhibited beautiful *Oncidium splendens* gathered by him while in Central America. Mr. Panter showed some substantial looking cork that he had taken from a tree on the State Farm at Avondale.

CHAS. R. PANTER, Sec'y.

MINNESOTA STATE FLORISTS' ASSOCIATION.

The meeting of the association was held at Merriam Park on January 19 with President Wirth in the chair. The society will hold its first social in the U. C. T. Hall in St. Paul on Feb-

ruary 15. The State Fair committee reported favorably on the meeting they had with the managers of the State Fair Association. The premium list for the State Fair exhibits was submitted by the committee and approved. O. J. Olson read a very interesting paper on "The Retailer's Profit." A committee was appointed to consider the advisability of a fall flower show.

There was a fine exhibit of plants and flowers. Certificates of merit were awarded to Carl Haugen for double cyclamen; A. Swanson for Marie Legray lilac; H. Nagel & Son for Winsor carnations; Minneapolis Park Greenhouses for *Primula Chinensis* and *Kewensis*. Honorable mention to Nagel & Son for sweet peas.

Jas. M. Jansen, with C. Keur & Sons, Hillegom, Holland, A. Henderson and Arnold Ringier, Chicago, were present.

AMERICAN ROSE SOCIETY.

The preliminary schedule of prizes for the exhibition which is to take place in Buffalo, March 17, 18 and 19, under the auspices of the American Rose Society in connection with the spring exhibition of the Buffalo Florists' Club, has been issued. A gold medal for the best new rose not yet disseminated, 95 points being required to win, a silver medal for any novelty in this competition scoring 85 points, a certificate of merit under same conditions to any novelty scoring 80 points, the Breitmeyer prize \$200, and the Boddington prize \$100 for best and second best display of hardy roses in bloom, the Dorrance Challenge Prize, the Michell Prize for 50 Kate Moulton, the Kroeschell Prize for 12 H. P. roses in pots, the Valentine Prize for best arrangement of one dozen rose blooms, and the prizes unassigned as yet, offered by J. A. Budlong, Waban Rose Conservatory, W. H. Elliott, Welch Bros., Ellwanger & Barry, and several others are among the special inducements which should contribute to bring out a record exhibition from far and near. Copies of the schedule as completed up to date can be procured from the Secretary, Benj. Hammond, Fishkill, N. Y.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Registration of *Cypripedium*.

Public notice is hereby given that Alfred J. Loveless, of Lenox, Mass., offers for registration the plant described below. Any person objecting to the registration of this plant or to the use of the proposed name is requested to communicate with the undersigned at once. Failing to receive objection to the registration the same will be made three weeks from this date.

Date—January 25, 1909.

Name—"Usula."

Kind of plant—*Cypripedium*.

Parentage—*Leucanum Chinkaberryanaum* X

Nidula Shortiiense.

Description—Upper dorsal, round-pointed at the apex 2½ inches wide and the same in depth, upper half pure white, base yellowish green with numerous dark spots; a bright reddish purple line ¼ inch wide runs through center to apex, and the dorsal is also flushed with the same color, on each side of central line radiating from the base, until lost in the white above. Lower dorsal, pale green, keeping well forward, giving the flower a round full effect. Petals, deeply corrugated, brownish on upper half with a margin of pale green, terminating with numerous minute spots at base; dark brown line runs through center; lower half light yellowish green splashed with chocolate. Pouch 1½ inches wide at top, differing from either parent by almost touching the petals on either side and being of a bright glossy reddish brown in front shading back to yellowish green. Foliage, similar to *Leucanum*.

W. N. RUDD, Secretary.

Packing Free. C. Cash with Order.

JOHN BENNETT, Atlantic Highlands, N. J.

STATE HORTICULTURAL ASSOCIATION OF PENNSYLVANIA.

The 50th annual meeting of the State Horticultural Association was held at Harrisburg on the 19th and 20th inst., President Gabriel Hiester presiding. The president's address reviewed the work of the association and indicated lines along which the society might develop.

J. H. Hale of South Glastonbury, Conn., made two addresses during the two days' session. In these he gave his experience in planting and cultivating peaches on rough and stony Connecticut hillsides as well as in Georgia, and he discussed "Things we are up against." Both were full of suggestions for the Pennsylvania fruit growers.

Mr. L. G. Young of North East, Pa., told how grapes were grown in his section. Few people realize that the best portion—the west end—of the Chataqua grape belt lays in Pennsylvania. Grapes grown here are better and bring higher prices than those grown across the line in New York State. North East is the shipping point, and more grapes are shipped from there than from any other place in the country.

Prof. S. B. Heiges gave an extremely interesting reminiscent talk about the association and its members.

Among the reports that of Prof. H. A. Surface, that told of the work of the orchard inspection and demonstration work in the state was of great interest.

The attendance was very large and enthusiastic.

THE NEBRASKA HORTICULTURAL SOCIETY.

This society, which met in Lincoln, Jan. 19th, had probably the best and largest meeting which they have ever held. The gathering was at the state farm. On this farm are some splendid new buildings. We were glad to welcome twenty-five young men who had organized themselves into a Horticultural Society of their own among the students. They were promptly made honorary members. The usual topics were discussed. Prof. Emerson gave a very hopeful address on commercial orcharding. Mr. Hadkinson, who was landscape gardener at the St. Louis Exposition, had a paper on ornamental shrubs. This society with others in the West is getting out of the old ruts to take a wider view, and there is now a turning from forests to ornamentation. The merits of the Bull pine were discussed, and it was the general opinion that it was the tree for the semi-arid regions. There was a fine exhibit both of fruits and flowers. A veteran orchardist from the northwest part of the state was there. He had fought great difficulties for years, but was now a victor. Orchards are being extended into the dry farming regions, where the fruit pests have not yet made their appearance. Altogether it was a good profitable meeting.

C. S. HARRISON.

ST. LOUIS HORTICULTURAL SOCIETY.

This society held an important meeting on Jan. 19 in the hall of the Central Young Men's Christian Association. It was decided to hold two flower shows this year, one in the spring and

Any of the florists throughout New England or elsewhere wishing to attend the annual flower show of the Boston Flower Growers' Association, Feb. 27th and 28th can get free tickets to the same by applying to N. F. McCarthy & Co., 84 Hawley St., Boston, Mass.

one in the fall. It was also voted to offer \$50 in prizes for the best kept gardens and home surroundings this summer. The following officers were elected: Edward Mallinckrodt, president; J. B. Gazzan, D. S. Brown, Leonard Matthews and J. F. Gundlach, vice-presidents; C. Weber, treasurer; Otto G. Koenig, secretary. The society is in good financial condition and has added a number of well-to-do society folks to its membership during the past year. Their last show was a success and the fall show should be a money maker.

NEW YORK FLORISTS' CLUB.

Carnation Night February 8th, 1909.

Carnation night is a special feature of the club, and we would like to have an exhibit of standard varieties, also any new ones you may have. It will be a good advertisement for your firm and the Cultural Certificate of the club will be given to all deserving exhibits.

Kindly notify as to the amount of flowers you will exhibit.

Exhibits coming from a distance must be express prepaid and addressed to John Young, Sec'y, 51 West 28th St., New York City.

If you cannot be present at the meeting, we will see that your exhibit is staged in an attractive manner.

EXHIBITION COMMITTEE,

Harry O. May, Sec'y.

CLUB AND SOCIETY NOTES.

The National Association of Gardeners will hold their annual show on March 17 and 18, at Sheffield Hall, 3rd avenue and 17th street, New York.

The Florists' Club of Utica, N. Y., will hold their annual flower show and banquet on February 18 at Arcanum hall, to which ladies will be invited.

The Colorado State Horticultural Society met on January 19-21 at Denver. The program shows interesting fruit and orchard topics.

A joint annual meeting of the State Horticultural Society and the State Nurserymen's Association was scheduled for January 26, 27, at Nashville, Tenn.

Hon. Harold Parker of Lancaster, will speak Feb. 4 on "The Development of the Roads of Massachusetts," before the Worcester County Horticultural Society, Worcester, Mass.

Officers of the Salt Lake County Horticultural Society, Utah, were elected on Jan. 16 as follows: President, J. W. Fisher; vice-president, John Woodbury; secretary, J. C. Stay.

The reception of the president of the New Jersey Floricultural Society and the annual smoker will be held on February 12 at 8 o'clock, at the rooms of the society, Orange, N. J.

At the meeting of the Horticultural Club of Burlington, Vt., at the home of William Stuart on January 21, T. L. Kinney of So. Hero spoke on horticultural conditions in the state.

The Florists' Club of Cleveland, O., will hold their annual carnation show on February 10 at the club rooms, 2610 Detroit Ave. Out-of-town exhibits should be prepaid and sent in care of Isaac Kennedy, secretary.

The lecture before the Massachusetts Horticultural Society on Jan. 30, at eleven o'clock, will be on "The Effects of Conditions of Growth in Certain Horticultural Plants Upon Susceptibility to Fungous Diseases," by Prof. B. M. Duggar, Ithaca, N. Y.

At the recent meeting of the Pasadena Gardeners' Association held on Jan. 15th, the following officers were elected: President, Otto Heutschy; vice-president, J. McGilvray; secretary, R. McKenzie; treasurer, John Blake; trustee, Robert Pegg; sergeant-at-arms, R. Kroll.

The Cambria County Horticultural Society was organized at Wilmore, Pa., on January 17 with 100 charter members. The following officers were elected: Abram Hostetler, Johnstown, president; Frank Westbrick, Patton,

vice-president; George W. Settlemyer, Wilmore, secretary.

One important matter under consideration at the recent meeting of the horticulturists and nurserymen at Brownsville, Texas, was the amendment and improvement of the state inspection law. Closer relations between the railroads and the producers was urged by B. F. Yoakum.

At the meeting of the Peninsula Horticultural Society held on January 13, 14, at Wilmington, Del., interesting addresses were made by Richard Vincent, Jr., on Floriculture, and by Antoine Wintzer on Cannas and Roses. W. Irving Walker of Chestertown, Md., was elected president, and Prof. Wesley Webb of Dover, Del., secretary.

The meeting of the Engelmann Botanical Club, St. Louis, postponed from Jan. 11 was held on Jan. 23, when the one hundredth anniversary of the birth of Dr. George Engelmann was observed. The subject of the evening was "Twigs of Woody Plants in Winter" and C. H. Thompson of the Botanical Garden was the speaker.

The Florists' and Gardeners' Club of Rhode Island enjoyed their annual banquet on January 18. After a short business session President C. S. Macnair presented the retiring president, Alex. Macrae, with a gavel. C. Hartstra, gardener at the Rhode Island Hospital, presented the club with two volumes on "Medicinal Plants." An enjoyable musical program closed the evening's festivities.

The meeting of the Detroit Florist Club on January 18 was rendered very interesting through the reminiscences of the old times vividly pictured by Robert Flowerday. He began with his apprentice days in England and traced the progress of the florist industry up to the present time. Among other items of local interest he stated that the first flower store in Detroit was opened in 1878, on Woodward avenue.

BUSINESS CHANGES.

Louisiana, Mo.—T. L. Culp is now manager of the Foreman greenhouses. Clarinda, Ia.—J. F. Pfander has taken a partner and the firm name is now Pfander & Crosthwait.

Washington, D. C.—Robert Bowdler has purchased the stand of George A. Comley at the Centre Market.

Dorchester, Mass.—Francis W. Wilson has purchased the Dickerman greenhouses at 21 Mill street.

Red Wing, Minn.—Decker & Fritze have bought the Humphrey greenhouses and will carry on the business.

Detroit, Mich.—The consolidation of the American Flower Co. of this city and the Sirocco Engineering Co. of New York is reported.

FRUIT TREES UNDER GLASS.

Up to the present time there has been only one authoritative work on dwarf fruit trees, in the English language, "The Miniature Fruit Garden" by Thomas Rivers. "The Miniature Fruit Garden" went through some twenty editions but for some years has been out of print, and from some correspondence I had a year ago with the publishers, Longmans, Green & Co., it is not likely to be republished. Therefore, the present importation of "The Culture of Fruit Trees in Pots," by Josh Brace, is exceedingly timely.

Mr. Brace has been employed for twenty-two years by Thomas Rivers & Son, of Sawbridgeworth, as foreman of the orchard house, a fact sufficient to convince anyone that the author is well grounded in the subject of fruits under glass.

In the 108 pages of this book, Mr. Brace thoroughly discusses the kind of house, its location, ventilation, furnishing, as well as cultural details, varieties best adapted for growing in cool houses and for forcing, and insects and other pests.

There is also a calendar of operations that gives the gardener an idea of what should be done each month. Of course the dates and conditions in this country differ from those of the Old World but the book contains so much valuable information regarding fruit trees in pots, that it should be owned by every person in this country interested in their culture.

P. T. BARNES.

W. Marche, Washington, D. C., has created a sensation by a wreath that he has just completed to ship to Paris to a French opera singer. The wreath is about 5 ft. in diameter and is made of imported laurel. On one side are the French and American flags and on the other light blue streamers bearing the inscription in raised gold letters.

Bulletin 134, Agricultural Experiment Station, Colorado Agricultural College. This bulletin treats on Orchard Plant Lice and Their Remedies, by C. P. Gillette and E. P. Taylor. It contains good practical information on the subject of these destructive orchard pests and the means of exterminating them.

The Physical Properties of Soils. By Arthur G. McCall, Professor of Agronomy at Ohio State University, Published by Orange Judd Company, New York. This work is designed especially for the use of students and alternate pages are left blank for students' notes and reports of laboratory practice. It is printed on very heavy paper and has many illustrations of apparatus used in experimenting and analysis. Instructions are given in the successive chapters for the determination of the various properties and constituents of soils and complete data as to the processes to be followed in each test.

The American Apple Orchard. By F. A. Waugh, Massachusetts Agricultural College, Amherst. Published by Orange Judd Company, New York. This is a book which no fruit grower can afford to be without. It covers every step in the practice of apple growing as now carried on by the most progressive culturists, from the selection of the soil to the packing of the fruit for market. Its 215 pages are rich in good, common-sense instruction given in concise, easily understood form. It is a subject on which Professor Waugh is well qualified to teach and the book under consideration ranks among his best efforts.

The Horticultural Directory and Year Book for 1909 comes to us from the publishers of the "Journal of Horticulture" and "Poultry", office, Fleet Street, London. This useful publication is now in its fiftieth year. It comprises nearly six hundred pages

teeming with information and representing a vast amount of labor in its compilation. Besides complete lists of all the nurserymen, seedsman and florists, alphabetically and by counties, in Great Britain, Scotland, Ireland, etc., there are included complete lists of all the estates with name and address of gardeners, lists of landscape gardeners, commission dealers, horticultural builders and allied industries, and many other tables and indexes covering a wide field of useful information.

Roses and Rose Growing, by Rose G. Kingsley. Published by the MacMillan Company, New York, and Whitaker & Co., London. In the preface to this interesting book the author tells the reader that the contents are mainly the record of the practical experience of an amateur in her own English garden. Her chapters on the various processes of planting, propagating and general care are good evidence that she thoroughly understands her subject. The lists and descriptions of roses in all classes are very complete and strictly up-to-date and will prove of greatest value for any one interested in rose culture, either commercially or as an amateur. The closing chapter is by Rev. F. Page-Roberts, Vice-President of the National Rose Society, on "How to Grow Roses for Exhibition." There are numerous illustrations, including 28 in colors. The price of the book is \$2.00 net.

FIRE RECORD.

The Thos. Martin Seed & Flower Co. at Riverside, 12 miles west of Chicago, suffered a loss by fire Jan. 21, which is estimated at about \$5,000.

Rochester, N. Y.—Fire in the florist store of Paul Thorman, 3 Clinton avenue, South, on Jan. 12, did about \$500 damage.

The fifth annual convention of the Canadian Seed Growers' Association will be held in Ottawa, Ont., on Feb. 4, 5. An interesting program is presented.

Barenbrug On Grasses. By Joseph T. Barenbrug, \$1.00, postpaid. Horticulture Publishing Co., 11 Hamilton Place, Boston.

Flower Market Reports.

BALTIMORE The weather has of late not been of the kind which our flower growers would have made to order. Prices on the whole have been quite normal, the supply has been just about equal to the demand, and the quality generally good. Things are moving along very nicely. More social events would be welcomed by the decorators but there is little to complain of.

BOSTON Crops are increasing steadily on all lines, but this fact does not seem to bear any relationship to the market, which has been erratic all through this unusual season, and is still keeping fully up to its reputation. Following a dispiritingly dull week the situation has now changed and the present week starts in with a vim as refreshing as it is inexplicable. How long it will last is a guess. Quality is excellent all through. Bulbous stock is greatly improved. Killarney still holds the lead among roses in popularity and quantity sold. White carnations are doing much better.

Trade has been fairly good on almost everything along the line. **BUFFALO** Lilies and white material have been in demand, especially roses of short quality, for floral work. American Beauty, Killarney and Richmond have not been too plentiful and prices have held firm. In violets the supply and light demand sent prices on the decline. Bulbous stock, lily of the valley, mignonette, sweet peas have been none too plentiful. Carnations have been in excellent supply and with the quality good; select stock moved at fairly good prices. Preparations have been made for large supplies of carnations on McKinley Day, as the outlook is for the heaviest day yet recorded for the sale of carnations.

CHICAGO As might be expected, the summer weather has been quite a factor in trade conditions, the thermometer registering 65 deg. before the close of the week. All stock felt the unseasonable heat, and in roses Killarney was the most affected. Trade held up well throughout the week though there was no special demand. Floral work made a scarcity of white flowers but white tulips helped out. The second batch of daffodils was not in, so supply was short while demand was a little extra. There are plenty of tulips to be seen and in all colors. Some fine Keizerkroon were noted at Poehlmann Bros. The warm weather caused violets to sell readily. At Charles McKellar's were seen fine gardenias. Carnations are in good supply and there is no trouble in selling good ones at fair prices.

PHILADELPHIA Increasing receipts and business almost stationary has had its effect on the market here. An easier tone prevails—in favor of the buyer as a general thing—except on a few items where the demand has been rather brisk. There were very few large functions that called for many flowers. American Beauty roses are a little more plentiful but there is no improvement yet as to quality among the shorts. Richmonds are much better than Liberty's. Both these

red roses are among the scarcest things on the market. Bridesmaid, Killarney and Jardine are excellent and cleaning up well. There are plenty of orchids of excellent quality and they are in good demand. Carnations generally are of very good quality and prices are holding firm. Sweet peas are more plentiful with demand keeping pace. Violets are a little too plentiful and prices have sagged a little. Callas are of excellent quality and meet with ready sale. Prices on Easter lilies rule low, there being rather more coming in than the market will readily absorb. The daffodil market is still in healthy condition. Paper Whites and Romans are in medium supply and bring fair prices. Freesia, mignonette, tulips and lilac are excellent and in good demand. Greens plentiful.

WASHINGTON Carnations have taken somewhat of a drop owing to the fact that Pennsylvania is shipping them here in quantities for \$2.00 per 100. First class, near by carnations are holding their own in price, bringing \$1.00 and \$1.50 per dozen and there is a steady demand for flowers of that quality. The first tulips, in any quantity, were shown last week and find ready sale at 75 cents and \$1.00 per dozen. A solid week of dark cloudy weather has retarded bloom on everything; the effect is particularly noticeable with callas, instead of big open flowers, the majority of them are small and crumpled, but they go at 10 cents apiece quite readily. Richmonds seem to be taking the lead in the rose line. At all of the principal functions of the past week they were a conspicuous part of the decoration.

PHILADELPHIA NOTES.

Jno. Stephenson's Sons, the Oak Lane florists, have been particularly successful with Jardine this winter, sending in probably the finest specials seen on the Philadelphia market. The plants show extraordinary health and vigor; stems five feet long and shooting from the bottom like rhubarb.

Joseph Heacock, William Swayne and Chas. E. Meehan are among those whom we hear reported as going from this vicinity to the carnation convention.

Alexander B. Scott left on the Florida special for Summerville, S. C., on the 25th inst., to be gone about a month.

W. Atlee Burpee and his son have gone on a pleasure voyage to southern seas. Bermuda, Cuba, Venezuela and other points are on the itinerary.

The next meeting of the Florists' Club will be devoted to the carnation, a discussion of the convention and an exhibit of the latest new varieties. A. M. Herr and Joseph Heacock will be the principal speakers.

J. Liddon Pennock and Mrs. Pennock are among the guests registered at the Royal Poinciana, Palm Beach, Fla. William Graham will start as chief of the Habermehl decorating department Monday, Feb. 1st.

Edward Reid has been handling cattleyas of exceptional quality recently. Those he showed us were magnificent as to size and coloring.

Detroit reports a decided lull in business almost equal to that of mid-summer. The heavy calls from out of town have helped the wholesalers in reducing their stock. There is an especial demand for roses.

EVERYBODY KNOWS

Gardening cannot be properly done without the aid of an accurate leveling instrument

Bostrom's Improved Levels, No. 2 at \$15.00 and No. 3 at \$25.00, are conceded by all who KNOW to be the only Levels on the market which meet all the requirements, at the price.

Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make. Shipping weight 12 lbs. Description on request.

NEW YORK MARKET.

The market remains very tame, with little indication of a change for the better. Roses are being received in increasingly heavy shipments, American Beauty being the only exception. The best demand is enjoyed by Killarney, which practically monopolizes the situation as to pink roses. Carnations are very plentiful and prices tending downward. Violets are no longer a factor of any importance in the wholesale flower market; they fluctuate up and down with the weather, but the bulk of them go at curbstone figures anyway. Lily of the valley and cattleyas are very abundant. Tulips, daffodils, etc., of fine quality, also lilacs, are offered in abundance.

NEWS NOTES.

Trendly & Schenck, the New York wholesalers, after suffering from petty stealing of flowers for some time past, caught a young man in the act on Tuesday of this week and handed him over to the police.

One of the most beautiful calendars of the season is that being sent out by the American Colorotype Company, Chicago, New York and Boston. The subject is a reproduction of Juncieres'

work of art, "A Honeymoon in Venice." The color work is very fine.

On Saturday, Jan. 23, Prof. E. A. White of Amherst, Mass., delivered a lecture before the Massachusetts Horticultural Society at Boston on Ornamental Gardens and Garden Materials. The lecture was illustrated by a series of stereopticon views in colors, showing garden scenes in England, Italy, Japan and America, and was enjoyed by a very large audience.

Entries are already coming in freely for the annual flower show of the Market Growers at Horticultural Hall, Boston, February 27 and 28. Liberal prizes are offered for carnations, roses, violets, sweet peas, plants and bulbs, etc., and all interested should write to E. Allan Peirce, secretary and treasurer, Waltham, Mass., for a copy of the premium list. This is distinctly the great commercial exhibition of the year.

We will allow on all orders of
Sheaves and Wire Work
15 per cent discount. Orders
of \$30.00 up 20 per cent. This
for the month of January only.

For Trees, Plants, Shrubs and Flowers

— USE —

THE NIAGARA BRAND LIME SULPHUR SOLUTION

It destroys Scale Lice, Spiders and all forms of Aphides, AT THE SAME TIME Mildew, Blight, Rust and other Fungus diseases.
Used in Winter or Summer. — No other remedy has been so universally effective.
Niagara Brand ARSENATE OF LEAD for chewing insects is equal to the best and better than the most.
Ask about our Green House sprayer. Address —

NIAGARA SPRAYER CO., - - Middleport, N. Y.

WIZARD BRAND MANURES

Dried, screened and packed in bags of 100 lbs. each.

PULVERIZED SHEEP MANURE
PURE — UNIFORM — RELIABLE

A strong and quick acting manure, highly recommended for carnations and chrysanthemums.

SHREDDED CATTLE MANURE
EASY TO HANDLE AND APPLY

Stronger and better in every way than rough manure. Lasts much longer on the benches. Un-qualified for mulching and feeding roses, liquid manuring and mixing with bench and potting soil. Used by all the largest growers.

Ask Your Supply Man or Write Us for Circulars and Prices.

THE
Pulverized Manure Co.
31 Union Stock Yards, CHICAGO

KILN-DEAD TOBACCO DUST
Free from Sand or Dirt Kind
FOR FUMIGATING AND DUSTING
Dusted on Plants to cover large surface.
One quality for Both Uses.
Our Tobacco Dust is the pure tobacco, free from sand and dirt, strong in Nicotine and always of the same strength, making it superior to any dust on the market. Costs you no more than the ordinary product and will do twice the work. 10 lbs. 60c; 25 lbs. \$1.25 50 lbs. \$2.00; 100 lbs. \$3.50.
STUMPP & WALTER CO.
50 Barclay St., New York

Why My New Curved Iceless Eave is Far Superior to Anything on the Market Today

- 1st. No sash bars incased in iron, thereby eliminating all danger of bars decaying.
- 2nd. Can be used in conjunction with iron frame construction, thereby doing away with that very objectionable feature, "columns."
- 3rd. Roof bars with drip grooves, which act as conductors to carry away the condensation. Result, the driest roof ever used for greenhouse purposes.
- 4th. **THE MOST IMPORTANT OF THEM ALL.** The very small increase in cost over the ordinary style of construction which makes it possible to be used for commercial as well as private purposes.

William H. Lutton, Horticultural Architect and Builder
West Side Ave Station (C.R.R. of N.J.) Jersey City, N.J.

OUR CAST IRON CENTRE GUTTERS

Not cast of brittle stove plate iron — but high grade, tough iron. Are not crooked — are cast smooth and straight.

Lengths of 8 feet 4 inches, making it necessary to use only half the posts required with the shorter gutters that are on the market.

Every gutter of ours is equipped with roof bar brackets which stiffen the roof and prevent bar end rot.

The Advantages of The Burnham Short Tie Bolts

- Much time saved in erecting.
- No blocking up of sections to tighten them.
- Each pair of sections have their own tie bolts.
- You can tighten each section perfectly as you go along.
- When you increase size of boiler by adding sections, you don't have to buy new long tie bolts. We furnish the short bolts and washers with each section.

ANOTHER VIEW OF LAST WEEK'S SUBJECT

This photo was taken directly from the residence terrace as you look towards the rose garden. Here is an instance of an eminently successful linking of greenhouse and residence — it's the kind of thing no one cares to do with the ordinary greenhouse — it's too heavy — too unattractive. But the U-Bar with its extreme lightness and graceful lines, is a beautifying addition to any grounds. Because: they are lighter, they grow more and better flowers. Their endurance is unequalled. You intended to send for our catalog last week — do it this time.

NEW ROSE MY MARYLAND

Grafted, 2½ in. pots, \$20.00 per hundred, \$150.00 per thousand; Own Roots, 2½ in. pots, \$10.00 per hundred, \$90.00 per thousand.

ORDERS BOOKED NOW FOR THIS MOST PROMISING VARIETY.

S. J. Reuter & Son, Inc., WESTERLY, R. I.

The two novelties, **Mrs. Chas. Knopf** and **Ruby** give great promises as commercial varieties. Both are free producers. We have them both growing side by side with the standard sorts and they have demonstrated now that they are here to stay. **Mrs. Chas. Knopf** is at this time especially good being larger and of better form and color than Enchantress. **Ruby** is a very large, perfectly formed flower with excellent stem and it has a good crimson shade not too dark.

The Great Red Winner

WM. H. TAFT

Worthy of its Namesake

Christmas week 4000 blooms were cut from three beds 150 feet long, flowering continuously since October 1

THE MASTERS MEMORIAL LECTURES

The Royal Horticultural Society has arranged with Professor Hugo de Vries to deliver two lectures during 1909 in connection with the fund raised as a memorial to the late Dr. Maxwell Tylden Masters. The first lecture will be delivered on June 22, the subject being "Masters' Vegetable Teratology." The second lecture on "The Production of Varieties" will be given by Prof. de Vries on September 28. The lectures will be delivered in the lecture room of the Hall, St. Vincent Square, Westminster, at 3 P. M.

GLOXINIA HYBRIDA GRANDIFLORA CIRCE

Contrariwise to the modern gloxinia varieties the novelty Circe carries its flowers horizontally. Moreover the markings in the throat of the flower show themselves by this position in their full beauty. The variety comes fairly true from seed, and its leafage is of the true crassifolia type of the present day. The flowers are borne on stiff strong stalks, possess a diameter of 10 c. m. and they are slightly waved at the edges. They are white with an azure blue tinge, and with throat marking of a purple tint running into blue, and reddish dots at base.

A NEW DISEASE OF THE ROSE

Mr. H. T. Gusson gives in the Royal Horticultural Society's Journal an account of a new disease of roses, that the gardener will have to contend with. The new disease which Mr. Gusson shows to be due to a fungus, *Coniothyrium Fuckelii*, begins its attack on the one-year old shoots, and is not readily recognized till it is well advanced. The first signs consist in purplish or red brown spots on the rind. He thinks it is a wound parasite, and he recommends the cutting out or removal of the affected shoot and dressing the wound with creosoted wood pitch.

JUBILEE FLOWER SHOW AT HAARLEM IN 1910

It has now been definitely fixed that the opening of this great show will take place on March 23, 1910. The show will consist of a permanent exhibition in the open air, and three temporary ones in buildings. It is expected to afford a good idea of the commercial horticulture of Holland. Of the temporary shows the first will be held at Eastertide; the second in the middle of April—that is in the height of the bulb season; and the third in the early days of May. Queen Wilhelmina and the Queen mother are patronesses of the Society; and the show will celebrate the 50th year of its existence.

CONTINENTAL HORTICULTURAL ITEMS

In 1908 a State Department for Horticulture was established in Belgium and this fact was received with pleasure in Great Britain, where it is felt that the gardeners and horticulturists may likewise look forward to further recognition by the state of the importance of the science and business of horticulture. A chair of Forestry was established last year at Oxford, and there are aspirations amongst gardeners that a chair for Horticulture may also be instituted at one or more of the universities. The French system of intensive market gardening has "caught on" in England, and a few public companies have already been formed and large

sums of money laid out in establishing such market gardens.

MUSHROOM CULTURE BY THE LATEST METHODS

The production of mushroom spawn has until recent years been of a clumsy, uncertain character, and more or less uncertain in results, since the mycelium of other fungi than *Agaricus campestris*, the common mushroom, has occasionally been mistaken for it to the chagrin and loss of the cultivator. A method of manufacturing virgin mushroom spawn by artificially germinating the spores was discovered in 1897 and the mycelium obtained was sold in test tubes by the makers. This was a forward step, and mushroom cultivators were enabled for the first time to be fairly certain that the spawn they bought would produce the variety of mushroom they desired. This method, however, had its disadvantages, and hopes were expressed that a better one might be discovered. Some years later, the process by which Messrs. Sutton & Sons manufacture their "20th Century Mushroom Spawn" was adopted. This method is now known as "tissue culture" and originated in the discovery that mycelium could be engendered from a portion of the mushroom itself. The possibility of this is the underlying principle of the new culture. By this method it is stated that not only can the growers be quite certain that the spawn they buy is true to name, but also that the improvement of varieties by selection is for the first time made possible, and it is a fact that the yield has already been greatly increased.

A REMARKABLE PLANT HYBRID

An illustration appeared in the "Gardeners' Chronicle" on January 23, last, of a hybrid raised by Mr. C. G. van Tubergen, Jr., Haarlem, by crossing *Brunsrigia Josephinae* and *Amaryllis Belladonna*. Mr. van Tubergen states that principally with a view of ascertaining the parentage of the Kew variety of *Amaryllis Belladonna*, in the autumn of 1892 he artificially impregnated the above named *Brunsrigia* with the pollen of *Amaryllis Belladonna*, and as the two genera are very closely related, seeds were formed freely. As could be foreseen with the slow growing *Brunsrigia Josephinae* for the seed parent, a long time had to elapse before the seedling plants would be strong enough to flower. After an interval of sixteen years two of the strongest bulbs produced flowering spikes in September of last year. When the hybrid plants had been cultivated for several years, it became evident they differed in habit from the Kew variety of *Amaryllis Belladonna*, which produces a leaf-stem of about four inches in height; whereas, the van Tubergen hybrids all bear the character of *Brunsrigia Josephinae* in the foliage, leaves being formed directly above the neck of the bulbs. The bulbs show the infusion of the *Amaryllis* blood and have a resemblance to *A. Belladonna*, and produce offsets freely, which *Brunsrigia* never does. A comparison of the supplementary illustration in the *Gardeners' Chronicle* for January 23, drawn from an inflorescence sent from Mr. van Tubergen's garden with the engraving in the "Garden," November 19, 1898, leads to the conclusion that the Kew plant can no longer be regarded as a hybrid between these species, unless it was a cross effected in the reverse way, taking *A. Belladonna* as the seed-bearer. In that case the variety *Claudia* must have been used, it being the only variety of *A. Belladonna* known, that produces a leaf stem. The color of the flowers of the hybrid was a clear deep rose suffused with carmine. A single spike bore twenty-two flowers.

Window
publicity

In the seed trade columns of a recent number we took occasion to refer approvingly to a seedsman's clever window display in which pop corn figured particularly. We have since learned that the direct business induced by that display was almost incredible. In this issue will be found a description of another example of ingenious window advertising, also by a seedsman. One can imagine the crowds that such a display would attract. The old-fashioned plan of merely arranging a lot of samples of seeds, bulbs, tools, etc., in the store window makes a very poor showing as compared with modern methods of publicity. Show windows are an expensive investment and it is good business to make the most possible of them.

On the occasion of its first visit to Indianapolis, in 1894, the American Carnation Society was told by the mayor in his address of welcome that "the Hoosier loves his friends." The measure of hospitality meted out to the visitors last week for the third time was conclusive proof of the sincerity of this sentiment and the warm friendship still existing towards the Carnation Society. It would be hard indeed to suggest any way in which the comfort and pleasure of the visitors could have been added to or the local arrangements for the exhibition and meetings and the convenience of those interested therein improved. Nothing but the highest praise was heard as to the thoroughness with which the various committee chairmen carried out their work and in the election of one of the most active of them to the office of secretary the Society only bestowed an honor well-earned.

Size
versus
daintiness

A valued correspondent, whose communication will be found elsewhere in this issue, in testifying to the high qualities which mark the new rose, White Killarney, dissents from our views as expressed in a previous issue concerning this splendid acquisition, in which we referred to it as a possible "running mate for American Beauty." In response we would explain to our critic and to our other readers that in thus commenting on White Killarney we had in mind, not the chaste loveliness or artistic elegance which this variety undoubtedly possesses, but, speaking from the standpoint of the commercial florist solely, its qualifications of proportionate size of bloom, strength of stem, wealth of massive foliage and contrast of color, all of which are indispensable in any rose used in association with American Beauty in that class of decorative work for which the Beauty is preeminently fitted. In the Hybrid Perpetual section there are plenty of varieties so provided but every florist knows that no ever-blooming rose has hitherto appeared which could be introduced in combination with American Beauty without in some degree straining the impressiveness and dignity of the composition. Perhaps we are too optimistic in regard to White Killarney's qualifications in this respect but that a pure white ever-blooming rose adapted to such use has possibly appeared should be cause for congratulation. If in addition to this it surpasses its red companion in other respects, so much the better.

THE MEN WHO WIN.

Many able men are narrow because they use but a small part of themselves, or of their capital. A college professor is too often tethered to his chair, and knows little of the world around him, too much like the dying professor of Greek, who said the mistake of his life was, that instead of trying to compass the whole of the Greek language he should have confined his whole life to the single particle "en"—poor man! what a splendid residence he could have built on the point of a needle. Many a man does a rank injustice to his age, and to himself, by using but a small portion of his power.

W. A. Harshbarger is professor of mathematics in Washburn College, Topeka, Kans. I have known him intimately for years, was associated with him for some time in educational work, have spent many joyful days with him and his wife in the mountains. He is a blend of Scotch and German ancestry—combining the sterling qualities of both races.

Born in Virginia at the close of the war, in one of those battle scarred valleys, the family knew what extreme poverty was. By the hardest struggle he secured his education, not content with an ordinary equipment, he must have the best, regardless of the cost or sacrifice. A man of splendid health, of a strenuous nature, he has a large overflow of soul which reaches out beyond his profession. I have just had a splendid visit with him and was surprised at his knowledge of horticulture. Lately he has taken up the study of the rose, and probably no man in America has a better grasp of the subject. Conversant with French and German he sends across the sea and ransacks the world for the best literature on the subject. He has above one hundred varieties in his garden which he is studying. He is so thorough in all his researches that he could fill any vacant chair of horticulture now waiting for the best of talent with a good salary. Kansas is very fortunate in owning such a man.

A man of education has a great advantage over the ordinary nurseryman. He is good in his wide sphere of usefulness. The age is greatly indebted to him. He has transformed the dreary prairie land into orchards, groves and beautiful landscapes. But the man of scientific training has the advantage. We are glad the "professor" is leading the way, throwing wide open the doors of nature so that people can go in and aid her in working her miracles. There is a vast room in the upper story of horticulture, and we need able men to fill it.

We are on the borders of a transfigured earth. A world to be adorned with new creations that our eyes have not yet seen. Hundreds of men are at work evolving new and glorious forms of beauty, and we are beginning to get a view of our possibilities. Soon the curtain will be lifted and we will see a section of paradise let down to earth. Farm houses, no longer pictures of neglect, will be adorned with trees and flowers which will vie with the famous estates of Eastern millionaires. Instead of a dreary farm being a good place to run away from, it will have attractions which will keep the children at home, and allure others to the country. Mother earth is kind and

PEARSON'S PINK—ACTUAL SIZE.

F. R. Pearson Company Seedling.

This is the sensational seedling mentioned in our notes, on page 78, issue of Jan. 16. As therein stated, the flower is in effect a very much magnified Wm. Scott. This applies to size of flower and strength and length

faithful, and loves her children and never discharges them because of a panic. We need all possible aid to make the sombre old world more beautiful. God never has had a chance to show how good He is; the horticulturist and the florist introduce Him to men.

Professor Saunders, of the Chemical Department of Hamilton College is another man who finds vast fields of enjoyment outside of his profession. He is an expert among peonies and perennials, and he can enlarge his world of beauty at his will. How much of unused talent there is which might be used to make this a delightful world. How much of unused capital there is from which we might draw; myriads of bushels of luscious fruits are held in solution in earth, and air, in shower, and sunbeam. We need to plant the tree, the shrub, and vine, so that they can materialize and reveal the Divine bounty. All around us in the unseen are vast fields of flowers of wondrous beauty waiting our invitation to enter our gates and adorn our homes. And in the great unknown beside us are things of loveliness no eye has yet seen, which we may call forth, so the "beauty of the Lord may be upon us."

We need hosts of high priests of nature to discover to us the unknown God, who never yet has been fully revealed to man. C. S. HARRISON.

of stem. It is a "whopper" and stands out distinctly from and above all other varieties growing in the benches, so that it is noticed from any part of the house. The color follows very closely that of Scott.

MCKINLEY DAY IN BUFFALO.

The people of Buffalo paid tribute to McKinley's memory on Jan. 29. The martyred president's favorite flower was worn by everyone and large sums were realized for the Rescue Mission. Fresh as the carnation so generously and patriotically displayed in his honor on Friday, the 29th, by all classes of people, is the memory of Wm. McKinley. Scarcely a man, woman or child could be seen on the streets that did not have a carnation conspicuously displayed on coat or corsage.

Spanish-American War Veterans honored the martyred president's memory by placing a wreath on the bronze tablet on the main floor of the City Hall, where the body of the dead president lay in state nearly eight years ago. Flags at half-mast, pictures of the dead president and tokens of all kinds commemorating the 66th birthday of the statesman were in evidence everywhere. The five hundred women and girls who volunteered their services to sell carnations for the benefit of the Rescue Mission met with generous support from all quarters. Every public building and office building, as well as street cars and railroad stations, were besieged by a bevy of pretty banditti whose persuasive eloquence made every man capitulate.

AMERICAN CARNATION SOCIETY

Convention Report Completed

THE BANQUET.

The spacious banquet hall of the Columbian Club was well filled with guests and a beautiful sight in its floral decorations on Thursday evening, Jan. 28. The banqueters were seated in groups of six at the tables, each of which was adorned with a centrepiece of plants and flowers. During the serving music was supplied in abundance by a band. Interspersed among the speeches that followed there were songs by a male quartette and by Miss Maude Langstaff.

After the excellent menu had been traversed to the end, a brief address of welcome was made by Dr. Haugh, in the absence of President J. S. Stuart. He introduced E. G. Hill as toastmaster. Mr. Hill was in his best vein, witty and humorous, and very pleasing in his introductions. He spoke with pride of the Carnation Society's exhibition, which he pronounced the best ever, and extended an especially enthusiastic welcome to the ladies.

The first toast was "Indiana—a good place to stay." This was responded to by Mayor C. A. Bookwalter, who spoke eloquently of the contributions to literature and the aesthetic and beautiful in art by Indiana, which he declared was supplanting Massachusetts in that respect, and humorously paid his respects to the Indiana florists who, while heartlessly making him pay Broadway prices, yet gave good value for the money. The training of beautiful surroundings he declared to be conducive to elevation of character. He urged the visitors to come again and often.

Dr. Haugh then proposed the toast of "Our Guests." Referring to the fact that this was the society's third appearance in Indianapolis he made a bid for a fourth visit not more than six years hence. He spoke feelingly of the death of such valuable members as William Scott, L. E. Marquisee and Alexander Wallace during the past year as an irreparable loss to the Society. J. F. Ammann responded.

Miss Sarah Hill then read a paper in response to the toast, "Some Carnations I Have Met," which brought down the house repeatedly by its witty satire and allusions to the career of many carnations which had failed to live up to their promise. It was one of the best things of the kind we have ever listened to.

W. N. Ridd responded in characteristic style to "The Exhibition; after all, that's the reason we're here." A mealy subject handled by a very wise man. He gave the Society the credit for all the advancement made by the carnation in recent years, and expressed appreciation of the high honor he carried in being selected as a judge at the Society exhibitions, and the responsibility which the judges carry in shaping the destiny of new varieties.

J. C. Vaughan, being called upon, spoke in terms of high appreciation of the many manly traits of the late L. E. Marquisee. Mrs. Vossy followed with a plea for the carnation as the

"national flower," and called attention to the coming of McKinley Day on the morrow.

President Patten then responded to the toast of "The American Carnation Society." He advocated making the carnation more and more popular and warmly thanked the members for their good work during the year. He called for a standing toast to the deceased members of the Society. He next proceeded to present to the winners the various medals, cups and special prizes in gold awarded in the exhibition and the recipients severally responded as the trophies were handed over. Mr. Roper on receiving his gold medal for the best vase of 100 blooms any variety any color, incidentally remarked that he proposed to try to get another. J. A. Valentine was the last speaker,

the hospitable welcome extended to our Society;

That we record with deep appreciation our gratitude to the State Florists' Association of Indiana, and the members of our profession who have been allied with them in perfecting the admirable arrangements that have contributed so greatly to the success of this meeting;

And that our thanks are further due to the press of the City of Indianapolis for the accurate reports they have made of our meetings.

And to the horticultural press especially for the interest they have taken in advancing everything pertaining to the welfare of our society.

F. R. PIERSON,
PETER FISHER,
WILLIAM WEBER.

Committee on Final Resolutions.

CERTIFICATES.

Certificates of merit were awarded to the following varieties, which scored as indicated: No. 175-06, by F. Dörner & Sons Co.; dark red, deeply fringed flower; 90 points. Shasta, by Eaur & Smith; a glistening white; 89 points. Superba, by A. C. Brown; pink; 88 points. No. 30, by F. R. Pierson Co.; white; 86 points. No. 228, by Nic Zweifel; cerise pink; 86 points. Sangamo, by A. C. Brown; pink; 85 points. Dark Winsor, by F. R. Pierson Co.; 85 points. No. 60, by F. R. Pierson Co.; crimson; 85 points. James Whitcomb Riley, by Bertermann Bros.; yellow; 86 points.

All the above named, as well as the medal winners, were simply grand. Among the other gems of the show, some of which have been already certificated and others have not yet been entered therefor, were Hill and Graves' May Day, soft pink; Longren's Lucille, pale, almost white, flushed deeper pink; Wanoka Co.'s Apple Blossom, white with pink mottling in centre; Witterstaetter's 1400 E, mellow light pink; Jensen & Dekema's Mrs. J. C. Vaughan, white; Dörner's Pink Delight, pink, and No. 51-06, Victory red; Dailedouze Bros.' No. 444 white, and Chicago Carnation Company's Conquest, variegated, formerly No. 500.

TRADE EXHIBITS.

Among the exhibits, outside of carnations, which we did not mention in last week's telegraphic report were the following: The Morehead Mfg. Co., who exhibited their useful steam trap; Kroeschell Bros., Chicago, who were well represented by Fred Lautenschlager in charge of an exhibit of their heating specialties; The Pulverized Manure Company of Chicago, with a good display of their different brands of natural fertilizers; The Advance Co., Richmond, Ind., with their greenhouse ventilating apparatus, and A. L. Randall, florists' supplies.

FRIDAY'S OUTING.

On Friday, starting on special car at the early hour of 6.30 a. m., a large

J. S. STUART

President Indiana State Florists' Association.

his toast being "The Parent Society." His speech was full of stories and wit. He assured the members of the Carnation Society that the mother heart of the S. A. F. is filled with joy at the success they had achieved.

FINAL RESOLUTIONS.

Whereas, The American Carnation Society has been for the past two days the guest of the State Florists' Association of Indiana, and of allied professions in Indianapolis and its vicinity; and,

Whereas, The exhibition hall and facilities for staging displays have been the most convenient and best adapted ever placed at our disposal; and,

Whereas, The kindness, courtesy and ever-ready assistance extended by our fellow members of Indianapolis have deeply impressed us; therefore, be it

Resolved, That we tender to Mayor Bookwalter and the city officials of Indianapolis, our sincere thanks for

party visited the establishment of the E. G. Hill Company at Richmond, and several other places en route. They were hospitably entertained and, despite the blizzard weather which interposed, enjoyed themselves thoroughly and were well repaid for the journey in what they saw, especially the sensational seedling roses and carnations which are in training for future triumphs.

MISCELLANEOUS NOTES AND COMMENTS.

The ladies were out in good force. Thirty-three were present at their society meeting on Wednesday evening.

It was generally agreed that Nic Zwiefel's vase of 100 Enchantress was the finest exhibit of this variety ever made.

Dailledouze Bros.' seedling 404, which secured the society's silver medal, is a superb white flower of high exhibition quality.

The menu and program for the banquet given by the State Florists' Association of Indiana in honor of the American Carnation Society was a gem in its way.

Fred Burki was elected a director for five years, but by virtue of his election as vice-president he would become a director for one year, and consequently the directors' board will be one member short during the coming year.

Victory has always been highly esteemed by F. R. Pierson, and is grown by him as his leading scarlet. Its wonderful keeping qualities were well shown at Indianapolis, the flowers exhibited having been 48 hours in a box en route.

E. G. Hill Company's vase of 200 blooms in variety was one of the most striking features in the hall. It won the \$50.00 silver cup, offered by the State Florists' Association, as everybody knew it would as soon as they saw it staged.

One of the most enjoyable incidents of the convention was the entertainment given by Judge Vesey on Wednesday evening at the Columbian Club to a party of the visitors. It was said, by those who knew, to be a virtual reincarnation of the old-time Ananias Club. Some time-honored stories were told, also some that were accepted as new.

There was some misunderstanding of the conditions attaching to the award of the Sweepstakes prizes, which was settled by vote of the society after considerable discussion, the decision being that this class required no regular entries but that all winners of prizes in Class A should participate. The S. A. F. silver medal awarded to F. Dorner & Sons for seedling under number 15 to be withheld until Mr. Doran has selected a permanent name for the variety.

The selection of Pittsburg as the place for the next meeting will, we believe, meet with general approval, for Pittsburg was very magnanimous one year ago in giving way to Indianapolis. Many of those who were present and active in the Pittsburg meeting in 1893 have already joined the great majority, but those who are still left will recall with pleasure that enjoyable occasion and no doubt make a strenuous

VIEW IN EXHIBITION HALL

effort to revisit that hospitable city next year.

A. Roper has good cause for joy over the winning of the gold medal by his pet variety, Bay State. The splendid qualifications of this sensational flower have been generally recognized, but that it should make the trip of over one thousand miles from Massachusetts to Indiana, and right in the carnation growers' stronghold capture the premier prize, was hardly to be hoped for. It was a courageous move on Mr. Roper's part, and we congratulate him on the result.

THE RELATIONSHIP BETWEEN PRODUCER, WHOLESALE AND RETAILER.

A Paper read before the American Carnation Society at Indianapolis by William J. Stewart.

The topic on which I have been asked to say a few words might easily furnish food for profitable discussion for the time of an entire convention. Briefly stated, I think all will agree that a closer accord and mutual understanding between the representatives of these three interests would greatly conduce to the advantage of the industry as a whole and every individual connected with commercial floriculture. We need not confine our consideration to the carnation industry alone; what we shall deduce applies equally to all.

At the start we might ask ourselves, first—whether our industry is enjoying a reasonable prosperity; is or is not returning to those who labor in its various departments a fair recompense for the effort expended. If not, where shall we look for the cause and what can we apply as a remedy?

The business which is under consideration is one of recent development rapidly increasing in importance and influence and now involving many direct and allied interests. It is not surprising that new phases hitherto unforeseen are constantly intruding themselves. We find in the ranks

many who started when its problems were simple, its operations somewhat primitive and its profits large in proportion to the investment. It is only natural that we should here encounter a sentiment reluctant to acknowledge that former conditions can never be restored and well-intrenched convictions with resultant prejudices as to the supposed causes contributing to present grievances. All this is inimical to the conciliatory, co-operative spirit which the interdependence of the different interests makes so desirable.

On the other hand the inherent principle of progress demands, that as our business assumes a magnitude which makes modern mercantile methods essential to its best success we should fit ourselves to so conduct it, regardless of any pre-conceived views and cherished prejudices which may stand in the way. According as we are willing to so fit ourselves and encourage the same in our auxiliaries will the foundations of our industry be strengthened, its dignity upheld and its permanency assured as an avocation universally respected and honored.

Looking at the commercial horticultural industry as comprising the three distinct divisions mentioned in the title of this paper we may state as a self-evident proposition that any interruption of the prosperity of one department must eventually react directly or indirectly on all the others, and the misfortune of one should therefore be the concern of all.

Following out this thought a first requisite for the movement towards a better understanding and the benefits which may be expected to follow is the recognition by each department of the indispensability of the other.

"I care for nobody, no, not I.
It nobody cares for me."

is not the sort of sentiment that will bring either emolument or credit to either.

With the wholesale growers' first and greatest obligation—that of producing good and acceptable material—

this paper does not concern itself. We shall assume that the grower is doing his part well and as set also to the proposition that, under conditions as they now exist, he has all he can attend to. If, however, the product is not well-sold and the money well-collected it matters little how well it may have been grown and so here we come to the problem which presses most urgently upon us today. When the production outstrips the demand then are the highest qualifications of the marketing forces put to the test. You, growers, who make up the bulk of the membership of this organization, know something of the bitterness of disappointment, as you have seen your product, under the slightest provocation of sunlight and crop, piled up unsold in the wholesale markets or condemned to the alternative of being proclaimed by a "hole-in-the-wall" shouter at "ten for a nickel," while perhaps you read in the trade papers of a scarcity and unsupplied demand a couple of hundred miles away. You are justified in asking "Can't this be helped? What is it that stands between the flower and the public?" But instead of asking of the wind or of your brother grower, would it not be well to call in the other members of the family—the wholesaler and the retailer—and reason together? The subject is one which will tax the combined capabilities of all.

In the meeting for the organization of this society at Philadelphia 18 years ago, among the objects of the organization as set forth by the committee on resolutions were the following: "To increase general interest in the cultivation and consumption of the carnation; to improve the methods of cultivation and the methods of placing it on the market; to increase its use as a decorative flower." Do the records of the society show that these two propositions have been followed up as of equal importance or that one has been allowed to overshadow the other?

Our worthy president in asking me to prepare this paper, writes: "You have been through the mill, so I think you might give us a few suggestions." Consulting the dictionary, I find the word "mill" defined as "a machine in which substances are ground"; "a prize fight." The president evidently had in mind my connection with the flower commission business in the long, long ago. From my observation I should say that the commission method of marketing flowers was still holding its own all right, although proof is not wanting to indicate that the sentiment among some of the best informed commission dealers seems to favor a system of direct outright purchases from the wholesale grower. In any event the vital interests of grower and wholesaler demand that the wholesale dealer should at all times have exact information from the grower as to crops present and prospective, and a strict compliance with his wishes as to time and manner of shipment. It is the wholesaler's privilege and duty to concern himself in the matters which affect the welfare of his grower, advise him as to ways and means whereby he may increase his income, post him as to the movements and tendencies of the market as discerned by the man at the front, keep the scouts busy and do something more than sell. If he is incapable of all this, he may be "in the

right church," but is certainly "in the wrong pew."

The grower should have from his wholesaler unquestioned assurance of financial responsibility. I sometimes think the growers as a class have been remarkably trusting and generous in this latter respect to salesmen of all kinds, but whether it is good business is a different question and, as before intimated, hardly in harmony with accepted commercial practice which demands that the money from the sale of flowers should pass promptly from the consumer through the medium of retailer and wholesaler to the grower, and with equal celerity from the latter to those who supply and serve him. In no respect are the various departments of the trade more closely interdependent and in none is reform more urgently needed than in this matter of credits and accountability.

As to the retailer he should never forget that the producer of the stock which he must have, if he is to continue in business, is entitled to a fair return and the means of placing his business in a position of honor and good repute. It is natural to want to buy as cheap as possible but the disposition to beat down wholesale values regardless of the possibilities of ruin and discouragement that may follow should be looked upon with disapproval by all well-wishers of the floral industry.

In conclusion, let none of us be "content with knowledge sufficient for the present need." The business with which our fortunes are linked is only in course of development, and to keep pace with its growth and its emergencies requires the best combined thought you can give to it. Mutual respect and mutual toleration are good qualities to cultivate. Our peace of mind, our business future and, last but not least, our pocketbooks, will all share in the prosperity following upon a wise discernment of the close relationship between producer, wholesaler and retailer.

CARNATIONS I HAVE KNOWN AND THEIR ELEVATING INFLUENCE.

L'aper read by Miss Sarah A. Hill at the Carnation Society banquet, Indianapolis.

Brother Toastmaster and Dear Friends:

I have taken my pen in hand to write you a few lines because I can express what I have in mind much better than in attempting an after dinner speech, for unlike the majority of my sex, I happen not to be eloquent of tongue.

I recognize many faces present as those of old and tried friends, but if I could for a moment see your signatures I should know many more of you intimately, for the written name at once brings up a picture of your letters, and I can say without boasting that few women, the country over, have as many delightful gentlemen correspondents as yours truly.

Now that the machine has taken the place of the steel pen I am seldom at a loss to arrive at the meaning of my correspondents, but there have been times in the past when I hardly knew whether I was deciphering an ardent declaration, or only a very warm cancellation of an order for a belated lot of the reigning novelty in carnations.

It is never safe for an unmarried woman to let her memory reach too far back into the past, but I can re-

member when old La Purite was our mainstay: I remember when Mlle. Carle threw up its first snow white flower and we held our breath over its purity of color and its clear cut form, but even the most daring catalog liar could not claim freedom of bloom for either of these beautiful old pathfinders, nor for Buttercup or Chester Pride, Portia or Grace Wilder, which were added as the years went by, and if there had been only carnations on our benches I doubt if we should have butter on our bread, for the Bread-and-Butter carnation had as yet no existence.

In '88 when Tidal Wave the tide began to turn, and Father Dornier soon after gave us a delightful set of seedlings, and these, with Lizzie McGowan and Daybreak, set an entirely new pace, and a carnation, from being a spoiled beauty for admiration only, began to be questioned as to its right to occupy space and as to its returns in hard dollars and cents per square foot; the heavy boot of sordid commercialism had kicked aside the old-time beauties, and the husky varieties with sleeves rolled up, stems like steel, calyces like gutta percha, petals like leather, and a noise like money, came rustling on the stage and many a song and dance they have given us.

Visitors who go about a greenhouse with the proprietor seldom fail to remark upon the elevating influence of flowers: I have never known a florist yet who failed to acquiesce; he will stretch his neck in his collar, elevate his shoulders, and really feel higher up both mentally and morally as the suggestion is once more made to him. But I have seen the most enthusiastic visitor put to flight from the most magnificent carnation range by a very depressed looking section hand who might be scattering bone meal or other dainty tidbit for Lady Carnation's mid-week meal—and further, I have known carnations that have dragged their owners down very near to the bottomless pit, and even the best of varieties at times have tried the souls of their grower till no modern tongue contained sufficiently lurid language to express his feelings.

I once made the acquaintance of a glorious red carnation, sweet as winds from Araby, a stem like whalebone, 8 and 10 blooms to the plant, a blaze of color, and every florist wanted it by the 500 or 1000, but the rust "swept down like the wolf on the fold" and devoured every green leaf, and I still have the vision of our good German grower with wildly waving arms over his grassless benches, exclaiming: "That Jubilly, he was the very duyfel," and what else he may have said when no ladies were present I never dared inquire. A prominent firm in Massachusetts, who had a nice order for "Jubilly" placed with us, were extremely curious to know why they were failing to receive their cuttings, and made inquiry quite forcibly weekly, and faintly each week we replied. I am glad that I am addressing a company of florists every one of whom has assimilated or been upon the point of disseminating a new carnation, for you know exactly what I am talking about, and how often you went into a perspiration before the season closed, and neither did you need a rose temperature to make your pores open.

Well, some four years after Jubilee

this same prominent Massachusetts firm sent out a seedling, Mrs. Thomas W. L., I believe. We gave it a good write-up in our catalog—"Size enormous, stems stiff, free in growth, profuse in bloom, of healthy constitution, never bursts its calyx, everything has been claimed for it and our opinion is that it will justify the claim"; and it did very nearly, but I believe it was late in May before our orders were filled, and so despicable is feminine human nature that I confess to pure enjoyment in going to our file and copying verbatim several letters addressed to us four years previously, only substituting the name Mrs. Thomas W. Lawson for Jubilee, asking why we were not receiving those cuttings promised us with such absolute certainty for early delivery in the January past, and I think that the secretary of the disseminating company must have duplicated our replies of even date, for I recognized the same tone of chastened humility that had characterized our own.

I never felt my sympathies more deeply stirred than in the case of a certain magnificent pink variety grown not a thousand miles away from this city, which seemed to have every necessary qualification for success, but it later developed that the cuttings would not root. Now a perfect carnation, like the great American mortgage lifter, must "Root, hog or die." We waited and waited for those cuttings, so did the rest of you; each time we were told that the last batch had failed to root. One grower was sure the plants were grown too warm; another that it was too much bottom heat in the propagating house; a third that they needed a Bordeaux spray. A happy thought struck our firm; we would ask for unrooted cuttings, take them over to Richmond, under our perfect conditions we would root them in three weeks and complete our orders.

Our disseminating friend was very accommodating and sent us baskets of the loveliest tips imaginable, but with every appliance known to modern carnation culture, we failed to root over ten per cent.

It would not have been safe for you to talk to the owner of Mrs. Nelson that year on the elevating influence of flowers. Nothing short of diabolism itself could have been more tantalizing than the antics of that magnificent beauty.

Our firm has at different times tested for their owners a number of aspirants for favor with varying success; it's a risky thing to do; if they fail to make good, the owner will always have a doubt in his mind as to whether all the conditions were just right to bring out their good points, and the gentleman who does the testing, and his grower, will have arguments about wasted space—and the nice discrimination needed in endorsing a novelty. Less than a decade ago, your Toastmaster went down into the East to take a last look at a fine white seedling which we were to test, and, if satisfactory, to help disseminate; it showed up so fine down in its eastern home that he could hardly wait to get the stock planted on his own place; in the meantime, our Mr. Lemon had gone up into the Northwest on a similar errand with regard to a gorgeous pink. On his return he gave the usual wheat-field description, buds and blooms knocking their heads together—and

such heads—on such stems! E. G. H. wanted a south bench to test his White Beauty and F. H. L. insisted on a southern exposure for his glorified pink; they each had a 200 foot bench facing south in the best 400 ft. house. When the date of the annual meeting of this society came around, where the White Beauty and the Glorified Pink were to take your breath away, E. G. H.'s south bench was covered with a dense growth of pale green carnation grass which would have required a scythe to cut it and not a flower in sight; F. H. L.'s south bench looked like a patch of seedling onions in very early Spring, with an occasional petal of pink thrown in for cheer. The two gentlemen never went together to inspect the two benches; the senior member might be seen gazing with a pained expression at Lemon's choice, but carefully avoiding a glance at his own Eastern Beauty. An hour later, "Brer" Lemon could be found, arms folded, an unholly smile upon his face, gazing at 200 ft. of Hill's Hopes, but without a glance at the onion patch, and to this day their only comment has been, "Check," but the check never went through the treasurer's hands.

Then there was Adonis and here words fail me for the present—but—some day, when Richard W. and Robert C. and the secretary of the E. G. H. Co. have all reached the age limit, and have leisure to take up literature, we are going to collaborate a biography and romance of the Young Adonis, the most ravishing scarlet carnation ever shown to human gaze; behold a bench of it in full bloom, heads erect, a color far beyond words to describe—you can see the ecstasy in the faces of Messrs. Craig, Hill and Witterstaetter as they devoured its dazzling beauty. This is not yet a matter of ancient history, and still it was before the days when the florist had grown sadly wise and had learned to balance a carnation stem on his index finger as the juggler does his pole to test its stiffness; before he had learned to draw the flower slowly through his closed hand and watch the petals spring back to the horizontal—before he had learned to slap the bloom upon the table and watch the resisting power of the texture. Adonis helped to teach the trade this last trick, and so was not wholly lost in the economy of carnation culture.

Since Adonis there have been others; they are current history and still in mind. Father Dorner and Mr. Peter Fisher have been the means of giving us the most popular carnations and the best wage earners in the family; we can gaze long and fondly upon White Perfection and Enchantress as a father does upon a good child and say: "They have never given me an anxious moment." Oh! but the waste of it all, the squandering of hard-earned dollars, you may say; but progress always costs in any line of trade or life, and the expenditure of money is the smallest item; the thing that really counts is endeavor and patient perseverance, and absolute honesty, and this is as true in commerce as in manufacturing or in carnation culture, and flowers do have an elevating influence on their growers, if the soil is mixed with good will for one's fellows and faith in a kindly Providence that sends the needed rain and sunshine and finally gives the increase

During Recess

New York and New Jersey Plant Growers' Association.

In the ability to provide and the capacity to get away with a princely feast, the plant growers can give the tiero florists all the trumps and then beat them out. The "New York and New Jersey" is one of the youngest of the special organizations, yet its past performances in the picnic and banquet have brought it prominently into the lime light and when announcement was made that on the evening of January 28 the annual dinner would be held at the St. Denis, a wave of anticipatory agitation swept over the old town and now the Indianapolis fraternity can easily see what happened to keep the New Yorkers away from the Carnation convention. President Julius Roehrs, Jr.'s willowy form occupied the seat of honor and in front of him and on the small tables around which were grouped the seventy members and guests were flowers in profusion, each lady having a favor of orchids in a little Japanese receptacle, all donated by enthusiastic members of the association. The orating was done by E. V. Hallock, Robert Craig and Patrick O'Mara—names which at once settled the fact of its adequateness and quality and, to put a characteristic finish on the performance, J. Austin Shaw presented an original poem—a sort of dreamy oriental idyl crossed with a Borough Park pastoral—which delighted the ladies and thrilled the sterner sex to the limit.

If one can't be a plant grower surely the next best thing is to have the honor of the plant growers' acquaintance. They are the people.

Nassau Co. Horticultural Society.

This society held its fourth annual dinner in the Oriental Hotel, Glen Cove, N. Y., on Wednesday evening, January 29th. President Everett presided over a well attended dinner, about forty members being present. Quite a number of invited guests also joined us in the feast. J. Austin Shaw acted as toastmaster. On rising, Mr. Shaw called upon the president to present H. F. Meyer with a cup which he had won in the points competition in 1908. The cup, a massive silver one, was the gift of Rickards Brothers, of New York City. Ex-President Jaenicke and ex-Corresponding Secretary Kesson were presented by the society with a pearl and diamond pin and fountain pen, respectively, in recognition of services performed in 1908. An interesting talk on Society Organization was given by Mr. Maynard of the Gardeners' Chronicle.

The singing was first-rate. Rickards Brothers, C. Russel and W. Armstrong each gave of their best. As a violinist R. Angus of Tarrytown proved himself an able exponent of old Scottish airs. Andrew Wilson of Summit, N. J., also did his part towards the entertainment of an appreciative audience with some of his clever tricks and witty stories.

One of the most successful dinners ever given by the society was brought to a close by singing Auld Lang Syne. The society enters upon its fifth year with brighter hopes than ever before.

W. M. H. MACKENZIE, Cor. Sec.

NEWS OF THE CLUBS AND SOCIETIES

FLORISTS' CLUB OF WASHINGTON.

The regular monthly meeting of the Florists' Club of Washington, was held at Eagles Hall on the night of Feb. 2nd, with President Kramer in the chair. The most important business was the nomination of officers. It is the custom of the club to nominate the officers at the February meeting, elect them at the March meeting and at the April meeting they take their seats. The nomination of President Kramer to succeed himself was made unanimous, also of John Robertson for vice-president. Geo. Shaffer absolutely declined to be renominated for the office of secretary, and O. A. C. Oehmler and Jas. L. Carbery were nominated. Wm. F. Gude was nominated for treasurer. In the awards committee, Geo. H. Cook was nominated to fill the vacancy made by the departure of Mr. McCauley. In the board of directors, two out of five of the terms had expired and Jas. L. Carbery of Washington, and Theo. Deitrich of Anacostia, were nominated to fill the vacancies. A most gratifying report of the financial end of the last show was made by the secretary. There will be the usual annual banquet given in April when the newly elected members take their seats.

Wm. F. Gude was warmly congratulated by the club on his election to the presidency of the Chamber of Commerce, and in a few well chosen words he thanked the club for their unswerving loyalty to him and reiterated his interest in and love for the club in particular and the trade in general. Thanks are due Elmer D. Smith of Adrian, Michigan, for a number of pleasing catalogues which were distributed at the meeting. It was moved and seconded that the Baltimore Bowling Team be invited over on Feb. 11th to play the Washingtons.

CONNECTICUT HORTICULTURAL SOCIETY.

At the meeting of the society on January 22, President Huss announced a gift from William B. May, a life member of the society, of his valuable collection of books on horticulture to the society. Mr. May is to make his home in Jacksonville, Florida, in June. A prize of \$25 in cash from A. T. Boldington for the best collection of vegetables at the fall show was announced. A whist and smoker will be the program for the next meeting, and on February 26 there will be an exhibition of carnations.

NEW HAVEN HORTICULTURAL SOCIETY.

The regular meeting of the New Haven Co. Horticultural Society was held on Tuesday, Feb. 2nd, at which one of our members, John H. Slocombe of East Haven, Conn., a well-known florist, read a very interesting and instructive paper on "Violets," tracing it as far back as 1830. Our amateur garden competition, which proved very successful last year, will be repeated this year, it being the unanimous vote of the society.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

The executive committee of the National Flower Show Committee of Fifty had a meeting in Indianapolis on Thursday, January 28 and later made report to the committee of fifty that they had received full reports from the chairmen of all sub-committees. The auditing committee's report showed an unexpended balance of \$1,083.75 and it was voted to distribute 10 per cent. dividend to each guarantor for money actually paid in, the balance of nearly \$500.00 to go to the S. A. F. It was decided that all records should be collated and filed with the secretary of the S. A. F., including samples of all printed matter and other material that might prove of value for future shows and help the management to steer clear of any snags that had been encountered in the last. Records in class 77 were reported missing and E. G. Hill was appointed a committee of one to communicate with the exhibitors and see that awards are duly made. Owing to a misunderstanding by the judges, no awards had been made in class 347. It was voted to refer this back to the judges for adjudication and award of the medals if possible.

Registration of Rose.

A protest having been filed against the registration of a rose offered by the Dingee & Conard Company under the name "Charles Dingee," the registration of the rose is held in suspense.

Under the rules of this Society the original matter of the registration and the protest against it have been placed in the hands of Mr. Robert Simpson, certified to the undersigned by the secretary of the Rose Society as the chairman of their committee in charge of such matters, and no further action will be taken by this Society pending the result of the investigation to be made by the committee of the Rose Society. W. N. RICH, Secretary.

LADIES' SOCIETY OF AMERICAN FLORISTS.

The members of the Ladies' Society of American Florists return thanks to Indiana florists for the royal entertainment given them at Indianapolis during the Carnation meeting.

MRS. CHAS. H. MAYNARD, Sec'y.

HORTICULTURAL SOCIETY OF NEW YORK.

The meeting of the Horticultural Society of New York, in the American Museum of Natural History on Wednesday, Feb. 10, will be devoted to carnations. Possessors and introducers of novelties are invited to send blooms for exhibition in competition for the society's awards, to be judged purely on the individual merits.

Messrs Eugene Dailledouze and John Elmie have consented to act as judges, and to take part in the discussion on modern carnations at the formal meeting at four o'clock on that day.

Specimens for exhibition should be staged, ready for the judges, at one o'clock. L. BARRON, Secretary.

FLORISTS' CLUB OF PHILADELPHIA.

An exhibit of carnations and Albert M. Herr were the star attractions at the monthly meeting held on the 2nd inst. Edward A. Stroud exhibited Lady Bountiful, Winsor, White Perfection, Enchantress, Beacon, and Mrs. W. H. Burnett, the latter being an English variety which Mr. Stroud thinks highly of and which looks better now than when received two years ago. Campbell Bros., Penullyn, sent three very fine vases of Enchantress, White Perfection, and Pink Imperial. Wm. Kleinheinz staged a vase of Pink Imperial, and White Perfection, the latter containing three varieties, but the committee did not observe the joke; also a vase of light pink stock, "Beauty of Nice." Samuel Batchelor exhibited a vase of Cineraria stellata—clear yellow in color and very free flowering—a sport originating on the Newbold place from seed received from Sutton's two years ago. W. T. Le Croix, Buena, N. J., sent a fine lot of Marly lilac, with spikes a foot and more in length, and exceptionally well done. A vase of White Killarney rose from the Waban Conservatories was staged by the Pennock-Meehan Co. This exhibit had been on show for eight days previously, and the flowers were still in good condition.

Mr. Herr's address was very interesting and the after-discussion quite animated. Mr. Fahrenwald called attention to the coming meeting of the Rose Society on the "17th of Ireland," and urged all members to be present. Parker Thayer Barnes, of Suburban Life, Harrisburg, was nominated for active membership. A discussion took place on boiler insurance. The general opinion seems to be that the state law does not apply to greenhouse boilers. The subject for next meeting will be "Gardenias" by William Kleinheinz.

TOLEDO FLORISTS' CLUB.

The last meeting of our club was a special one for the introduction of novelties to the members, and was largely attended. Invitations were sent out early in January to the introducers of new varieties to favor us with a dozen flowers of their novelties for this meeting. As judges the chair appointed Messrs. Thos. Magee, Harry Heint and George Bayer, and asked them to use the scale of the American Carnation Society. Bassett & Washburn sent O. P. Bassett, which proved to be the best red we had ever seen, and scored 85 points. There will surely be orders for this variety, as we are in need of a good red one.

The Highland Park Floral Co. sent us Lucille, a very large white flower, pencilled with rose. This variety will also be grown here. The flower has a good substance and is one of the largest we have ever seen, and the stem carries the flower fairly well. W. H. Shumway's Edward arrived in a poor condition, which did not permit judging it.

A prize was awarded to Emil Kuhuke for the twelve best red carnations, own seedlings. The color was good of what Kuhuke staged, size rather small

and stem a little weak. J. L. Schiller exhibited a few *Primula obconica* Arendsi (gigantea), one of his specialties, in 4 in. pots. The plants were very well grown and remarkable for size of flower. If the improvements in *obconica* keep on, then goodbye to *Chinensis* varieties. The Arendsi shown were grown from the originator's strain, and when better known will be found indispensable as cut flowers or pot plants.

TARRYTOWN HORTICULTURAL SOCIETY.

The regular monthly meeting of this society was held on the evening of Jan. 29. Owing to weather conditions the attendance was rather small. Mr. Abel Weeks, our new president, occupied the chair for the first time and made a promising start. The secretary's report on the annual dinner was very favorable and a vote of thanks was extended to Mrs. Driscoll, proprietor of the Florence Hotel for her hospitality. The prize for this meeting offered by James Stuart was for two primulas, any variety, and was awarded to Thomas Aitchison, gardener to Mrs. H. Seigel, Mamaroneck, who exhibited two fine specimens which also received a cultural certificate. A superb vase of White Killarney rose exhibited by F. R. Pierson Co. attracted much attention and was awarded a certificate of merit. Discussion of exhibits brought the meeting to a close. W. JAMIESON.

WORCESTER COUNTY HORTICULTURAL SOCIETY.

Program of meetings:

Thursday, February 11—Conference on Vegetable Growing, Herbert R. Kinney.

Saturday, February 13—Children's Day—Children and Music, Adin A. Hixon.

Thursday, February 18—Worcester County Bee Keepers Institute, 10.45 a. m. Speaker to be announced. 2.30 p. m., Insects in Everyday Life, Burton L. Gates.

Thursday, February 25—Ladies' Day—Music. Floriculture. Speakers to be announced.

Thursday, March 4—Rambles in the West, Charles W. Wood.

Wednesday, March 10—Annual Reunion.

Wednesday and Thursday, March 10 and 11—Massachusetts Fruit Growers' Convention.

Thursday, March 11—Speaker to be announced.

GHENT HORTICULTURAL SOCIETY.

At the monthly meeting held under the auspices of the *Chambre Syndicate des Horticulteurs Belges*, which took place Jan. 3rd, certificates of merit were awarded to the following orchids exhibited by M. F. Lambeau: *Cypripedium isabigne* Babette, *C. Lecanum* Lakense, *C. i. Lambeauianum*, and *C. aureum* Cyrus; also to *Cypripedium* var. (*Orphanum* x *Boadicea*) shown by M. J. Van Schots, to *Laelia anceps alba* var. *Stella*, and *Cattleya Trianae superba* shown by M. Verdone.

FLORISTS' WINDOW DECORATION IN JAPAN.

In Celebration of Visit of U. S. Fleet.

NORTHERN WESTCHESTER COUNTY HORTICULTURAL AND AGRICULTURAL SOCIETY.

The Northern Westchester Horticultural Society held its annual dinner and installation of officers on January 21, at Mount Kisco, N. Y. The visitors and guests were Mr. Howard F. Bailey, who has done much for the society at previous shows, and who has promised a special for the coming fall show; David MacFarland, of White Plains; Dr. E. W. Brown and J. E. Grahm, of Mount Kisco. M. J. O'Brien, gardener for J. Borden Harriman, was toast-master. The table was decorated with carnations.

A. L. Marshall, superintendent for Col. Wm. Jay, Katonah, was installed president; M. J. O'Brien, vice-president; Wm. Bauley, treasurer; and H. A. Spavins, secretary.

THE CALEDONIAN HORTICULTURAL SOCIETY.

The annual general meeting of the above society was held on Jan. 13, which is also the occasion of the centenary of its existence. Financially, the society is prospering, and the treasurer's statement showed a satisfactory balance. The centenary will be celebrated by a show in September next, and great efforts will be made to insure a full success.

LOS ANGELES FLORIST CLUB.

At the regular meeting of the Los Angeles Florist Club held on January 23, Vice-President Houghton in the chair, officers for the ensuing year were elected: President, J. Dietrich; vice-president, Dr. Houghton; secretary, Jno. I. Reeves; financial secretary, Chas. Winsel; treasurer, W. Wern; sergeant-at-arms, G. Peterson. H. E. GEORGE.

CLUB AND SOCIETY NOTES.

The lecture before the Massachusetts Horticultural Society on Feb. 6, at 11 o'clock, will be on "The Etherization

of Plants for Forcing Purposes," by Prof. William Stuart, Burlington, Vt.

The annual ball and concert by the Lenox Horticultural Society was held in the Town Hall, Lenox, Mass., on January 29. The best in music, an elaborate supper and finely decorated hall were attractions that the large and brilliant company did not fail to appreciate.

The Arkansas State Horticultural Society at their annual meeting on Jan. 21, passed a resolution asking the legislature to pass a compulsory spraying bill to protect the orchards from San Jose scale. H. H. Shibley, of Van Buren, was elected president and J. W. Vestal, of Little Rock, treasurer.

The annual dinner of the New York Florists' Club will be held at Shanley's, 42nd street and Broadway, in the "Roman Banquet Hall," on Saturday night, February 27. Fine decorations are promised by the committee in charge, and it is said that the menu will surpass any in the past. The ladies will be present for the first time on record.

Among the matters under consideration by the State Horticultural Society of Colorado which convened at Denver Jan. 20, that of orchard heaters was prominent. The early frosts that have appeared for the past two years have been the means of losing some two million dollars to the fruit growers. After an address on the subject by James L. Hamilton, the society took a special car for the Parfet orchards where six different heaters were put in operation. The result will be known later. Officers were elected as follows: President, George E. Richardson; vice-president, O. D. Seifelds; secretary, Clinton Oliver. Paonia; treasurer, Mrs. Lute Wilcox, Denver.

A STUNT FOR BURBANK.

Scientists say the white ant lays 80,000 eggs a month. Would it, we desire to ask, would it be possible to cross the white ant with the Plymouth Rock hen?—Topeka Capital.

Obituary

George Field Morris.

Many will learn with regret of the death of George Field Morris which took place at his residence, Cambridge Park, Wainstead, on Jan. 2. The deceased, who was born in 1831, may be said to have been the founder of the widely known firm of Messrs. Protheroe & Morris, of 67 and 68 Cheapside, London, on its present lines, for he, in conjunction with Mr. W. H. Morris about the year 1874, opened the City Branch, then at Gracechurch street, and later removed to Cheapside. The firm was started about 1830 as a nursery business at Highbury by Mr. Thos. Morris (father of G. F. Morris) and Mr. Alex. Protheroe.

After Mr. G. F. Morris retired in 1903, the firm was carried on by the present partners, H. C. Morris, T. A. Morris, A. E. Protheroe and J. B. Slade; and there will be no change in the management of the business.

Hermann Josef Wildpret.

We regret to announce the death of this earlier director of the Botanic Garden at Orotava in Tenerife, which took place on December 19, 1908. The deceased during his 35 years of service in the Garden constantly endeavored to add to his collection of plants and bring it to perfection, but his endeavors met with small encouragement from the Spanish government. When Wildpret went to Orotava there existed but one solitary species of *Phoenix canariensis*, and today there are over a hundred.

Mrs. Anna Klingenberg.

Mrs. Anna Klingenberg, who opened a retail flower store at 920 N. Halsted St., Chicago, last spring, died January 22, leaving a husband and infant daughter. Mrs. Klingenberg had had many years' experience with others and had built up a nice little business for herself. Mr. Klingenberg will dispose of the business, as he is not a florist.

Mrs. Mary Lyons.

Mary, wife of William Lyons, of Bernardsville, N. J., who died on January 23, was a daughter of James Hart, the veteran flower wholesaler, of New York, and was highly esteemed by all who knew her.

Patrick Kenefick.

Patrick Kenefick, for the past seven years manager of the Fenwick Nurseries, Halifax, N. S., died on January 20, in his seventy-second year. He is survived by a widow, three sons and five daughters.

Leander Remington Peck.

L. R. Peck, Barrington, R. I., owner of one of the finest collection of orchids in America, died suddenly from appendicitis on Jan. 28.

I. B. Coddington is mourning the death of his mother, who died on Sunday, January 31, at his home in New Providence, N. J. She had been in poor health for some time past, having suffered a series of strokes of paralysis.

GERANIUMS

Our Geranium Catalogue describes one of the largest and best collections in this country, including the best standard and novelties, 2 in. pot plants, \$2.00 per 100 and up.

HARDY POMPON CHRYSANTHEMUMS

Every grower of Chrysanthemums will want to grow the Pompoms next fall. We have the best collection to select from, and are acknowledged to be head quarters, \$2 co per 100. Special prices on large lots.

LOBELIA

KATHLEEN MALLARD. The new double Blue Lobelia.

We shall continue this week to offer this Novelty of exceptional Merit at the Special Price of \$2.00 per 100.

DAHLIAS

We have a splendid collection in plants for next spring or roots next fall. Ask for list and prices.

We also offer a general Collection of Bedding Stock.

R. VINCENT JR. & SONS CO., White Marsh, Md

PREVENTION BETTER THAN CURE.

The advocating of a hospital bed for the members of the Boston Florists' Club by the president, is a thoughtful suggestion providing the members are willing to make use of it, which would be very doubtful.

It seems to me, that there are far more important questions which ought to have consideration. The questions which I have reference to are to try and secure the half holiday on Saturday, and also to try to secure better remuneration for labor, and the reduction of the assistant's outlays.

Why should greenhouse men who are using water more or less all the time, be required to provide themselves with rubber boots, when all professionals such as coachmen and washers of all kinds, secure them free? These are far more important questions which every member ought to consider, and if taken up in some practical form would do far more good and at the same time, make the assistants whose average pay, when all the hours of labor are counted, is less than \$2.00 a day, feel far more independent and make them more able financially to provide a bed for themselves.

An interesting subject for debate would be, Do the best growers hold the best positions? If not, why not? Why trouble ourselves about the education of a young gardener? Make it worth while and the modern assistant will take care of his own education.

Should the Boston Florists' Club take up these questions, the attendance would be greatly increased by those who are really interested in the welfare of horticulture.

If you take a look at the horticultural barometer you will find the mercury standing about 20 or 30 degrees above and still falling every year, and then look at these large rose factories,

violet factories and cyclamen factories being built, and in a few years time the mercury will be down to about 5 or 6 above and only a few horticultural experts required. How are these Horticultural Clubs going to look after their members' interests? Why not organize and build one of these large factories and allow every member to have equal shares in it, then we could have a bed in the hospital should our manager take sick. So that it would not reduce our dividends, we could have bowling alleys and all kinds of amusement for the young members, then we could with confidence say, that we were members of one of the most practical horticultural organizations in the world.

WILD FLOWERS.

A paper read before the Illinois Horticultural Society by O. C. Simonds.

In August, 1892, I visited, in company with its owner, the country home of Mr. William Robinson. As we approached his house, I noticed, some distance ahead, quite large areas of delicate color, mostly light blue. On coming nearer, these areas were found to be large beds of native American asters. "Oh, you have some of our flowers!" I exclaimed. "Yes," said Mr. Robinson, "you Americans do not appreciate your wild flowers. We have to bring them over to England and cultivate them awhile before you will notice them." This has been to some extent true. We have valued our flowers as little as we have our forest, our birds, our wild game, and other products of nature which cost us nothing. To be sure, as children, we have all taken delight in going to the woods and picking wild flowers, and then we have taken them home in a wilted condition and thrown them away. I know areas near cities where this has been done to such an extent that where trilliums, hepaticas, erythroniums and blood-roots were formerly abundant, they can no longer be found. Some people who missed the wild flowers in their vicinity secured some wild phlox and trilliums from another place, and planted them in their own yard. These grew well, and were left undisturbed so that they would increase in numbers. But one day they were discovered by some passers-by, who entered the grounds, and commenced picking the blue and white blossoms. When remonstrated with, instead of realizing that they had been intruding and had done something wrong, they simply said, "Why we thought these were wild."

Let us take for granted the fact that our native flowers are beautiful, and that they may be used to advantage in home grounds, parks, and other areas which we try to make pleasing with planting, and then let us study how to secure the most satisfactory results. The place for such study is wherever wild flowers are growing. One can often see such places from a car window. Every spring I notice along railways low places which are covered with marsh marigolds; other places covered with wild phlox, often a bit of woodland where trilliums show their white heads in profusion. Sometimes the ground is almost completely covered with shooting stars. Again, a sandy ridge will be colored blue and purple with the flowers of the lupine. Asters, goldenrods, daisies, and buttercups are abundant in certain localities at various times of the year. Still other flowers which I remember hav-

ing seen with pleasure from a car window are our native lilies, bunch-berries, painted-cup, butterfly-weed, sparrowwort and puccoon. These are by no means all. I merely mention a few neighbors. There are now firms that that I happen to think of as I write. I remember a roadside where some wide-spreading thorns grew. Underneath these the conditions were not favorable for grass, but the ground was hidden in May with our native anemones. Another area was carpeted with dog-tooth violets, both the yellow and white, but each in a colony by itself. Many of the flowers mentioned are so fragile and delicate that they cannot be used for cut-flowers, or for house decoration with satisfaction, but that is no reason why they should not be allowed to grow and beautify the land in places where they will be happy, and give us pleasure.

The examples mentioned, and many others which you will undoubtedly recall, should furnish hints for the treatment of unusual spaces in parks. Advantage might be taken of a place that is naturally wet. Instead of draining it or filling the area and covering it with a lawn, we might have a succession of flowers throughout the season, beginning with marsh-marigolds, skunk cabbage and wild violets, which could be followed later with some of the saxifrages, meadow rue, lady-slippers, blue lobelias, cardinal flowers, grass of Parnassus, and finally with the closed and the fringed gentians. All of these plants like moist situations, and are most attractive in appearance. A group of shrubs on higher land might furnish protected places for hepaticas, dutchman's breeches and blood-roots. A sandy knoll, where it is difficult to have a good lawn, might be beautifully covered with puccoons, lupines, butterfly weeds and other flowers that like such a location. Instead of trying to have beds of wild flowers with definite geometrical shapes, let them spread as freely and carelessly as they would grow in any of the places where we usually look for them. "What do you suppose I study," said Mr. Robinson, "when I wish to select a good shape for a flower area?" I was fortunate enough to give the right answer the first time, but it was accidental. "Clouds," I said hesitatingly. Mr. Robinson said, "Yes, clouds always have good shapes."

If we could only appreciate our native flowers as they deserve, we might have them in profusion. They would greet us from among the trees and shrubs of our parks, from every roadside, from our own home grounds, and would be waiting for us along fences and in our forests. Many wild flowers can be moved at almost any time of the year by taking out the plants in blocks of earth so that their roots will be very little disturbed. Others can be moved when dormant by simply transplanting their roots, and still others can be raised from seed. Many of them can be collected from some locality within reach, but in making such collections one should avoid taking the plants from places where they may be seen and enjoyed by many passers-by, and from neighbor's yards,

—at least without the consent of such make a business of collecting wild plants and selling them at reasonable prices.

When I think of a large sugar maple forest in northern Michigan whose floor was covered with ground hemlock, above which appeared the enormous white flowers of the trillium grandiflorum; when I think of wooded hillsides covered with masses of pink, white and blue flowers of the hepaticas; of sandy fields almost entirely covered with lupine; of areas in open woodlands covered with wild asters and goldenrods; of groups of mossassin flowers seen against green banks, of marshy land sprinkled with fringed gentians; of the banks of streams bordered with cardinal flowers and jewelweed, I wish that we might reproduce these effects near where we live. To me they seem more beautiful than beds of tulips, of hyacinths or geraniums.

New Rose**White Killarney**

Come and see White Killarney growing at our Scarborough houses, and you will say at once, as every one does who has seen it, it is

The Best White Rose

they have ever seen. You need it if you want to be up to the times, and it will pay you better than any other white rose that you can plant. You will regret it if you do not plant it this year, and you will not regret it if you do.

Big lots are being booked. Get your order in early. Send us order at once, while you think of it. Get early stock. It will not cost you any more to order to-day, while you think of it, than it will two months from now. Be the early bird that catches the worm.

Strong young plants, 2½-inch pots, own-root, ready for delivery beginning February 15th, 1909. \$30.00 per 100; 250 for \$70.00; 500 for \$125.00; 1000 for \$250.00. Grafted plants, ready for delivery beginning March 1st, 1909, \$5.00 per 100 additional.

KILLARNEY AND BEAUTY.

The Editor of HORTICULTURE:

Dear Sir,—Referring to the note on White Killarney, page 107, in your issue of Jan. 23, I would like to endorse all you there said in its favor and to add that, judging from those I saw growing at F. R. Pierson's nurseries at Scarborough, N. Y., beside having a heavier flower than Killarney proper, this white sport seems to be a stronger grower than the original.

But why insult this beautiful rose by saying "it would turn out to be a white running mate to American Beauty?"

While wishing to make all allowance for difference in taste, I think it would be difficult to find any rosarian who would place American Beauty in the first rank of beautiful roses.

Lacking as this variety is in both form and color to the extent of coarseness, it has only size, scent and length of stem to recommend it, qualities which, though desirable, are hardly sufficient for the making of a beautiful rose, though they ought to go a great way if we were considering peonies or chrysanthemums.

I grant you that American Beauty is of use in decorating a large room where general effect is the chief consideration, just as tinsel and painted faces may please on the stage, but the charm of both is quickly lost on closer scrutiny.

Perhaps all this is rather hard on a flower so many seem to fancy, but for

the life of me I cannot understand why certain growers will insist upon comparing a rose with American Beauty when they wish to praise it—for instance, one grower calls Frau Karl Druschki, White American Beauty—unless it is that they are wise in their generation and know that the larger and more gaudy a flower is the better chance it will have with the tasteful and discriminating public, and the more that same public will think they are getting for their money.

Oh, for the time when we Americans will learn to love the beautiful because of its beauty, and not for the price it will bring or because it is the fashion. Very truly yours,

A. L. SQUIRE.

The Boston Globe for Sunday, January 31, devoted a large space to an illustrated article on the growth from humble beginnings of the flower business of Mann Bros. of Randolph, Mass., and their Easter Lily specialty.

NEWS NOTES.

The bill to do away with the office of State Entomologist in Indiana is meeting with considerable opposition. One feature of the bill is that the sale of apples that are infected with any kind of disease shall be prohibited. It is said that it is impossible to store apples away for several weeks and have them remain free from scab or bitter rust.

A bill giving the Secretary of Agriculture authority to regulate the importation and interstate transportation of nursery stock, including seed, was presented January 30 by Chairman Scott, of the House Committee on Agriculture. An appropriation of \$100,000 is provided for the appointment of skilled inspectors. It is provided that there can be no entry of nursery stock without a certificate from an expert satisfactory to the Secretary.

New Carnations ready for immediate delivery Bay State, Georgia, Mrs. J. C. Vaughan, \$12.00 per 100; \$100.00 per 1000. Mrs. O. P. Bassett, \$8.00 per 100.

CHARLES H. TOTTY, - Madison, N. J.

For Early or Late Forcing

HARDY AZALEA, MOLLIS—This hardy Azalea is becoming more popular every season to force as a pot plant; it is a profitable plant to handle, as it can be grown at a minimum cost; when in bloom it is useful for decorative purposes, and also appeals to the retail buyer as a house plant. We have an exceptionally fine lot of well budded plants, 15 to 18 inches high, \$4.50 per doz; \$35.00 per 100.

RHODODENDRON, PINK PEARL—As an ideal pot plant, nothing can equal this beautiful variety. The individual flowers as well as the trusses are of gigantic size, while its color, a beautiful pearly pink, cannot be improved upon. We believe this is one of the coming pot plants, and when it becomes more plentiful and lower in price it will be very popular. You should try a few plants and become acquainted with it. A limited stock of good plants, about 15 inches high, with 5 or more trusses, \$1.50 each.

DEUTZIAS, Extra strong field grown plants for forcing.

GRACILIS.....	\$1.25 per dozen;	\$8.00 per 100;	\$70.00 per 1000

American Nursery

Bagshot, England

Are Specialists in the

REALLY HARDY VARIETIES

of Rhododendron Hybrids and in Select Varieties
of Hardy Border Plants

Florists' Asters.

FOR MAIN CROP there is nothing better than the Branching type. They are known as Simple's, Vick's, Carlson's and Henderson's Invincible.

From last year's records we deduct the following conclusion.

Invincible Blue, while offered as a branching Aster, seems to be distinct from other Invincibles both in habit and form of flower. We should think it an improved Victoria Aster. Although slightly different it is a grand variety. All the strains mentioned above are very similar in style of growth and form of flowers.

Invincible Rose Pink is the same color as Vick's Pink and Carlson's Shell Pink, the latter coming a few days earlier.

Invincible Crimson is nearly same shade as Vick's Rose.

Owing to this similarity the merits of the several strains are governed by selection and much depends upon the thoroughness of the Seed Producer. From last years tests we believe Henderson's Invincible gives a larger percentage of perfect flowers.

We Have All The Best Kinds.

We go through the block from 14th Street to 14th Street, but our address is still

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St., NEW YORK CITY.

PHILADELPHIA NOTES.

Visitors this week: Frank Henry. Chas. Loechner, New York; W. H. Vance, Wilmington, Del.; P. T. Barnes, Harrisburg, Pa.

A silver tray engraved with Easter lilies and Asparagus plumosus is among the special prizes offered by the H. F. Michell Co. for the forthcoming exhibition of the Boston Flower Growers, Feb. 27th, for the best 12 pots of Easter lilies.

J. Stern & Co., the enterprising supply house of this city, report largely increased business over January last year. They have three men now on the road.

Samuel S. Pennock thinks Mr. Stewart's address at the Indianapolis convention full of wit and wisdom and should be framed and hung up in the office of every retailer and wholesaler the world over.

W. Kleinheinz of the Widener Conservatories does not subscribe to the general notion that Lady Bountiful is a less desirable commercial white carnation than White Perfection.

Edward A. Stroud, of the Stafford Flower Farms, is receiving the congratulations of his many friends on his success at Indianapolis with his exhibit of white carnations.

W. Paul Binder has resigned his position as manager of the Shellem greenhouses. It is understood that J. Shellem, Jr., will be manager during his father's illness, Mr. Shellem, Sr., being now at St. Agnes' Hospital seriously ill with heart trouble.

The local mail order trade has felt

the effect of the western blizzard the past few days. Notwithstanding, all agree that January business breaks the record. Dingee & Conard Co. report that both enquiries and orders exceeded last year, which was their high water mark.

Some very fine Georgia carnations were seen here recently. They showed up fine and their keeping quality proves exceptional. This new variety promises to be one of our best commercial whites. The experts are very much interested in it.

SHAW'S GARDEN AND SUNDAY.

The trustees of Shaw's Garden have decided to omit the annual banquet provided for in the will of Henry Shaw founding the Missouri Botanical Garden, and the \$1000 thus saved will be added to the endowment fund, a sum that yielded \$210,814.31 last year. This decision is announced in the annual report of the trustees which also contains the information that 118,465 persons visited the garden during 1908. Of the total attendance it is stated that 33,971 passed through the gates on the only two Sundays in the year that the garden is open, leaving only 84,494 as the number of visitors on the other 316 days that the institution was open.

The income of the garden, all but about \$17,000 of which was spent last year, is about \$2.50 for each visitor on a week day, an enormous sum. If the garden had been open every Sunday and the attendance had been what it was on the Sundays it was open, the

total attendance would have reached nearly a million and the cost per visitor would have been less than 25 cents.

In providing by will that the garden should be opened only on the first Sunday in June and September each year, Mr. Shaw was actuated by a Sabbatarian influence that was stronger a quarter of a century ago than it is now. The trustees have seen fit to disregard his wishes concerning the annual banquet. They might profitably decide that in closing the garden on the days that the largest attendance is possible the intention of the founder is not realized.

William Fischer formerly assistant on the Helen Gould place at Irvington, N. Y., has taken position as head gardener with Walter Luttgen, Bethel, Conn.

Via Copenhagen: Peter Henderson & Co., 2 cs. seeds; Maltus & Ware, 25 cs. lily of the valley pips; Forwarders, 57 cs. grass seed.

By Peter Henderson & Co., 3 cs. plant wash from London; Vaughan's Seed Store, 4 bags seed from London, 16 bags seed from Marseille.

CHICAGO PLANT NOTES.

The Chicago market is well supplied with blooming plants at present. There are the Dutch bulbous stock consisting of pans of Montrose, Proserpine, Keiserkroon and La Reine tulips, hyacinths Dutch and "miniature," Narcissus Von Sion, etc. Dutch bulbs are not in quite as heavy supply as last year and are doing much better as to price. There is also a good supply of azaleas, cyclamens and Primula obconica. Rhododendrons are beginning to make their appearance. Boston ferns of good size are rather short in supply.

OFFERS ENOUGH.

Horticulture Publishing Company:
Gentlemen:—You may stop want ad. in your paper. I got offers and information enough.

Yours respectfully,

(Signed) ED. HERRMANN.

Baltimore, Md., Jan. 25, 1909.

Gladiolus Bulbs

GLADIOLUS AMERICA

A few points of merit

Color: A beautiful, soft, flesh pink, very light and much like *Enchantress* Carnation, except slightly tinged with lavender, which gives it the delicate coloring of the most beautiful *Lactas*. Words fail to do justice in describing this grand and glorious color; it must be seen to be appreciated. *Purposes*: For florists' use, it is a color makes it everything to be desired; delicate, attractive and absolutely new; no other color in *Gladiolus* like it or one-half so beautiful. It has created a sensation in the cut flower markets, selling for more than five times the price of other varieties.

America. The best commercial pink in existence. 1st size bulbs, \$4.00 per 100, \$35.00 per 1000; 2nd size bulbs, \$2.00 per 100, \$15.00 per 1000.

Augusta. Lovely, pure white with blue anthers. 1½ to 2½ in., \$2.00 per 100; \$15.00 per 1000; \$70.00 per 5000.

Blue Jay (Baron Hulot). Finest blue *Gladiolus* yet seen. It is a rich, deep color of indigo shade. The only real blue *Gladiolus* on the market. \$10.00 per 100; \$50.00 per 1000.

Brenchleyensis. Extra fine red variety. 1½ to 2½ in., \$1.50 per 100; \$12.00 per 1000. \$50.00 per 5000.

May. A lovely, pure white flower, finely flaked, bright rose crimson. 1½ to 2½ in., \$2.00 per 100; \$15.00 per 1000.

Princes. Rich crimson with very deep shadings in the throat and broad blotches on lower petals. 1½ to 2½ in., \$10.00 per 100; \$50.00 per 1000.

Salem. Fine salmon-pink, maroon blotches. 1½ to 2½ in., \$10.00 per 100; \$50.00 per 1000.

Gladiolus in Mixture

Trial Grounds Mixture. 1.50 10.00 45.00

WHITE AND LIGHT MIXTURE.....\$1.50 \$12.00 \$50.00

Pink and Rose Mixture 1.50 12.00 50.00

Red and Scarlet Mixture 1.50 12.00 50.00

Lemoine's Extra Fine Mixture.....1.00 10.00 45.00

AMERICAN HYBRIDS MIXTURE.....1.00 8.00 45.00

CHILDISH MIXTURE.....1.50 12.00 50.00

STUMPP & WALTER CO., 50 Barclay Street, NEW YORK

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. *Gladiolus* are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white *Gladiolus*. First-size bulbs, 1½ inches and up, \$2.00 per 100; \$18.00 per 1000.

Bulbs 1½ to 1¾ in. \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, faded rosy crimson; the best forcer. Selected bulbs. \$1.75 per 100; \$15.00 per 1000.

Brenchleyensis (true). Flery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1½ in. and up. \$1.50 per 100; \$14.00 per 1000. Bulbs 1½ to 1¾ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of *Gladiolus* in cultivation. \$1.00 per 100; \$9.00 per 1000.

NEWS NOTES.

Mr. and Mrs. Chas. H. Fiske, 118
Ogden Ave., are operating one of the
finest retail stores on the west side of
Chicago, and have built up an excellent
business.

Peter Reinburg of Chicago, who re-
cently underwent an operation at Eliz-
abeth Hospital, is recovering nicely
and was removed to his home Wednes-
day, February 3.

Washington, D. C.—John M. Ham-
mer & Sons, who have been engaged in
the florist business at 64 Florida Ave.
N. E., have made an assignment to
John M. Gitterman. The assignee
says that prospects are favorable for
the creditors, with good management
for the coming year.

The order of the board of police of
Lowell, Mass., prohibiting Sunday sell-
ing, allows a florist to make up and de-
liver on Sunday an order that he re-
ceived on Saturday. An effort will be
made to permit florists to deliver
flowers for funerals, churches, etc., on
Sunday mornings up to eleven o'clock.

Flower Market Reports.

BOSTON A favorable report can be made this week, we are happy to say, and the prospects are good for a steady run of satisfactory business for the few weeks, at least, which intervene between now and Ash Wednesday. Roses are off crop just at present and more could be sold than this market is able to supply, so prices are firm and will probably continue on present plane for some time. All crops are on the advance, however, and the scarcity will not be so pronounced after a few days. Business assumed an improved tone early last week, and the steadiness displayed in the face of a rapidly increasing supply of bulbous material is very gratifying. Of the bulbous stock there is no such overstock as in former years. Light buying last fall is responsible for the healthier tone of this class of material and a similarly prudent course by the forcers this year will be the part of wisdom.

Trade the past week has been quite satisfactory as a good demand for flowers was had throughout. Beauties and other roses were rather scarce, especially of the short grades, and prices held firm. Narcissis, Roman hyacinths, lily of the valley, etc., are in good supply. Sweet peas have been in better demand than heretofore, but violets have had to be urged somewhat to make them sell. Carnations in fair supply and cleaning up well. Green goods in good supply and demand normal.

CHICAGO The warm, cloudy weather which prevailed during the week ending Jan. 23 gave way to a cold wave and the thermometer fell from 65 deg. to zero. But the sunshine helped both the quantity and quality of the flowers. The carnations had opened up so fast during the warm spell that the supply was considerably ahead of the demand, while the quality was decidedly poor. Roses had fared differently, and while the quality had remained unimpaired, the quantity diminished—according to some of the growers, one half. The first week in February opens up a little quiet in some localities, but with clear cold weather and a uniformly good quality of stock. Sales are slow in all bulbous stock tulips and daffodils particularly.

PHILADELPHIA General market conditions continue on a satisfactory basis. The demand is good with stock far from plentiful. All kinds of flowers cleared up fairly well, the lily of the valley on the list being carnations. American Beauty roses were rather draggy for a few days but towards end of week they got scarcer and are now moving off all right. The long stems are the only up-to-standard in quality, the shorts still continuing very poor. Richmond is in good demand, selling right up. In pink, Jardine and Killarney have the call. Bridesmaid, although fine, being rather neglected by the buyers. Shorts in

whites clean out well but the fancies hang fire. Carnations are in brisk demand and clean right up. As intimated above, they are about the scarcest item on the market. Violets and lily of the valley are both rather draggy. Sweet peas fine and in good demand, especially in the dark colors. Easter lilies do not receive much attention but callas are rather lively. Daffodils are now in their hey day; receipts just about right; more, and prices would go to pieces. Freesia is coming in freely—rather more than the market will stand. Cattleyas are redundant and prices easier. Gardenias if good find ready market and there are lots of fancy arriving. Tulips in quantity are confined mostly to white. Pinks and yellows are in limited supply; no scarlets as yet. There are enough Paper Whites and Roman hyacinths to go around, and these continue in healthy condition as to price.

TWIN-CITIES Business in the Twin Cities has been quite dull this last week. McKinley day hardly differed from any other day. The day was too cold and stormy for anybody to be outside, and but very few carnations were seen even in offices. It seems McKinley day is not quite as popular out here as it is in the east. The market about holds its own, and prices are about normal, without much variation. Supply and demand are about equal.

WASHINGTON For the first two days of the week Washington was in the grasp of one of the most bitter cold spells of the winter, a furious "nor'wester" blowing steadily all the while. In consequence the cut on

everything has shortened up; especially is this true of roses. Prices still hold their own. As there are only three short weeks allowed to the world-minded before the penitential season sets in, receptions and dinners and social gaieties of every kind are being squeezed in which makes a more than busy time for the retailers. Several report very large decorations for the coming week. All bulbous stock is being shown in greater quantity and there is a brisk demand for freesias, paper white narcissus and tulips. Green has been scarce, but seems to be coming in a little better.

FIRE RECORD.

Minot, N. D.—The entire stock in the greenhouse of George Walker was destroyed by a fire which started from an overheated smoke-stack.

Toledo, O.—C. W. Counter met with a loss of about \$600 on stock and building through a fire which started from an overheated smoke-stack.

Dubuque, Ia.—What threatened to be a serious fire at Harkett's Floral Nursery on January 11 was extinguished by the quick work of the fire department but with slight loss.

Beaver Dam, Wis.—A fire which started in the rear of the store of Joseph Wagner on January 16 swept through the entire side of his greenhouse. His loss is estimated to be about \$3,000; no insurance.

Grand Junction, Colo.—The Grand Valley Floral Co. were the victims of a fire on January 6 which completely destroyed the inside of their building and ruined the stock. An overheated furnace is supposed to be the cause. The building was partially insured.

EVERYBODY KNOWS

Park, Cemetery and Landscape Gardening cannot be properly done without the aid of an accurate leveling instrument.

Bostrom's Improved Levels, No. 2 at \$75.00 and No. 3 at \$45.00, are conceded by all who KNOW to be the only Levels on the market which meet all the requirements, at the price.

Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make.

Shipping weight 12 lbs. Description on request.

NEW YORK FLOWER MARKET

The early part of the present week was marked by a famine in roses and carnations which must have recalled old times to many dealers. Other material was not scarce but responded in sympathy and prices were firmer than for a long time. It could not be said that business was particularly good or the aggregate of sales unusual. The conditions were plainly resultant from the two or three days of severe weather only, and could not be regarded as indicating any permanent strength in the flower market. Complaints by buyers for retail stores were frequent in the wholesale district over the unusual experience of being unable to get everything they asked for on the moment, and they felt aggrieved, but those who had ordered ahead had to be first served and the rest had to be content with whatever was left.

INCORPORATED.

Milford, Conn.—The R. H. Comstock Co., florists: R. H. Comstock, Chester Comstock, H. L. Hungerford; capital, \$10,000.

Nashville, Tenn.—The Tennessee Wholesale Nurseries of Franklin County: N. W. Hale, J. L. Deaven, H. N. Camp, E. W. Chattin, A. J. Smith; capital, \$60,000.

NEWS NOTES.

Raleigh, N. C.—The J. Van Lindley Nursery Co., of Pomona, have opened a branch office in the Masonic Temple Pharmacy.

Beatrice, Neb.—A. E. Hetherington, has purchased the Gage nursery farm, a few miles west of Beatrice, and will enter extensively into market gardening.

Riverside, Cal.—The name of the Jurupa Nursery has been changed to the Riverside Nursery. C. E. Watkins is manager.

Boston.—Leonard W. Ross, who was at one time connected prominently with the cemetery department, has been elected superintendent of the cemetery department, to succeed James H. Morton, resigned. It is said the action of the cemetery trustees was not unanimous, owing to the fact that there were a number of candidates, all of whom had fine political backing. For some years Mr. Ross has been in charge of Knollwood Cemetery.

Sometimes You Forget

that we make every part of a greenhouse but the glass — that we sell any part.

You remember us on the bigger things, but often it never enters your head to think of sending to us for a tub of putty or a few fittings.

But you ought to — and here's why: Our sole business is manufacturing every part of a greenhouse. We give it, and it only, our undivided attention.

Everything we make is made with an exact knowledge of just what conditions it must meet, and that is why an ever increasing number from all over the country are continually sending us their orders for just the smaller things.

You know how well we do the big things, and if you only stop to think, it is just because of well done little things that it is possible for us to do so thoroughly and enduringly the big things. So whether white lead, glazing nails, bench fittings, it matters not what, first write to

OVERCOMING THE UNUSUAL

A steep grade, running from east to west is not a very promising outlook for a greenhouse location, still here is a case where it was that or nothing, so we built these U-Bar houses, "stepped up fashion," and put the last house on the lower end, on a wall ten or twelve feet high, and used the space below for potting room and boiler cellar — and it makes a fine one too.

Any place where we can make a firm foundation we can build our greenhouses. Their extreme lightness and graceful lines make them attractive whatever the location. Send for our catalog and study it over.

Thrips and Their Response to Light and Heat

THE GENERAL DESCRIPTION OF THIRPS

Thrips are very small insects. The females of the species considered in this article are from one twenty-fifth to one-twentieth of an inch in length while the males are smaller, those of *E. tritici* being about one thirty-second of an inch long. Some species of thrips infesting other plants are larger and some are smaller than those described here. All the species known to infest greenhouse plants are winged species, though at certain seasons many or even all the individuals may be wingless or else have only short wing pads. The wings are four in number, long and membranous. They are never folded. The hind margin is always and the fore margin generally, fringed with long slender hairs, in length greatly exceeding the breadth of the membranous part of the wing. The name of the order, Thysanoptera to which these insects belong, is derived from two Greek words meaning tassel-wing and one of the common names, Fringe Wings, is based on this peculiar wing structure.

The antennæ are very slender, six to eight jointed structures. Besides the faceted eyes, two or three ocelli are present on the winged forms, even though the individual may not at the time possess wings. These ocelli are not present in the larval stage.

The feet are not terminated by a claw, but the tip is fitted with a protrusile bladder-like organ. This gives rise to the name *Blasenfusse* or Bladder-feet and the scientific name *Physopoda*.

The mouth parts are intermediate in form between those of chewing and sucking insects but are believed to be used for sucking. Some of the parts which form a peculiar cone far back beneath the head are modified to a piercing organ with which the insect pierces the tender parts of plants and withdraws the sap. It is therefore impossible to kill thrips by spraying or dusting poisons on the plant, notwithstanding the opinion of some growers. Any benefit, if such there be, is due to other action of the material applied.

REPRODUCTION

Reproduction is oviparous, that is, multiplication by means of eggs. Reproduction is either bisexual or parthenogenetic. The latter method, i. e., reproduction without fertilization by the male, is thought by Dr. Hinds to be the usual means of reproduction in at least ten species and that it occurs in many others. He states further that the females almost always outnumber the males and that in some species males are found at certain seasons, in others the males are rare and in others unknown. The eggs of thrips, so far as they have been observed, are bean-shaped and when fresh, clear white in color. In size they are very minute, those of wheat thrips being .009 x .003 of an inch.

The female thrip lays her eggs in the green parts of plants, first cutting a slit with her saw-like ovipositor,

after which the egg is pushed down into the tissue below the epidermis. The operation has rarely been observed but so far as known requires only a minute and a half. The short time required for this operation, together with the fact that the insect, when possible, remains concealed, makes it difficult to discover where the insect lays its eggs. Again, it is impossible to know when the egg laying is about to begin. Sometimes the tissue is too hard and the insect is unable to withdraw the ovipositor, and the insect is kept a prisoner until relieved by death.

In the pupal stage the insect is quite inactive, changes color and usually retires to a quiet spot where it does not feed. During this stage the wings, the ovipositor and the genital organs develop. The insect emerges a fully developed adult. It is a noteworthy fact that the young thrips resemble the adult insects in general form, in structure of the mouth parts, and in food habits. They differ in lacking wings, in color, which is lighter than the mature insect, and in some of their activities.

Prof. Quaintance says that the life cycle of Thrips tritici is twelve days under summer conditions in Florida. The egg state lasts approximately three days, the larval stage five days, the nymph state four days. In the north, especially in the high spring and autumn temperatures in greenhouses, no doubt the life cycle approaches or equals this. The same writer finds the life cycle of Onion thrips is approximately sixteen days, divided as follows: egg state three and a half days, larval stage seven to nine days, and pupal stage three days.

HIBERNATION

The studies thus far made upon thrips indicate that they pass the winter in the same place they have fed. Those feeding on leaves and flowers hibernate under the dead foliage and in the dried flowers. The grass-inhabiting species, among which are those doing the most damage to cut flowers, pass the winter in the turf. In such situations they can endure very low temperatures without suffering injury as shown by the fact that they revive quickly when brought into warm quarters. They emerge very early in the spring and begin their activities as soon as the growth of their food plants starts.

Hibernating thrips can be destroyed by burning all dead grass, weeds, flowers, remains of vegetables, leaves, etc., in the vicinity of the greenhouses but to be effective this should be done before April 1st.

THE EFFECT OF TEMPERATURE AND LIGHT ON THIRPS

From the results of many observations it appears that thrips are not very active at temperatures below about 65 degrees F. On cloudy and rainy days when the temperature in carnation houses is more nearly that maintained at night (50-52 degrees) it has been found that thrips are rarely seen outside the buds. When the temperature rises above 60 F. thrips become more active and if the sunlight is not very intense they may be seen outside the buds in the majority of cases in the morning.

The effect of temperature on thrips activity is shown by the well known fact that, like red spider, they cause most damage in the warmer parts of the house. A case in point was the result obtained from two benches of

Mrs. T. W. Lawson. One bench was near the wall with a narrow walk separating them and in this walk at about the height of the bench a return steam pipe from the rose houses. The other was a center bench with only the usual heating pipe below. On the first described bench 9 per cent. of the buds were injured by thrips while on the center bench there were 5 per cent. injured buds during the season from November to June. The difference decreased as the season advanced for in April there was a difference of one per cent. in favor of the center bench but in May the results were the same. The conditions were unlike because of the radiation from this return pipe but as the sun heat increased and the artificial heat was less used, the conditions on the two benches were more nearly equal and the thrips' injury became proportionately equal as we would expect. These results are based on an examination of 27,038 buds and flowers during each week from Nov. 1, 1907, to June 1, 1908.

The foregoing indicates what takes place under small variations of temperature when other conditions are similar. These warmer parts should be remedied when possible but in all cases the plants growing therein should be carefully watched for thrips and red spider.

In cucumber houses, where the temperature is kept above 60 F. at night, Thrips tabaci often increases when unchecked to such an extent as to destroy the crops. On the other hand so far as we have had opportunity to study thrips in lettuce houses they are only abundant in October and November and decrease as the season advances. In spring the crop in these houses is changed so that there was no opportunity to learn if there was a spring invasion.

During April and May there were opportunities to get more information on the effect of temperature on thrips, since the difference between the day and night temperatures was greater than in winter. The results of the earlier observations were confirmed. Thrips tritici on roses retire within the unfolding petals of the flower as night approaches, where they feed along the edges of the petals and especially in the point of the bud. This night feeding in the point of the bud results in the disfiguring of all the petals and renders the flower worthless. In the morning as the temperature rises the thrips of this species move out to more exposed positions on the petals that have unrolled. Here they feed further from the edges of the petals. It is a noteworthy fact that if the sun is shining they place themselves so that the petal is between themselves and the sun. In this position they have all the advantage of the temperature with the least light.

The thrips on carnations were less often seen outside the buds as the days become longer. This species is more responsive to heat and light for on cucumbers the adults could be seen late in the afternoon crawling over the edge of the leaves to the upper surface where they fed during the night. In the morning if the day was cloudy they remained where they were but when the sun came out they retired to the lower surface. On a sunny morning it was interesting to observe the relative numbers of thrips on the upper surface of leaves in sunny and shaded parts of the house or even on the same plant in sunshine and shadow.

Thrips femoralis on the calla feeds on the lower side of the leaves whether the day is cloudy or otherwise, but it does feed to a certain extent on the upper side at night as shown by the fact that the leaves show injury there. The preference is for the lower surface. On the amaryllis from observations on a limited number of plants

this species prefers the upper surface where the result of its feeding is seen in bright red spots which later become brown and dead.

In every case in which I have observed the development of thrips in greenhouses on callas, carnations, cucumbers and roses they made their appearance first and caused greatest injury in the warmest part of the house. Further than this the leaf infesting thrips in the immature stages are found on the under sides of the leaves where they have hatched and are least exposed. On roses the immature thrips were never observed feeding exposed. Even the adult insect when feeding in carnation buds and shoots remains almost wholly concealed.

Mr. J. J. Davis, my assistant in certain phases of the life history of this insect, made the following laboratory experiments to determine the reactions of the thrips towards heat and light. Adult *Heliothrips femoralis* were placed on carnation buds, twenty-five on each bud. The buds were then placed in lamp chimneys, covered with gauze to prevent the escape of the insects, and the cages placed under the following conditions. Two cages were placed side by side so the temperature was the same, one of them being exposed to light and the other covered so as to exclude all light. The other two were placed one in the insectary room and the last in the office, the light intensity being apparently equal but the temperature of the rooms unequal. In general the experiments to determine the effect of light showed that more thrips were out on the bud where light was totally excluded but if the temperature became unequal the results were changed very noticeably. When the thrips were out on the bud in the lighted cage they were on the shaded side as far as possible, this being less marked early in the morning than at mid-day. Temperatures 60 and 70 F. showed the greatest difference in activities of thrips compared with any other equal difference of temperature. In these cages also thrips avoided intense light when possible. Mr. Davis concludes from the results of these tests that thrips activities are largely or almost entirely occasioned by the temperature and that light is only a secondary consideration.

It appears that thrips do not thrive where the night temperature is low with only a moderate rise in the day temperature but where this rise is great or when the lowest temperature is above 60 they find conditions suited to their welfare. In the first case thrips are less active feeding but they respond quickly to the rise in temperature in the morning due to the sun heat. In cucumber houses the thrips are not hindered by any unfavorable temperature.

To secure the greatest results from the use of an insecticide for the destruction of thrips we must know its habits for it is apparent to any one that they are difficult to kill when they have pushed their way down into a carnation bud. Since it has been shown by observation and experiment that thrips are more active in the morning and if they are outside the buds it is at this time a comparison of the results of using insecticides in the evening and in the morning is of interest. It was found that when fumigating was done at five o'clock in the morning during May the efficiency of Nicotine, Tobacco, and Nikoteen was respectively increased 18, 21 and 20 per cent. over those obtained from using the same insecticides in the evening. The same reasoning applies to spraying but as it is the general practice to spray in the morning no tests were made on this particular point.

Chompingu, Ill.

European Horticulture

NOVELTIES IN ORCHIDS IN 1908 IN ENGLAND.

As regards orchids of great splendor the hybridists appear to lead the way, for not many new species have been imported. It is gratifying to note the recognition enjoyed by the so-called botanical species, and which is their due. Sir Trevor Lawrence, President of the Royal Horticultural Society, gardener W. H. White, exhibited at the society's meetings and showed a good number of showy novelties. Among them *Cattleya Mossiæ* Goossensiana and *Odontoglossum Wiganianum* superbum obtained first-class certificates; and *Cattleya Maronii* aurea, *Catasetum Russellianum*, *Cirrhopetalum Wendlandianum*, *Angræcum angustum*, A. *Germinyanum*, *Dendrobium*, *Jerdonianum*, *Odontoglossum platycheilum* superbum, and *Epidendrum virens* obtained awards of merit.

Sir J. Colman of Gatton Park, gardener Mr. Collier, received awards for a number of hybrids raised at that place. Of these mention may be made; *Cymbidium Gattense* (C. *Tracyanum* x C. *Lowianum*), C. *Lady Colman* (C. *eburneo-Lowianum* x C. *Tracyanum*), both graceful hybrids; the white *Diacattleya Colmanæ*, *Dendrobium Cybele* Gatton Park variety, D. *Thwaitesiae* Bound's variety; the Gatton Park variety of D. *Chessingtonense*; the yellow D. *Brymerianum*, and the singular looking *Bulbophyllum mirum*. Mr. Collier succeeded in flowering for the first time the interesting B. *lemniscatoides*.

Lieut.-Col. G. L. Holford, of Westonbirt, Gloucestershire, gardener Mr. Alexander, had as in former years the larger number of hybrids, all of which were raised in his garden. The Royal Horticultural Society first class certificates were awarded to *Cypripedium Sultan*, C. *Helen II.* and C. *Actæus Bianca*, all of them fine flowers; to *Brasso-Cattleya Heatonensis*, *Laelio-Cattleya Elva*, L. C. *Clive magnifica* and the fine *Cattleya Schroderæ* "The Baron," a splendid variety of F. Sander & Son's importation. Lieut.-Col. Holford received awards of merit for numerous *Laelio-Cattleyas* and *Cattleyas*, C. *Enid magnifica* being an extremely fine variety; *Cypripedium Rossettii* a very beautiful yellow; *Sophro-Laelio-Cattleya Danæ* and S. L. C. *medea* vinicolor; *Cypripedium Antinons*, a handsome flower.

Mr. J. Gurney Fowler obtained a first class certificate for the scarlet colored *Sophro-Cattleya Doris* one of the brightest colored novelties of the year. Other fine novelties exhibited by him were *Odontoglossum perculum* J. R. Roberts, Od. *Ossulstonii* Glebeland's variety, *Cypripedium Ernest Read* and *Catasetum maculatum*.

The finest *Cattleya Mendelii*, His Majesty The King, shown by Mr. Francis Wellesley, of Westfield, Woking, received a first class certificate. The smaller exhibits of new orchids, and those of nurserymen will be given in a subsequent issue.

A NEW HYBRID NEPENTHES

Under the name of N. Dr. John MacFarlane, a hybrid *Nepenthes* was shown by Messrs. J. Veitch & Sons on September 29 last, which had been raised by them from a cross of N. *Curtisii* and N. *sanguinea*. The pitcher is 7-8 inches in depth, and is of a brownish-red tint splashed with a deeper tint, and in the upper part of the interior, just beneath the operculum or lid curious markings of dark purple color stand out strikingly from the bright green walls. The keel is furnished with two rows of stiff bristles. The operculum barely

suffices to cover the entrance to the pitcher. The leaves measure 5 to 6 inches in breadth. The plant when shown bore five large pitchers and several smaller ones. It was awarded a first-class certificate.

Frederick Moore

Sweet Pea Novelties in England

There is apparently no wane of the sweet pea "boom" which has now stood the test of several seasons. The supply of new varieties is well maintained; the difficulty is that nurserymen's catalogues are getting overcrowded with varieties, and this causes a good deal of perplexity to the amateur in making a selection. There is evidently a weeding out process needed, with the view of getting rid of some of the obsolete kinds which have been superseded by more attractive forms of a similar tint. The following are among the chief novelties now being offered: Mrs. Henry Bell, soft pink, on an apricot ground; St. George, fiery orange; Mid Blue, deep blue; Menie Christie, purple mauve standard, with wings of a lighter tint; Queen Victoria flushed with rose, on a background of deep primrose; Apple Blossom of a tint the name indicates; Mrs. Charles Masters, rosy salmon standard with pure cream wings; Dodwell F. Browne, bright crimson; Mrs. Wilcox, striped; Sunrise orange pink; Miss Frills, pale blush. The National Sweet Pea Society, which has done so much to further popularise the flower, will continue their trials this season at the University College, Reading, where the best conditions are obtainable for securing reliable results. In addition to the show and trials the society also are rendering a useful service in issuing a "Year Book," which gives the novice the fullest guide in selecting the best varieties, and in attaining the highest cultural efficiency.

W. H. Adsett.
London, Eng.

Phalaenopsis Aphrodite

Our cover page picture represents a good specimen of *Phalaenopsis Aphrodite* in the collection of Mrs. B. B. Tuttle of Naugatuck, Conn. It shows what the species is capable of under cultivation. This panicle produced forty-five flowers, five of them having dropped off when the picture was taken. However one does not get such grand spikes on all plants, from eighteen to twenty-five being considered a good crop. Some plants will invariably throw up branched panicles with many flowers, while others will produce less, but much better and larger flowers.

This plant, like many others in the collection has been growing in osmunda fibre for the past three years and they evidently seem to like to grow in this material. An occasional feeding with weak liquid manure helps to build up good strong leaves and flower spikes. The plants must be well ripened off in the fall by keeping the house a little cooler and dryer and by giving the plants plenty of fresh air and all the light available without scorching the leaves. Keep a sharp lookout for thrips and other insect pests.

We give space in our reading columns to the announcement and preliminary schedule of prizes for the notable orchid exhibition which is to be held in Boston in 1910

May, 1910. The prizes offered by the Massachusetts Horticultural Society are unprecedented in this country and, with the special premiums which may be added from other sources, will undoubtedly bring out an exhibition of great extent and rare beauty. It is expected that this exhibition will stir the blood of the expert plant growers and incite to old-time rivalry the giants of horticulture under glass. All the accomplishments and accessories will be of a character commensurate to the occasion.

As the time approaches for this important event it becomes more and more apparent that it is to

be a much more pretentious affair than any of its annual predecessors and the claim that it will take rank as the most notable exhibition of the year from the standpoint of direct benefit to the commercial florist would seem to be well founded. Naturally carnations will, as heretofore, hold the lead in quantity and interest and in this particular the enterprise will invite comparison with the recent effort of the American Carnation Society at Indianapolis, but other departments of commercial floriculture will also be strongly in evidence. This exhibition differs from all other prominent shows in this country because of its spontaneous origin and growth. On this account no one can say to what extent it may yet develop. Up to the present time it has made lusty progress without any of the expedients usually resorted to in such enterprises. In fact, like Topsy, it "just grewed," and it gives every promise of still greater expansion in the future.

We should be sorry to appear disposed to assume anything like a censorious attitude toward the worthy secretary of the S. A.

F., but we feel impelled to record our grave doubts of the wisdom of publishing unnamed, indefinite protests such as that which was given publicly last week over the signature of the Secretary in regard to the registration of a rose by a member of the Society. Anonymous criticisms when circulated are often prolific of mischief and have been responsible for many heart-burnings and shattered friendships among the fraternity in the past. We know nothing of the merits of the case nor even the identity of the protestants in this particular instance but if the name of the accused must be brought into the open then let the name of the accuser be coupled with it in the publicity given. Otherwise the publication of such a protest bears an aspect of unfairness, as a reflection not yet justified, which in the minds of some, at least, will have the effect of an aspersion. For these reasons the course seems a dangerous one for the S. A. F. to follow.

After Adjournment

It is fair to assume that the horticultural industry of tomorrow will excel that of today, as much as today's outstrip that of yesterday. The man who thinks the limit has been reached is booked for a surprise party before he is many years older.

We found among last week's issue a number of copies where the sheets had been misplaced in binding, thus bringing several pages in the wrong place. If any such have been received by subscribers we will thank them to notify us, when we shall be glad to replace them with perfect copies.

The newspapers have grabbed up another horticultural marvel—"the only rose absolutely without thorns and with flowers of unusual beauty," produced by a lady "now of Seattle" who was for several years "a neighbor of Luther Burbank in California, where she studied his methods." These rivals of Luther are cropping up here and there continually. Hope he'll not feel jealous.

How elated those New Yorkers are over that "Roman" banquet hall which is to be the scene of festivity on the night of February 27! From the "Cave" where the last symposium was held to Roman luxury, and from beef-steak aprons to togas is surely quite a jump. Hallock, "the noblest Roman of them all," will look quite fetchy in a toga.

"Nor rough, nor barren, are the winding ways
Of hour antiquity, but strewn with flowers."

By the way, we learn from the press reports that our friend Hallock in his speech at the N. Y. and N. J. Plant Growers' blow-out took his hearers "back to the time of the Roman Empire," and told them about Homer and Cicero. In another place, we read of an excursion into the dim past by Philadelphia's shining light, Lonsdale. He took his audience back to the time of Theophrastus and gave the history of the carnation from the time of William the Conqueror! What's up?

BEHAVIOR OF LAWSON CARNATION.

Some of the growers in and about Chicago are having their troubles with the Lawson carnation this year. Stems are weak, blooms off color and too often sleepy. These conditions are not usually all found in the same place. Some growers think this variety is running out. Others declare it was never better. The most likely solution of this problem seems to be found in the field conditions last summer. Where a grower had a low, moist piece of ground for his Lawsons he has now first-class blooms. When his field plants were obliged to suffer from the long drought they are unable now to produce strong perfect flowers.

CARNATION WM. TAFT.

To properly estimate the commercial value of the Wm Taft carnation, one of the new reds, one should visit the greenhouses of Scheiden & Schoos, Oakton and Asbury avenues, Chicago, and see it growing. The Taft is not a "show" flower and its owners will tell you that the stem is not as stiff as

they could wish, but they expect by proper feeding to improve this. They offer it as a commercial variety and back it up with a record for productiveness hard to beat. In color and shape it is all that can be desired, is easily propagated and a constant bloomer.

A PRESSING CALL.

The attendance at a club or society meeting depends, in no small degree, upon the way announcement is made by the secretary or other official in charge. We have seen many unique and ingenious announcements intended to make the recipient "sit up and take notice." For brevity, point and persuasiveness we think the following is one of the best we have seen. It was printed on an orange colored full-size letter sheet, in bold black type.

**Hang This on Your Business File of
Thursday, Feb. 11th.**

FIRST CALL

2 O'Clock.

The St. Louis Florist Club will on Thursday afternoon, February 11th, at 2 o'clock P. M., hold its regular monthly meeting on Third floor in the Bowman Building, 1023 Locust Street. All members are requested to attend this meeting without fail.

Respectfully,

W. C. YOUNG, President.
A. J. BENTZEN, Secretary.

SECOND CALL

3 O'clock.

At 3 o'clock the same date, the Club will hold its regular Yearly Carnation Show, to which all florists in the city are invited. It will be of advantage to Carnation growers to attend and see the new varieties on exhibition. This exhibition promises to be a large one.

Don't fail to invite non-members to come and view the exhibition.

LAST CALL.

5 O'Clock.

At 5 o'clock you will place yourself in the hands of the undersigned committee, who have arranged for an Entertainment and Smoker at a nearby cafe. You can also inform your folks that you will not be home for supper, as you will be the guest of the Club for the evening. If you fail to attend you will miss the time of your life.

Respectfully,

HENRY OSTERTAG,
CHAS. SCHOENLE,
W. C. SMITH,
GEORGE ANGERMULLER,
J. J. BENEKE,

Committee.

HAWAIIAN PINEAPPLES FOR SEATTLE.

The Hawaiian Pineapple Growers' Association will feature their products at the Alaska-Yukon-Pacific Exposition to be held in Seattle next summer, and the display to be made at the coming fair will be beyond question the most elaborate and complete that has yet been ever attempted.

At a meeting of the Association held last month in Honolulu, at which all pineapple growers and packers of the islands were represented, the sum of twenty thousand dollars was subscribed to be used in placing a magnificent display in the coming exposition. In addition to this sum, the individual planters will expend an amount considerably in excess in exhibiting and distributing their own products.

NEWS OF THE CLUBS AND SOCIETIES

PITTSBURG FLORISTS' AND GARDENERS' CLUB.

The meeting of the club on the 2nd inst. was well attended by members who were desirous of hearing the news from the Carnation Convention at Indianapolis, and of seeing our own display, as it was Carnation Night with us. After electing five new members and hearing the auditing committee report that the books of the club had been found correct, the election of officers for 1909 came in order, and the secretary was instructed to cast the unanimous ballot of the club for the following officers:

F. Burki, president; P. S. Randolph, vice-president; H. L. Blind, treasurer; H. P. Joslin, secretary; C. S. Crall, assistant secretary; E. C. Reineman, Jno. L. Wyland and Jno. Bader, executive committee.

As these officers serve until the next election in February, 1910, they will be the officers of the club not only prior to, but during, the time the Carnation Convention is held with us in January, 1910, and the election was therefore of unusual importance. There was discussion of a suitable place for holding the convention, and of the committees that should be appointed, but the President announced he would not appoint the heads of the committees before the March meeting.

Never have I known our delegates to any convention to be so unanimous in favorable comment as they were in regard to the carnation convention in Indianapolis last month. One delegate said that he had not a criticism to make on the arrangements, and the general opinion seemed to be that we would have to "go some" to equal, and that to excel would require careful thought and hard work.

There was much praise for the hall in which the blooms were shown at Indianapolis, very few blooms going to sleep during the continuance of the exhibition. As far as novelties were concerned, while the average was high, there were very few to attract attention by decided pre-eminence. The most striking were thought to be Bertermann Bros.' J. Whitcomb Riley, Baur & Smith's Shasta, Dornier's red seedling and A. C. Brown's Superba.

It was Carnation Night with us. The only entry from the private gardeners in their competition display was N. C. Madsen of Sewickley with a bunch of 25. He also displayed three rarely shown Primulas in pots, floribunda, verticillata and Kewensis. The Finleyville Floral Co. showed Afterglow, Lady Bountiful and Winona. S. J. Hatch of De Haven showed Winsor, Rose Pink Enchantress, Enchantress and White Perfection. Pittsburgh Rose and Carnation Co. showed Beacon, Pres. Seelye, Winona, White Perfection, Afterglow, White Lawson and others. Frank Crook, gardener for J. H. Park, Pittsburg, showed a number of pots of freesia.

The judges, P. S. Randolph, J. W. Jones and C. S. Crall, awarded cultural certificates to N. C. Madsen, Frank Crook, Pittsburgh Rose and Carnation Co., Finleyville Floral Co. and commendation to S. J. Hatch. Mr. Hatch spoke of the bad-keeping quali-

ties of Rose Pink Enchantress, and will not grow it another year on that account.

The club, on motion of Mr. Falconer, awarded a gratuity to N. C. Madsen of \$5.00 for his primulas, as showing much cultural skill, varieties seldom grown and of a high order of merit.

Subject for next meeting, "Bulbous Plants and Blooms."

H. P. JOSLIN, Secretary.

CHICAGO FLORISTS' CLUB.

At the regular meeting of the Chicago Florists' Club, Feb. 4, the newly-elected officers were installed. The following committees were appointed: For revising by-laws, Albert T. Hay, chairman, L. Coatsworth, H. B. Howard; transportation, P. J. Foley, chairman, August Pochmann, A. T. Pyfer; finance, H. N. Bruns, Jos. Kilmier, Walter Scott; sports and pastimes, David Erickson; good of the club, Edward Enders, Frank Pasternick, A. Longren. Thirteen new names were proposed for membership.

An important feature of the evening was the discussion of the bill appropriating \$3500 for the Experiment Station at Urbana, Ill. This was regarded as a most worthy object and methods for fostering it were discussed. Among other things it was decided to place a bouquet of carnations on the desks of the speakers at the meeting of the Legislature, which happens to be at the same time that the Illinois State Florists' Association meets at Springfield. It is expected that quite a number of Chicago florists will attend, among them Geo. Asmus, the new Club President.

To show their appreciation of his faithful work the Club presented Retiring President Leonard Kill with a handsome watch charm in the form of a Maltese cross set with a diamond.

The important topic for discussion at the next regular meeting will be the advisability of holding a flower show next fall.

ALBANY FLORISTS' CLUB.

At the meeting on Thursday evening, Feb. 4, Charles Sanders, gardener for H. G. Eyres, had on exhibition a sample bloom of a new seedling geranium. The flower is a handsome red, and the members agreed that it was the largest geranium they had ever seen and some were so enthusiastic as to declare that there is none like it known. The flower had been on the plant for six weeks when it was cut yesterday to be shown before the club. Mr. Sanders has selected the name "Goliath" tentatively for the new variety.

The members discussed the subject of best methods of fumigating greenhouses. James H. Snyder of Rhinebeck gave the experience of the violet growers in that section of the state with potassium cyanide gas. The growers of Rhinebeck have used the gas for some time and have become experts in its use.

The entertainment committee reported that arrangements are under way for a banquet which will be held within the next two or three weeks.

MASSACHUSETTS HORTICULTURAL SOCIETY.

Professor E. M. Duggar of Ithaca, N. Y., gave the John Lewis Russell lecture before this society on Saturday morning, Jan. 30, 1909, his topic being "The Effects of Conditions of Growth in Certain Horticultural Plants upon Susceptibility to Fungous Diseases." There was a large attendance of members. Professor Duggar said that great advances have been made in our knowledge of fungi. He outlined the relation between the weather and parasitic diseases of plants, and said that ten days of continued damp and rainy weather has often destroyed crops of fruit and vegetables, although some other crops thrive on such weather. Fungous diseases in many cases depend on the wounds caused by previous fungous attacks. In studying the action of fungi upon growing plants we are met with a remarkable diversity. Certain fungi appear to be able to attack the healthiest parts of growing plants, such as rusts, white mildew, etc. These, however, do not kill the tissues of the growing plant, but themselves die as the tissues of the plant die. Contrasted with these are such fungi as leaf spots, fruit decay, etc., which do kill the tissues. It has been asserted by many that the vigor of the plant is a protection against infection from plant disease. Yet in some cases it is found that the vigorous plant is particularly susceptible to forms of parasitic fungi.

The black rot of cabbage is a parasitic fungus, but in order to spread there must be water connection between the outside and inside of the plant. This is established by the drops often seen on the edges of the leaf. Water is most important in its relation to the growth of parasitic fungi. To combat fungal care must be exercised in watering plants. The factor of light is also most important. Experience has shown that plants subject to powdery mildew are benefited by giving half shade. Alkali or acid in the soil also are conditions affecting fungi, as well as the growth of plants. The cabbage, for instance, thrives best in an alkaline soil. It is not easy to correct these conditions, but they must be considered. Where plants are living on one another there is parasitism, but any treatment of parasitism must take into account conditions of soil, water, temperature and light.

On Saturday, February 6, Prof. Wm. Stuart of the Vermont Agricultural Experiment Station read a paper on the etherization of plants for forcing purposes. The lecturer gave in detail the results of many interesting experiments with lilacs, peonies, astilbes, bulbs, rhubarb and other plants. He concluded as follows:

Briefly summed up, the facts presented in this paper may be stated as follows: Anaesthetics when properly used impart a decided growth impulse to plants. Their effect upon the plant is to arrest growth, extract moisture from the cell protoplasm, and through these physiological derangements imparting a severe shock to the whole

plant which when removed causes a decided growth reaction. Toxic substances, such as alcohol, acetone and other similar agents, while not causing insensibility, unless employed in large amounts, act in a very similar manner to that of anaesthetics and result in a more or less decided growth acceleration.

Non-anaesthetic or toxic agents such as freezing, vacuum, and desiccation all arrest growth and remove moisture from the plant tissues much in the same manner as anaesthetics and toxics. They all seem to possess the power to hasten plant growth during the dormant season. Hot water imparts a distinct shock to the cell protoplasm and tissues and acts as a solvent in softening up the winter protecting scales inclosing the leaf and flowering buds, thereby hastening the winter forcing of shrubs.

A careful consideration of all the factors influencing the growth of plants during their resting period would seem to indicate that there is no one substance which may be said to be superior to all others. Either because of its more general use has come to be regarded as the anaesthetic to use in plant forcing. There are indications, however, that other substances may serve equally as well and in some instances may give better results than ether. More information is needed along these lines, particularly with respect to the hot water treatment.

W. C. Rust exhibited an extraordinarily fine plant of *Amaryllis* from seed, one spike bearing six magnificent dark red flowers and a second spike coming. The seed from which it was grown was saved from crosses of a California variety on the ordinary type of *amaryllis*. Mr. Rust also showed a handsome flower, semi-double, with ten segments, from same source.

GARDENERS' AND FLORISTS' CLUB OF BALTIMORE.

The Gardeners' and Florists' Club of Baltimore had "Carnation Night" on the date of the regular semi-monthly meeting. The attendance was large, even for an extra night, and the exhibits were of superior quality, and sufficiently abundant in quantity. Toreador from Webber's is a striking variety, reminding one of our old Picotees. Mr. Rider had vases of *Enchantress*, both pink and white, and also *Lady Bountiful*, all of the very first class as to condition and quality. L. H. Moss had in addition to *Enchantress*, *Winsor* and *Beacon*. B. G. Merritt had several varieties, as also had Lehr Bros. C. E. Akehurst exhibited a number of un-named seedlings.

Carnation growers for this market adhere pretty closely to *Enchantress* for both white and pink, and *Beacon* for red, other varieties scattering, quite a good number of carnations are shipped on standing orders, keeping our home supply down on sufficiently close lines for both the grower and the retailer.

Mr. John Cook, raiser of the rose *My Maryland*, is suffering from rheumatism and was unable to attend the meeting. The growers who had visited Mr. Cook's establishment reported the rose as doing splendidly.

NEW YORK FLORISTS' CLUB.

A very large attendance—approximately one hundred—was present at the meeting of the New York Florists' Club on Monday evening, Feb. 8th. It was carnation night and the carnation talent was out in full force.

Among the routine proceedings were reports from the bowling committee by C. W. Scott, urging the organization of a team under the club's auspices, to be known as the N. Y. Florists' Club Bowling Club; W. J. Elliott for the dinner committee; a proposal for membership and a resignation; the announcement of the death of W. C. Krick and appointment of Leonard Barron, C. B. Weathered and Chas. Schenck as a committee on resolutions of condolence; report of progress by the outing committee; and the report of the committee on awards for the evening.

Interesting talks on the Indianapolis trip were made by S. S. Butterfield, Frank R. Pierson, Joseph Heacock, Wyncote, Pa., Albert Roper, Tewksbury, Mass., and others, all expressing appreciation of the excellence of the exhibition and the hospitality they had enjoyed. Other speakers of the evening were H. L. Jones of the advertising department of Country Life in America; E. A. Stroud of Stafford, Pa.; John Burnie, who was disposed to take issue with Mr. Rudd's views on the color of *Enchantress* carnation, and A. Farenwald, Roslyn, Pa., who called attention to the meeting and exhibition of the American Rose Society to be held in Buffalo, March 17.

The Langjahr prizes for the evening were awarded as follows: Best 25 blooms of carnation not yet disseminated, C. W. Ward for *Alma Ward*. Best 100 *Enchantress*, Harry Turner. Best 100 *Lawson*, V. Hammon. Other exhibits and awards were as follows: Carnation Dorothy Gordon from Jos. Heacock, 90 points and preliminary certificate. Juanita, from Pillow Flower Co., Westport, Conn., 85 points and preliminary certificate. Bay State, A. Roper, Tewksbury, Mass., 90 points and preliminary certificate. Pink seedling No. 30, R. P. Jeffrey & Son, Baltimore, N. Y. Mrs. Pfeuffer, O. V. Zangen, Hoboken. Ruby, S. J. Reuter & Son, Westerly, R. I. Neptune, Paul Thomson, West Hartford, Conn. White Seedling, A. Wynne, Stamford, Conn. Lucille, A. F. Longren, Des Plaines, Ill. Bracon and Afterglow, Pittsburg Rose and Carnation Co., cultural certificate. Pink Pearl, W. A. Manda, cultural certificate. Lady Bountiful and Winsor, E. A. Stroud, Stafford, Pa., cultural certificate. Red Seedling, C. T. Guenther, Hamburg, N. Y. Seedlings of 1906, S. J. Treppes, Glen Cove, N. Y. Gov. Dineen, *Superba* and *Sangamo* from A. C. Brown, Springfield, Ill., arrived in bad condition. In miscellaneous exhibits there were the following: *Rose My Maryland*, from S. J. Reuter & Son, cultural certificate. *Asparagus elongatus*, W. A. Manda, South Orange, N. J. *Cybotium*, Percy E. Hicks, Oceanic, N. J. *Nephrolepis cordifolia Bressi*, George Glatras, New York. *Begonia East Indian*, W. A. Manda, honorable mention. All the exhibits not otherwise honored, received a vote of thanks.

The bowling committee met and elected John Donaldson president; C.

W. Scott, secretary; and Jos. A. Manda, treasurer. The March meeting of the club will be Rose Meeting.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Registration of Hybrids.

Public notice is hereby given that Mr. Charles G. Roebeling, of Trenton, New Jersey, offers for registration the plants described below. Any person objecting to the registration of these plants or to the use of the proposed names is requested to communicate with the undersigned at once. Failing to receive objection to the registrations the same will be made three weeks from this date.

Hybrid "Cattleya Oakland."—*Cattleya* Hybrid raised from *Cattleya Crispa* X *Cattleya Hardyana* (Young's var.). Habit of growth, intermediate between the two parents and very strong growing. Flowers of good size and substance. Lip 2 inches broad and well rounded; color deep purple. Throat bright yellow with deep bronze veins. Petals 2 1-4 inches wide, color light pink, veined and mottled like *Cattleya Hardyana*. Sepals 1 inch broad, also light pink in color.

Hybrid "Cattleya Eureka."—*Cattleya* Hybrid raised from *Cattleya crispa* X *Cattleya Hardyana alba*. Habit of growth is much after the style of *Cattleya crispa*. Flowers of good size and fine substance. Petals and sepals are broad and pure white with quite a little of the *Cattleya crispa* curl to them. Lip broad and of a very bright deep color with yellow in throat.

Hybrid "Laelio Cattleya Magenta."—*Laelio Cattleya* Hybrid raised from *Laelio tenebrosa* X *Cattleya maxima*. Habit smooth, bulb 15 inches long, single leaved; very like *Cattleya maxima* but much stronger. Flowers large, the same shape as *Laelio tenebrosa* flowers but having a rich magenta color throughout.

W. N. RUDD, Secy.

February 5, 1909.

AMERICAN ROSE SOCIETY.

Exhibition at Buffalo, March 17, 18, 19 Inclusive.

The spring exhibition of roses is to be held in the Iroquois Hotel, and here will be headquarters. The proposition is advanced to make it a free exhibit, in other words, to popularize it to the fullest extent.

Buffalo has a large population and Vice-President Hasting is active; his firm will receive any exhibits sent to them.

Mr. J. Howland Cloudsley, Secretary of the Buffalo Florists' Club, 534 Main street, is appointed manager of exhibits.

Special prizes have come from various parties not mentioned in the preliminary schedule which has been distributed. Various inquiries are coming concerning exhibits. The pot rose class seems to be awake. The rose is the state flower of New York, and all amateur growers are invited to take a lively interest, for it's "A rose for every home, a bush for every garden."

BENJAMIN HAMMOND,
Secretary.

GREAT ORCHID EXHIBITION.

To Be Held at Boston May 26, 27, 28, 29 and 30, 1910, by the Massachusetts Horticultural Society.

For the best display of orchid plants in bloom, arranged for effect, embracing at least 20 orchid genera and bi-generic hybrids, and unlimited as to number of species, varieties and hybrids, to fill 400 square feet of space.

In the arrangement, stove and greenhouse foliage plants may be used, and the general effect produced with or without such plants will be considered by the judges in making awards as per the following scale of points:

Variety of Orchids.....	20 points
Quality.....	25 "
Arrangement and decorative effect.....	25 "
Novelty of Orchids.....	10 "

Cut blooms of rare sorts not exceeding in number five per centum of the total number of varieties of orchid plants in the exhibit will be admissible.

First prize....gold medal and \$1000.00
Second prize....silver medal and \$500.00
Third prize....bronze medal and \$250.00

For the best display of orchid plants in bloom arranged for effect, embracing at least 10 orchid genera and bi-generic hybrids, and unlimited as to number of species, varieties and hybrids, to fill 150 square feet of space.

In the arrangement, stove and greenhouse foliage plants may be used, and the general effect produced with or without such plants will be considered by the judges in making awards as per following scale of points:

Variety of Orchids.....	20 points
Quality.....	25 "
Arrangement and decorative effect.....	25 "
Novelty of Orchids.....	10 "

Cut blooms of rare sorts not exceeding in number five per centum of the total number of varieties of orchid plants in the exhibit will be admissible.

Commercial growers excluded from competition.

First prize....gold medal and \$200.00
Second prize....silver medal and 100.00
Third prize....bronze medal and \$50.00

For the best recently introduced orchid plant not previously exhibited in the United States.....gold medal

For the best new seedling orchid plant not previously exhibited in the United States.....gold medal

For the largest and best display of cut orchid blooms arranged with ferns or other foliage. Variety and decorative effect will be considered.

First prize....gold medal and \$100.00
Second prize....silver medal and \$50.00
Third prize....bronze medal and \$25.00

For the best collection of cut orchids of new varieties not before exhibited in the United States.

Ferns or other foliage may be used in the arrangement.

First prize.....gold medal

For the best group of flowering and foliage stove or greenhouse plants arranged for effect:

First prize....Gold medal and \$100.00
Second prize....silver medal and \$50.00

For the best new stove or greenhouse plant in bloom not previously exhibited in the United States.....gold medal

For the best new stove or greenhouse foliage plant exclusive of ferns not previously exhibited in the United States.....gold medal

For the best coniferous plant, not yet disseminated, likely to be hardy in Massachusetts.....gold medal

For the best new shrub or climber in bloom likely to be hardy in Massa-

chusetts, not previously exhibited in the United States.....gold medal

For the best new hardy herbaceous plant in bloom likely to be hardy in Massachusetts, not previously exhibited in the United States.....gold medal

TENNESSEE STATE NURSERYMEN'S ASSOCIATION.

At the annual meeting in Nashville, Jan. 27th, officers were elected as follows: J. C. Hale, of Winchester, president; A. J. Smith, of Knoxville, W. Y. C. Grant, of Columbia, and Willis Hastings, of Mansfield, vice-presidents; S. M. Bentley, secretary and treasurer.

The legislature was asked to appropriate \$5000 to aid the board of entomology in its fight against insects and fungi that prey on fruit.

CARNATION SHOW AT DETROIT.

The Detroit Florist Club will make a Trade Exhibition of carnations Monday evening, Feb. 15th, and all disseminators of novelties in carnations, roses or other stock are invited to send samples of the same for exhibition. The local trade will be well represented and many visitors expected from adjacent districts. All shipments should be made in time to reach here some time Monday, the 15th, and should be addressed to the Michigan Cut Flower Exchange, 38 Broadway.

J. F. SULLIVAN, Secy.

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

At the next meeting of this club, Tuesday evening, February 16th, M. A. Patten, president of the American Carnation Society, has promised to give a talk. Provision will be made for a large display of carnations on that evening, including novelties and standard varieties.

CLUB AND SOCIETY NOTES.

A meeting was held at the Court House, Norristown, Pa., on Feb. 6, for the purpose of organizing a county horticultural society.

The S. A. F. & O. H. medals and certificates awarded at the National Flower Show have all been delivered. The silver gilt medal is especially handsome.

The School of Commerce and Finance of the Boston Young Men's Christian Association announces a free illustrated lecture by H. B. Fullerton, special agent of the Long Island R. R. Co., Long Island, N. Y., entitled "The Lure of the Land." The lecture will be held in Association Hall, on February 16 at eight o'clock.

The Bulletin of the American Association of Park Superintendents for January, 1909, has just been issued. Park and Boulevard Lighting, Danger from Leaking Gas, Trees and Shrubs for Seaside Planting, Elm Leaf Beetles, Plantations, Weed Killing on Roads and Walks, Surfacing Playgrounds, Park Signs, About Gardeners, Cinder Walks, are some of the subjects ably treated by the representative park superintendents and landscape gardeners of America. This publication alone is well worth the cost of annual membership in the Association.

During Recess

FRENCH GARDENERS IN LONDON.

The French gardeners in London assembled on Saturday, January 23, to celebrate the 20th anniversary of the founding of the Societe Francaise d'Horticulture de Londres, and a very enjoyable international gathering was the result. The meeting was held at the Cafe Royal, Regent street, Sir Albert K. Rollet being in the chair. The chairman, who is President of the National Chrysanthemum Society, was surrounded and supported by a large number of his brother officers who have always regarded this French institution as a sister society and have largely helped it, especially in its early days.

The toasts of the President of the French Republic and King Edward VII were duly honored, the company rising to sing the Marseillaise and God Save the King on each occasion. Sir Albert Rollet then proposed amid much applause the toast of the evening, "Success to the Societe Francaise d'Horticulture de Londres," which he did with great ability and no little humor, much appreciated by the French and English visitors alike. Sir Albert is one of the most accomplished after-dinner speakers in England, and is always at home at a horticultural dinner. On this occasion he was fully up to concert pitch, and we regret that the space at our command will not allow us to do him justice. It must suffice to say that the work of the society was most warmly approved by him and he expressed great satisfaction at the excellent relations existing between the French and English horticulturists. He extolled its educational advantages and spoke in the warmest terms of the zeal and ability with which the society had been conducted by its worthy President, Mr. George Schneider.

In response Mr. Schneider thanked the chairman for his kind words, and although he regretted death had thinned their ranks, yet the numbers had increased. M. de Vilmorin had kindly accepted the post of Honorary President made vacant by the death of their old friend, Monsieur Ouveard. Other speeches were made by Mr. Harman Payne, M. Ingamells, M. Thos. Bevan, Mr. Ingram and Monsieur Ripard.

NEWPORT HORTICULTURAL SOCIETY.

The eleventh annual ball of the Newport Horticultural Society was held in Masonic Hall on the evening of Feb. 3 and, as usual, was well attended. This society has always made the hall decorations a prominent feature in these events, so the old masters of the art were chosen to carry out this work and were ably assisted by many of the lesser lights, with the result that all previous decorations were fairly eclipsed. The walls and platform arches were artistically draped with Southern smilax, which was of an unusually good quality; then hanging from the arches and main ceiling were numerous large baskets of vines, which had been brought into flower by a one-hour forcing process, making a charming effect. Many choice decorations and flowering

plants were used about the stage in forming a very pretty arrangement there. One of the new features which was much admired was the use of rich-looking lace curtains on all the windows, and everything seemed to mingle harmoniously with the sweet strains of the music and the graceful movements of the many merry dancers.

The duties of floor manager were ably performed by John T. Allan, who led the grand march with Miss Mary A. Reynolds, sister of the secretary. Among the strangers present who entered heartily into the spirit of the occasion were Messrs. Thomas J. Grey, P. M. Miller, Wm. A. Riggs and John P. A. Guerinneau, all of Boston, Mrs. David McIntosh and Miss Annie McIntosh, of Tuxedo Park, formerly of Newport.

NORTH SHORE HORTICULTURAL SOCIETY.

The annual banquet of this popular organization was held on Wednesday evening, February 10, at the Town Hall, Manchester-by-the-Sea, Mass. Despite the downpour of rain, the attendance was up to the limit of the hall's capacity, all the tickets having been exhausted several days previous. From the time that President Salter took his chair until the closing chorus of Auld Lang Syne the evening was one of unalloyed pleasure for all. D. L. Bingham, the grand old man of Manchester, 95 years of age and still librarian of the town, was the first speaker and gave an interesting account of the early days of market gardening three-quarters of a century ago. No speaker gave greater pleasure than Rev. Wm. F. Powers, who said he had studied botany and could analyze an apple blossom, but had become more expert in synthesis than in botany and was prepared at any moment to give a demonstration thereof by putting together any suitable couples who might present themselves. Among the other speakers were Rev. T. L. Frost, E. O. Orpet and W. N. Craig. After all this the balance of the evening was spent by the young people in dancing.

ST. PAUL vs. MINNEAPOLIS.

On Thursday, February 4, the St. Paul florists bowled against the Minneapolis florists at Deschler's alleys, and although poor scores were made on both sides, they carried off two games against one won by Minneapolis. O. J. Olson of St. Paul made the highest score, 200.

The scores:

ST. PAUL.				
	1	2	3	Total
N. C. Hansen.....	101	138	112	351
Carl Heugan.....	111	100	124	335

C. N. RUEDLINGER.

A LINCOLN WINDOW.

We have had occasion heretofore to call attention to the many clever advertising schemes evolved by Mr. Hughes the enterprising Chicago florist. Store florists have not yet as a class fully comprehended the value of advertising, and especially by original window displays. Mr. Hughes always

selects a subject of direct public interest. Anything this week which relates to Lincoln is sure of attracting notice and the scene portraying his early home surroundings will no doubt draw a crowd. As a conception we think the picture would be improved had the best been omitted or differently placed.

RHODE ISLAND STATE BOARD OF AGRICULTURE.

The State Board of Agriculture will hold a number of demonstrations in methods of treating the San Jose scale in orchards in different parts of the State during the spring months.

It is now a reasonably well-established fact that the scale can be controlled if the right methods are pursued, and the primary purpose of the demonstration is to instruct fruit growers in the best methods of combating the scale and the solutions and apparatus to be used.

In order that as many sections of the State as possible may be reached, a few spray outfits will be secured and each one will be placed in the hands of some competent man who will go with the machine and have charge of it and direct the spraying work. Whenever an opportunity for a demonstration is given by the owner of an orchard, the spraying outfit can be kept by the owner of the place long enough to spray all his infested fruit trees and shrubbery. After that the rig and man in charge will be available during a short period for the use of fruit growers in the vicinity in the order in which their applications are sent in to the State Board of Agriculture. Only a few can be accommodated in each neighborhood and "first come first served."

The man in charge of the pump will be paid by the Board of Agriculture. Transportation for the man in charge and the spray rig from and, if neces-

sary, to the nearest electric or railway station must be furnished by the one using the outfit. It is also hoped that those employing the spray outfit will furnish board and lodging for the man in charge during the time he is employed in their orchards. Spray material will be furnished for the demonstrations by the State Board of Agriculture. Material for additional spraying, however, must be furnished by the owner of the orchard.

Suggestions for making this work of greatest value to the fruit growers of the State will be gladly received, and any complaints regarding the work of men in charge will be promptly looked into.

For further information write to A. E. Stene, State Board of Agriculture, State House, Providence, Rhode Island.

Kearney, Neb. Fire originating in the heating plant of Green & Wiley's greenhouse on the night of January 29 partially destroyed three large hot-houses. Cold and broken glass wrought further damage. The insurance expired only a few days previous. The loss is large and quite severe, as Mr. Green is well along in years and has been unfortunate, his greenhouse being almost totally destroyed by hail at one time and at another time it was damaged considerably by flood. Many believe this fire to have been the work of an incendiary.

Oil City, Pa. The greenhouses of R. Reynrds were totally destroyed by fire on January 29.

ROYAL HORTICULTURAL SOCIETY OF LONDON.

Considering the severe frosts, thick fogs and generally mild and weather at this part of the winter season, at the meeting held by the R. H. S. on Tuesday, January 26, the show of plants and flowers, although meagre as compared with other ones, was rather noticeable in our eyes, and some fine new varieties were shown. Messrs. Low & Co. showed numerous cypripediums, the finer being *C. aureum* Hyeanum, *C. a. Ville de Paris*, *C. a. Virginialis*, *C. Prewittii*, *C. Fascinator*, of an olive green tint suffused with rose and dorsal sepal of white, with a deep purple colored median streak, and on either side a faint suffusion of the same tint; *C. Euryades*, with spotting of a striking kind; *C. Dowlincianum* having distinct purple spotting on the dorsal sepal, and less distinct ones on the lateral petals, pouch cream colored slightly marked with pink. Other striking varieties were observed, as *C. villo-druryi*, *C. G. F. Moore* and *C. Leeanum aureum*, etc. Lieut.-Colonel G. C. Halford, of Westonbirt, Gloucestershire, received an award of merit for *Cypripedium Earl of Tankerville*, a cross between *C. exul* and Santer's variety of *C. nitens*. The dorsal sepal is circular, white, 2 1-2 inches in diameter, and furnished with brown spots, and of a green color at the base. The rest of the flower has a general likeness to *C. insigne*.

Messrs. Charlesworth, formerly of Bradford, Yorkshire, and now of Haywards Heath, Sussex, obtained a first-class certificate for a plant of *Sophro-Laelio-Cattleya*, the petals and sepals of which are of a rosy crimson color; in regard to the tube, the tint is brighter, and the front of the labellum is of a rich tint of crimson, making a gorgeous bloom. The same firm obtained a first-class certificate for *Laelio-Cattleya Felicia*, a cross of *L.-Cattleya Hardyana* and *C. Trianae*, the lip is of a rich velvety crimson, throat of a pale yellow tint, and sepals and petals the tint of an ordinary *C. Trianae*. A pretty *Cypripedium*, named *Heta*, came from Mr. J. Foster Alcock. Messrs. J. Veitch & Sons made a good show with winter flowering plants, including *Eschonia Azetha*, a most useful variety, and of long duration of flowering, the second flowering season immediately following the first without the plant needing a resting period. The firm showed the yellow-flowered *Gomphia olivaceaformis*, an old garden plant rarely seen now. *Crowea latifolia* was well flowered. Sir Trevor Lawrence showed a quantity of spathes of *Anthurium* in great variety and in most instances of abnormally large size.

Mr. W. H. Page of Tangley Nursery, showed *Dafodil Golden Spur*, which has the peculiarity of flowering earlier when grown on his soil than any obtained from the Channel Islands or elsewhere. He made a striking exhibit of retarded lilies, such as *L. speciosum rubrum* and *L. s. album*; also a new apple *Encore*, a large, handsome fruit,

even in outline, with skin, when ripe, of a greenish yellow, slightly flushed, one of the latest keepers, remaining good till June. It is a seedling from Warner's King and Northern Greening.

A pretty looking Sea Kale with pink tips to the shoots, and of stout growth, came from Mrs. Trotter, of Dyrham Park, Barnet. Enormous carrots, called Red Elephant, were shown by Messrs. Carter & Co., also a beautiful golden yellow incurved chrysanthemum named Golden Sunset.

Messrs. Cutbush & Sons showed a carnation, a cross between a variety of *Souvenir de la Malmaison* and *Enchantress*, of some promise. It partakes more of the features of the former, but in tint it is brighter.

FREDERICK MOORE.

OBITUARY.

W. C. Krick.

It is our sad duty to record the death on Feb. 7 of W. C. Krick, of Brooklyn, N. Y., well known to the trade for many years as manufacturer of florists' wire designs and the "Krick Letter" for inscriptions. Mr. Krick was for many years a member of the Society of American Florists, and was one of the earliest members of the New York Florists' Club. The funeral on Wednesday was attended by many sorrowing friends in all departments of the trade.

Fred Ashley.

Alfred Ashley, who has been associated with his brother Ernest in the florist business at Allentown, Pa., was thrown from a wagon recently and died on January 28 at the Allentown hospital. He was about 29 years of age.

John Griffith.

John Griffith, who had been engaged in the nursery business for many years, died suddenly at his home in Attica, N. Y., on January 29, in his sixty-ninth year. A daughter, four sisters and a brother survive him.

Mrs. T. C. Mellen.

Mary J. Mellen, aged 79 years, widow of Thomas C. Mellen, died at her home in Weymouth Landing, Mass., on February 4. She leaves a daughter.

Hiram Myers.

Hiram Myers, one of the pioneer florists of Kansas, died at his home in Wellington on January 26, aged 70 years.

Edward T. Elton, Jr.

Edward T. Elton, Jr., an employee of A. A. Weldon at New Britain, Conn., died on January 28, aged 42 years.

John H. Righter.

John H. Righter of Righter & Barton, rose growers, Madison, N. Y., died on Feb. 2, aged 61 years.

William A. Munroe.

Wm. A. Munroe, seedsman, Providence, R. I., died suddenly on the morning of January 29.

A METHOD OF CULTIVATING PRIMULA OBCONICA WHICH PAYS.

I give these experiences of a German cultivator which appear in Moller's *Deutsche Gartner-Zeitung*, No. 4, 1909, for the reason that they differ considerably from the general practice. The seeds sown were those of famous Ronsdorf Hybrids. The seed pans are filled with a mixture of dung bed soil that has laid in a heap for some length of time, to which sand and turfy soil in equal quantities are added. In order to retain moisture the pans are covered with tissue paper. When seed is sown in January, the plantlets should be pricked off in the following month, and in March or April they should be again pricked off, the extreme points of the roots being removed with a knife. In the hurry-scurry of today many of the things done by the old gardener are gone into disuse, and this shortening of the roots is one of them. When the plants have grown in size they are placed in houses having means of good ventilation. In sunny weather the plants must be shaded, as *Primula obconica* cannot bear a hot sun. In May the plants are placed in frames which are kept closed, and they are often syringed by day, but only slightly, for to keep them very wet would work great harm. As will be well understood the plants must be abundantly shaded. After a time the plants must be accustomed to the air, and ventilation gradually increased and be well syringed. In the course of the summer the plants are twice replanted, and kept close after each replanting, gradually inuring them to the air after a brief interval. Finally the lights are taken off the frames and shading materials employed in their stead and the frames often syringed by day.

After or during rainfall manure water is plentifully applied, but not to newly planted ones. All flower buds appearing in the course of the summer are nipped off as soon as observed. In September the plants are potted up, by which operation the larger root masses are not treated too tenderly, but the roots are shortened as much as may be needed. The plants are then placed in frames where the losses and disturbances and formation of new roots is very soon made good. The plants must be well rooted before the commencement of bad weather or all the labor and trouble will go for nothing.

When quite established, the plants should be afforded plenty of air. If flowers are not wanted, remove every bud and they will produce abundantly at a later date. There are several other matters which could be named, but these are not necessary for the professional gardener who pays careful attention to his plants.

FREDERICK MOORE.

SPRING PLANT TRADE.

Preparations for spring plant trade should now be well under way. Lack of careful attention now means a shortage or inferiority of stock for the time when the good grower will reap his next harvest. Easter lilies should be well rooted and started into growth by this time, in order to get them into the market for Easter, April 11. Any neglect now will lead to disappointment and it is better to get plants along far enough so they may be kept cool and hardened off before wanted, rather than to resort to extreme heat to hurry them up at the last minute.

Azaleas for Easter need good light now but should be kept cool for some time yet.

Geraniums which were started last fall should now be potted up and if you are short of any varieties or colors this is the time to supply the deficiency. See Vincent's advertisement and catalogue on this specialty. Cuttings for early fuchsias, salvias and petunias should now be propagated.

If sufficient pansies were not started in cold frames last fall, seed may be sown now, and if carefully tended, will give good plants for spring. To make good stock for bedding-out time sow seed now of verbenas, salvia, lobelia, cobaea cineraria, ageratum and annual hollyhocks, also Begonias Vernon and Erfordii. These should be sown in flats or pans.

Bulbous stock in pans may be brought in in small lots in succession for spring trade.

PUBLICATIONS RECEIVED.

Beets versus Other Crops; Sugar Beets in Orchards; Money in Beets.—Three little folders by R. L. Adams, director Spreckles Sugar Company Experimental Station. Interesting and convincing.

We have received from H. F. Michell Co., Philadelphia, a copy of the souvenir booklet containing a series of illustrations of the finest features of the great industrial parade of "Founders' Week," last October. Among the interesting float pictures is that by the Michell Company which, by the way, was the only seed and bulb establishment represented in the parade.

Bulletin 216, New Jersey Experiment Station, treats on "The House Mosquito, a City, Town and Village Problem." From this interesting pamphlet it is learned that while this mosquito is not the variety that gave to New Jersey its world-wide reputation, yet it is just as active in its way, and New Jersey has no monopoly of it. Everybody should have a copy of this bulletin and help in the warfare on the pest.

The Annual Proceedings and Bulletin of the American Rose Society for 1908 has come to hand. The cover is dainty and the tasty appearance of the volume invites a perusal—just what Secretary Hammond aims at, we are sure. The report tells everything one can desire to know concerning the Rose Society and a very full account of the proceedings, papers, etc., at the Chicago meeting in March, 1908. A schedule for the exhibition to take place at Buffalo, March 17, 18, 1909, is included.

GERANIUMS

Our Geranium Catalogue describes one of the largest and best collections in this country, including the best standard and new lilies, 2 in. pot plants, \$2.00 per 100 and up.

HARDY POMPON CHRYSANTHEMUMS

Every grower of Chrysanthemum will want to grow the Pompons next fall. We have the best collection to select from, and are acknowledged to be head quarters, \$2.00 per 100. Special prices on large lots.

LOBELIA

KATHLEEN MALLARD. The new double Blue Lobelia. We shall continue this week to offer this Novelty of exceptional Merit at the Special Price of \$2.00 per 100.

DAHLIAS

We have a splendid collection in plants for next spring or roots next fall. Ask for list and prices.

SALVIA

BONFIRE \$2.00 per 100. ZURICH \$3.00 per 100.

We also offer a general Collection of Bedding Stock.

Specimen plants; ft. high, very fine, \$3 each.

Boxwood A splendid lot of globe-shaped specimens about 15 inches high and of same diameter in 11 inch pots, \$1.50 each.

BUSH SHAPED PLANTS for window boxes etc., 10 to 12 inches high, \$2 per doz., \$15 per 100. Larger, heavier plants 12 to 15 inches high, \$3.50 per doz., \$25 per 100.

HENRY A. DREER, 714 Chestnut St. PHILADELPHIA

PHILADELPHIA NOTES.

Visitor this week: Ed Roehrs, Rutherford, N. J.

Mr. and Mrs. Charles Sim of Rossmont, left last week via New Orleans, on a pleasure trip to California and the Golden West.

C. H. Breckbill, Lampeter, Pa., is a new grower who has been making some stir in the local carnation world during the past few years. His plant is of the latest Lord & Burnham construction.

William Kleinheinz of the Widener Conservatories, claims to have the largest and best specimen of Phoenix Roebellini in the country. It stands about five feet above the pot and nearly the same diameter.

Alfred Burton is the American Beauty king this week. He is about the only one worth mentioning as a factor in the A. B. market. Two new Hitchings houses, each 40x250 ft. (as already announced in HORTICULTURE), will be erected in the near future.

Deacon Harris reports that from letters received from Havana, Cuba, Feb. 3, our esteemed citizens, Commodore Westcott, Robert Craig, Daniel Donoghue and party have arrived all well and are feeling fine. They send regards to all old friends and will report further from Isle of Pines.

E. R. Raimbault of Buena, N. J., has retired from the partnership with W. F. La Croix, and has built a new place of about 5000 feet area for violets and other specialties. W. F. La Croix continues in the old establishment, which is about the same size, and is sending some fine lilac to the Philadelphia market.

Immediately after Easter W. C. Smith, 61st and Market streets, will tear down five of his range of greenhouses to make room for forty-one dwelling houses on the Chestnut street

front and running along 61st street to Market street. This will be an opportunity for bargain hunters for cheap glass, pipe and fittings.

Victor Ridenour has started business at the Wolff place at Ridge avenue and Dauphin street. Note specially that this does not mean that Julius Wolff has gone out of business. He is still located at 1617 North 19th street and at Sedgely avenue and 28th street. Ridge avenue and Dauphin street was only a side venture of his son's.

John H. Dodds, superintendent of the Wanamaker estate, uses hydrocyanic acid gas for fumigating his houses, but finds that snapdragons will not stand nearly so strong a charge of the gas as will most other greenhouse plants. His houses are in the pink of condition and he is glad to give a large part of the credit to his assistants, John Nesbit and S. J. Irvine. A new sport of the golden pandanus has originated here which the experts think well of.

The holy calm of the Kingsessing valley was rudely disturbed by a cyclone on the 16th inst. The south end of the W. K. Harris establishment was ripped to pieces, causing a loss estimated anywhere from three to five thousand dollars. The roof of Mark Mills' dwelling house nearby was blown off and deposited two blocks away. Ferdinand and Le Gierse's greenhouses on Lancaster avenue were demolished and the proprietor blown into the street, severely cut by flying glass. Henry Engler's place was also ruined and Grakelow Floral Exchange conservatory damaged. A church steeple was blown over and two lives lost, in the same blast. The staid and God-fearing citizens of the locality thought the end of the world had come for sure! Colfesh, Anderson, and several other florists were in the track of the demon, but we believe all escaped with but little damage.

FIRE RECORD.

Newark, N. J.—John J. Brozat, florist, lost three greenhouses by fire, January 31. Loss \$2,000.

Denison, Texas.—The greenhouse of J. D. Ourand, 105 Sears St., was burned January 23. Loss is about \$1,000.

Albion, N. Y.—The greenhouses of Julius Duquette were damaged to the extent of \$150 by fire on the morning of Jan. 27.

Montclair, N. J.—The greenhouse establishment of A. S. Wallace on North Fullerton Ave. was damaged \$150 by a fire in the packing room, on January 29.

South Bend, Ind.—An overheated stove in the new store of the South Bend Floral Co. at 216 Michigan St., started a fire which did \$25 damage on January 29.

Whitestone, Long Island.—On the night of February 6th, a fire at the range of houses of Louis Dupuy, destroyed the potting shed, but the fire was under control before doing any serious damage.

ABOUT HOT BEDS.

A very practical and extremely interesting book telling all about hot-beds—their uses, cost and construction—has just been issued by the Gordon-Van Tine Co., 1550 Case St., Davenport, Iowa.

This little handbook gives a wealth of information on the subject. It tells how to construct them, where to locate them, and how to manage them for best results.

Copies are now being distributed free. Send for one.

The Gordon-Van Tine Co. have gone into the manufacture of hot-bed sash on a large scale. Their sash is made of Louisiana red cypress, with blind-mortised, double shouldered joints, at about half the price of old style hot-bed sash. Be sure to read their advt.

Seed Trade

AMERICAN SEED TRADE ASSOCIATION.

Watson S. Woodruff, Orange, Conn., Pres.; J. C. Robinson, Waterloo, Neb., First Vice-Pres.; C. E. Kandel, Cleveland, O., Sec'y and Treas. Twenty-seventh annual convention June 22-24, 1909, at Clifton House, Niagara Falls, Ont.

WHOLESALE SEEDSMEN'S LEAGUE.

F. W. Bruggerhof, Pres.; Burnett Landreth, Sec'y.

THE CANNERS' CONVENTION.

The Convention of the Canners at Louisville is now a thing of the past, and looking back there are few features which appear to be pre-eminent. The machinery and general display of the supply men was a little the most elaborate we have seen. The hall was handsomely decorated and every effort was made to attract business, but as a business convention it is not to be compared with that of last year at Cincinnati. The attendance was about the same as at Cincinnati, the number of registrations being in the neighborhood of 2400, but it must be borne in mind that a considerable number who always attend these conventions manage to get along without registering.

This year a tax of \$2.00 was imposed by the Canners' Association on all who entered the Exhibition Hall, excepting the members of the National Canned Goods Association. This Association, according to information to hand, comprises about 150 members, and why these members should escape paying the tax, simply because they are members of the National Association, has not been satisfactorily explained. The only explanation given is that the leaders in the National Association movement are seeking to force all of the canners to join this Association, and this is one of the inducements.

Sometime ago reference was made in HORTICULTURE to the proposed plan of taxing everyone for the privilege of entering the hall. It was stated that the members of the Machinery and Supplies Association regarded this tax as unjustifiable and unwarranted, as they could not understand by what moral right the Canners' Association imposed the tax. The Machinery and Supplies Association secures the hall where the exhibits are held, pays for the transportation back and forth of their machinery, pays for space in the hall, lights, booths, and all the other expenses incidental to such an exhibition. This runs into the hundreds of dollars for many of the exhibitors, and few escape without an expenditure of from one hundred to five hundred dollars. The Canners' Association does not contribute one dollar towards this expense, and although the Machinery and Supplies Association is an entirely independent organization, the Canners, taking advantage of the fact that they can dictate to the other association because they will not resent it, or at least will not rebel against it, are simply asking the Machinery and Supplies Association to contribute towards the maintenance of their organization; in other words, it is a case of might

Gladiolus Bulbs

GLADIOLUS AMERICA

A few points of merit

COLOR: A beautiful, soft, flesh-pink, very light and much like Enchantress Carnation, except slightly tinged with lavender, which gives it the delicate coloring of the most beautiful Laelias. Words fail to do justice in describing this grand and glorious color; it must be seen to be appreciated. PURPOSES: For florists' use, its color makes it everything to be desired; delicate, attractive and absolutely new; no other color in Gladiolus like it or one-half so beautiful. It has created a sensation in the cut flower markets, selling for more than five times the price of other varieties.

America. The best commercial pink in existence. 1st size bulbs, \$4.00 per 100; \$35.00 per 1000; \$165.00 per 5000.

Augusta. Lovely, pure white with blue anthers. 1½ to 2½ in., \$2.00 per 100; \$15.00 per 1000; \$70.00 per 5000.

Blue Jay (Baron Hulot). Finest blue Gladiolus yet seen. It is a rich, deep color of indigo shade. The only real blue Gladiolus on the market. \$10.00 per 100; \$30.00 per 1000.

Brenchleyensis. Extra fine red variety. 1½ to 2½ in., \$1.50 per 100; \$12.00 per 1000; \$50.00 per 5000.

May. A lovely, pure white flower, finely flaked, bright rosy crimson. 100 1500 5000

Princes. Rich crimson with very deep shadings in the throat and broad blotches on lower petals. 100 1500 5000

Salem. Fine salmon-pink, maroon blotches. 100 1500 5000

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations. In the Winter, they are excellent for decorative purposes and realize good prices, either wholesale or retail. Gladiolus are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white Gladiolus. First-size bulbs, 1½ inches and up. \$2.00 per 100; \$18.00 per 1000. Bulbs 1½ to 1¾ in. \$1.75 per 100; \$16.00 per 1000.

Brenchleyensis (true). Flery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1½ in. and up. \$1.50 per 100; \$14.00 per 1000. Bulbs 1½ to 1¾ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation. \$1.00 per 100; \$9.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, flaked rosy crimson; the best forcer. Selected bulbs. \$1.75 per 100; \$15.00 per 1000.

Brenchleyensis (true). Flery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1½ in. and up. \$1.50 per 100; \$14.00 per 1000. Bulbs 1½ to 1¾ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation. \$1.00 per 100; \$9.00 per 1000.

TO BUYERS

Patronize our advertisers. they will treat you right

makes right. Few if any of the machinery or supply men find any particular fault with the payment of \$2.00; it is not the amount of money involved so much as the principle. They furnish an excellent and, as everyone conceded this year, a really splendid exhibition. It is given for the benefit of the Canners, and they resent the action of the Canners' Association in taxing their prospective customers to see a show which they have been to such an expense and labor in preparing. Had the original plan of the Canners' Association been carried out, there would have been a large-sized revolt of their own members, as the original purpose was to tax everyone \$5.00 for a membership badge; but this they wisely cut down to \$2.00. Summing up the situation, it may be said that the members of the Machinery and Supplies Association, neither individually nor collectively, care to antagonize the Canners' Association, or rather the little oligarchy which is now controlling it, by refusing to pay whatever tax they may impose, and the Canners' Association, knowing this fact, are taking full advantage of the situation.

A move was made by the Machinery & Supplies Association, which is likely to have results not exactly anticipated by the rank and file of the members of either body; that is, the decision to hold no exhibits of any character in 1910. The place of meeting, while not definitely fixed, will probably be Atlanta City, and the attendance of the Canners, owing to the absence of any machinery or other exhibits, is likely to be very materially reduced, and it will be interesting as an indication of how great a factor the exhibits have been in drawing the attendance of the Canners from all parts of the country. Those Canners who are advocates of the present management insist that the exhibits of machinery and supplies are a detriment to their conventions, and that the attendance would be larger without these exhibits. They give the Machinery and Supplies Association to understand that they are tolerated only during good behaviour, and that failure on their part to meekly accept orders from the leaders of the Canners' Association would mean their being barred from any future convention of the cannery. Now if the machinery and supplies men expect to maintain an independent organization under their own control, there seems to be but one course open for them, and that is to hold an exhibition and invite the cannery to attend, but without any official connection with the cannery's association. Should the latter see fit to endorse the invitation and decide to hold their convention at the same time it would be very desirable, but there is little doubt that a very large number of cannery would attend, whether the exhibition were officially recognized or not.

Fears were expressed before the convention that the Louisville hotels would be over-taxed by the crowd in attendance, and this was established as a fact, although every effort was made for the comfort and convenience of all present, and the officers of the local committee deserve great praise for their efforts in this direction, particularly Mr. Gordon and Mr. McDon-

ald, who were tireless in their efforts to make every one comfortable and smooth out difficulties of every description.

Among the seed firms represented were Jerome B. Rice Seed Co., Leonard Seed Co., W. W. Barnard Co., W. H. Grenell, Rogers Bros., S. D. Woodruff & Sons, The Everett B. Clark Co., and Hogg & Lytle.

THE BLUE GRASS QUESTION.

Horticulture Publishing Co.

Dear Sirs:—My attention has been called to your comment on an article that was published in the Chicago Florists' Review on December 10th, 1908, under the head of "Grass Seeds," quoting from a circular issued by Conrad Appel of Danstardt, Germany, casting a reflection upon the American seed dealers and exporters. Those who are well posted in the business will pay no attention whatever to remarks of this kind coming from such sources, but there are others who might take this statement for a fact, inasmuch as it has been published by a reputable journal.

In my business experience—which has extended over quite a number of years—I have never yet found the time that it was not possible to secure a supply of true *Poa pratensis* or Kentucky Blue Grass seed. I have also found that complaints similar to the one made by Conrad Appel, are made based upon some transaction which if thoroughly investigated, would put an entirely different color to the situation and more than likely the shoe would be on the other foot. Quite frequently the price at which the goods are sold has more to do with the transaction than the quality. As a matter of fact I will state that the party in question, or anyone either in the foreign or home trade, can secure from the American dealers, as high a grade, not only of Kentucky Blue Grass, but of all other seeds, as it is possible to secure in any of the markets in the world; but the proper way to secure these qualities is not to go at it like some of our foreign buyers and shop around and place the order at prices known to be lower than the American trade themselves were paying for the highest grades.

As a rule it is not possible for the buyer of any commodity to secure the highest qualities at prices quoted for the lower grades. A little care on the part of the buyer is all that is necessary to be exercised and there will be no occasion for any such blanket statement as this gentleman has used in his circular.

Yours very truly,

ALBERT McCULLOUGH.

WATSON ON THE SEED TRADE.

Ament that Blue Grass charge, everybody knows that there are scallwags amongst the dealers in that commodity, but they—the scallwags—are not seedsmen; only speculators.

Your defence of the seedsmen I appreciate very much! It's the blasted hyenas on the outskirts of the trade that pose as seedsmen who do the dirt. Even at that, the trade, as a trade, is the cleanest and most honorable, also one of the most difficult, on earth, and don't you forget it! If all the papers would stand fast to your sane and sensible view of things, public opinion would soon veer very close to "hero-worship," instead of the present suspicious attitude. Ignorance, stupidity, silliness, yellow journalism, shoddy paternalism, and vain glory have combined to vilify the most beneficent agency in the building up of the United States, from Jamestown and Plymouth Rock to the present minute. Every American who is not a friend of the seed trade ought to have fire and brimstone heaped in showers on his head.

G. C. W.

NOTES.

Welland, Ont.—N. Vaughan & Son have purchased a site and will erect a seed cleaning plant.

A first dividend of 8 per cent. has been paid to the creditors of the Tempin Co., late of Calla, O.

CATALOGUES RECEIVED.

J. F. Tonkin, Buffalo, N. Y.—"Seeds of Quality", Season 1909. A mail order list.

Burnett Brothers, New York.—Seeds, Bulbs and Plants, Spring, 1909. A very striking cover illustration of Burnett's Liberty "Tomato" in colors, gives immediate distinction to this catalogue. There are nine pages of novelties and specialties in seeds.

Schlegel & Fottler Co., Boston.—The catalogue is in the usual well-arranged and compact form issued by this firm. Shirley poppies and "Delicious" squash on front and back covers, respectively, in sepia tint, are attractively effective.

H. E. Fiske Seed Co., Boston, Mass.—Seed, Plants, Bulbs, and Poultry supplies. A very neat cover in grey tints shows vegetables on the front and Shirley poppies on the back pages. Arrangement of contents, printing and illustrations are all good.

O. V. Zangen, Hoboken, N. J.—Wholesale Price List for 1909 of Florists' Selected Flower Seeds, Bulbs and Plants. This is a very comprehensive list, compact, yet sufficiently copious and suggestive. Text printed in blue; covers in bronze ink.

C. Leslie Reynolds, of Botanical Gardens, Washington, who was hurt in a runaway accident some time since, is more seriously injured than at first thought, and the X ray has shown several bones broken in his foot.

William Wallace Burnham, recently manager of cut flower department at Bloomington, was the recipient of a beautiful silver tea service, presented by a number of firms with whom he traded. The presentation took place at his home in Brooklyn.

Frank Jencek, a German, who for the past eight years has conducted a florist business in Jamestown, R. I., became violently insane Feb. 7 and was committed to an insane asylum. Jencek's wife died a short time ago, and it is said that this, with business reverses, was the cause of his mind becoming unbalanced.

BUSINESS CHANGES.

Homestead, Pa.—W. D. Faulk has
purchased the business of David
Geddes, 210 8th avenue.

Pittsburg, Pa.—The flower business
and greenhouses of T. J. Allen has
been purchased by Linn & Sons.

Pittsburg, Pa.—The stand in the
Pittsburg Market formerly owned by
John Foss has been sold to Miss Car-
rie Jordan.

Bristol, Tenn.—The D. S. Simpson
Floral Company has made application
to have its corporate name changed
to The Bristol Floral Company.

NEWS NOTES.

Falmouth, Mass.—H. V. Lawrence is
adding a new office building of unique
architectural design.

Sioux City, Ia.—J. C. Rennison Co.,
capital stock \$60,000. Lizzie A. Ren-
nison, president; Fannie L. Rennison,
secretary and treasurer.

Des Moines, Ia.—During the gale of
January 29 a big chimney was blown
over at the Mitchellville Industrial
School, falling upon the greenhouse
and wrecking it.

Milwaukee, Wis.—The Edlefson
Leidegger Company's greenhouses were
wrecked by the fall of a chimney during
the gale on Friday, January 29,
and a damage of \$10,000 in broken
glass and frozen plants was sustained.

Reminders of the approaching Port-
land (Ore.) Rose Festival are being
sent out in the form of postal cards,
showing rose garden views of great
beauty as they are to be found in that

land. Rose Caroline Testoril
is the official flower for the festival
and the pictures show it growing and
blooming in marvelous luxuriance, as
though fully conscious of its position
of high honor.

Flower Market Reports.

BALTIMORE As the Lenten season draws near it is customary to crowd in the entertainments a little more closely, preparatory to laying aside of worldly amusements, thereby causing a more liberal use of cut flowers, decorations, etc. The local supply in Baltimore is, however, fully equal to the demand. Lily of the valley does not seem to have been quite so much in favor this season.

BOSTON Trade in general is not equal to that of last week. The weather conditions are undoubtedly responsible in part. Bulbous stock is rapidly increasing in amount of daily shipments and prices are lower, not only on this class of stock, but the effect is felt all along the line. Roses are so decidedly off crop that they are holding their own. Beauties especially. Carnations are on the downward course and violets are at the very bottom of the chute. Double daffodils are usually perfect for so early in the season. The question of top prices is about settled for this season on all lines. We know the high record; the only concern now is to see how they will go, and that admits of a big guess.

BUFFALO Conditions have changed but little since last report. Trade has been fairly good, with a scarcity of Beauties and a shortening in supply of medium stock, Brides and Bridesmaids, also of white material generally. Carnations are well cleaned up daily and violets enjoy an increased demand but there is too much lily of the valley to feel comfortable. Sweet peas, mignonette, lilies and bulbous stock are coming in more plentifully but have been moving quite satisfactory. Green goods in good supply, with normal demand.

CHICAGO February came in with sales a little slow, and stock not of its best. The alternating of the temperature from summer heat to zero and then back again, naturally had its effect. By the middle of the week trade was brisker, only to lapse again with the downpour which delayed Chicago on Friday. Saturday's business was light. Monday, the 8th, found the market generally with too many carnations for the demand. It looks as if the good qualities of Enchantress had led to an over-planting of this splendid variety. At least the continual shortage of white leads to that conclusion when the counters are full of pink and not enough white to go around for four consecutive weeks. It looks now at this writing as if Lincoln week would make a heavy call for red carnations. The best violet day of the year is anticipated for Valentine Day. Advance orders are already pointing to an unprecedented demand this year. It is not expected that the price will advance.

DETROIT Business is improving slightly, but the falling off during the past is too much to be overcome this season. Fortunately, the shipping trade has increased very much and the sad conse-

quences of over production are thereby avoided.

INDIANAPOLIS Trade conditions the past week have been most satis-

factory, stock in almost every line having a good demand. Beauties are not quite so plentiful, but still sufficient to go around. Brides and Bridesmaids are coming in more freely. White Richmond and Killarney are practically off crop with most of the growers. Easter lilies and callas are more than plentiful. Bulbous flowers have become a staple article of the market. All colors and kinds are to be had in quantity. The demand for carnations on McKinley Day was a disappointment for some reason. Mignonette, freesia and daffodils are having a heavy run, while demand for violets varies from day to day according to the weather. Flowering plant trade is daily improving. Cyclamens, lilacs, azaleas, and bulbous stock in pans form the strongest combination. Tomlinson Hall flower market report business ahead of preceding year at this time. Smilax and asparagus have a steady demand, also bronze and green galax.

PHILADELPHIA Balls, weddings, generally, in full swing last week. Flowers called for in large quantities. The best week since Christmas—and rivaling as to prices that high-water period. Everything cleaned up well. Beauties went up to the dollar mark. Carnations five and six. Lent commences on the 24th, so that these favorable conditions may be expected to continue for another week or ten days. Cattleyas, reported redundant last

week, are now scarce. Fancy white roses have often to be sacrificed at low prices, the demand being mostly for low-priced whites. Pink roses, on the other hand, when of fancy quality, find a ready market. Double violets are scarce and bringing high prices. St. Valentine will be short of his favorite flower this year from all appearances. But there are plenty of pansies, lily of the valley and other shy and modest offerings for the timid and economical devotees of the saint. White lilac never better.

TWIN CITIES Business in the Twin Cities was about the same as the previous week, except in Minneapolis, where the funeral of Mr. Thomas Lowry, president of the Twin City Rapid Transit Co. and the Soo Line, caused a large sale of flowers. The home market was mostly able to fill the demand, with but few exceptions.

WASHINGTON Barring the fact that bulbous stock is more plentiful and therefore a trifle cheaper, all flowers are holding their prices. The almost continual dark weather has shortened the cut on roses, and the quality has been impaired likewise. The carnations shown in this market, though, are of unusually fine quality. Green is still scarce and bringing good prices.

The "Look-Ahead" Calendars Nos. 1, 2 and 3, of the McFarland Publicity Service, Harrisburg, Pa., have been received at this office. Artistically they are very handsome; as business-joggers they should fill the bill.

EVERYBODY KNOWS

Gardening cannot be properly done without the aid of an accurate leveling instrument.

Bostrom's Improved Levels, No. 2 at \$15.00 and No. 3 at \$25.00, are comended by all who **KNOW** to be the only Levels on the market which meet all the requirements, at the price.

Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make.

Shipping weight 12 lbs. Description on request.

NEW YORK MARKET.

With a few exceptions there is a marked increase of stock this week. American Beauties are in limited supply and bring 75c to \$1.00 apiece for specials; the price indicates how small the cut is. Gardenias are none too plentiful and the demand consumes all that comes on the market. The price of Cattleyas has improved as the crop lightens up. Quotations on all other varieties are easier. Though Bridesmaid and Bride are not plentiful, they are selling at reduced figures. There are more Killarneys and Richmonds in the market than a week ago. Carnations are increasing in number.

Violets have improved in price for a few days at least. Golden Spur and daffodils, tulips and freesias are all selling at reduced figures and in the case of the daffodils at a considerable loss. The market is dull and general business quiet in contrast to a week ago.

Formosa lilies are pronounced a success at Bassett & Washburn's, Chicago. There seems, so far, however, no way of securing a uniform height, the stems ranging all the way from three to six feet tall. The bulbs planted in August gave a fine crop of blooms for the holidays.

Notice to the Trade.

Millang Bros. at 41 West 28th St., New York City, announce that Charles Millang has no connection with the Firm of Millang Bros.

AUGUST MILLANG.

HELP WANTED

WE need a man who knows seeds and plants in a practical way and who can write of them in good English. Ability to express himself in few words, easily understood, absolutely essential. Daily newspaper training almost indispensable. Good habits and capacity for hard work necessary. Working knowledge of seed, nursery or florist's trade, experience in an advertising agency, and familiarity with type and other print-shop accessories, highly desirable. If there is such a man open to engagement we can offer him the opportunity of a lifetime. Inquiries invited from persons who possess one or more of the stated qualifications.

BUY HOT-BED SASH AT CUT PRICES and Build Cold Frames Economically

Hot-Bed Sash
3 x 6—1 1/2
Glazed with
6-inch glass
Dealer's Price \$3.50

The problem of finding room for bedding plants is solved by the use of Cold Frames. It is poor economy to overcrowd your greenhouse with plants that are better off outside, in cold frames, where they soon become sturdy and in fit condition to plant or market. The capacity of any greenhouse can easily be doubled by building Cold Frames to care for the "overflow."

Florists' Cypress Hot-Bed Sash

Made with Blind-Mortised, Double-Shouldered Joints

Gordon-Van Tine Hot-Bed Sash are better than the ordinary kind. No open joints. We make the joints moisture-proof and build our sash extra strong. Only the best grade of Louisiana Red Cypress used. Primed with pure raw linseed oil. Greenhouse putty and plenty of points used. Our prices are 50% less than retail dealers ask for inferior sash. All regular sizes in stock for quick shipment.

Size 3 x 6—1 1/2—glazed with 6-inch glass, \$1.69
Size 3 x 6—1 3/4—glazed with 10-inch glass, 1.75

OUR IRON RAFTER GREENHOUSE

The materials cost more than the less enduring construction, but they cost less to erect.

QUALITY and QUANTITY of blooms exceed other houses, as you know.

You gain in erection cost; save in repair costs and get more money out of your stock. You have a house that will last fifty years and longer.

Write for our figures on your next house.

Hitchings & Company
1170 Broadway New York

Sometimes You Forget

that we make every part of a greenhouse but the glass—that we sell any part.

You remember us on the bigger things, but often it never enters your head to think of sending to us for a tub of putty or a few fittings.

But you ought to—and here's why: Our sole business is manufacturing every part of a greenhouse. We give it, and it only, our undivided attention.

Everything we make is made with an exact knowledge of just what conditions it must meet, and that is why an ever increasing number from all over the country are continually sending us their orders for just the smaller things.

You know how well we do the big things, and if you only stop to think, it is just because of well done little things that it is possible for us to do so thoroughly and enduringly the big things. So whether white lead, glazing nails, bench fittings, matters not what, first write to

Lord & Burnham Co.

Main Sales Office: 1133 BROADWAY, N.Y.

BOSTON: 819 Tremont Building. PHILADELPHIA: 1215 Filbert St.

WHERE THE PRACTICAL COUNTED FIRST

This range of circular palm house and wings we erected in Pittsburg, Pa.

The owner in selecting his greenhouse builders insisted on the following construction features.

First, the houses must be of greatest endurance, so there would be no constant repair costs. Second, they must grow the greatest number of flowers with least expenditure for labor and coal. Third, they must be a "thing of beauty," because they were to be located close to the residence, and in full view from the driveway and street.

The U-Bar won out, and it is winning out every day for these very same reasons. So it is up to you to know every point about the U-Bar, and the catalog tells them—Send for it.

SINGLE CHRYSANTHEMUMS

From Seed

I am offering seed of Wells' new early flowering singles, in original sealed packets, at 25c and \$1.00 each. These can be sown any time and, planted outside in the Spring, will give you bushels of flowers in early fall, or plants can be lifted and potted when in flower.

— ALSO —

WELLS' NEW HYBRID PENTSTEMONS

This is a new race that shows the most glorious combinations of colors in scarlet, crimson, pink and white. The plants grow 2½ feet high and the flower spike is 18 inches long. No one who has not seen it can form any idea of the brilliant display a bed of these plants presents. No trouble to grow. Simply prick off the seedlings, like asters, and plant outside in May.

Trade packets, 25c and \$1.00 each. Hundreds of seeds in a packet.

CHARLES H. TOTTY, Madison, N. J.

Foxgloves

Digitalis is extremely popular in the New England States. The reason why this highly ornamental biennial has so far failed to conquer for itself the same prominent position in gardens elsewhere is certainly not to be found in any cultural difficulties. Seeds sown in May will produce small plants, ready for the open field, in June. If properly cared for, they will be strong stocky plants by the beginning of October, when the growing season is over. It is essential to withhold the necessary winter covering, until the surface of the ground is frozen solid. Leaves are here in the north considered the best material for winter protection. Care should be taken, that by after thaws and freezings the ice can at no time form in any thickness around the plants. For this reason I prefer a slightly sloping ground to the level for my foxgloves. Do not uncover too early, for your plants cannot stand sudden changes of warm days and belated hard frosts in spring.

Many garden owners and even hardy plant growers, when hearing fox-gloves mentioned have only in mind the old *Digitalis purpurea*. If they were fully aware of the wonderful marked, spotted and tinted variety of the best up to date gloxiniflora types, or could see the exquisite shades of the large spikes of *Digitalis maculata grandiflora*, I believe foxgloves would soon take their due place in the floral displays of many more gardens and parks. My experience is, whenever these beautiful biennials are shown to their full effect, that is, in strong healthy plants and sufficient number, the desire to have them again follows.

The intense interest and the unreserved admiration for displays of foxgloves by visitors at our northern summer resorts strengthens my belief that they merit more space and general recognition in American gardens. The common *Digitalis purpurea* is very effective when naturalized on the edge of woodlands. South of New York a half-shady position may be sometimes an advantage, for it is apt to prolong the flowering season. Tall spikes of light colored shades of *Digitalis gloxiniflora* against a dark evergreen background produce wonderfully pleasing contrasts. I have seen equally beautiful displays in formal gardens, but in every instance, the aim should be for a fine mass effect. The best results are obtained with improved colors. It is therefore very important for those who wish to grow their own plants to secure seeds of a good strain. The care of the plants and the overwintering is the same as required for the poorest colors.

By far less showy than the above mentioned varieties is *Digitalis lanata*. Its tall erect spikes are born on smooth brown stems. The long narrow pointed leaves are of a dark bright green. What appeals to me most is the remarkable fine brown nerving of the inside of the little white blossoms. Our illustration, a reproduction from a photograph taken in the Mt. Desert nurseries in Bar Harbor, gives a good idea of the habit of growth of this more rarely seen foxglove. Plant lovers,

DIGITALIS LANATA

who like to see odd things in nature always admire its gray hirsute thickly set spikes, with their multitude of queer shaped flowers. *Digitalis lanata* deserves a place in plant collections or perennial borders.

Richard Rothe

A Good Amaryllis

The writer has an amaryllis that is ten years of age. The blossom stalk is 40 inches tall. The blossom stems are 5 to 6 inches long. Its blossoms measure eight inches across, 6 in number, making a wreath-like circle over three feet in circumference. The blossoms are pink laced with white. The seed pods now ripening measure two inches in diameter. The bulb is about five inches in diameter. This plant has never had a rest and it blossoms three or four times per year. Not being familiar with the growth of the amaryllis, I write to ask if this one is not unusually large. I don't know its name if it has any, but I believe it is a hybrid. It was a present to me from Prof. J. F. Cowell, superintendent of the Botanic Gardens at the South Park, Buffalo, N. Y., at the time of the Pan American Exposition.

I am surprised that so beautiful a flower should receive so little attention from florists and plant growers. The plant requires but little care and is not troubled by insects or fungus. It blossoms every three or four months the year round and is long lived. It is an interesting subject for the hybridizer and the plant breeder.

I intend to experiment with it some myself. I see in catalogues from Holland that some new varieties there are valued as high as \$80.00 each.

R. B. White

Rocky Mountain Rambles

v.

Comparatively few of the tourists who seek our western mountains find their way to the Big Horn Mountains in Northern Wyoming. The region is easily accessible and would offer a most delightful place to spend a few weeks. These rugged mountains afforded

THE MOUNTAIN LOOSEWORT
(*Pedicularis Groenlandica*)

In a Meadow of the Big Horn Mountains at an Altitude of 9000 Feet.

a strong resistance to the invasion of the whites during the Sioux Indian outbreaks in the late seventies.

The writer spent a most pleasant time for a few weeks there in 1897, going by way of the Burlington and Missouri River through a part of the sand hills of Nebraska and the southern edge of the Blackhills. The high plain of Wyoming was aglow with the Yuccas, Larkspurs, Stipas, Agropyrons, and Stemless Loco. Sheridan nestled among a low range of hills in the Goose Creek Valley. From this point one can go over the range to the Big Horn Basin or to the Dome Lake and Cloud Peak country. Going up the gentle slope of the valley of Big Goose Creek for some twenty miles, the road leaves the undulating plain and passes up a steep hillside.

Down in the valley the Sage Brush, Townsendia, Erigeron, Biglovia, Gumweed (*Gutierrezia*), and Opuntias were found. Stipas were in evidence everywhere on dry situations. Along the creek were the so-called cottonwood (*Populus angustifolia*), a species of onion (*Allium Schoenoprasum*), with purple flowers, the Shooting Star, and Horsemint (*Monarda fistulosa*), much like our Iowa species but with darker flowers. The low meadows contained Slender Wheat Grass (*Agropyron tenerum*) and sedges of numerous species, also the Wild Timothy (*Backmannia cruceiformis*). At 5000 feet the mountain sides are covered with a Dwarf Nine-Bark (*Physocarpus Torreyi*), the Western Service Berry (*Amelanchier alnifolia*), the Dwarf Mountain Maple (*Acer glabrum*), the Douglas Spruce (*Pseudotsuga Douglasii*), and the western Yellow Pine (*Pinus scopulorum*). The tree and brush-covered slopes and flats open up into large parks. These parks contain a wealth of botanical species: Geranium (*Geranium Rich-*

ardsonii), Larkspur (*Delphinium*) grasses like Meadow Grass (*Poa pratensis*), and stemless Locoweed (*Oxytropis Lambertii*). The Geraniums were knee high and with the other plants made a splendid and glorious sight to behold. At higher altitudes the Lodge Pole Pine covered large areas. Beyond and at still higher altitudes (8800-9000) the country becomes more rugged, and long moranic hills with numerous small lakes occur.

The streams have carved their way through rock and the water passes rapidly over rock and boulder to the valleys beyond. In climbing out of these small canons one finds added interest in the small lakes which are situated a hundred or more feet above the bed of the stream in the moranic drift.

The Crowfoot (*Ranunculus*), Marigold (*Caltha leptosepala*), Aconite (*Aconitum Columbianum*), Shooting Star (*Dodecatheon media*), and Holy Grass (*Hierochloa borealis*) are always plentiful in such places.

Larger lakes also occur and these are bounded by low lying marshes or drift material. On these lakes one finds that interesting water lily (*Nuphar polysepalous*) with its yellow flowers. The marshes contain the Leduc (*Ledum glandulosum*), Loosewort (*Pedicularis Groenlandica*), Sedges (*Carex*), Poa Wolfst, and Valerian (*Valerian aedulis*). The gravelly banks contain much of the *Arenaria Fendleri*, Cinquefoil (*Potentilla fruticosa*), Kalmia (*Kalmia glauca*), Yarrow

The Ceanothus with its white blossoms and glossy foliage in the background the Lodge Pole Pine. The Ceanothus would make a splendid ornamental plant.

(*Achillea millefolium*), Stone Crop (*Sedum stenopetalum*), and Dwarf Juniper (*Juniperus communis* var. *alpina*). In the rocky canons there is an abundance of Engelmann Spruce (*Picea Englemanni*) and the Balsam Fir (*Abies subalpina*). The alpine flora is not essentially different from that which I have described for the Rockies in Colorado.

The Yellowstone National Park region has always been of interest to botanists. For a distance of several hundred miles the Northern Pacific skirts the Yellowstone River. Near Miles City the Tongue River and at Blatchford the Power River with their brownish-yellow mud, empty into the Yellowstone. Our eastern Cottonwood and well known Buffalo Berry are familiar objects here. Near Billings low hills skirt this famous stream; on the flood plains one finds the usual Sage Brush and Opuntia. The flood plain of the river is strongly impregnated with alkali; few cultivated plants succeed well here where the mesa above is irrigated.

The change to Livingston is not very great. We are continually ascending the valley till at Livingston it is about 7000 feet above sea level. The Yellowstone comes out of the mountains from Gardner. The railroad has an imposing building and it might be well for the railway to add to the present building and equipment, a museum which should contain all of the interesting material found in that country of both plants and animals; the many interesting features pertaining to the early discoveries of that country, the interesting data pertaining to the expedition of Lewis and Clarke and the wonderful discoveries of Colter, who was a member of that expedition and later explored the park.

The woods about Livingston contain the Western Birch, Alder, Cottonwood (*Populus angustifolia*), Crowfoot, Geranium and Monkey Flower (*Mimulus Jamesii*).

For the amateur botanist an interesting afternoon may be spent in the environs of Livingston. Those who have the time may well spend a few weeks in the Park to visit the geysers and falls. The Tetons outside of the park are grander and more picturesque than the Yellowstone.

Ames, Ia.

L. A. Pammel

British Horticulture

CHANGES AT KEW

Mr. W. Botting Hemsley, F. R. S., has recently retired from his position as chief of the herbarium at Kew. During his long association with Kew Mr. Hemsley has Gardens, having reached the age limit. His connection with the famous botanic gardens dates back to 1860. He has been a prolific writer on scientific subjects. His first literary work was a contribution to Lindley and Moore's "Treasury of Botany," published in 1866. His researches are incorporated in a number of valuable works, whilst he has been a frequent contributor to the Journal

of the Linnean Society, the Kew Bulletin, and some of the leading horticultural journals. He has been elected a fellow of the Linnean Society, and a fellow of the Royal Society, whilst he recently became a corresponding member of the German Botanical Society. The position Mr. Hemsley has held is one of great importance and responsibility. The collection at the herbarium comprises two million dried plants, whilst there is also a library of nearly 25,000 volumes. An illuminated address expressive of appreciation of Mr. Hemsley's notable services to horticulture was presented to him, signed by present and former colleagues, and numerous botanists who have worked at Kew, besides the botanical staff at the British Museum. Mr. Hemsley's well-earned leisure will be spent in the pursuit of his favorite studies; he has taken up his residence within convenient reach of Kew Gardens. Dr. Otto Stapf is the new chief of the herbarium.

THE SALE OF INSECTICIDES

In the past horticultural sundriesmen have been considerably hampered in their sale of insecticides by the severe legislative restrictions placed upon them. As the result of persistent agitation on the part of the trade the law has undergone a revision. Under the Poisons and Pharmacy Act, 1908, the list of poisonous compounds which may be sold only by registered persons has been materially revised. Under its provisions there is now a repeal of the exclusive right of members of the Pharmaceutical Society to sell poisonous compounds used in agriculture. Hitherto the chemists have enjoyed a monopoly, protected by the State, in dealing in certain chemical compounds, with the result that they were able to keep up the prices. Under the new Act a better condition will prevail, resulting in a great gain to the horticultural trade generally. It will now be possible for the ordinary florist and nurseryman to stock poisonous substances for use against insects and fungoid pests, on their getting a license from the local authority. This will enable many traders to add profitable side lines to their shops, whilst with this unrestricted trade the customers will benefit as regards getting the compounds at a more reasonable figure. The trade triumph in this instance is another proof of the value of well directed organization in securing the object desired. The continuous "pegging away" at last has had its reward.

comment on our views as expressed, at the same time calling attention to the fact that one of the most noted chrysanthemum specialists in England was already offering such seed there for that purpose. Now comes one of our best known introducers on this side, placing on the market here this self same strain of seed. We hardly expected our prediction to come true so quickly but have no doubt Mr. Totty's offering in another page of this paper will meet with a ready response from wide-awake growers.

Florists
and the experiment
stations

The State Florists' Association of Illinois has done well in accomplishing in so brief a period so much as is outlined in the report of its work which we present in this issue.

Co-operation with the existing State Experiment Stations on floricultural lines and insisting upon due attention being given at these institutions to research and problems connected more or less directly with ornamental horticulture is, we venture to say, something that many of our local florists' associations have never yet given a serious thought to. The disposition has been rather to look upon the Agricultural Experiment Stations somewhat as the State Fairs are regarded, from afar off, as institutions to be scoffed at. We believe the example set by the Illinois fraternity is worthy of emulation. From what we know of the Experiment Station officials generally we feel safe in saying that they will, to a man, welcome any movement on the part of the floricultural profession towards a more intimate relationship. And, further, we believe the scientific workers in those institutions would be glad to have, as a great aid in giving practical value to their efforts, the friendly interest and co-operation of the men trained in the stern school of commercial experience.

A successful
exploring expedition

The Arnold Arboretum has lately received from its expedition in western China a large quantity of seeds collected on the

high mountains which separate China from Thibet. In this last sending of several hundred species there are the seeds of no less than fifty-five species of rhododendrons, many roses, clematis, hydrangeas, hollies, barberries, philadelphus, deutzias, pines, mountain ashes, cherries and crabapples, all new to cultivation. One of the most important, perhaps, of Wilson's recent discoveries is a new lilac with large panicles of lilac and white fragrant flowers which he describes as probably the finest of all the Chinese lilacs. He has secured, too, large quantities of the seeds of the beautiful *Magnolia villosa* and of *Paeonia Delavayi*, a shrubby species with dark maroon-colored flowers. Mr. Wilson's two years' mission in China is nearly finished; but it has been so successful that the Arboretum is sending William Purdom, a young English gardener, on a three years' journey in Shensi and Kensu for the purpose of collecting seeds and specimens of the plants of these botanically unexplored northern and western provinces. Mr. Purdom left Boston for Shanghai on Thursday, 18th inst., and will proceed at once to Peking. It is an interesting and significant fact full of promise, we believe, for American horticulture that the international standing of the Arboretum is now so thoroughly established and generally recognized that for this new enterprise it has been able to obtain in Europe even larger financial assistance than it did for the Wilson expedition.

A few weeks ago we remarked in these columns the probability that we should shortly see florists raising their single-flowered chrysanthemums from selected seed each year in preference to going to the trouble to propagate from cuttings of named sorts. A leading English horticultural journal has since made approving

A fascinating
innovation

OBITUARY.

William Findlay.

William Findlay, who for many years was widely known as a fruit grower, died rather suddenly at his home in Newport, R. I., Feb. 12, from diseases incident to old age. Mr. Findlay was born in Largo, Fifeshire, Scotland, in 1831, served his gardening apprenticeship under his father in that neighborhood and afterward worked as a journeyman at Dalmeny Park, the residence of Lord Rosebery. Coming to this country in 1854 he settled in Newport, R. I., where he spent the remainder of his life, his first position being in charge of the estate known as "Belair" which was owned by a Mr. White, and is now the property of Mrs. G. H. Norman. Several years later Mr. Findlay hired the greenhouses at the estate of the late Governor Lawrence, and engaged in the fruit growing business, also raising large quantities of grape vines of the European varieties,

WILLIAM FINDLAY

which he shipped to California; where there was a great demand for them at that time. In 1873 Mr. Findlay built the large range of fruit houses that still stand on Gibbs avenue and it was here that he raised the choice grapes, nectarines, peaches and outdoor musk melons that made him famous as a fruit grower. When this establishment was in full swing it was the custom of many of the wealthy Newport people to drive in their carriages there to see the fruit and buy their supplies. About this period rose growing under glass was just being considered as a possible paying business so Mr. Findlay wishing to test the method reserved a part of his houses for this purpose which met with great success. It is said that he was the first to grow the "Jack" rose this way. These flowers were shipped to Pennock of Philadelphia, Mr. Findlay receiving for them \$110 per hundred and it may be of interest to note that they were then grown in boxes 15 inches square and one foot deep, one plant to a box. So at this time Mr. Findlay seemed to

be in a fair way to make a fortune, but his generous disposition to help all the needy who came in contact with him prevented him from laying up much stores for his declining years, but it is pleasant to know that during those years when age overtook him he was well provided for.

Mr. Findlay married when in middle life but the union proved not to be a lasting success and no relatives are known to survive him in this country. The funeral took place from his late residence Feb. 15, and was fairly well attended by old acquaintances, the Newport Horticultural Society being well represented.

David Bearn.

Advises received by friends in Philadelphia Feb. 11th, announce the death of David Bearn at Kirriemuir, Scotland, January 26th. Mr. Bearn was born at Kirriemuir about 56 years ago, and after serving an apprenticeship in Scotland to the gardening business came to America about the year 1872. He located for a short time with Mr. Carr at Pittsburg, and was later one of the coterie who worked at the celebrated Robert Buist greenhouses in West Philadelphia—among whom may be mentioned, George Anderson, Charles Sim, Robert Kift,—and a number of others who afterwards made their mark in commercial horticulture. He finally started in business for himself at 33rd and Wallace, where he had held an interest previously as silent partner with the late John Kinnear, remaining there until 1893. In the latter year he sold out that property and built a new range at Bala, which he conducted successfully for about 11 years. In 1904, failing health compelled him to sell out and return to Scotland.

David Bearn was a very keen man intellectually and always took a lively interest in club and society affairs. His views on any subject were eagerly sought, and were usually most illuminating. No man had a surer aim for hitting the nail on the head. He would have made a great lawyer had his lines lain in that direction. Combined with his mental gifts was a disposition of the modest and retiring kind—while his shafts of wit, satire, ridicule, or irony were always tempered by the natural dictates of a very warm heart. Few men in this community had such a host of devoted friends. They missed him sorely after his departure for Scotland five years ago; but were always in hope that he would soon be back again.

He was a member of the Florists' Club of Philadelphia, the S. A. F., the Order of Scottish Clans (treasurer of the local lodge of the latter for many years), the Scots Thistle Society, Caledonian Club and other fraternal organizations. He was unmarried, and lived in Kirriemuir at the home of his brother, John. His business affairs in this country are and have been in charge of his friend Charles Sim, of Rosemont, Pa. So passes away another good man and one of the most noted of the older generation that have made Philadelphia horticulture conspicuous.

G. C. WATSON.

J. H. Small, Sr.

The death of J. H. Small, Sr., which occurred at his home on Brentwood

road, Washington, D. C., on Sunday afternoon, Feb. 14, was no surprise to his many friends, as he has been in a very critical condition for some months. Nine years ago Mr. Small had a paralytic stroke from which he never recovered sufficiently to take up active business interests again.

Mr. Small was born in Watford, England, eighty-two years ago, and ever since 1848, when he came to Georgetown as private gardener to Mr. Linthicum, he has been closely associated with the horticultural interests of Washington. He was a horticulturist by heritage, tradition and natural bent, receiving his early training under his paternal grandfather. He completed his course at the Crown estates of Kew and Windsor, at which places he saw much of the present King of England, then a child, and his mother, Queen Victoria. In 1854 Mr. Small went into business for himself, in which business his sons, J. H., Jr., and Albert, later became associated and which has twice outgrown its quarters and now comprises both the Washington and New York concerns.

J. H. SMALL, SR.

The deceased leaves a widow, three sons and six daughters.

The funeral took place Wednesday, Feb. 17, from Oak Hill Chapel, and the interment was at Oak Hill cemetery. The Rev. R. H. McKim, rector of the Church of the Epiphany, of which Mr. Small was a member, conducted the services, and members of the association of oldest inhabitants acted as pall-bearers.

Joseph Dus.

Joseph Dus, employed at the greenhouses of Herman Maenner, Maspeth, N. Y., died suddenly on Feb. 8.

A. Von Asche.

A. Von Asche died at his home, Jackson avenue, Long Island City, N. Y., on Feb. 4, aged 50 years.

John Griffith.

John Griffith, formerly a nurseryman of Attica, N. Y., died on Jan. 28, aged 69 years.

BOSTON MARKET SHOW

Following is the schedule of prizes for this notable exhibition which promises to take its place among the great annual shows of this country. It will be held in Horticultural Hall, Boston, on Saturday and Sunday, February 27 and 28. The premium list has been issued in a handsome souvenir volume in which many of the representative firms are represented by liberal advertisements, and of which copies may be had by applying to E. Allan Peirce, Waltham, Mass. The committee in charge of arrangements consists of:

E. Allan Peirce, secretary and treasurer, Waltham, Mass.; Wm. H. Elliott, Brighton; Geo. Cartwright, Park St., Boston; S. J. Goddard, Framingham; Thomas Roland, Nahant; Wm. Sim, Cliffondale; Wm. H. Nicholson, Framingham.

Judges.

S. J. Reuter, Westbury, R. I.; Thos. Roland, Nahant, Mass.; A. H. Fewkes,

Premium List.

Class A. B. C. standard or disseminated varieties only, can compete. Lawn color to be the dividing line for dark pink. Winsor shade for light pink. Enchantress for flesh pink in all carnation classes.

CARNATIONS.

Class A.

50 White, Flesh Pink, Light Pink, Dark Pink, Red or Scarlet, Crimson, Variegated, each, first, \$5; second, \$2.

Class B.

25 White, Flesh Pink, Light Pink, Dark Pink, Red or Scarlet, Crimson, Variegated, each, first, \$5; second, \$2.

Class C.

100 blooms in vase not less than 6 varieties, first, \$25; second, \$10.

Class D.

100 blooms one variety in a vase, new or standard. Thos. J. Gray Co., silver cup, value \$25. Second prize, cut glass vase, value \$10.
A. H. Hews Co., silver cup, value \$25.

Class H.

Vase of 50 mixed Roses, first, \$30; second, \$20.

Class I.

The following prizes to be awarded to growers with not over 30,000 ft. of glass: 25 Brides, Maids, Killarney, Richmond, each, first, \$8; second, \$4.

Class J.

Park St. Flower Market Prize, for not less than 10 or more than 30 blooms of best new Rose undisseminated before 1900: Prize value \$25.

SWEET PEAS.

Class K.

Vase of 100 White, Pink, L. Pink, Lavender, any other color, each, first, \$3; second, \$2.

Class L.

Flower Market prize for the best new Sweet Pea: Prize and Certificate.

Class M.

Zvolanek Prize for Zvolanek Collection of not less than 6 standard varieties 100 each. Prize value \$25.

Zvolanek Prize for Zvolanek Collection of 5 standard varieties 25 of each. Prize value \$10.

VIOLETS.

Class N.

Campbell, 2 bunches 100 in each, first, \$5; second, \$3. Any other double variety, 2 bunches, 100 in each, first, \$5; second, \$3.

Class O.

Princess of Wales, 2 bunches, 100 in each, first, \$5; second, \$3. Any other single 2 bunches, 100 in each, first, \$5; second, \$3.

Class P.

Best display of the Boston violet. Wm. Sim prize, value \$10.

Class Q.

Market Prize for best New single violet. Prize and certificate.

MISCELLANEOUS.

Class R.

Vase of 50 Tulips, first, \$5; second, \$3. Vase of 50 Narcissus, first, \$5; second, \$3. 12 varieties of cut bulbous stock not more than 25 of a variety, first, \$10; second, \$5. 50 Lily of the Valley, first, \$5; second, \$2.
H. F. Michell's Special Prize—Best 12 pots of Easter Lilies, silver, value \$25.

Twelve plants of Cyclamen, silver cup, value \$10, special prize, Page Pottery, Peabody, Mass.

Class S.

50 Marguerites, 25 Mignonette, first, \$2; second, \$1; 200 Pansies, first, \$5; second, \$3; 25 Antirrhinum, first, \$3; second, \$2. Display of novelty not otherwise classified, first, \$5; second, \$3.

SPECIAL FEATURES.

Gardeners' and Florists' Club of Boston. Special Trophy, value \$25, for the most meritorious display in the show. To be judged by a scale of points covering cultural excellence, commercial serviceability, effectiveness, extent, novelty.

For best decorative basket of carnations not over 100 flowers to be used. Prize value, first, \$15; second, \$10.

S. J. Goddard special premium. For the best bride or bridesmaid bouquet of carnations, \$15.

No other flowers than carnations to be used in any of the above features. Ribbon, any kind of foliage or green may be used.

Park Street Market salesman prize—A Morris Chair for best decorative mound of flowers for table display.

N. B. All exhibits must be staged by 10:30 o'clock A. M. It is very important that this rule should be observed.

The perpetual Flowering Carnation Society will hold a spring show in London, Eng., on March 24.

SOME OF THE SPECIAL PRIZES FOR THE BOSTON MARKET SHOW

Newton Highlands, Mass.; E. A. Wood, West Newton, Mass.; A. H. Langer, Jr., Worcester.

Carnation Committee.

E. Allan Peirce, Waltham, Mass.; S. J. Goddard, Framingham, Mass.; Wm. Nicholson, Framingham, Mass.; M. A. Patten, Tewksbury, Mass.; Peter Fisher, 1218, Mass.

Rose Committee.

Wm. H. Elliott, Brighton, Mass.; Alex. Monaghan, Natick, Mass.; Eben Thomas, Melrose, Mass.; Harry Paddock, Prov. dence, R. I.

Violets, Sweet Peas and Miscellaneous.

Wm. Sim, Cliffondale, Mass.; Wm. Spillars, Woburn, Mass.; Thomas Pegler, Park St., Boston, Mass.; Herman H. Butch, Woburn.

Plants and Bulbs.

L. W. Mann, Randolph, Mass.; E. Satermeister, Readville, Mass.; Thomas Roland, Nahant, Mass.; Geo. Butterfield, So. Framingham; F. J. Dolansky, Lynn.

6 varieties of carnations 50 in a vase.

Peter Fisher, special prize. Best 50 Beacon \$6. Best 25 Beacon \$4.

Cottage Gardens Co., special prize. 50 Beacon book, "The American Carnation," by C. W. Ward.

R. Witterstaetter, special prize. 50 Abingdon, first, \$6; second, \$4.

F. R. Pearson Co., special prize. 50 Winsor, first, \$6; second, \$4.

Class E.

12 blooms unnamed seedlings, first, \$5; second, \$3; third, \$2.

Class F.

Single bloom, new or standard, short stem, first, 50 cents; second, 25 cents.

1 bloom White, Flesh Pink, Light Pink, Park St., Red or Scarlet, Crimson, Variegated, each, first, 50 cents; second, 25 cents.

ROSES.

Class G.

25 or more American Beauty, first, \$25; 25 Pink, Red, White, each, first, \$10; second, \$5; any other color, first, \$6; second, \$4.

NEWS OF THE CLUBS AND SOCIETIES

GARDENERS' AND FLORISTS' CLUB OF BOSTON.

This club had a glorious meeting last Tuesday evening. There must have been in the neighborhood of two hundred and fifty in attendance, including ten visitors from Providence, R. I., and a number from the North Shore Horticultural Society. The Providence contingent included Messrs. Appleton, Chappell, Hartstra, Hockey, Hazard, McCord, Macnair, J. A. Macrae, Alex Macrae and Sweeney. James Wheeler for the committee on hospital bed for needy members of the craft recommended no action; accepted. President Downs presented the Executive Committee's report, which was accepted without discussion excepting the clause recommending that the club appropriate a special prize for competition at the Market Show on February 27. This brought up an animated discussion resulting in the adoption of the recommendation. Brief talks were made by Messrs. McGregor and Shaw for the North Shore and Macnair and Chappell for Providence. An invitation was received and accepted with thanks to attend the dedication of

French Hall at Amherst on March 12. Six new members were admitted. The club banquet has been set for March 31. Details later.

The exhibition of plants and flowers was quite extensive. R. & J. Farquhar & Co. showed *Acacia heterophylla*, *Primula obconica grandiflora* and a table of cyclamens, which were given an award of cultural merit. A report of highest merit was given, for the first time in the club's history, for White Killarney rose exhibited by Alex. Montgomery. Wm. Swan of West Manchester showed double rose larkspur and lupins of various colors, receiving a well-deserved honorable mention for the latter. Charles Simpkins of Peabody was the recipient of a similar award for Beauty of Nice, Boston Florists' White and Empress Augusta Victoria stocks. Chas. S. Strout of Biddeford, Me., showed a vase of Winsor carnations that won for him a certificate of cultural merit. A vote of thanks was accorded to each of the following exhibits: O. M. Whittimore, Framingham, carnations Splendor and Victory; H. A. Stevens, carnation Andree; Peter Fisher, vase of seedlings; James Wheeler, *Primula Kewensis*,

semi-double; H. Schnrade, Saratoga Springs, N. Y., carnation Kanariensbird; Alfred E. Parsons, West Manchester, carnation Enchantress; Daniel Whyte, North Easton, *Primula Kewensis*; E. B. Beals, seedling carnations; Jas. D. Clark, a device for protecting trees against ascending insects; F. W. Fletcher, Baronne Rothschild violets.

A number of exhibits promised from distant points failed to arrive, the storm having delayed trains badly.

The principal event of the evening was the promised talk on Carnation Culture by M. A. Patten, president of the American Carnation Society.

Mr. Patten did not present a prepared paper but talked partly extempore and from brief notes. He said, in part, describing his cultural methods:

"We will start with a healthy cutting, well-rooted but not left too long in the propagating bed. I prefer to pot all my young stock, using sizes of pots adapted to the size of the cuttings. If they require more room I repot into 3 or 3 1-2 in. pots or plant in boxes. Many a good cutting has been ruined by neglect. Keep on the cool side, water carefully, give air in plenty but avoid drafts until they are well established.

"In planting outdoors we leave generally 18 in. between the rows and 6 to 10 in. in the row. Keep the soil open with a hand wheel cultivator. Keep plants well cut back, but it is better not to pinch too much at a time. If properly attended to you should have good sized plants at benching time, August or September, provided the season has been favorable and red spider has forgotten to call on you. The plants after being dug with a garden fork are brought into the workroom, dead leaves removed, and if the balls are dry we water and let them stand a few hours before planting. Plant firm and leave the soil level.

"The carnation is not particular as to soil. Equally good results are obtained in a clay or sandy soil as a general thing, but I think the softer growing kinds have stiffer stems in soil of a clay nature. It is "the man behind" who is responsible for success or failure. Give a good watering to settle the soil. Some support should be given at once to keep the plants upright. We like to shade if they wilt, and think this is better than too much spraying. Disbudding should be regularly attended to and weeds kept down. A sprinkling of lime and a slight dressing of some good fertilizer is beneficial.

"Bursting blooms are by some attributed to the use of manure water. We have not used any this season and some varieties have bursted more than ever. Perhaps cold water has something to do with it. We used one bed for fertilizer experimenting this year, using soot from the chimney, ground bone, fish and phosphate and pulverized sheep manure, but could not see any difference in growth or flowering. We had a good compost to begin with. Our temperature at night averages 50 to 53 deg., day 60 to 75 deg. if pleasant and 57 to 60 deg. if stormy.

"I like side cuttings from the flowering shoots not too high nor too low.

THE HENRY F. MICHELL COMPANY PRIZE.

To Be Competed for at the Boston Market Exhibiton, February 27-28.

This elegant prize is to be awarded for the best twelve pots of Easter lilies in bloom. It is made of heavy silver plate, twelve inches in diameter, and has a border of beautifully chased acanthus leaves. The tray is mounted on three very massive feet

and makes an ideal piece on which to stand a cut glass vase filled with flowers. As has been the custom for the past few years, Henry F. Michell Co. are awarding this unusual piece in preference to the usual prize cups or trophies given at these flower exhibitions.

Our benches have slate bottoms and we use fresh sand for every batch of cuttings. The best modern type greenhouses are none too good if you want to grow superior carnations."

The subject was discussed quite fully after the close of Mr. Patten's talk. Peter Fisher said that he thinks nothing of a seedling carnation until it is at least three years old, and his final estimate of its value is not made until it is four or five years old.

NEW JERSEY FLORICULTURAL SOCIETY.

The president's reception and annual smoker was held at Orange on Friday, February 12. An oration was delivered upon the life and services of Charles Darwin, whose 100th natal anniversary was reached upon this date, after which the evening was devoted to social intercourses. After President Mac Korie had welcomed his guests, addresses were made by Charles H. Totty, Frederick and Charles Atkins of Rutherford, Edward Reagan, secretary of the Morris County Society, Charles McTaggart of Thorburn's, and W. E. Maynard of the Gardeners' Chronicle. Letters of regret were read from W. J. Stewart, A. T. Roddington and J. Austin Shaw. The Rickards Bros. gave their characteristic songs and Andrew Wilson danced and told funny stories. C. B. Lust gave selections upon the banjo and the Imperial Quartette a number of four-part songs. Light refreshments were served.

The room was decorated with flags in honor of Lincoln's birthday, a centre table of orchids and greenhouse climbers from Julius Roehrs Company staged by Max Richter, orchids from Thomas Jones, and vases of flowers wherever they could be placed. A vase of lilies of the valley from Roehrs was declared to be the finest stock he had imported in thirty years and was remarkable for size of stem, flower and fragrance. The contributions from private estates were as follows:

Charles Hathaway, Max Schneider gardener, narcissus, freesia, hyacinths, cyclamens, violets and carnations; Sydney and Austin Colgate, William Reid, gardener, carnations; A. C. Van Gaasbeck, John J. Dervan, gardener, carnations; Charles A. Munn, John Hayes, gardener, carnations. The judges for the evening were Edwin Thomas, Jos. A. Manda and Arthur T. Caparn. J. B. D.

AMERICAN ASSOCIATION OF RAILROAD GARDENERS.

The executive committee of this association met in Chicago on February 12th and decided to hold the next annual meeting at Philadelphia in August. After the meeting a week's trip inspecting railway station grounds in the neighborhood of Philadelphia, New York and Boston will be taken.

Every person regularly employed in the gardening department of American and Canadian railroads is entitled to membership; dues \$1.00 per year.

We are young but have accomplished a great deal in our field; are anxious to have every one that is eligible to become members and attend the convention. All inquiries should be made of Geo. B. Moulder, Sec'y; address Ill. Cent. R. R., Chicago.

ST. LOUIS FLORIST CLUB.

The February meeting of the Florist Club was the annual carnation meeting and was one of the largest attended the club has had for several months. The announcement that it was to wind up with an entertainment and smoker brought out the large attendance. The exhibition of carnations was not large, but those that were on exhibition were fine. There were only three outside exhibitors: A. C. Brown of Springfield, Ill., who sent Superba, Sangamo and Governor Deneen; A. F. Longren of Des Plaines, Ill., with a fine vase of Lucille, and Chas. Knopf Floral Co., with Mrs. Chas. Knopf and Ruby.

The club members who showed blooms were John Steidle with Ross-Pink Enchantress, Enchantress, Harlowarden, Beacon, Mrs. Patten and White Perfection; W. J. Pilcher, with Beacon and White Enchantress; Fred Ammann, with a vase of mixed standard blooms; E. W. Guy, a fine vase of White Enchantress.

A committee was appointed to report at the next meeting the best plan to eliminate the "crepe pullers" who are becoming so numerous and bold, going so far as to use the names of leading retailers. This committee consists of Messrs. Windt, Brix and Schoenle. It was decided to hold the Annual Rose Show during the March meeting. The President appointed Piere Schneider, E. Lombard and E. Denker as judges. They brought in the following report: Mrs. Chas. Knopf, 90 points; Lucille, 89; Ruby, 89; Sangamo, 88; Superba, 87; Gov. Deneen, 80. The latter arrived in bad shape. Among the local growers who won first and second prizes were W. J. Pilcher, J. Steidle, E. W. Guy and J. F. Ammann.

There were quite a few visitors, among them being A. C. Brown of Springfield, Ill., Martin Reukauf and J. J. Karins of Philadelphia.

At the subsequent entertainment at the Bismarck, after refreshments had been served President Young called order and made a good talk for the good of the club, and appointed J. J. Beneke toastmaster, who responded and in turn called upon members and visitors for short talks, to which they happily responded.

NASSAU COUNTY HORTICULTURAL SOCIETY.

At the regular monthly meeting, on February 10, the attendance was light, owing to inclement weather, but the monthly points competition was as keenly contested as ever. G. Wilson, gardener to Mr. B. Stern, showed a vase of exceptionally fine gardenias. S. J. Trepass exhibited a beautiful specimen of *Coelogyne cristata*. Paul Reul with freesias, C. Knight carnations, H. Gaut sweet peas, James Elmlic and V. Cleres carnations, and F. Gale tomatoes were the other competitors in the competition. There were also displays of flowers, fruit, plants and vegetables from numerous sources conspicuous among which was a collection of indoor grown vegetables from Paul Reul and a dish of lovely oranges by F. Gale.

W. H. MACKENZIE, Cor. Sec.

ILLINOIS STATE FLORISTS' ASSOCIATION.

The fourth annual meeting and exhibition of this useful Society was held at Springfield, Ill., on Tuesday and Wednesday of this week. The attendance from all over the State was very gratifying and the exhibition, which we shall report in full next week, was large and comprehensive, carnations especially strong. A number of interesting papers were read.

President's Address.

After bidding a cheery welcome to the members and visitors and referring with feeling to the fact that the meeting was being held in the home of Lincoln and on the centennial of his birth, President Hey spoke of the valuable work being done by the State Experiment Station and the improved facilities recently completed for the furtherance of this work and stated that it was proposed to go before the legislature this year and ask for an annual appropriation of \$17,500 to carry on the work. The college officials had generously come forward and donated the munificent sum of \$5,000 out of the college funds to help along and the Association should be deeply grateful. He called attention to the fact that Illinois has now taken first place in the front rank for experiment station usefulness from a floricultural standpoint. Referring to the census of 1910 he said that, following the plan of the Association and the committee of the S. A. F. working in conjunction with the Census Bureau at Washington, it is expected that the record in floricultural statistics will be far more complete than it has ever been hitherto. Continuing, he said:

"Through the efforts of this Association we were enabled to make a better showing at the State Fair. I called your attention to this matter last year and wish to again remind you that there is still room for improvement. The schedule needs revision to bring it up to date and I think the time has arrived when this Association ought to take some action in getting an appropriate building for the Floriculture Exhibit. I would therefore again recommend that a committee be appointed on floriculture at the State Fair.

"I think that the Association would be much benefited by having the different floral centers of the State represented by correspondents with whom the secretary or president could keep in touch. As the old saying has it, 'What is everybody's business is nobody's business,' and it has often been difficult to get information that is needed. I would suggest a similar plan to that of our National Society and I think it would prove of great value to get for our records a complete statistic of our business. This will be especially valuable in furnishing data for our legislative work and other things which our Association will need for its future development. These correspondents should be kept supplied with our literature and other matter and could aid the Association greatly in increasing its membership. At the last convention the Association recommended that certificates of merit be issued to all exhibits worthy of the same. It is hoped that this will bring out a better exhibit."

Concluding, Mr. Hey recommended

that some action should be taken favoring a legislative enactment recognizing some appropriate flower as the State Flower of Illinois and extended appreciative thanks to the officers and members and the University officials for their zealous support and assistance during his two terms of office as president, promising similar interest on his part for whoever should be his successor.

Report of Advisory Committee.

W. N. Rudd reported as Secretary for the Advisory Committee of the Illinois Experiment Station for the year ending February 10, 1909. After giving details of the various meetings of the committee, the planning for and raising funds for the new greenhouses and other essential work Mr. Rudd continued as follows:

In conclusion the committee wishes to make known to the Association the extent of the obligations of the florists of this State to Mr. Eugene Davenport, director of the Experiment Station and to Mr. J. C. Blair, chief of the Department of Horticulture. These gentlemen have shown a most enthusiastic interest in our project and have forwarded our plans in every possible way. It is well known to the members of this committee that the general funds appropriated for the Experiment Station are inadequate and these gentlemen are at all times hard pressed to make both ends meet; therefore their action in drawing upon their scanty resources for \$7500, more than half the total amount needed for our buildings, should be thoroughly appreciated by every member of this Association and your committee believes should be testified to by a vote of thanks. The committee also wishes to signify its high commendation of the work done by Mr. H. B. Dörner. Having been in close touch with him at all times and having made frequent and careful examination we have found nothing to criticize, much to commend and believe that the Station as well as this Association is to be congratulated in securing his valuable services.

We wish to urge upon every member of the Association the desirability of visiting the University as often as possible and of inspecting the work being done for us there. We believe that all will concede that the greenhouse plant is a model commercial plant and well worth the study of all florists as regards construction details and heating apparatus. The committee feels sure that every florist will be made welcome by Mr. Dörner and that the educational value to each one coming from an examination of the work can hardly be overestimated.

The present plant of course is only a beginning and the more glass structures that can be provided the more value we shall get from the work; therefore it should be the duty of every member of this Association to get in touch with Chairman Ammann of the Legislative Committee and assist in every possible legitimate way in securing the passage of the present bill. It should be noted that while we have now two one-hundred-foot houses, if we get the appropriation asked for we shall be able at once to erect four more houses, thus giving us three times the present capacity for doing good work for the florist.

The committee congratulates you upon the great work so well begun and feels that the achievements so far are only a small part of what may be done each year through the years to come, provided that this Association and its individual members keep their shoulders firmly against the wheels and keep pushing.

Mr. Rudd then presented a supplemental report criticising the course of Prof Beal in publishing through various trade papers the results of and deductions from certain investigations regarding thrips and the value of various insecticides which had been paid for by the Station and presumably were its property.

MORRIS COUNTY GARDENERS' AND FLORISTS' SOCIETY.

Calanthe Culture was the theme for our February meeting and Percy Herbert the essayist. A short history of the genus was given, conditions under which they grow in their native habitats, and the beautiful hybrids we have secured under cultivation. Mr. Herbert only dwelt on the deciduous section as these are the ones grown for the Christmas holiday trade in this country. A considerable number is grown by him at Florham Farms and, as most of us have seen his blooms on the plants, we were glad to have him tell us how he did them. The members who came were amply repaid. The details of culture as practiced by him were given from start to finish, and a rising vote of thanks was accorded him. The fumigating was done by a box of fragrant Havanas from President Vyse.

The next meeting, March 10th, will give us fame if at all like its predecessors. It will be "Carnation Night." Of late years the hall has been filled with blooms. Novelties and standards vied with each other for supremacy. The public are invited on that night, for we have treated them to this for a number of years, and we do not wish to disappoint them now. This has given the carnation a great boost, and the carnation is a close second to the rose in Madison. We are counting strongly on the introducers sending us their novelties. I don't know how they can better advertise them, and then it will put another feather in our caps. Orange has been conspicuous in the exhibits in former years, and knowing that she has the goods on hand, we are looking that way for help. Our own talent will do their best.

EDW. REAGAN, Sec'y.

PENNSYLVANIA HORTICULTURAL SOCIETY.

The regular monthly meeting on the 16th inst. was mainly taken up with consideration of the schedules for the spring and fall shows. The spring exhibition will be held March 23rd, 24th and 25th. The fall show (usually called the chrysanthemum exhibition) will take place Nov. 9th, 10th, 11th and 12th. The prize list for the spring is now ready and may be had on application to David Rust, the secretary. Resolutions of sympathy were passed on the death of David Bearn, a member of the society for many years and always an active worker on many committees.

ROCHESTER COMMERCIAL FLORISTS' ASSOCIATION.

The meeting, Feb. 11th, of the Rochester Commercial Florists' Association was the most successful in its history. The carnation exhibit, although not large, in quality ranked A1. Among the novelties and recent introductions were Georgia, Apple Blossom, Lucille and a white seedling from Hugo Tuete. The three named varieties were exquisite and reflecting great credit on the introducers. Among the local growers represented were Chas. H. Fry and Frank Bennett, exhibiting Winsor, White Enchantress, Lawson and others. A paper was read by E. H. Rueston, Barnards, N. Y., on red spider, following which many questions were asked and answered, and a lively interest was manifest.

After adjournment, all present—some 65 members and guests—went to Eggleston Hotel, and there sat down to the first annual dinner, after which short speeches were made as follows: "Our Vocation," W. L. Keller; "Sociability," R. G. Salter; "Organization," Ambrose H. Secker.

Among the guests was Mr. Vallett, of Chamber of Commerce, whose remarks were intently listened to, and finished speaking by inviting this association as guests of the Chamber on March 1st, at 8 P. M. Several speakers alluded to the possibility of securing the convention of the S. A. F. for 1910, to be held at Rochester, which fact was received with enthusiasm; also the securing of Convention Hall for a local show this coming fall. Under the direction of President Vick, and by aid of Toastmaster Dildine, the affair was pronounced a complete success. S.

CONNECTICUT HORTICULTURAL SOCIETY.

The regular meeting of the society was held in County Bldg., Hartford, Conn., Feb. 12. Two new members were elected. Pres. Huss reported having received \$25.00 from A. T. Boddington, to be offered as premiums in the vegetable class at the fall exhibition. A photograph was presented to the society of Mr. May, who, after being connected with the J. J. Goodwin estate for forty years, will make his future home in Florida. Mr. May is a life member, and on going away carries the best wishes of the entire society with him.

The business meeting was followed by an enjoyable "smoker and whist." John Gerard captured the first prize, a handsome clock, and hereafter will have no excuse for appearing at the meetings half an hour late, even if he does come all the way from New Britain. The second prize, a bust of Abraham Lincoln, was awarded to J. Vidbourne, and the third prize, a miniature "Pegasus", went to J. Broderick.

A bunch of catalogues from Elmer D. Smith was on hand and were rapidly absorbed by the members. The next meeting, Feb. 26, will be "Carnation Night," and any exhibits sent to the County Building will be received and cared for by a committee.

ALEX. CUMMING, JR.,
Secretary.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

Tariff Committee Meeting.

In response to a list of questions sent out pretty thoroughly over the United States to importers and growers of plants, many responses have come back. The Tariff Committee will meet on February 24, 1909, at 25 Cortlandt street, New York, to take up the subject as now presented; also to look into the question of transportation relative to ice allowance.

Prizes for Traveling Men.

The following offer is made by President Valentine:

For the purpose of enlisting the traveling men in securing new members of the S. A. F. I hereby offer a first prize of fifty dollars and a second prize of twenty-five dollars to the traveling man securing the two largest numbers of new members to the S. A. F. between now and August 10, 1909.

The conditions of the contest shall be that the winner shall be a traveling representative of some concern dealing in horticultural products or supplies, and he shall forward to the Secretary as soon as received the money received for new memberships. No member shall be accounted a new one whose name appears in the published report for last year.

Before any man can win either of these prizes the membership fees sent to the Secretary by him, under this contest, must have been double the amount of the prize claimed. For the purpose of determining whether new memberships have been secured before Aug. 10, the Secretary shall include

all memberships mailed to him bearing a post mark not later than August 10th.

Should any difference of opinion arise regarding the award under this offer, the matter shall be decided by the members of the executive committee present at the next annual convention of the society in Cincinnati, and their decision shall be final.

The writer will be glad to forward a supply of application blanks and addressed envelopes to any traveling man wishing to enter this competition.

W. N. RUDD, Secretary.
Morgan Park, Ill.

ELBERON HORTICULTURAL SOCIETY.

The first annual dinner of the Elberon (N. J.) Horticultural Society was celebrated at the Deal Country Club on the 10th inst. The tables were beautifully decorated and the menu was all that could be desired. About one hundred enjoyed the feast. Arthur Harrington acted as toastmaster. Among the notable guests present were members of Long Branch City Council Mr. John Shore, W. E. Maynard.

The society held its regular meeting on the 15th inst. After the routine business had been disposed of N. Butterbach read a paper on Roses, which was listened to with marked attention and followed by a spirited discussion by all the members present, which pleased Mr. Butterbach so much that he thanked the members for the pleasure it gave him to read to such an enthusiastic meeting. A hearty vote of thanks was given Mr. Butterbach.

W. B.

DETROIT FLORIST CLUB.

The Detroit Florist Club held a very successful exhibition at the Michigan Cut Flower Exchange, only the heavy blizzard which has been with us since Saturday night delayed some shipments and many members were deprived of the opportunity to see. Among the exhibits sidetracked were Bertermann Bros.' yellow carnation Jas. Whitcomb Riley, Shasta from Bauer & Smith and Lucille from Highland Park Greenhouses. Van Boeslager's crimson carnation Clara was there in cut and plant form, and really outstripped anything ever shown here. Thos. Brown had some very excellent Beacon, Lawson, Enchantress and Sarah Hill. Many other things could be mentioned but we shall mention only Mr. Plumb's Brides and Bridesmaids, of perfect development and 3-foot stems.

Mr. Gammage of London, Ont., brought pleasure to all with a most interesting discussion of the management of carnation houses. Like all successful men he lays great stress on a proper systematizing of the routine work. Do not waste your time by doing work which a \$3.00 a week boy can do; on the other hand, pick the best man on the place to do such important work as planting out. To harvest good flowers, plant in May and 14 in. apart. Mr. Gammage read some exhaustive statistics as to the productive quality of the leading varieties and the expenses connected with growing. His net result of first class flowers per plant per season is considerably less than usually reported, but he considers the season closed by May first. These features properly weighed will explain his low average of eight flowers to the plant.

* The rule governing sports of existing varieties is that they must be submitted to three of the five Committees the average of the three scores to regulate title to certificate. The varieties Improved Chadwick and Yellow Sport of J. A. Miller having been submitted to only one committee each are therefore not entitled to a certificate.

CHARLES W. JOHNSON, Secretary.

FEEDING THE CROPS.

Extracts from "The Yeast of the Soil," a paper read by William H. Bowker before the Massachusetts Horticultural Society.

"The yeast of the soil," as we shall consider it, is not plant food, but low orders of life which exist in the soil and but for which agricultural soils would be practically barren. "The yeast of the soil" is what is scientifically known as bacteria—organisms which thrive in the soil and by means of which, unavailable plant food, especially nitrogen in the form of organic matter, such as stable manure (leaves, stalks, etc.), is rendered available. The great discoveries of Hellreigel, the leading investigator along this line, demonstrate that higher orders of plant life are dependent upon lower orders of life. We could not profitably grow a corn or potato crop unless these organisms were growing at the same time in the soil, or had previously existed there and done their work.

In the spring of the year, when the weather conditions are usually unfavorable for the propagation and rapid multiplication of these soil "yeast plants," commercial manures are found of great assistance in forcing an early growth by supplying forms of plant food which have been rendered soluble by chemical treatment or are, so to speak, predigested, and ready for the crop to feed upon immediately. Since most of our cultivated crops make their chief growth in from sixty to ninety days, it will be clear that we must have plant food in the soil that will feed the plant from beginning to end, especially in the beginning of the season when the bacteria of the soil, owing to weather conditions, have not gotten under way.

In the majority of cases it is no doubt cheaper and, if not better to apply stable manure in its crude state, directly to the soil, to cultivate it into the soil and allow the bacteria to attack it there; in short, to compost it in the soil rather than beforehand. In many cases it is desirable to use some thoroughly composted stable manure,—manure which has been subjected to the bacterial process, broken down, and a considerable part of its crude plant food converted into available forms. This, however, was deemed more necessary years ago, before commercial manures were introduced. Now that concentrated available plant food can be bought, the necessity of composting manure in advance, is passing out. It is not only a slow process, but more or less wasteful and expensive, for in the process of nitrification through the bacterial action, a considerable amount of ammonia may be set free and wasted into the atmosphere. This always takes place when the compost pile is allowed to "fire fang" and turn white.

It is urged, however, by some experimenters that composting is desirable in order to raise the temperature of the manure pile to a point that will destroy the foul weed seeds, but is not this an expensive way to destroy weed seeds, as obviously it

must expose the compost to loss of ammonia while also consuming time and labor? Except where a very fine seed bed is desired, with considerable humus present, it is believed the compost heap will go out and commercial manures will be used in its place for forcing purposes.

In the matter of fine cultivation, the old theory of cultivation was to kill not only the weeds, but to make the soil light and friable, to admit the air, to encourage the circulation of moisture through the soil, and to make it an acceptable medium for the roots of the crop. The modern theory includes the old and also recognizes the necessity of making the conditions as favorable as possible for the growth of bacteria. Thorough cultivation also conserves the moisture of the soil by means of a fine mulch on the surface, which prevents the moisture from evaporating.

Formerly, the practice was to manure the soil in order to restore lost fertility and to supply, by guess work, deficiencies in the soil, as ascertained by a chemical or a crop analysis of the soil. This method is not now regarded as a practical solution of the problem, for neither chemical analysis nor the growing of crops can be relied upon as a true guide to its enrichment. The chemical analysis of the soil discloses too much that is misleading, and the growing, or even the matured crop, too little that is conclusive.

Modern practice teaches that it is not the soil, but the crop that we should first consider. In a word, we have turned from the soil, which cannot positively answer, full though it is of life, to the living crop which can; so to-day we feed the crop rather than the soil. In the modern sense, therefore, the farmer is a manufacturer and the soil is his machine, into which he puts plant food and out of which, by the aid of nature, including the bacteria and other seen and unseen forces, combined with his own efforts, he takes his product at harvest time. If the soil machine is a good one, that is, of the right texture and retentive of plant food, full of active nitrifying bacteria or "yeast", so much the better. If it has a balance of crop-producing power to its credit, we seek to preserve that balance for an emergency, as the prudent man preserves a balance in the bank in case of panic.

(Continued)

Otto Katzenstein has a new vegetable named Helianti, which he will introduce next season and for which large claims as to yield and economic value are made. Watch for the advertisement later on, in HORTICULTURE.

HILFINGER BROS.' FLOWER POT MANUFACTORY.

Our illustration shows the process of flower pot making at Fort Edward, N. Y. The large machine seen in the picture is making 3 in. standard pots, and the other is making 2 1/2 in. The establishment of Hilfinger Brothers was begun by John Hilfinger and his sons in 1884, and has since then constantly increased in facilities, growth and output. The senior Mr. Hilfinger died some twenty years ago and the boys stepped into the harness and have conducted it with phenomenal success ever since. There were three of the brothers, Fred, Rupert and Alexander, but Rupert died four years ago. The

firm's specialty is standard flower pots in all sizes, though everything in the line of stone ware, jars, milk vessels, churns, of every description is also manufactured. One machine is capable of producing from 3000 to 8000 flower pots per day, varying in size from 2 to 8 inches, by the changing of dies. Large stocks are kept on hand for immediate shipment, a mill for manufacturing shipping crates, ware sheds, power house and other conveniences enable promptest service and ware has not only been shipped to every state in the Union but to Hawaii, Porto Rico and Cuba.

MAKING POTS.

When a greenhouse man is out of any particular kind of pots, he simply goes to the telephone and calls up the potter, and, if the ghost has walked at frequent intervals, in the course of a very short time the pots, nicely packed, are at his door. Further than this the greenhouse man does not concern himself. The detail of manufacture is nothing to him, and neither is there anything attractive in the technical part of production; the clay, getting it into condition, the losses, the machinery an up-to-date pottery requires, the magic of the potter's wheel, the skill of the man at the wheel, etc., all these, and hundreds of other interesting points are unnoticed. But, and notice the "but"—if there are any pots

broken, in the thousands ordered and received, there is sure to follow a many adjectived conversation that will enlighten the potter's man on several points about his miserable self, that he may have quite forgotten.

A visit to a pottery has an element of fascination for even the least interested, and with a good guide to explain things, a pleasant few hours can be spent there. With the potter there has been the same march of progress as in all other manufacturing lines, and machinery and methods have changed and improved to keep in step. The primitive methods in vogue twenty-five years ago, and which were adequate to the times and demands, have been passed up, and pottery making has risen to the dignity of an art, through the process of a few decades of evolution, with new and wonderful machinery, new methods, though with no better workmen, but with those having wider range of skill made pos-

sible by the improvement in their tools.

The press of competition has added to the expense of marketing the products of a pottery, and it means an active brain and a continuous "hot foot" to keep the figures on the right side of the ledger. A man that tries to do the Micawber act of waiting, will have troubled dreams and on awakening will find but little use for clay or machinery.

Years ago a local trade would keep a fellow happy and busy, but the progressive potter of today is not satisfied with a limited sphere, and he reaches far and wide and will ship pots from here to there, and from there back again, thousands of miles east, west, north and south. It takes a live man to meet such a proposition as this.

Under such speedy methods the natural results are that there are very good pots and very bad pots, and it is up to the buyer to get on the right track for the proper goods. You cannot put plants into promises, however strong they may be made.

When trade is dull, and there is no business that can get any duller than the florists' or gardeners, the tedium of the waiting could be killed by taking a day off and visiting a pottery. Even if you have been there before, a good guide will always find something new to show you of interest.

L. J. DOOGUE.

Rochester, N. Y.—Paul Thomann has now re-opened his store, he having been closed on account of fire several weeks ago.

The new private greenhouse of Mr. Bonbright, East avenue, is now finished and has been filled with the usual run of palms, ferns, etc., and, is now a place well worthy a visit. The gardener in charge is Otto Graesnae, for many years with Ellwanger & Barry.

Pennsylvania. 4 ft. Green foliage. Deep scarlet.....	.35	2.25	20.00

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St., NEW YORK CITY.

CLUB AND SOCIETY NOTES.

James H. Burdett succeeds E. A. Kanst as secretary of the Horticultural Society of Chicago.

At their meeting on February 8, the Greater New York Florists' Association elected D. Y. Mellis, president; H. Jahn, vice-president; R. G. Wilson, treasurer; W. A. Phillips, secretary.

The Marion County (Ore.) Horticultural Society has elected the following officers for the ensuing year: C. J. Kurtz, president; John Pemberton and Enos Presnall, vice-presidents; E. C. Armstrong, secretary and treasurer.

The Rochester Commercial Florists' Association has a membership of about one hundred. The officers are: President, Fred W. Vick; vice-president, A. H. Secker; secretary, H. B. Stringer; treasurer, W. L. Keller.

The Dutchess County Horticultural Society held its annual meeting and election of officers at Poughkeepsie, N. Y., January 29. The following officers were elected: C. J. Reynolds, president; James Blair, vice-president; Geo. Sweet, treasurer, and H. G. Cottam, secretary.

The Philadelphia Florists' Club bowling team went to Washington on Wednesday, 17th, to play a match with the florists there that afternoon. The same evening they played another with the Baltimore team. The date for the return match in Philadelphia has not yet been announced. The visiting team consisted of Connor, Yates, Robertson, Dodds, Holmes and Graham,

The New York Florists' Club's annual banquet, which is to take place on February 27, is already the talk of the town and nearly three times as many tickets have been sold, two weeks in advance, as were taken in any recent year. The committee in charge is moving on new lines and innovations are effective even in New York, where people are popularly supposed to have tried everything. At the rate of demand up to date the probabilities are that all the capacity of the Roman banquet hall at Shanley's will be sold out in advance.

FIRE RECORD.

Dixon, Ill.—The large tank which has supplied water to the greenhouse of Norman Long was burned on Feb. 2.

Kearney, Neb.—On the evening of Jan. 29, Green & Wiley had three greenhouses with their contents badly damaged by a fire which started in the boiler room.

Chicago.—At 2 A. M. Sunday, Feb. 14, the house of Wm. H. Kidwell, 4453 Ellis avenue, was found to be on fire. Mrs. Kidwell awakened first and gave the alarm to her husband and six children. They escaped uninjured, but the furniture is almost a complete loss. At this writing the insurance has not been adjusted. The house itself was not owned by Mr. Kidwell. The fire is supposed to have been caused by an overheated furnace, and the escape of the family is very fortunate. Mr. Kidwell, who is well known in the trade in Chicago, has the sympathy of many friends.

PERSONAL.

Jas. H. Morton, late superintendent of Mt. Hope Cemetery, Boston, has gone to Cuba for a six weeks' sojourn.

Fred Smythe of Wadley & Smythe, New York sailed last week on the Mauretania for a brief European visit.

Edith Lempster has retired from business at Winniepe, Man., and from the position of corresponding secretary of the Winniepe Florists' Association.

Mr. and Mrs. Philip Breitmeyer, of Detroit, are in Philadelphia, attending the funeral of Mrs. Grass. Mrs. Breitmeyer's mother, who died on Sunday morning, Feb. 14.

Frank Genick of Jamestown, R. I., has been committed to the State Asylum at Cranston, his mind having given way under the bereavement of his wife's death on January 28.

Miss Eva Ferguson, who for many years has had a flower stand in the grill room at the Masonic Temple, Chicago, was married on Feb. 7 to Benj. Harris, 1027 West North avenue.

P. Welch is packing his grip and getting ready to attend the meeting of the Tariff Committee of the S. A. F. at New York next Wednesday as the New England representative in that important body.

Visitors in Albany, N. Y., this week include S. H. Green, representing H. Bayersdorfer & Co., Phila.; Mr. Bryant, representing A. H. Hews & Co., North Cambridge, Mass.; Julius Roehrs, Jr., Rutherford, N. J., and Morris Cohn of Wertheimer Bros., New York.

Seed Trade

AMERICAN SEED TRADE ASSOCIATION.

Watson S. Woodruff, Orange, Conn., Pres.; J. C. Robinson, Waterloo, Neb., First Vice-Pres.; C. E. Kendeel, Cleveland, O., Sec'y and Treas. Twenty-seventh annual convention June 22-24, 1908, at Clifton House, Niagara Falls, Out.

WHOLESALE SEEDSMEN'S LEAGUE.

F. W. Bruggerhof, Pres.; Burnett Landreth, Sec'y.

THE OUTLOOK. About Beans.

The demand for green pod beans is surprising in view of the fact that truck farmers ripened a considerable proportion of their plantings last season because they could not get out of them in the green state. The recent severe weather, which extended south as far as Florida, has no doubt made replanting necessary in many sections, though this does not explain the demand only partially. It may be that being somewhat short, the retail trade is buying in anticipation of a demand which may not come. The next six weeks will tell the story.

Wax pod beans seem to be abundant with a few exceptions, and are offered at prices in some instances below the green pods. In view of the scarcity of seed stocks of most of the green string varieties, the prices at which some growers are booking contracts for next season's crop seem very absurd, and just how they can figure any profit is puzzling to the man on the fence.

The Cannerns' Situation.

Cannerns are not contracting seed as liberally as last year, and many of them declare the situation they are now facing is the worst in a decade.

The three staples, corn, peas and tomatoes, are very heavy, and can only be moved at a great sacrifice in values. The packer who can get cost out of the three items for spot goods is fortunate, as such offers as come from jobbers are generally below cost of production. The outlook for next year is giving little encouragement, and if there is anything approaching a full crop the coming season, such a condition of the industry will develop, and when the smoke clears away many of the weaker cannerns will be among the has-beens.

As regards the seed pea crop of the coming season, if there is an average of four-fold, prices will suffer a severe sinking spell next fall, and "spot" seed will go at prices far below what "futures" are now selling at. This applies especially to "cannerns'" varieties, and more particularly to Alaskas. Hundreds of acres of degenerate strains of this variety will be planted by Wisconsin farmers, a much larger acreage than ever before, and we may well ask, "What will the harvest be?"

Costly Economy.

While this seed is really junk, it nevertheless is a factor in determining prices, and many cannerns will buy it to save 50 cents per bushel on good pedigree seed. It is absolutely impossible to pack high grade goods from such

Gladiolus Bulbs

GLADIOLUS AMERICA

A few points of merit

Color: A beautiful, soft, fleshy pink, very light and much like Enchantress Carnation, except slightly tinged with lavender, which gives it the delicate coloring of the most beautiful Laelias. Words fail to do justice in describing this grand and glorious color; it must be seen to be appreciated. Purposes: For florists' use, i. e. color makes it everything to be desired; for an attractive and absolutely new; no other color in Gladiolus like it or one-half so beautiful. It has created a sensation in the cut flower markets, selling for more than five times the price of other varieties.

America. The best commercial pink in existence. 1st size bulbs, \$4.00 per 100; \$35.00 per 1000; \$165.00 per 5000.

Augusta. Lovely, pure white with blue anthers. 1½ to 2½ in., \$6.00 per 100; \$15.00 per 1000; \$70.00 per 5000.

Blue Jay (Baron Hulet). Finest blue Gladiolus yet seen. It is a rich, deep color of indigo shade. The only real blue Gladiolus on the market. \$10.00 per 100; \$50.00 per 1000.

Brenchleyensis. Extra fine red variety. 1½ to 2½ in., \$1.50 per 100; \$12.00 per 1000; \$50.00 per 5000.

May. A lovely, pure white flower, finely flaked, bright rosy crimson. 100 1000 5000

Principes. Rich crimson with very deep shadings in the throat and broad blotches on lower petals. 100 1000 5000

Salem. Fine salmon pink, maroon blotches. 100 1000 5000

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. Gladiolus are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white Gladiolus. First-size bulbs, 1½ inches and up, \$2.00 per 100; \$18.00 per 1000. Bulbs 1½ to 1¾ in., \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, faded rosy crimson; the best forcer. Selected bulbs. \$1.75 per 100; \$15.00 per 1000.

Brenchleyensis (true). Fiery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1¾ in. and up, \$1.50 per 100; \$14.00 per 1000.

Bulbs 1½ to 1¾ in., \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation, \$1.00 per 100; \$9.00 per 1000.

seed, but argument is useless when the canner can save that 50 cents per bushel. To save \$2.00 an acre on his seed, he will sacrifice \$25.00 an acre on his pack. To a mind so constituted, argument is a waste of breath, but many are built on those lines.

NOTES.

A. J. Brown of Grand Rapids, Mich., was a recent New York visitor.

Geo. D. Karsner has been appointed inspector of seeds for the State of Kentucky.

James Harry Laing is now filling the position of representative of Dupuy & Ferguson, seed and bulb dealers, Montreal, P. Q.

Two Rivers, Wis.—Louis Hartung has recently received a contract from a seed concern of Rockford, Ill., for the raising of 1000 acres of seed peas. The peas will be raised in this vicinity.

The La Grange Floral & Seed Co., 5th avenue, La Grange, whose going into business we mentioned a few weeks ago, announce their opening Feb. 19 and 20. La Grange is one of the best of Chicago's suburban towns and the seed firm start under favorable auspices.

At the fifth annual convention of the Canadian Seed Growers' Association held in the Canadian Building, Ottawa, Ont., on February 4th and 5th officers were elected as follows: President, Dr. J. W. Robertson of Macdonald College, Que.; secretary-treasurer, L. H. Newman, Ottawa. The financial statement showed a balance on hand of \$471.38. The total expenditure amounted to \$3,438.50. An adequate grant sufficient for the requirement of the association is given each year. Since the association is now placed on a firm foundation, it is fully expected that it will extend and develop throughout Canada to a still greater degree than it has in the past. Among the speakers were Dr. Chas. Saunders, Experimental Farm, Ottawa; Mr. A. P. McVannell, Perth; Prof. W. Lochead, Macdonald College; Mr. J. W. Gibson, Ottawa; Prof. R. Harcourt, Ontario Agricultural College, and Prof. L. S. Klinck, Macdonald College. Prof. Robertson addressed a large audience on "The call of the land."

CATALOGUES RECEIVED.

F. E. Stewart, Rives Junction, Mich.—Wholesale Trade List of Gladioli for 1909.

Gate City Seed Co., Keokuk, Iowa.—Market Gardeners' Price List, Pocket Edition.

F. W. Dixon, Holton, Kansas.—22nd Annual Catalogue and Price List of Small Fruit Plants.

Forest Nursery and Seed Co., J. H. H. Boyd, Prop., McMinnville, Tenn.—Wholesale Trade List for 1909.

Arthur De Meyer, Ghent, Belgium.—Wholesale Trade List, 1909. Palms, Bays, Azaleas, etc. Illustrated.

Dervaes Freres, Wetteren, Belgium.—General Catalogue of Fruit and Ornamental Trees, Hardy Herbaceous Plants, etc.

Otto Katzenstein & Co., Atlanta, Ga.—Folder of "Helianti," described as a

new winter vegetable" of phenomenal yield and superior flavor.

Archias' Seed Store, Corp., Sedalia, Mo.—26th year, "Sure Seeds." Complete in all departments. Covers, vegetables and flowers in colors.

John Peed & Son, West Norwood, London, S. E., England.—Descriptive Catalogue of Vegetable and Flower Seeds for 1909. Several promising novelties are listed in each department.

American Forestry Co., Little Tree Farms, South Framingham, Mass.—These are claimed to be the first purely forest nurseries in America. The list is well adapted for the purpose indicated.

W. W. Barnard Company, Chicago, Ill.—1909 Annual Catalogue of Seeds, Bulbs and Plants. Neat covers in green and white. A useful table of cultural information regarding garden crops is given.

J. L. Moore, Northboro Dahlia and Gladioli Gardens, Northboro, Mass.—Catalogue and Price List for 1909. Also wholesale price list for spring, 1909. A good, practical list, well selected from the innumerable varieties now on the market.

David Herbert & Son, Atco, N. J.—Descriptive Catalogue of Dahlias, 1909. A fine portrait of Jack Rose Dahlia adorns the front cover and Souv de Gustave Douzan the back. The list includes the best of the new and the best of the old varieties in all types.

W. E. Dallwig, Milwaukee, Wis.—Seed Catalogue for 1909. Covers adorned with annual flowers and vegetables in colors. Some very fine full-page illustrations in sepia are introduced in addition to the usual half-tones and wood cuts illustrating the text.

Palisades Nurseries, Sparkill, N. Y.—Wholesale Price List of Hardy Perennials, Shrubs, Bulbs, etc., for 1909. This is a splendid list of the best things in garden material, standard and novelties. Colored plates of *Veronica longifolia subsessilis* and *Anchusa Italica* Dromore variety are inclosed.

Ratekin's Seed House, Shenandoah, Ia.—Ratekin's Seeds. 25th Annual Catalogue. This is a great book about a great business and anyone wishing to know what is being done in the west to attain the standard of perfection in corn and other farm crops will find much in this catalogue to interest him.

King's Acre Nurseries, Ltd., Hereford, England.—Annual Catalogue, Autumn 1908 and Spring 1909. A very handsome publication. Printed in two colors throughout on heavy cream paper, antique finish. Cover dark sage green, lettered in silver and bound with white cord. There are no illustrations on the text pages but there are several half tone inserts and the effect is good.

Wm. Paul & Sons, Waltham Cross, Herts, England.—Catalogue of Roses. A very valuable publication as a reliable reference book for anyone interested in roses, apart from its use as a business getter for the house sending it out. There are several striking rose portraits, one being a beautiful colored plate of Tea Scented Rose "Hugo Roller," a most distinct and attractive novelty. A colored plate of Hybrid Sweetbriar Refulgence forms the frontispiece.

Everything "For the Land's Sake."

The one firm in Boston where all good forms of plant food may be obtained, is the Bowker Fertilizer Company, opposite Faneuil Hall at 43 Chatham St. All greenhouse chemicals, Nitrate of Soda, Ground Bone, Potash Salts, Sheep Manure and Wood Ashes can there be had at first hands.

Flower Market Reports.

BOSTON. The season is in good running order and between the scarcity of certain staple products and the bustle of the mid-winter social season there is plenty of encouragement for the buyer and incentive for the dealer so that little change in values is likely to occur until Ash Wednesday interposes. The crops have slackened generally, and on some lines, quite decidedly. Sunny weather may make some difference should we get it, but that is an uncertainty at this particular date.

American Beauties are the scarcest flowers in the Chicago market, and what there are of poor quality. Long stemmed ones are hard to get and the price is high, but medium ones are practically an impossibility. The very short ones are usually of so poor a quality as to be worthless. This scarcity of Beauties seems to come periodically according to the growers, and they are rejoicing in the good fortune of having so fine a rose as Richmond to fall back on. The inability, however, to meet the extra demand for Richmond has made extra call for Killarney and Bridesmaids, so Brides are the only roses this week that can be said to really equal the demand. The sales of carnations are increasing and prices are somewhat better than during the past month, especially in red, but there is still a very large supply. There is also an abundance of bulbous stock. Unless a large number of some special color is desired, particularly in red, the buyer has no difficulty in getting what he wants. St. Valentine's Day caused extra demand. Bright colors were, of course, given preference. Florists in general express the belief that the old time valentine is losing ground and boxes of cut flowers gaining in popularity as a Valentine offering. Violets are recognized here as a leading favorite for St. Valentine's Day. All the dealers were prepared with a good supply both home grown and from the Hudson River district, and they made no mistake. Sales would undoubtedly have been large had the weather been pleasanter.

A general satisfaction prevails regarding the improved turn of business. While wholesale prices have not advanced any there is more confidence among retailers and a consequent stiffening up of prices in the retail trade. St. Valentine's day gave this week an especially good finish. As compared with last year we must report the same as last Christmas, a trifle less with prices averaging 20 per cent lower. Considering the scarcity of stock, especially violets, it is difficult to explain the comparatively low prices.

The past week was clear and warm. Everything in season seems to be in abundance. There is a fair amount of work going on among the retailers and trade promises to remain satisfactory until Lent when the usual drop may be expected. All report a big trade on St. Valentine's

Day, equal to if not more than last year. No large sales reported, but a good volume of business on the medium priced stock. Good Beauties are somewhat scarce and are bringing good prices. Good carnations are to be had at reduced figures. There is a good trade in all kinds of bulbous stock. Sweet peas meet with ready sale. Azaleas, cyclamens, primulas, cinerarias and bulbous stock in pans are the plants most called for. Eastern double violets are received daily and are moving well for this time of the year. Trade conditions good on all kinds of green stuff.

PHILADELPHIA

The week ending Feb. 13 was one of the best we have had the pleasure of reporting for some time. Demand was good and stock not over plentiful so that the market was cleaned up at good prices all along the line. Contrary to predictions violets were not scarce, there being plenty to go around. The growers had evidently been holding off in picking in advance and created a wrong impression. One grower who had hardly sent in 500 in a week piled in 5000 for the 13th. Of course the mild weather helped the situation somewhat in violets, while on the other hand it was against roses, which for lack of sunshine were off crop. Violets and daffodils were the two most plentiful items on the market, but both were in prime condition and large quantities were disposed of. American Beauty roses are still scarce. Bride, Bridesmaid, Jardine and Killarney are all keeping up the pace as to quality. The carnation market is in good, healthy form both as to quality and quantity with demand excellent. The

lily of the valley situation has improved, there being but little at any time left hanging in the wholesale market. Orchids continue short and are grabbed up quickly early in the morning. Acacia pubescens is a welcome and desirable feature which the best stores are eagerly reaching for. Gardenias are in fairly good supply and selling well. Paper Whites and Roman hyacinths are in happy contrast to "the lemon" they presented last year; fewer planted, that's the secret; better for all concerned. Some fine freesias are coming in, also a good many that are not so creditable.

The recent warm Washington weather has flooded the Washington market with cut flowers of almost every description. The unusually large demand, though, for funeral work and social gaieties has prevented a serious congestion. Many orders were booked by Washington florists for the "Maine Memorial Services" held Feb. 15th. The retailers announce that the St. Valentine anniversary just passed has broken all records for floral valentines. We hope that each year's record will continue to surpass the last one.

THE PHILADELPHIA SPIRIT.

Neighbors in West Philadelphia, Chestnut Hill and other parts of the city, furnished their expert workmen in two's and three's and half dozen's to help W. K. Harris repair after the cyclone. A decent and friendly spirit highly commendable.

IN BANKRUPTCY.

Quincy, Mass.—Edwin Arnold, liabilities, \$4116; assets, \$1325.

EVERYBODY KNOWS

Gardening cannot be properly done without the aid of an accurate leveling instrument.
Bostrom's Improved Levels, No. 2 at \$15.00 and No. 3 at \$25.00, are conceded by all who know to be the only levels on the market which meet all the requirements, at the price.
Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make.
Shipping weight 12 lbs. Description on request.

NEW YORK MARKET.

It only requires the influence of bright, warm weather, which is reasonably due to arrive about now, to make values sag rapidly in the flower market. While there has been no extreme drop thus far on any line, yet the tendency is unmistakably downward, especially on anything of which there is a normal supply coming in. American Beauty roses have been still in very light supply, the quality averaging poor and the demand for fancy stock exceeding the available product. Other roses show weakness in selling except where of unusually high grade. Carnations and bulbous

stock generally run lower and lower from day to day as cut increases. Violets have little to lose and with pleasant weather may be expected to hold their own for a time.

The S. S. Pennock-Meehan Co. of Philadelphia have completed arrangements to open an up-to-date commission house in Washington, D. C., on March 1st. In addition to cut flowers and plants, a complete line of ribbons and supplies will be handled. The active co-operation of the parent house in Philadelphia will of course be a feature, and will do much to make a success of the venture. Albert Schnell will be manager.

Notice to the Trade.

Millang Bros. at 41 West 28th St, New York City, announce that Charles Millang has no connection with the Firm of Millang Bros.

AUGUST MILLANG.

HELP WANTED

WE need a man who knows seeds and plants in a practical way and who can write of them in good English. Ability to express himself in few words, easily understood, absolutely essential. Daily newspaper training almost indispensable. Good habits and capacity for hard work necessary. Working knowledge of seed, nursery or florist's trade, experience in an advertising agency, and familiarity with type and other print-shop accessories, highly desirable. If there is such a man open to engagement we can offer him the opportunity of a lifetime. Inquiries invited from persons who possess one or more of the stated qualifications.

—THE—

McFARLAND PUBLICITY SERVICE

Specialists in Horticultural
Advertising.

HARRISBURG, PENNA

GREENHOUSE PLANT FOR SALE

Consisting of three houses, 32 x 142, 18 x 75 and 10 x 15 respectively, with cold frames and sash. Built by Lord & Burham Co., steam heated with Burham boiler. Strictly up-to-date and with every convenience for commercial business. Owners are in another line of business. Apply to J. E. Norcross, with Jones, McDuffee & Stratton, 33 Franklin St., Boston.

FOR SALE—An up-to-date greenhouse; property in good repair; situated in the State of Massachusetts; 12,000 feet glass, stocked for cut flowers and pot plants; large nine-room house, one six-room house, large barn, 6 acres good land; established for 36 years. Doing good business, \$3000-4000. Cash. Reason for selling, owner going out of business. Address P. M. 100, care Horticulture.

FOR SALE—Retail nursery, sixth year, doing good, steady and increasing trade. Stock in excellent condition. Only local supply for community of 50,000. For particulars address R. N., care HORTICULTURE, Boston.

FOR SALE—Long established retail florist business in one of largest cities, doing a very profitable business with high class customers. Address F., care HORTICULTURE, 11 Hamilton Place, Boston.

MISCELLANEOUS WANTS

WANTED TO BUY—Greenhouses and all kinds of greenhouse material; dismantled and removed at once. Best prices. Terms cash. Address, Max Tomback, 24 Avon Place, Newark, N. J.

WANTED TO BUY—Complete green house plants and all kinds of greenhouse material, to be taken down and removed at once. Terms cash. Address I. Sussertman, 229 Livingston St., Newark, N. J.

WANTED to lease, and buy later, greenhouses, with land; retail location. State size of houses; size of glass; full particulars. Address Business, 180 Grand St., Jersey City, N. J.

BUSINESS CHANCES

WANTED—To unite in partnership in Massachusetts with man needing more capital or assistance in floricultural business warranting expansion; or to join with man thoroughly qualified in floriculture in establishment of new enterprise. Address K., care Horticulture.

NEWS NOTES.

Henry King, a young Scotch gardener from Glasgow, made a sad entry into the new country for which he and his young wife had set out so hopefully on the Laurentian of the Allan line, bound for Boston. His wife became very ill on the voyage and on arrival at Boston was immediately transferred to the Carney Hospital, where she passed away last Saturday night. King, having been detained, in accordance with the law, was not allowed to visit the hospital until after his wife's death.

The legal proceedings instituted three weeks ago against W. L. Lewis, a Worcester, Boston and Marlboro florist, by H. K. W. Andrews & Son of Marlboro, have been settled out of court and the attachment dissolved, so Atty. Joseph A. McGee said today. Atty. McGee, for the plaintiff, and William Clapp for the defendant.

The action was one of contract, and the ad damnum was for \$300. The suit was filed at the city hall two weeks ago, and was to recover for labor and materials alleged to be furnished the defendant by the plaintiff in conducting the floral business in Marlboro.—Worcester (Mass.) Telegram.

"SOLD BY SEED DEALERS"

"HORICUM"

TRADE MARK

HORICUM

Poly-Sulphides of Calcium 30%. Specific Gravity 1.50

DIRECTIONS FOR USE

San Jose Scale Killer and Fungicide

This preparation is lime, sulphur and salt, making a concentrated Poly-sulphide of Calcium. The salt adds to the adhesive properties, but the destructiveness to Scale Life lies in the Calcium Sulphide.

Aside from its ability to destroy San Jose Scale, **HORICUM** is a Fungicide, preventing the free development of fungoid troubles. Shake the package thoroughly or take the top off.

The color in its concentrated form is a deep bronze green. **Do not pour off the clear liquid only**, stir the **Horicum** from the bottom of the package, and add 20 quarts of water (hot, if you can get it) for ordinary use. For a stronger dilution when the growth is all dormant use 16 parts of water only (hot, if you have it) and spray thoroughly. By grading your dilution you make it any desired strength.

The King Construction Company has received an order by cable from Messrs. Richon & Hermes, a prominent horticultural concern at Parame, France, for two of their large iron frame greenhouses. Before deciding to increase their greenhouse plant, Mr. Richon made a visit to England, Holland, Belgium and Germany in search of the most modern constructions for their new greenhouses. Two visits were also made to the United States. The fact that the King Construction Company's iron frame greenhouses have finally been selected, is certainly a compliment to the King

Construction Company as well as a tribute to the advanced state of the art of greenhouse construction in the United States. It is stated by the King Construction Company that negotiations are in progress for the placing of other orders and that by the end of the season it is expected that there will be numerous greenhouses of the King type, erected in European countries.

A large representation of the florists of Boston and vicinity attended the committee hearing at the State House February 17 on the bill to exempt steam boilers for "horticultural" purposes from the provisions compelling the employment of a licensed fireman, on the same basis as the exemption of boilers used for "agricultural" purposes. Allan Peirce is the active man in pushing the amendment and expresses confidence of ultimate success.

OUR IRON FRAME HOUSE

There is an argument—a strong argument—in favor of putting money into a house that is not an experimental construction. The THEORY of how long a house will last is a good talking point, but the FACT that our Iron Frame Construction has stood the test—the severest kind of tests—makes it the only SAFE PROPOSITION.

Send for our illustrated circulation—Iron Frame Greenhouses for Private Plates.

1170 Broadway New York

The Advantages of The Burnham Short Tie Bolts

- Much time saved in erecting.
- No blocking up of sections to tighten them.
- Each pair of sections have their own tie bolts.
- You can tighten each section perfectly as you go along.
- When you increase size of boiler by adding sections, you don't have to buy new long tie bolts. We furnish the short bolts and washers with each section.

BOSTON: 219 Tremont Building. PHILADELPHIA: 1215 Filbert St.

THIS IS A GOOD-SENSED PROPOSITION

You know it is often desirable to have the gardener's cottage connected with the greenhouse, but to attach it direct has objections. We got around the objections in this case by putting the work room between it and the greenhouse. This makes a very handy arrangement.

It is located in Tuxedo Park, and the U-Bar construction was chosen because it is the lightest house and the most attractive.

Have you sent for that catalog? Then why don't you?

SINGLE CHRYSANTHEMUMS

From Seed

I am offering seed of Wells' new early flowering singles, in original sealed packets, at 25c and \$1.00 each. These can be sown any time and, planted outside in the Spring, will give you bushels of flowers in early fall, or plants can be lifted and potted when in flower.

— ALSO —

WELLS' NEW HYBRID PENTSTEMONS

This is a new race that shows the most glorious combinations of colors in scarlet, crimson, pink and white. The plants grow 2½ feet high and the flower spike is 18 inches long. No one who has not seen it can form any idea of the brilliant display a bed of these plants presents. No trouble to grow. Simply prick off the seedlings, like asters, and plant outside in May.

Trade packets, 25c and \$1.00 each. Hundreds of seeds in a packet.

In writing to Advertisers kindly mention Horticulture

Cypripedium Ursula

This pretty seedling has just flowered in the Wyndhurst collection, from seed sown in February, 1901. It is a little gem, showing strongly the characteristics of the pollen parent *Niobe Shorthillense*, but larger in every detail. The dorsal strongly favors the seed parent *Leeanum Clinkaberryanum* in shape, but instead of the characteristic spots of that variety, it is beautifully colored, with *Niobe's* blood, radiating from the base until lost in the pure white above. The petals are deeply corrugated on upper edge as in *Niobe* but the influence of *C. Specerianum* is shown in the coloring, and also in the shape of the pouch, which is very wide at the top, the points touching the petals on either side, as seen in the accompanying photograph. It is a well-shaped flower, and a very desirable addition to our collection.

ALFRED J. LOVELESS.

REMARKABLE PLANTS AT THE ROYAL HORTICULTURAL MEETING FEBRUARY 9, 1909

Notwithstanding the cold weather prevailing at the last meeting of this society the floral display was an especially fine one, orchids, primulas, cyclamens, and forced plants of all kinds being shown in large numbers. Lieut. Colonel Halford showed among other orchids a magnificent plant of *Odontoglossum crispum Harryanum* with three main spikes measuring from 3 to 5 feet in length, the longest having seven subsidiary, short branches. The plant was growing in a 10-inch pot. The same exhibitor showed plants of *Laelio-Cattleya Goldfinch superba*, a hybrid having golden yellow sepals and petals, as is also the base of the throat. The lip is of glowing purple. The hybrid is the result of a cross between *Laelio-Cattleya Warnhamensis* and *Cattleya aurea*. A few other hybrids having similar golden tints on petals and sepals, but various markings and striations were likewise noticed.

Mr. Cookson of Wylam on Tyne, a famous orchidophile, showed many fine plants including the beautiful *Odontoglossum ardentissima Petersii*, and varieties of *Od. Pescatorei*, and was the recipient of a Gold Flora

medal. Mr. Cookson showed a *Brasso-Laelio-Cattleya* named *Cooksoni*, the flowers of an orange-creamy tint. It is scarcely a very showy flower, but is interesting as an example of what hybridists are doing among the most diverse species.

Sir W. Marriott showed one curious hybrid in *Sophr.-Cattleya Ceres*, a small sized crimson bloom, and another of *Sophr.-Laelia Marriottiana*, an equally small bloom of vivid crimson. Messrs. Charlesworth & Co. contributed a large collection of orchids. Among their plants there were observed the gorgeous *Cattleya Enid*, a cross between *C. Mossiae* and *C. gigas*; *Laelio-Cattleya Myra*, a splendid flower with a tip of the deepest purple tint; a *Laelio-Cattleya callistoglossa magnifica*; *Brasso-Laelia Helen*, the result of crossing *L. tenebrosa* and *Brassavola Digbyana*. Numerous *Phalaenopsis intermedia*, *P. Schilleriana* var. *vestalis*, *Miltonia Hyland* and *Cattleya* were shown. Among *Cypripediums*, *Thompsoni* was conspicuous, having moss-green colored petals and sepals; and a dorsal sepal of white, purple-tinged at its base. Messrs. Hugh Low; Cypher & Sons; Moore & Co., Ltd., were exhibitors of choice orchids, receiving various awards. Messrs. H. Cannell & Sons

were the exhibitors of a capital lot of *Primula sinensis*. The varieties shown were quite up to their usual high standard, in particular Miss Caroline Ward, White Perfection, Pink Perfection, and Mr. Herbert Bennett, a flower of a pale purple tint, etc.

Mr. Geo. Mount exhibited fine cut blooms of *H. T. Rose Joseph Lowe*, a salmon pink sport from Mrs. W. J. Grant, with more substance, however, in the flowers. Cyclamens of the grandiflora strain were finely shown by Mr. W. Seward for which he was awarded a silver gilt Banksian medal. A considerable number of *Primula obconica* and *P. o. gigantea* were shown by Mr. T. Ware, showing finer trusses, more decided coloring, and robust growth, than has hitherto been the case with these useful decorative plants.

EUPHORBIA SAPINII

The Gardeners' Chronicle (English) published an account, accompanied by a figure of this interesting plant growing in the Botanic Garden, Brussels. In some respects the plant resembles *E. bupleurifolia*, Jacq, a native of South Africa. This has an erect stem, thick and succulent, and marked all over with the scars occasioned by the falling away of the old leaves, and thus presents a reticulated appearance. The leaves form a terminal cluster, are 4 to 6 inches in length, bright green with a white midrib, and the flowers are yellow. The scars of *E. Sapinii* are swollen and mamillate, and when young they are green and each is furnished with a hard spine, which seems to fall off about the third year. The flowers and bracts are very small, and are produced on very short peduncles from the axils of the leaves. The Brussels plant was introduced from the Congo.

SINNINGIA HYBRIDA (HORT.) DR. MAXWELL T. MASTERS

This is a hybrid plant raised by Herrn E. Benary of Erfurt, and named after the late editor of the "Gardeners' Chronicle." It is stated to be a cross between the *Gloxinia* of gardens, and a species of *Gesneria*. The blooms are drooping, very freely produced, and of a pink color. The petioles are of greater length than in most *Gloxinias* and the roundish ovate leaves are soft and silky to the touch.

Frederick Moore

Rocky Mountain Rambles

VI.

In ascending the valley to cross the divide between the Yellowstone and the Gallatin, one has a good view of some of the snow capped peaks of the Yellowstone, and in the low range of mountains known as the Bozeman, along the railroad, one gets a glimpse of arid farming; in these mountain valleys many hundred acres of grain are cultivated without irrigation, in the foothills. There is nothing unusual or striking in the vegetation as we slowly wind up the valley, now on one side of the mountain stream and then on another. Here we found the usual fringe of willow, osier, birch, alder, and Lodge Pole Pine on the steeper slopes, with a few flexible White Pine. At some vantage point we look down on the beautiful Gallatin Valley, one mass of green with

large ranches, green pastures, and grain fields. Going down the valley we came in sight of Bozeman, where is located the Agricultural College, a superb location.

Our train rapidly passes on down the valley and we soon see the famous forks of the Missouri, where the Gallatin, Madison and the old Jefferson meet to form the great stream of the Missouri, which flows northward. We pass up a fork of the old Jefferson but soon leave the stream and reach the divide. The most striking tree here is the Douglas Fir and like many other parts of the Rockies this area is characterized by large areas which have been burned over. This destroys its capacity for retaining water in the soil, so the run off is rapid in the spring.

On the other side of the divide the waters flow to-

The Summer Home of Marcus A. Daly, near Hamilton, Montana. The grounds used to be well kept, a large lawn and splendidly arranged trees.

wards the Pacific and before us lies the Deer Lodge Valley with the city of smelters, Butte and Anaconda. In the environs of Anaconda everything is desolation. The waters of Silver Bow Creek and other streams coming from the mountains are clear but after the discharge from the smelters they are muddy. The streams are not lined with green willows, birches, and alders, but in places dead remains of the various plants, which have been killed by copper sulphate which is contained in the water, are seen. The arsenical and sulphur dioxide fumes also contribute to the killing of these plants.

The mining industry is an important one but some better way should be devised to eliminate these poisonous substances from the water. In a suit brought by one of the ranchers who utilized the water from the Deer Lodge River to irrigate his farm, he lost his case because it was contended by the smelting people of Anaconda and Butte that the water was not injurious and the mining interests were much greater than the agri-

cultural. However, the injurious effects may be observed for fifty miles down the river.

The low mountains this side of Missoula contain the Yellow Pine, Douglas Fir, and the striking western Larch (*Larix occidentalis*) which we found up the canon. During the last part of August it began to lose its foliage and gave the landscape a yellow appearance, indicating the approach of winter.

On our way out, during the middle of July the landscape of the mountains was one mass of green and the valleys aglow with flowers. From Missoula we went up the Bitter Root Valley passing through the old settlements at Stevensville, and the growing villages of Carlton, Coalville, and Hamilton. Hamilton is the county seat of Ravalli County, made famous by the large and splendidly equipped ranches of Marcus A. Daly, who established a beautiful country home near this place. The country hereabouts has become famous as an apple and potato country.

The range of the Bitter Root Mountains from which the waters of the stream of this name come, on the whole is not a lofty one, the highest peaks being about eleven thousand feet high. The mountains are fairly well timbered. There are few lakes and comparatively few meadows in the area visited.

The lower foothills consist of bare slopes with a few trees. These consist of scattered groves of *Pinus ponderosa*, common desert plants like *Artemisia tridentata*, *Purshia tridentata*, and *Achillea millefolium*. The benches on the west slope of the mountains were once thickly covered with *Pinus ponderosa*, which has largely been removed through the operation of large lumber companies.

There is a well marked zonal distribution of the several conifers found in these mountains. The lower zone is occupied by the Yellow Pine (*Pinus ponderosa*), followed by the *Pseudotsuga Douglasii*. This is followed by the Lodge Pole Pine (*Pinus Murrayana*). The *Pinus flexilis* occupies the upper zone of the Lodge Pole Pine region. Engelmann Spruce (*Picea Engelmannii*) and Fir (*Abies subalpina*) occur in the canons and narrow valleys of the streams extending over a considerable altitude, from four thousand feet to timber line.

The Yellow Pine has admirably adapted itself to all the lower, drier slopes; much of this very rocky. The soil is rather thin, but well drained. The young trees are usually scattered in the forest, but when protected they grow as thickly as the Lodge Pole Pine. This pine makes a fairly rapid growth.

The Bitter Root forest reserve is partly located in Montana and partly in Idaho. The eastern part of the reserve has its watershed in the Bitter Root Valley; in the western part of the reserve the water flows to the Clear Water and the Salem Rivers. On the mountain slopes and in the valleys ferns overhang the rocks. Here too we meet the Western *Arbor vitae* (*Thuja plicata*), a magnificent tree.

In the Lodge Pole Pine zone there are a number of most interesting plants like the Rocky Mountain Columbine, Arnica, Valerian, *Bryanthus* (*Bryanthus empetrifolia*), Moosegrass (*Xerophyllum Douglasii*) and Gilia.

There are very few open parks in this country. The most extensive visited was at an altitude of 7,500 feet near the head waters of the Blue Joint. At this point

occurring on the outlying lower slopes are groves of the *Pseudotsuga Douglasii* and *P. Murrayana*; farther up on the highest points some *Abies subalpina* *P. flexilis*, and a little Engelmann Spruce. The most abundant of all, however, was the Lodge Pole Pine. In these open meadows there was an abundance of a Wheat Grass (*Agropyron dasystachyum*), a beautiful blue flower flax like the *Linum Lewisii*, which is well known in cultivation. Silver Plant (*Eriogonum umbellatum*) and Blue Grass (*Poa pratensis*), and other Poas; Yarrow (*Achillea millefolium*), antennaria and two species of blue-flowered Aster.

Overhanging the brooks in moist places an abundance of several species of Asters, Erigerons, the *Saxifraga punctata*, *Aconitum columbianum*, *Luzula spadiacea*, *Aspidium lochitis*, *Asplenium septentrionale*.

During the middle of August when we were camped between 7,000 and 8,000 feet altitude, the nights were cold. It froze ice every night, while the plants were frozen hard in the morning, but after the sun came out the plants were as green as during the spring season,

The Douglass Fir in the Bitter Root Mountains. Note the thick bark, an admirable protection against fire.

and the parks and woods were aglow with the *Mimulus Lewisii* and *Aconitum*.

Some of the cultivated plants, especially the forage plants, have been widely naturalized. Red Clover (*Trifolium pratense*), White Clover (*T. repens*), Timothy (*Phleum pratense*), and Blue Grass (*Poa pratensis*), have followed the trails far beyond present limits of the cultivated areas. The clovers are found miles beyond the settlements, frequently along old trails or where lumbering operations were formerly carried on. Fruit culture is successful in the Bitter Root Valley and its tributaries up to altitudes somewhat above 4,000 feet. Orchards have been planted where frosts occur nearly every week in the year. The culture of the potato occurs at altitudes somewhat higher than the apple. Cherries (*Prunus cerasus*), *Prunus domestica* and peaches succeed in the Bitter Root Valley.

 Time for a
forward movement

Surely, gaining momentum every day, business is improving on all lines. We all feel it and see it and no one can doubt that,

barring unforeseen calamities, the promised tide of pros-

perity has set in and we are full of the hopeful spirit which is born of the conviction of another period of "good times" close at hand. Now is the time to "get a move on," to leave apprehension and timidity behind, and to take a big, confident, courageous step forward, seeing that "Fortune is merry and in this mood will give us anything."

It is not unusual for one to be called upon to listen to the recital of the business troubles of an acquaintance and among

the commonest of these complaints is that of the dishonesty of some former partner or employee. No doubt the majority of our readers who have been at all in touch with business activities of any extent have had the same experience as ourselves in being made the confidant in troubles of this sort. We are not now going to find fault with the victim for complaining but rather wish to drive home another word on a subject on which we have often held forth—that of the urgent need of a more general adoption by producers and dealers in greenhouse products of modern business methods and up-to-date facilities for stock accounting, sales recording and bill collecting. It is a very poor commentary on any man's business system and natural sagacity that in an avocation so simple in its transactions he can be plucked and plundered month after month and year after year and never suspect it. Absolute immunity is, we grant, impossible but in almost every instance to which our attention has been called, a reasonable insistence upon accuracy in accounting and the systematic use of proper safeguards would have served both as restraint and preventive. The tendency in all mercantile circles, today, is toward shorter accounts and a simplifying of credit systems. No industry needs the reform more than do those the interests of which HORTICULTURE seeks to advance.

Education by precept and practice

The series of talks to the floricultural classes at Amherst Agricultural College by practical men representing the various departments of the florists' industry this season have created unusual interest among the students and given much satisfaction to the instructors and officials. This awakening to a realization that floriculture presents something more than seed germination and botanical analysis, to which attention may be given in regular college work is, happily, not confined to Amherst but is already well under way in several other State agricultural institutions and many more are showing a leaning that way. In this connection, we would call our readers' attention to the very interesting account, which appears on another page of this paper, by Prof. Dörner, of the up-to-date equipment which has been installed at Urbana. Let us hope that every State institution may in the near future be as well provided for. There are, here and there throughout the country, young men—many of them florists' sons—who having had the advantage of an agricultural college education are rapidly rising to prominence and giving evidence that in the near future they will be the big men of their profession. These have in many cases benefited by the practical knowledge gained at home, supplementing the more theoretical college training. The disposition now shown by the colleges to call in the working florist as a coeducator will help wonderfully in a direction in which these institutions have been regarded by many as deficient and will prove particularly serviceable to those young men who have not had the benefit of any previous contact with the practical problems of the business.

After Adjournment

Just the time to buy hot-bed sash, and the tempting offer of the Gordon-Van Tine Company "hitteth ye naile on ye hed." See their advertisement.

Watch the returns from the Flower Market Show in Boston, which we shall publish in full next week. It is within the range of the possibilities that the carnation situation may take on a new aspect after the committees and judges have reported. Indianapolis was all right, but there are a few more counties to be heard from.

If you come to the Boston show take a little time to run down to Bedford street and interview the Revere Rubber Company about that non-kinkable Revere Hose. It has other good points also which they can convincingly explain. If you miss the visit to Boston send to them for a sample.

Meyer, the manufacturer of silk-line, tells us that buyers who have been misled into buying other "just as good thread" because it was cheaper are returning to their first love—the only green thread for stringing asparagus and smilax, and tying up Easter lilies, etc., which is reliable for strength, smoothness and unfading color. His adv. is always in HORTICULTURE.

Delaware farmers want the Legislature to pass a law which will exclude all save Delawareans from selling produce in the Wilmington market. In retaliation, the rest of the country will have to adopt a prohibitory tariff on Delaware peaches. Lots of peaches right here in Washington, anyhow.—Washington Times.

Peaches? Yes, Washington is full of them, and George C. Watson rises to remark that it doesn't take the freestones long to turn into cling-stones down there, either.

The "African jungle flower," as our old friend of fetid odor, *Amorphophallus Rivieri*, is called has been making a stir again, this time in Philadelphia and the fearsome story of its strange antics, "as yet uncatalogued in any horticultural book in this or any other country," to which the Philadelphia Record devotes nearly two columns of valuable (?) space, is so startlingly realistic that our readers will do well to refrain from reading it before going to bed. The dream of the "rarebit fiend" isn't a circumstance to it.

Pennock-Meehan Co.'s new venture, which we mentioned last week and which is announced in our advertising columns in this issue—the opening of a wholesale and commission establishment in Washington for the benefit of the retail dealers of the Capital City—looks to us like a piece of very sagacious business enterprise. The possibilities of Washington as a metropolis have not properly dawned upon the American people. As loyal Bostonians we cannot quite subscribe to the declaration of W. R. Smith, that Washington is about to supplant Boston as the "Hub of the Universe," but we are prepared for almost anything else that may develop in the case of the great city on the Potomac. And Pennock

A FIRST PRIZE PLANT GROUP.

For many years the Dodds' groups of foliage and flowering plants at the Philadelphia shows have carried first honors. Owing to being arranged against the wall and in poor light a good photograph of same has never eventuated. The present illustration by W. H. Rau, while far from satisfactory, is the best we have yet seen.

has evidently done the right thing at the right time.

Jewel, Lemon or Gold Brick?

Luther Burbank has sent to the Portland (Ore.) Rose Festival Association a new rose of his raising which is to be called the "Rose of Oregon" and which Mr. Burbank, with characteristic modesty, declares to be "the most beautiful rose he has ever seen," so says the Portland Journal, which adds: "The committee is willing to trust to his judgment and consequently expectations are great." The rest of the world will try to control its impatience and await with feverish interest the debut of this "most beautiful" creation.

A NEW PLANT LABEL.

The "Aln" plant label is the newest thing in this indispensable garden sundry. The metal from which the label is made is aluminum, and it is claimed to be indestructible. By means of a narrow strip of the metal the label can be readily attached to the plant without a tie of any kind. The label or strip admits of the label being inserted into the soil.

F. M.

Many competitors wonder why Dodds usually comes out first. It would be just as easy to tell why one poem is better than another. Dodds couldn't tell himself to save his life. Good plants, simplicity, balance, but above all not too much, is what in our opinion does the winning. Most exhibitors are so anxious that they overcrowd.

G. C. W.

DAHLIA IMPERIALIS.

At a regular meeting of the Newport Horticultural Society held on the evening of Feb. 9th, James Hooper, gardener at the T. K. Gibbs estate, had on exhibition a few handsome flowers of *Dahlia Imperialis* which were examined by a committee consisting of John T. Allan, A. S. Meikle and J. B. Urquhart, and awarded a first class certificate of merit. This dahlia is a distinct species known as the Lily Dahlia, and although grown to some extent in California, is but little known in this section of the country. Mr. Hooper grows it in a greenhouse with a moderate temperature, under which conditions it seems to be well adapted for a winter flowering plant, and the following is its description: The plants grow to a height of 10 to 15 feet with heavy spreading foliage, flowers large and drooping with eight rather broad petals of a delicate pinkish mauve color, the yellow disc being encircled by a narrow ring, thus completing a very pleasing combination.

NEWS OF THE CLUBS AND SOCIETIES

ILLINOIS STATE FLORISTS' ASSOCIATION.

The annual convention of this association at Springfield, Ill., of which we gave a partial account in last week's issue closed on Wednesday evening after a very successful meeting. Officers elected were E. G. Gullett, Lincoln, president; G. B. Franks, Champaign, vice-president; J. E. Ammann, Edwardsville, secretary; and F. L. Washburn, Bloomington, treasurer.

Urbana was selected as the meeting place for 1910.

The Springfield Florists' Club gave an elaborate banquet to the visitors at St. Nicholas hotel on Wednesday evening. Charles E. Hay was toastmaster. The toasts were as follows:

Beacons. On the Carnation Horizon, by W. N. Radd.

Current Topics. From a Professional Viewpoint, by Prof. H. B. Dornier.

Inspirations of a Flower Show, by George Asmus.

Springfield. Past, Present and Future, by N. K. Roberts.

The Western End. Is It a Perennial? by Albert T. Hey.

Showbound. Is a Friendly Community, by George H. Angermueller.

Afterglow of the American Carnation Society Meeting, by J. F. Ammann.

Report of The Exhibition Judges.

Your judges of the exhibition respectfully report exhibits made by sixteen exhibitors, as follows:

Chicago Carnation Co., Joliet. Vase of Carnation Conquest, 86 points (certificate of merit); honorable mention for Vases of Melody, White Perfection, Beacon, Winsor and Andrew Carnegie; vases of Aristocrat, White Enchantress, Sarah Hill, Splendor, Enchantress and Lawson Enchantress.

Mount Greenwood Cemetery Association, Morgan Park. Vase of Carnation Mt. Greenwood, salmon pink, 86 points (certificate of merit); honorable mention for vase of Mrs. J. C. Vaughan carnations; also vase of Seeding 11004 C carnations exhibited.

Barr & Smith, Indianapolis, Ind. Vase of Shasta carnations (white), 80 points (certificate of merit).

St. Clair Floral Co., Belleville. Vase of Seeding Carnation No. 21 (dark pink), 82 points.

Belle Miller, Springfield. Honorable mention for vases of Variegated Lawson and Mrs. F. W. Lawson; vases of White Perfection, Lady Beautiful and Winsor also exhibited.

Bassett & Washburn, Chicago. Vase of Carnation O. P. Bassett, 86 points (certificate of merit).

A. C. Brown, Springfield. Vase of Superba (pink), 90 points (certificate of merit); Singano (silver pink), 87 points (certificate of merit); Clara Mae (pink), 82 points; Gay Denier (purple), 81 points; also vases of Rose Pink Enchantress, Mrs. Patton and 25 seedlings.

Highland Park Greenhouses, Highland Park. Vase of Carnation Lucille (white with shell pink center), 85 points (certificate of merit).

J. F. Ammann, Edwardsville. Honorable mention for vase of Mrs. Potter Palmer; Vases of Ivory roses, Rhea Reid, Killarney, Richmond, Claretta and Alice Roosevelt, also exhibited.

Boettger Bros., Indianapolis, Ind. Vase of Carnation James Whitcomb Riley (yellow), 87 points (certificate of merit).

Springfield Boiler & Mfg. Co. Model Steel internally fired boiler and photograph.

W. H. A. Group, Springfield. Vases of White Lawson, Enchantress, Lady Beautiful and White Enchantress.

W. H. Gullett Sons, Lincoln. Vases of Bride and Bride-maid roses, honorable mention.

Plants.

A. C. Brown, Springfield. Group of 1000s and 1000s carnations.

C. B. Smith, Springfield. Group of gladioli, anemones, palmas, ferns and pans of tulips.

Vaughan's Seed Store, Chicago. A line of

flowering and decorative plants, dormant stock and bulbs.

Weinheimer Bros., New York. General displays of novelties in ribbons, etc.

Miscellaneous.

L. N. Pillsbury, Galesburg. Vase of split carnations mended with the Pillsbury staples, which we consider a very good thing.

Amerdian Blower Co., Detroit, Mich. Model steam trap.

Ionia Livery Co., Ionia, Mich. General display of white flower pots, vases, wire hanging baskets and wire designs.

Geo. M. Garland, Des Plaines, Ill. Section of greenhouse showing new truss work, gutters, etc.

Kreesehoff Bros. Co., Chicago. Model of heating boiler.

J. C. Moninger Co., Chicago. Section of greenhouse showing new ice clearing hinge.

WASHINGTON STATE HORTICULTURAL ASSOCIATION.

J. L. Dumas, of Dayton who was elected to the presidency of the Washington State Horticultural Association at the annual meeting in Spokane, is a

J. L. DUMAS

President Washington State Horticultural Association.

practical horticulturist and has made a success of apple growing. Mr. Dumas is a native of Missouri, born in Clark county in 1862. He left the old homestead to become a teacher, coming to Washington in 1882, where he entered Whitman College at Walla Walla. After working his way through college he went to Oswego, N. Y., where he attended the Normal and training school, graduating in 1890. He then went to Hawaii as principal of the Honolulu Normal and Training school, and while there he served as lieutenant in the Citizens' Guard during the reconstruction period and was made a citizen under the government without forewearing his allegiance to the United States. He returned to Washington in 1897 and bought 140 acres of land in the Touchet valley. Since then he has served as superintendent of the public schools at Pullman. He was president of the Washington State Educational Association in 1903-4 and was a member of the State Board of Education from 1900 to 1902.

HUNTINGTON HORTICULTURAL AND AGRICULTURAL SOCIETY.

This society will hold its fifth annual carnation exhibition in Sammis' Hall, Huntington, L. I., Friday afternoon and evening, March 5, 1909. The exhibition committee is composed of John R. McCulloch (chairman), Walter Shaw, John D. Schiwer, Mrs. W. H. Stoye, Mrs. F. W. Shadbolt, Mrs. G. W. Totten, Joshua Hurd, Adolph Alius, Richard Cartwright and A. H. Funnell, secretary.

Prizes consisting of certificates and diplomas will be awarded for Carnations as follows: 25 Lawson or other dark pink, 25 Enchantress or other light pink, 25 white, 25 scarlet, 25 crimson, 25 any other variety, 25 assorted, 25 any variety not disseminated; for Roses, 12 Teas, 12 any other variety; for Violets, 100 double, 100 single; for 25 freesias, 25 sweet peas, 12 mignonette, specimen blooming plant (orchids excluded), specimen orchid, specimen foliage plant, spring bulbous or other flowers, greenhouse vegetables.

Plants should be at the hall in the morning. Cut flowers not later than 2 p. m. on day of exhibition. Exhibits sent by express should be addressed in care of John R. McCulloch.

AMERICAN ROSE SOCIETY.

The Schedule Committee and the Executive Committee of the American Rose Society held joint session last Friday in New York City. President Poehlmann appointed a committee to consider the examination and requirements of new roses. Robert Simpson of Clifton, N. J., was appointed Chairman. Application for recognition by the Society of three different roses was brought up. The Schedule Committee reported upon their work in revising the schedule, a preliminary copy of which has been published; a report was also given on the awarding of special prizes. The value of the prizes, as computed by Mr. Pierson, is equal to \$1000 at the present time. Several persons have advised us that they would like to put up special prizes for the Puffalo Exhibition and these prizes have not yet been received. The L'Equivois Hotel will be the headquarters. Papers are being prepared by five different persons upon matters of pertinent interest. Leonard Baron has offered to give an illustrated lecture upon this occasion. All entries from a distance may be sent in care of Vice-President Wm. F. Kasting, 335 Ellicott St. The Exhibition will open Wednesday afternoon at 5 o'clock, March 17, and continue over the 18th and 19th.

BENJ. HAMMOND, Secretary.

GARDENERS' AND FLORISTS' CLUB OF BALTIMORE.

The regular semi-monthly meeting was held on February 22nd. At the next meeting, March 8th the election of officers for the ensuing year will take place, followed by a banquet at The Hotel Caswell cor. of Baltimore and Hanover streets.

NATIONAL SWEET PEA SOCIETY OF ENGLAND.

The committee's annual report recently circulated amongst the members of this society is a record of meritorious achievement, and steady progress. An attractive schedule has been prepared for the summer show. Amongst the prize donors are C. C. Morse & Co., Santa Clara, California, and W. Atlee Burpee, Philadelphia, who are offering prizes in classes for American sweet peas. The new "annual" issued by the Society is an acceptable addition to sweet pea literature. Amongst the articles is one by S. B. Dicks, entitled "Some American Notes." At the outset he gives the United States the credit of having been ten years ahead of Great Britain in popularizing the sweet pea. Working with the same materials as British florists, it is little wonder that the results are in many cases identical, and this has led to a regrettable duplication of names. At the same time, as the leading growers of the United States are some of the most generous supporters of the National Sweet Pea Society, and evince a desire to abide loyally by the decisions of its Floral Committee, there ought not to be any difficulty in bringing about a mutually satisfactory understanding."

W. H. ADSETT.

NORTH SHORE HORTICULTURAL SOCIETY.

At the regular meeting of this society, February 19, Wm. Swan, of the R. C. Hooper estate, showed five distinct sports of Enchantress carnation and a display of cut stocks.

Subjects for discussion were from the question box, "Sweet Peas" and "Plants for Christmas Blooming."

The Show Committee in preparing its schedule this year is offering more prizes for fruit than before. They are also offering medals to commercial men for herbaceous plants and gladioli. Schedules will be out soon.

Lecture at the next meeting Mar. 5, by J. K. M. L. Farquhar on Dahlias.

ROBERT A. MITCHELL.

NEWPORT HORTICULTURAL SOCIETY.

The regular meeting of the above society was held on the evening of February 23rd, but the inclement weather prevented as large an attendance as usual and very little business was transacted. The executive committee had previously voted to recommend the holding of two exhibitions for the year as usual, and partly prepared a schedule for the June event, the Rose Show, but on account of the small number of members present the recommendation was not acted on at this regular meeting.

NEW YORK FLORISTS' CLUB.

The New York Florists' Club's next meeting, Monday night, March 8, will be "Rose Night." Harry O. May, secretary of the exhibition committee, tells us that already a large and very comprehensive exhibit is assured. Rose growers having anything in the way of new varieties or superior cultivation that they would like to have the New York experts see should not neglect this excellent opportunity.

A WEDDING DECORATION.

The accompanying picture shows, in part, the decoration of All Saints' Cathedral at Albany, N. Y., by H. G. Eyres & Co., for the Hun-Clark wedding. The front of the chancel which

is not shown in the illustration, was decorated with beech sprays, southern smilax and lilies. At the house Mr. Eyres used southern smilax, with American Beauty and white and pink Killarney.

CLUB AND SOCIETY NOTES.

On the evening of February 12 the Milwaukee (Wis.) Florists' Club had a dancing party in Miller's Hall. Four hundred were present and the hall was finely decorated.

E. V. Hallock, Queens, N. Y., president of the New York Florists' Club, will talk at the next meeting of the Gardeners' and Florists' Club of Boston, March 16, on "Bulbous and Tuberous Rooted Plants."

The annual banquet of the Lenox Horticultural Society will be held in Curtis Hotel, Lenox, Mass., March 4. The committee of arrangements is: Edward Jenkins (chairman), Alfred H. Wingett, Frederick Hermans and Walter Jack.

The officers chosen for 1909 by the Connecticut Nurserymen's Association at their convention on February 1 at Hartford were: C. R. Burr, president; C. W. Atwater, Collinsville, vice-president; W. W. Hunt, Hartford, treasurer; J. Vidourne, Hartford, secretary.

At the meeting of the Marion County Horticultural Society at Salem, Ore., on February 7, officers were elected as follows: President, C. J. Kurtz; first vice-president, John Pemberton; second vice-president, Enos Presnal; secretary and treasurer, E. C. Armstrong.

The regular meeting of the Buffalo Florists' Club will be held at their room on Tuesday, March 2nd and as very important matters are to be acted upon, it is the wish of Pres. Sandford that every member be present on that evening. Election of officers for the ensuing year is on the program and a

lively election is looked for. Papers will be read by A. Beyers and Jos. Street.

At the monthly meeting of the Allen County Horticultural Society, at Iola, Kans., on February 12, the principal topic for consideration was the San Jose scale and the various methods for its destruction. Papers on Catalpa Trees and Berry Culture were presented.

Prof. E. A. Stone delivered a lecture with lantern slides on the evening of Feb. 15 before the Natural History Society at Newport, R. I., on Insects Injurious to Trees. The Newport Horticultural Society was well represented in the audience, and after the lecture comments and questions followed, among the speakers being President James Robertson, Alex MacLellan and other members of that organization.

A bill has been introduced at the State House, Boston, on petition of the firm of Morse & Beals, Lowell, Mass., by which the sale and delivery of flowers on the Lord's Day is authorized. This is the result of the recent order from the police stopping Lowell florists from doing any business on Sunday. There are two sections, as follows:

Senate Number 149—On petition of Morse & Beals, that the sale and delivery of fruit and flowers on the Lord's Day may be authorized. Hearing scheduled to be held before the committee on legal affairs.

Section 1—It shall be lawful for retail dealers in fruit and flowers to sell and deliver the same on the Lord's Day, subject to such restrictions as may be imposed by the licensing board in the city or town where the sale or delivery is made.

Section 2—All acts and parts of acts inconsistent herewith are hereby repealed.

MR. CARNATION GROWER:

Do you appreciate a valued carnation when you see it?

Well, go to the Horticultural Hall on February 27th or 28th at Boston and look at my NEW VARIEGATED CARNATION MRS. PFEUFFER.

It is a money-maker, never bursts; flowers throughout the season, heaviest crop during December and January; a standard keeper and not inclined to disease, sells on sight; in total it has all good qualities a carnation for the commercial man should have and I can prove it as my grower, Mr. John Pfeuffer of Irvington, N. J., has it since 4 years and its vitality grows every year.

ROOTED CUTTINGS — Per 100, \$12.00. Per 1000, \$100.00

O. V. ZANGEN

HOBOKEN,

During Recess

FUN IN PROSPECT AT PHILADELPHIA.

The tri-city series of games between Philadelphia, Baltimore and Washington, will be completed in Philadelphia (most likely at the Terminal Alley) on March 23rd. Washington holds first place having won first at Washington and at Baltimore on the 17th inst. Baltimore rolled second in Washington and third in their home city. Philadelphia came in third at Washington and second at Baltimore. The games of the 23rd ult. are therefore only a matter of deciding second place, Washington having won two out of three. The scores were: at Washington—2472 for Washington, 2390 for Baltimore and 2257 for Philadelphia. At Baltimore—2692 for Washington, 2561 for Philadelphia, 2547 for Baltimore.

A GOOD TIME AT MINNEAPOLIS.

The first dance and social given under the auspices of the Minnesota State Florists' Association, on Feb. 15, was a great success.

Pres. Wirth with Mrs. Wirth led the grand march with about one hundred and forty couples following. About 11 o'clock the whole party lined up and marched to the profusely decorated dining hall, where supper was served. Very little time was spent at the tables as every one was eager for the dance hall and it was not until the early morning hours that the start for home was made. The whole affair was a cred-

it to the association and an encouragement to the members. The committee to whose efficient work the success is due consisted of Messrs. Olson, Boeglin, Nagel and Cady.

ALBANY FLORISTS' CLUB.

Members of the Albany Florists' Club enjoyed their fourth annual banquet at the New Kenmore on the evening of February 18. About forty members were present when President Fred Goldring assumed the duties of toastmaster. He asked for responses from John A. Howe, Jr., Fred A. Danker, James H. Snyder, Rhinebeck John E. McAllister, and Mr. Van Zonnevelt, a traveling salesman for a Holland bulb house. Features of the occasion were the very handsome table decorations contributed by the members and the presence of an orchestra which added much to the enjoyment of the evening. Patrick C. Hyde was chairman of the committee of arrangements.

"LAST CALL FOR DINNER."

This is our final notice of the 22nd annual banquet of the New York Florists' Club, on Saturday evening, Feb. 27th, 1909. The place, Stanley's, corner 42nd St. and Broadway; the hour, reception 6 p. m.; the menu, superb; the music, Prof. C. Van Vleet's famous orchestra; the talent, many vocal artists of high repute, W. J. Elliott and J. Austin Shaw, committee; the speeches, short and brilliant; the toastmaster, Pres. Halleck; the dinner, promptly at 7; the tables, round, seating 8; the decorations, beautiful; the tickets, men \$1.00, ladies \$3.00.

WHAT THE U. S. CENSUS SAYS ABOUT GREATER BOSTON.

The Census says One Twentieth of the Wealth of the U. S. is within 50 miles of Boston.

The Census says One Fifth of the Savings of the people of the U. S. is in Massachusetts Savings and Co-operative Banks.

The average Earnings of the People of Massachusetts are 80 per cent greater than the average earnings of the whole people of the U. S.

If you have anything in horticultural goods to sell you can't ignore this territory, in which HORTICULTURE has no near rival among trade journals, for it outclasses them all in circulation. That's why steady advertising in HORTICULTURE must and does pay.

OPENING ANNOUNCEMENT

Commission House for Washington, D. C.

The S. S. PENNOCK-MEEHAN Co. of Philadelphia, beg to announce the opening on or about March 1st, 1909, of an up-to-date Commission House for the sale of

Cut Flowers, Plants, Ribbons and Supplies

This new establishment will be complete in all departments and will be conducted on similar lines to the parent house in Philadelphia, and in close touch and cooperation with same, thus gaining at once the benefit of their twenty years experience; their unexcelled service; the acknowledged ability of its ruling spirits, and its unsurpassed facilities for furnishing "Everything in Cut Flowers and Plants," "Everything in Ribbons and Supplies."

The location selected at **1212 New York Avenue**, is central and commodious and will be in charge of **Mr. ALBERT SCHNELL**, who has wide experience both in Washington and Buffalo.

S. S. PENNOCK-MEEHAN CO.

Personal.

H. Van Koolbergen was a visitor in Albany, N. Y., the past week.

J. D. Cockcroft, carnation grower, Northport, N. Y., is confined to his home by illness.

Miss Cora Powell, aged 25, daughter of Harry Powell, florist at Longview asylum, was quietly married in Newport February 11, to Charles Bate-man, aged 35, of Norwood.—Hamilton (Ohio) Democrat.

John Davidson, who has been gardener for Mr. I. S. Burden at Newport, R. I., for the past two years, has resigned that position and will soon move to Detroit, Michigan, where he has accepted a more important position.

Charles L. Russell, who left the estate of Mr. Joseph H. Choate, Stockbridge, Mass., three years ago to develop a large place for Mr. Wm. F. Sheehan at Roslyn, N. Y., has now engaged with Mr. W. P. Hamilton as manager of his estate, Table Rock Farm, Sterling, N. Y.

Visitors in Chicago: Victor Huot, Duluth, Minn.; Otto Benthley, New Castle, Ind.; Jos. Rolker, New York; W. Siebrecht, New Rochelle, N. Y.; J. Cruz, Niles Centre, Ill.; W. S. Hizer, Rockford, Ill.; Harry Fisher, Kalamazoo, Mich.; Robert Fulton and F. H. Henry, New York City.

Eugene Gobel will succeed W. L.

Cukerski as superintendent of parks at Grand Rapids, Mich. Mr. Cukerski has been connected with the city parks for eighteen years, and resigns this position to engage in the business of landscape gardener and florist in Grand Rapids.

J. P. Cleary, of the Fruit Auction Company arrived home in New York last Sunday after a two months' sojourn in the old country. He tells us that his visit to the big horticultural producing establishments abroad bore good results and he will have some tempting announcements to make to the readers of HORTICULTURE in the near future.

David Weir, gardener for the Bran-degee estate, Brookline, Mass., who was just recovering from illness, was seized with weakness and fell, just as he was lighting a kerosene lamp, one morning early, about two weeks ago. The lamp was knocked down and he sustained a serious burn on the foot from the exploding oil. The fire in the room was extinguished without great damage. Mr. Weir has been confined to his bed ever since.

PUBLICATION RECEIVED.

The Schedule of Premiums offered by the Worcester County (Mo.) Horticultural Society is published and copies can be obtained by writing to the secretary, A. A. Hixon. Horticultural Hall, Worcester, Mass. The first exhibition will take place on Thursday, March 4.

Obituary

George Hemler.

George Hemler, a landscape gardener, a native of Germany died at his home in West Newton, Mass., on February 17, aged 82 years.

Henry A. Terry.

Henry A. Terry died at his home in Crescent, Iowa, on February 13 at the age of 83. Mr. Terry established the first nursery in Pottawattomie County in 1867, having located in that section when 21 years old. He was an esteemed member of the Latter Day Saints' church. A widow and six children survive him.

Paul Thomson.

Paul Thomson, of West Hartford, Conn., whose name has become familiar through his recent introduction of the yellow carnation, Neptune, died on Feb. 10 after a short illness. Mr. Thomson was a Scotchman by birth, but came to West Hartford in 1872. He was a member of the State Grange, the Connecticut Pomological Society, the Veteran Association of Co. K, 1st Regt. C. N. G., and president of the West Hartford Curling Club. A widow and three sons survive him.

Chicago.—H. R. Hughes, the advertising florist, had for his window attraction last week a scene showing George Washington about to try his new hatchet on the garden scenery. It drew a crowd.

FEEDING THE CROPS.

Extracts from "The Yeast of the Soil," a paper read by William H. Howker before the Massachusetts Horticultural Society.

(Continued from page 251.)

Potential Fertility.

Chemistry teaches us that plants are composed of certain fixed elements which are supplied by the soil and the air. It further teaches that while there is an abundant supply, yet we have exhausted the three leading elements, nitrogen, phosphoric acid and potash, in available forms; that so-called barren or unproductive soils may be rich in plant food elements, but that these elements are so locked up as to be of little value to the commercial grower, whose chief concern is quick crops for quick returns. In other words, the available plant food (nitrogen, phosphoric acid, and potash) has been exhausted, leaving only the unavailable or what is known as the potential fertility which, by the slow processes of nature, is yielded up too slowly to be depended upon by the commercial farmer.

"The Little Balance."

Therefore, in modern practice, instead of asking the soil how much of the potential fertility can be depended upon for each crop, or what the "natural yield will be" (a question which will never be satisfactorily answered), we now apply what we believe to be necessary to produce the maximum yield over and above the natural yield of the land. In all cases, we find that the actual requirements of plant food for various crops are very small indeed, in many cases not over 200 lbs. of actual plant food (nitrogen, potash

and phosphoric acid)—so little to produce so much, and yet if it is absent the crop will be a failure. It is this little essential balance of available plant food which stands between success and failure, and which concerns the modern farmer today. Thus our problem is to supply the "little balance of ready plant food" for the growing crop, as milk or prepared food is supplied to the growing child, and later as cooked or digestible foods are supplied to man.

Stable Manure and Commercial Fertilizers.

It is estimated that a cord of stable manure weighing 4000 lbs. contains on the average 50 lbs. of plant food, worth about \$2, the remainder (3950 lbs.) being water, straw and organic matter. For the 50 lbs. of plant food to be rendered available, we are dependent very largely upon bacterial action in the manure and in the soil. In the old

days, as I have said, we composted manure in advance in order to hasten the process of decomposition and increase its availability. Now, as a rule, depending upon commercial manures for active available plant food, we apply the manure on the soil directly as we produce it or receive it.

While there are only 50 lbs. of actual plant food (nitrogen, phosphoric acid and potash) in a cord of manure, yet we must not overlook the value of the organic matter, straw, etc., not only for the humus which is added to the soil by means of the manure, but also for the improved physical condition which it imparts to the soil. This humus, no commercial manure supplies, and in this respect stable manure is superior to commercial manures, but the value of this excessive amount of humus in stable manure, as a source of plant food, depends, as we have seen, not only upon a thorough distribution of the manure in the soil,

SOME OF OUR SPECIALTIES

Boxwood Pyramid Shape, 2½ to 3 ft. high, very heavy, \$1.75 each, 3 to 3½ ft. high, \$2.50 each. **Bush Shape**, very heavy, 2 to 2½ ft., \$1.75 each, 2½ to 3 ft. high, \$2.00 each. **Rhododendrons**, Carson's Hardy varieties, 8 to 12 buds, 18 to 24 in. high, at \$75.00 per 100; 12 to 14 buds, 24 to 30 in. high, at \$100.00 per 100. **Azalea Hollis**, 15 to 18 in. high, very bushy and full of buds, at \$35.00 per 100. **Hybrid Perpetual Roses**, strong dormant field grown plants, of our own growing, none better, \$11.00 per 100, \$10.00 per 100. **Gloss Roses**, field grown, \$1.00 per 100. **Hardy Climbing Roses**, field grown, \$8.00 per 100. **Tree Roses**, hardy varieties, budded on straight stems, 4 to 5 ft. high, \$30.00 per 100. **Ampelopsis Veitchii**, bushy, 2 yr. plants, 3 foot of tops, \$10.00 per 100.

The Storrs & Harrison Co., Painesville, Ohio

but chiefly on normal conditions of warmth and moisture, in order that bacterial action may be induced and by means of which it is rendered available. Thus, when we solely rely on stable manure, we are more dependent on weather conditions than when we apply predigested fertilizers, or part fertilizer and part manure.

Stable manure, as a by-product of the farm, or where it can be bought and hauled at a price that is not in excess of its intrinsic value, will always be a favorite source of fertility, partly because of its plant food, and chiefly because of the humus it supplies, but in market gardening and in general farm practice the best results will usually be obtained when it is used in connection with chemical manures. On the other hand, chemical manures, while not supplying humus, supply in a concentrated way, not only needed plant food, but supply it in forms that anticipate, supplement and, in some cases, promote bacterial action, without which stable manure, and even the organic portion of the fertilizer, would be barren in results. The progressive farmer, therefore, supplements and improves his stable manure by the use of concentrated fertilizers, in the same way as he supplements and improves his hay with the use of concentrated grain foods in feeding his stock.

While it is undoubtedly true that stable manure, all things considered, is the best source of fertility, yet it is by no means the cheapest if one has to buy it, and neither is it absolutely essential in the growing of many farm crops. This is shown by the enormous and rapidly increasing areas which are planted annually to corn, cotton, tobacco, wheat, potatoes, and vegetables, on commercial fertilizers as the sole dependence in the matter of plant food.

Incidentally, it should be noted that twenty years ago, manure sold in Boston stables at about \$10 a cord. Today, unless a stable is very advantageously located, the market gardeners are getting it at a nominal price, and in some cases for the hauling. The introduction of commercial manures has been one of the causes of the reduction in the price of stable manure, for which the gardeners should be thankful. The Germans have a phrase which expresses "manure sick land." With cheap stable manure we are likely to have such a condition around Boston. On such land, commercial manures should be applied in part, and occasionally lime or wood ashes, in order to promote the slightly alkaline condition of the soil which is necessary for satisfactory bacterial growth.

Finally, it seems to me the question as between the purchase of stable manure and commercial fertilizers resolves itself into two parts:—

First: Does one's soil and the character of the crops to be grown require the excessive humus of stable manure for the most profitable returns?

Second: How much can one afford to pay for this humus, knowing that it can often be obtained, or all that is needed, by a rotation of crops or by ploughing in stubble or green crops? Assuming that the actual plant food in a cord of stable manure is worth on a fertilizer basis \$2 per cord, what is the humus, the remainder of the cord, worth; and how much will it cost to haul or freight it, and apply it to one's own soil and crop requirements?

FORCING GLADIOLUS

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. Gladiolus are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white Gladiolus. First-size bulbs, 1½ inches and up, \$2.00 per 100; \$18.00 per 1000. Bulbs 1½ to 1¾ in. \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, flaked rosy crimson; the best forcer. Selected bulbs. \$1.75 per 100; \$15.00 per 1000.

Krenchievensis (true). Flery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Hoddington's White and Light. Extra selected bulbs, 1¾ in. and up. \$1.50 per 100; \$14.00 per 1000. Bulbs 1¾ to 1¾ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation. \$1.00 per 100; \$9.00 per 1000.

NEW YORK CITY

REGISTRATION OF ORCHID.

Mr. W. N. Rudd, Sec'y. S. A. F.

Dear Sir:—In a recent issue of HORTICULTURE you advertise for record two Laelio-Cattelyas from the Roebeling collection. These plants were raised here, from pollen of Mr. Roebeling's plants exhibited in Boston in August, 1899; later I sent seedlings to Mr. Roebeling's gardener, at that time Mr. Clinkaberry,—as arranged at the time of receiving pollen.

My principal reason for writing in this connection is, that some time since in the autumn of 1907, I exhibited in Boston the Laelia crispa x Cattelya x Hardyana alba cross under the name of Laelio-Cattelya x Johannsoni, and presumably it is so registered in the proceedings of Massachusetts Horticultural Society. Mr. Johannson has recently died, and it is the express wish of the writer that the name of so good a man and able raiser and cultivator of orchids should be commemorated by the Laelio-Cattelya Johannsoni.

The Laelia crispa x Hardyana Young's variety has never to my knowledge been named, certainly not by me, as the similarity of the two crosses was so marked that we did not deem it advisable, and it is also probable that the authorities that decide these matters would not permit the use of separate specific names for these two crosses. The same plant, L. crispa being the one parent, the others being mere varieties of the same thing, hence the L. crispa x C. Hardyana Young's variety would have to rank as a variety of L. C. Johannsoni, provided, of course, that the latter name has not already been anticipated by some raiser in Europe or elsewhere, which we cannot ascertain until the receipt of the recently published and long-needed "Orchid Stud book."

E. O. ORPET.

OUR EXPERIMENT STATION.

A Paper Read Before the Illinois State Florists' Association by Prof. H. B. Dörner.

As a result of the appropriations of two years ago the Agricultural Experiment Station has undertaken to carry out certain lines of work relating to floriculture. In order to do this so that all parts of the experiments are under perfect control the erection of some new greenhouses was necessary. During the last summer two houses and a service building have been constructed.

In erecting these the aim was to build model commercial houses and as a result the state possesses houses second to none. The ground plan chosen is one which allows of expansion and in fact all parts of the plant have been so designed that new houses can be added without changing or interfering with those already up. The plans call for a range of houses extending east and west from a corridor or connecting house extending north and south. The plans call for detached houses with intervals of 14 feet between. The service building, which also contains the heating plant, connects with the corridor house on the north. All houses can thus be reached from the service building without going outside.

Greenhouses.

The two houses already erected were designed to avoid shading as much as possible and so are of the very lightest construction possible, commensurate with strength. Each house is 105 feet long and 28 feet wide, thus making it possible to have four 100 feet benches, each 4 feet wide.

All parts above the gutters are of clear cypress with sash bars of the type ordinarily used in greenhouse construction. The gutters are of the King pattern made of channel iron supported on posts of 2-inch iron pipe. Each post acts as a down spout and empties into a vitrified tile drain laid along the inside of the wall. Below the gutters, in the side walls, is 24 inches of glass. Ventilation is secured by two lines of interrupted sash operated by Poley ventilating machines.

The walls below the side lights are composed of concrete but constructed differently than those usually built. The iron pipes supporting the gutters are set into concrete piers 12 x 18 inches and extend well into the soil to secure a firm foundation. The walls themselves are formed of large concrete slabs, 5 inches thick reinforced with 3-8 inch iron rods and fit in between the posts. Their ends rest on the concrete piers and are held in place by concrete pilasters 8 in. square built about the posts. The sill was anchored to this wall and the side rafters put into place.

The benches are each 100 x 4 feet

and 5 inches deep and are built of pecky cypress supported on 1-inch iron pipes. The walks between the benches are 28 inches wide and those between the benches and walls are 22 inches wide. All walks are of cement.

Service Building.

The service building is a structure 100 feet long by 26 feet wide constructed of wood with plaster finish on the outside. It is situated on the north side of the greenhouses with its longer axis parallel to the longer axis of the greenhouses. A space 16 feet wide was left between the service building and the greenhouses.

One-half of this building is large enough to accommodate three 60 horse power boilers. The concrete floor of this room is about two feet below the floor level of the greenhouses. The other half of the building is devoted to a large work room about 25 feet square, a hall way, an office 13 x 20 feet, a small laboratory, a small room and a lavatory. The work room contains a reinforced concrete floor making it possible to scrub it out whenever necessary.

Beneath this part of the building is a cellar divided into three rooms. Through the largest of these extend all the steam, water and sewer pipes. This makes an excellent room for storage. The other two rooms, which take up the other half of the cellar space, are used as cut flower and cool storage rooms.

Heating Plant.

The heating plant is somewhat different from that used in most places. At the present time power is secured from a 60-horse power tubular boiler, the setting of which was designed to reduce the amount of smoke as much as possible. Draught is secured by a 70-foot brick stack designed to carry 180 horse power if necessary.

The heating system was constructed to be run either as a high or low pressure system. From the top of the boiler a 6-inch feed main drops down into the cellar to the pressure regulator and its accompanying by-pass. From here the main continues and passes under the cross house. At this place branches of 1 1/2 inch pipe come off and passing through 6-inch tile emerge in the greenhouses under the benches and by the side walls.

Under the benches the 1 1/2 inch pipe divides into two 1 1/4 inch pipes, one extending down each side of the bench. These pass down to the other end, cross over, and come back on the opposite. There are also two wall coils, one of which passes around the end to the door. This then gives four lines of pipe under each bench and four on each wall, or 24 pipes in all. Overhead pipes have been omitted altogether.

Each flow and return is fitted with a

regulating valve at the corridor end of the house, and each return before it passes into the main return is fitted with a check valve. The water is returned to the boiler by means of double Morehead traps, one situated in the cellar and the other over the boiler. The greenhouses as well as the service building are furnished with water and electric light from the University plants.

Experiments.

During the present winter these houses have been devoted to an experiment on carnations with chemical fertilizers supplementing stable manures. The object of the experiment is to determine what chemical fertilizers used with manure are best for carnation growing. The results from this experiment will form the foundation for future work on the amount to use for best results. In this work 8 benches, each 100x4 feet, were available. Each bench was divided into 16 sections, 6x4 feet inside measurement, this leaving some three feet over which was divided into two small sections, one at each end of the bench. The object of this was to have sections protecting the exposed ends of the experimental sections.

Two benches, with 32 sections in all, were used in each experiment, thus repeating the work four times. Each set of benches was planted to a different variety. The sections were numbered from 1 to 32, each number standing for a definite fertilizer combination. As a further precaution the location of the numbers on the benches, in the various experiments, were changed so that each of the numbers appears at different places in the houses. Thus sections occurring at the exposed ends of the house also occur in the center and at the protected end.

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St., NEW YORK CITY.

(Continued from page 285)

The varieties selected for the work were Enchantress, White Perfection, Beacon, Winsor, as representing a variety of characters, especially in growth of flowers and stems. The fertilizers selected for the work were forms commonly used and are easily procured. Dried blood, sodium nitrate and ammonium sulphate for nitrogen; acid phosphate, raw rock phosphate and steamed bone for phosphorus, and potassium sulphate, kainit and wood ashes for the potassium. Ground limestone and ashes were also used to furnish lime. Sheep manure and well rotted stable manure were also used.

In preparing the sections a definite amount of manure was added to each of the sections excepting those used as checks. The chemical fertilizers were then weighed out and added, and the whole thoroughly incorporated. All chemical fertilizers were applied in quantities to afford an equal amount of the element for which they were used.

All fertilizers were applied before planting with the exception of those containing nitrogen. Of these one-half of the dried blood was added at this time and the remainder later. Of the sodium nitrate and ammonium sulphate only one-fifth was added before planting. The remainder was added later in four installments.

In securing data records are being kept of all the flowers as to size, length of stem, condition of calyx, of the general character of the plants, temperature, watering, etc. From this data and general observations the work for the following year will be planned.

HEAVY SNOW WRECKS GREENHOUSE.

The heavy fall of sleet and snow, Feb. 17, caused the large greenhouse of the George W. Titus Garden Company at Irondequoit, N. Y., to fall in. The house, which was 150 feet in length and 32 in width, was wrecked from one end to the other, nearly every light of glass being broken, and the steel frame badly twisted, and everything planted was destroyed. Mr. Titus used it for vegetable forcing. The greater part of the house was used for lettuce, and it is estimated that fully 10,000 lettuce plants suffered damage from the accident. Mr. Titus also grew cucumbers, parsley and tomatoes in this house. It is said that there were no standards in the center to support the roof. The loss is about \$1500, and no insurance.

FIRE RECORD.

Portland, Me.—The store of E. J. Harmon & Co., Congress street, was damaged by fire on the morning of Feb. 15. The loss, about \$300, is fully covered by insurance.

Paris, Tex.—The greenhouses on the farm of Charles Cawley were destroyed on Feb. 14, with several thousand plants, spraying outfit and a quantity of seed potatoes, beans and peas. No insurance.

INCORPORATED.

Rochester, N. Y.—Geneva Valley Nurseries; capital, \$10,000.

Kittery, Me.—The Kensington Flower Shop has been incorporated. The organizers have a retail flower store at 689 Boylston street, Boston, Mass.

San Jose Scale on a Pear.

Kills San Jose SCALE

Poly-Sulphides of Calcium 30%. Specific Gravity 1.50

DIRECTIONS FOR USE**San Jose Scale Killer and Fungicide**

This preparation is lime, sulphur and salt, making a concentrated Poly-sulphide of Calcium. The salt adds to the adhesive properties, but the destructiveness to Scale Life lies in the Calcium Sulphide.

Aside from its ability to destroy San Jose Scale, **HORICUM** is a Fungicide, preventing the free development of fungoid troubles. Shake the package thoroughly or take the top off.

The color in its concentrated form is a deep bronze green. **Do not pour off the clear liquor only**, stir the Horicum from the bottom of the package, and add 20 quarts of water (hot, if you can get it) for ordinary use. For a stronger dilution when the growth is all dormant use 16 parts of water only (hot, if you have it) and spray thoroughly. By grading your dilution you make it any desired strength.

A PROGRESSIVE SEED STORE IN UTICA, N. Y.

The Batchelor Seed Store in Utica has been favorably known for a long time. Of late years it has been owned and operated by H. C. Langdon, but recently has been bought and reorganized by Syracuse capitalists, at the head of whom is C. F. Saul, long and favorably known in the seed trade of Syracuse, N. Y. A new company has been formed with C. F. Saul as president; Douglas M. Ross, as secretary and treasurer. The concern will be operated under the old title, "The Batchelor Seed Store," and will be under the general management of Mr. Ross, who grew up in the Syracuse establishment of Mr. Saul. We wish the new concern abundant success.

NOW IS THE TIME TO ORDER BULBS AND AZALEAS FOR FALL DELIVERY.

Send for our Price List

Ralph M. Ward & Co., 12 W. B'way, New York

Harlan P. Kelsey, Salem, Mass.—American Hardy Rhododendrons. A prettily gotten up and well illustrated pamphlet, with useful cultural information on broad leaved evergreens.

Ross Bros. Company, Worcester, Mass.—Seeds and Agricultural Goods, Farm and Garden Supplies, for 1909. Includes about 30 pages devoted to agricultural tools and machinery.

Eastern Nurseries, Jamaica Plain, Mass.—Wholesale Trade List for Spring, 1909.—This is an up-to-date list including the best hardy shrubs and trees for ornamental planting.

Wm. F. Turner & Co., New Bedford, Mass.—"Prize Medal" Dahlias.—This firm won the medal offered by the German Dahlia Society at the exhibition in Boston last year, also the Dobbie & Co. medal.

Wilhelm Muhle, Temesvar, Austria.—Wholesale Catalogue of Vegetable and Flower Seeds, Plants, Trees and Ornamental Shrubs. Cover brilliantly illustrated with cannas on front and tree foliage on back page.

Winterson's Seed Store, Chicago, Ill.—General Catalogue of Seeds and Plants. The motto of the house, "Make Your Garden Glad," appears on the title page, together with a striking picture of Vicks' "Mikado Pink" aster.

Ross Bros.' Seed House, Wichita, Kans.—25th Anniversary Seed Book. A very useful little catalogue. Cover particularly chaste and attractive, with a panel and spray of nasturtiums in colors on white on front and irises on back.

Wm. H. Moon Company, Morrisville, Pa.—"Hardy Trees and Plants for Every Place and Purpose." The sort of catalogue that impels people to plant their home grounds. Cover very artistic with decoration of pine cones.

V. Lemoine et Fils, Nancy, France.—Begonia Patrie, Deutzia discolor arcuata, D. discolor densiflora, D. gracilis candelabrum, Hydrangea arborescens grandiflora and Philadelphus mer de glace each have a full page half-tone illustration. The name Lemoine is a sufficient guarantee of the character of the text.

Watkins & Simpson, London, Eng.—Foreign and Colonial Wholesale Catalogue of Garden and Flower Seeds, Season of 1909.—Cover carmine, with illustration of Aster Eclipse on last page. Illustrations in the novelty and specialty section only which lists some very handsome new subjects, especially in annual flowers, which show marked improvement on their respective types.

Vilmorin-Andrieux & Cie, Paris, France.—General catalogue for 1909. The cover illustration of this very comprehensive publication is a half free, half conventional presentation of carnations and nasturtiums in light red and dull green. One colored plate is introduced showing the improved grandiflora type of Primula obconica which is not in the least exaggerated. Other than this the illustrations are old-fashioned wood-cuts throughout.

Everything "For the Land's Sake."

The one firm in Boston where all good forms of plant food may be obtained, is the Bowker Fertilizer Company, opposite Faneuil Hall at 43 Chatham St. All greenhouse chemicals, Nitrate of Soda, Ground Bone, Potash Salts, Sheep Manure and Wood Ashes can there be had at first hands.

BOWKER FERTILIZER COMPANY.

Everything "For the Land's Sake."

NEWS NOTES.

Rogers Park, Ill.—Peter Haerens has bought the Philip greenhouses and will take possession Aug. 1.

Newton Centre, Mass.—John J. Leahy has bought the Cowen greenhouse on White avenue.

Milton, Mass.—A. H. Ferry has bought the old Oakes Ames greenhouses at North Easton for removal.

White Plains, N. Y.—Arthur Dummett, Inc., nurserymen and contractors, of Mount Vernon, will open an office and show room at this place.

A FAMILY OF FLORISTS.

Among the progressive florists who have passed the best years of their lives in Chicago is Anton Then. His love for his work has been inherited by his children, and together they represent several branches of the business. At the greenhouse which is in charge of two sons they are carefully watching a very promising red seedling carnation which they intend placing on the market soon. A daughter and Mrs. Then have charge of the re-

tail store and Miss Josie Then handles their flowers in the market. Such instances of whole families working so harmoniously together are as creditable as they are rare.

NOTES.

Harry C. Heilemann, for seven years with the Leo Niessen Co., Philadelphia, has bought out the retail store of the Graham Floral Co., at 5615 Germantown avenue. This does not include the greenhouses which are still being run by the Graham Co. Mr. Heilemann is a young man of marked ability and pleasing personality, and has every prospect of making a success of his new venture.

O. J. Friedman, well known Chicago florist, at Van Buren and Michigan avenues, has received notice to vacate May 1st. The building is to be torn down, and replaced by a sky scraper. It is understood that Mr. Friedman's new location will be near Jackson Boulevard and Michigan avenue, about a block from his old quarters.

Flower Market Reports.

BALTIMORE Market conditions are fairly firm with a general healthy tone, all good material generally finding sale. The Mysic Shriners gave an eminently successful charity ball last week which took up some of the heavier class of decoration. With the advent of the Lenten season it is to be expected that the cut flower market will experience some depression.

A very rainy Ash Wednesday has put the snuffers on whatever trade there was, and we are obliged to report "little doing" on this occasion. Last week made a good record and the chances are that it will hold same for some time against all comers. An awfully awkward surplus of violets obstructs the market and bulbous material is doing a little also in the obstructing business on its own account. Daffodils are particularly plentiful, albeit very fine in quality. Carnations have also taken a drop and are worth about one half what they were ten days ago. Roses of the more desirable kinds remain in short supply and Beauties of high grade are practically unobtainable. Killarney is the steadiest variety on the list. It is seen in grand quality and steps up smiling whenever called upon. It's a wonder. A nice grade of myosotis is in evidence.

For the past two weeks **BUFFALO** trade has been good and the market fairly cleaned up at noon daily. The demand for carnations is strong as well as for roses which have been considerably off crop for some time past. Long Beauties are still the scarcest article in the market and Richmond has helped out in many corners. Killarney has been in fairly good supply but light in color. Bridesmaid and Bride of short quality have been in heavy demand and at times hard to get, which helped the sale of bulbous stock. Violets are of good quality but have not moved as fast as wished for the past week. Smilax, asparagus, ferns and mignonette are in good supply with normal demand.

At this writing the **CHICAGO** stringency in the rose market is about the same as last week. The call was heavy for Washington's Birthday and as the stock was limited prices held up to what they had reached for Lincoln week and St. Valentine's Day. It is predicted that by the time this goes to press the strain will be relaxed and prices on Beauty, Richmond and Killarney will have fallen from ten to twenty per cent. The usual shipments from this market to New Orleans were increased for the Mardi Gras festival. Local demand for daffodils is waning and some of the wholesalers have more stock than they can move. Other bulbous stock is going at fair prices, white being in especially good demand for funeral trade. Prices on cattleyas have advanced very decidedly. All the florists both wholesale and retail were at their posts on Monday, Washington's Birthday, but the volume of trade was not so large as Monday generally brings, the previous Saturday and Sunday showing the increase instead.

The favorable **PHILADELPHIA** market reported in last issue kept

up the past week, and a very satisfactory business was done all along the line. The lengthening days and fairly bright weather had some effect in bringing in larger supplies; but the demand was so good that no appreciable slump was noticeable in prices. The market kept on an even keel, and all good stock found a profitable market. Carnations and violets were probably most affected by the increased output. Gardenias, also, were a little more plentiful. Roses sold better if anything, notwithstanding slightly increased receipts. If any of them hung fire at all, it was among the whites—but even there nothing to speak of. Orchids are still scarce and in excellent demand. The opening days of the week show business brisk, but with Ash Wednesday the situation may take a turn. However, Lent is not nearly the bugbear it once was to the flower trade here. There will be lots of business, Lent or no Lent. This is George's Day; we cannot tell a lie!

At the present time Washingtonians know nothing and talk of nothing but the fast approaching Inauguration. The whole of Pennsylvania Avenue looks like a carpenter's shop. The Court of Honor, which extends the entire length of the White House grounds, facing the Avenue, is to be decorated by Gude Bros. For that purpose they will use thousands of yards of laurel festoons, with wreaths and garlands galore. Prices continue normal except on shipped carnations which have taken a drop. Dozens of social entertainments daily keep the market in a more than

healthy condition. Green of good quality is scarce. Most of the growers are holding it back for the Easter rush.

ACCIDENTAL SHOOTING.

Sunday, February 21, at 10 A. M., as Ernest Oechslin, one of Chicago's well known growers, Gale avenue and Madison street, was in his greenhouse, he was accidentally shot by his nephew who was outside about twenty feet away, examining his uncle's rifle. Mr. Oechslin was hurried to Oak Park Hospital and the course of the bullet located by means of the X-ray. It had entered the lower right lung, passed through his body and is lying against the spine. No attempt has been made at this writing to remove the bullet. The nephew, a frail young man, is completely prostrated by the accident. Mr. Oechslin's greenhouses, full of Easter stock will be ably superintended by his brother during his absence and his many friends wish him a speedy recovery.

NEWS NOTES.

Cleveland, O.—Mrs. L. Warnke and Son, florists, have disposed of their property to a real estate firm and will retire from business.

Asheville, N. C.—The Deake greenhouses, recently purchased by Dr. Grove, will be torn down to make way for the beautification of the estate. The Biltmore Nursery has charge of the landscape work.

Providence, R. I.—Providence had a big "business boom" banquet on Tuesday evening, Feb. 23, in which the floral fraternity took a leading part, practically every firm in the city and environs contributing flowers and plants for the decoration of the Armory and tables.

EVERYBODY KNOWS

Garaging and the properly done without the aid of an accurate leveling instrument.

Best of all, the Levels, No. 2 at \$15.00 and No. 3 at \$20.00, are on hand and can be had by the only Levels on the market which meet all the requirements, at the price.

Our guarantee book of every Level we sell, and satisfied users in every State, can heartily endorse every claim we make.

NEW YORK MARKET REPORT.

All indications are for a reaction and downward movement in flower values just as soon as the sunlight and spring warmth now due begin to get in their work on the producing plants. Roses are the only thing of any great influence on the market which have not already felt the effect, and they will not be far behindhand. Carnations are decidedly weaker but in quality they are all that could be desired. The same is true of violets, which as a rule are extra good. Lilies are accumulating, with quality variable and prices according. Many "odds and ends" are in the florists' windows not usually catalogued in the standard lists—such as primulas, myosotis, pansies, forced shrub bloom, yellow and white daisies, etc., and occasionally even a bunch of chrysanthemums, all of which serve to supply the variety needed to keep the flower buying public interested. Flowering plants are gradually coming to the foreground as usual at this season of the year.

IN BANKRUPTCY.

Quincy, Mass.—Edward Arnold, florist: liabilities, \$4116; assets, \$1325. Among the unsecured creditors are H. E. Fiske Seed Co., A. T. Stearns Lumber Co. and Welch Bros.

BUSINESS CHANGES.

Denver, Col.—The Gallup Floral Co. has removed to 1546 California street.

New York, N. Y.—Abram Jacobs has purchased the retail store of C. A. O'Reilly, 198 Columbus avenue.

Erie, Pa.—The firm of Offerle & Schaal has dissolved and the business will be continued by C. G. Offerle.

Winchendon, Mass.—H. J. Whittemore has commenced the repairing of his greenhouses on River street which were recently gutted by fire.

Grand Rapids, Mich.—The Grand Rapids Floral Co. has removed from 149 to 145 Monroe street and will change its name to Alfred Hanna & Sons.

Rock Island, Ia.—The business of the Long View Floral Co. will hereafter be carried on by Mr. Hensley, he having purchased his partner's interest.

Boston.—William J. Dunton succeeds the late Marston B. Bunker, retail florist at 8 City Hall avenue. Mr. Dunton has been in the employ of Mr. Bunker for some time, and this, with his long previous experience in the Boston flower trade, would seem to insure his success.

THE FLORIANER ROSE APPLE.

Translated by F. Moore

By the revision of the normal apple
sortiment of Upper Austria, instituted
by the council of the agricultural
body in Linz, the above named variety
found acceptance in the list. In the
vicinity of St. Florian this variety is
but little cultivated, and more plenti-

fully in the Inn district; and the de-
mand for it is so general that the sup-
ply cannot be met, by a long way. The
variety is not new and its origin is
not known with certainty; and it went
under various names till Oberdick in
1859 gave it the name Florianer Rosen-
apfel. Diel in writing about it called it
Pomme tulipe, and gave the name of
the raiser as being the Kaplan Vellen.
Schmidberger called it the Gestreiften
Rosenapfel (striped Rose Apple).

Diel and Schmidberger were the best
of friends and the most zealous sup-
porters of fruit culture in the eight-
eenth century, and were in close cor-
respondence with the most eminent
pomologists in France and Germany.
It is proved by aged trees that for
more than 100 years the variety has
existed in the neighborhood of St.
Florian.

The variety Gravenstein produces
excellent fruit at this place as if the
climate was created for it; and the
Florianer Rosenapfel as being of equal
worth, may be classed with it. The
cylindrical shaped fruit with the
striped, reddish tinted cheeks, has a
delicious flavor. It is at its best from
October till January. The tree is of
a compact growth, and is very pro-
lific.—"Die Gartenwelt" for January
23, 1909.

WIZARD BRAND MANURES

Dried, screened and packed in bags of
100 lbs. each.

PULVERIZED SHEEP MANURE PURE — UNIFORM — RELIABLE

A strong and quick acting manure,
highly recommended for carnations
and chrysanthemums.

SHREDDED CATTLE MANURE EASY TO HANDLE AND APPLY

Stronger and better in every way
than rough manure. Lasts much
longer on the benches. Unequalled for
mulching and feeding roses, liquid
manuring and mixing with bench
and potting soil. Used by all the largest
growers.

HELP WANTED

WE need a man who knows seeds and plants in a practical way and who can write of them in good English. Ability to express himself in few words, easily understood, absolutely essential. Daily newspaper training almost indispensable. Good habits and capacity for hard work necessary. Working knowledge of seed, nursery or florist's trade, experience in an advertising agency, and familiarity with type and other print-shop accessories, highly desirable. If there is such a man open to engagement we can offer him the opportunity of a lifetime. Inquiries invited from persons who possess one or more of the stated qualifications.

A COMPARISON

When you compare the cost of the wooden house with our Iron Frame House, bear in mind that the Iron Frame costs less to erect, less to keep in repair, and gives you greater returns in quantity and quality of flowers, than the best cypress house made. It is a construction that pays for itself many times over.

The next best proposition is our Half Iron Frame House. Send for circular.

Hitchings & Company
1170 Broadway New York

Our Shadeless Ridge Type of House

Its advantage is, none of the benches are shaded by the ridge.

This section is the 53-ft. Sectional Iron Frame house we furnished Mr. Fred Burki this season. His location on a side hill gives him a grade of about 5 feet in fifty.

Robert Simpson built his two 30 x 465 feet houses on the level, and graded them inside to meet his particular ideas.

Here then are examples of medium and wide Shadeless Ridge houses of our Sectional Iron Frame Construction. Each owner declares that they are the houses of the future, no matter what you want to grow.

If you are going to build, think these things over and get in touch with us.

Lord & Burnham Co.

BOSTON: 810 Tremont Building. PHILADELPHIA: 1215 Filbert St.

THIS IS THE WAY A U-BAR HOUSE LOOKS FROM INSIDE

You have never seen anything that anywhere near approaches it for lightness. Think what it means not only to have no gutter at the eaves, but also no heavier supporting roof members than the U-Bar, at any point of the roof.

Think what this wonderful lightness means in increased blooms, especially just this time of the year when light is at such a premium.

Think what a pleasure such an attractive, beautiful house always is—what a pride you can take in its being "the best there is."

The thing for you to do is to drop in at our office at an early date, or write us at once about the new U-Bar house you want.

**NEW
ROSE****WHITE KILLARNEY****We Know You Will Want to Buy White Killarney**

Every live, progressive, up-to-date grower who has seen it is buying it; but when you buy White Killarney, be sure you get the right White Killarney (the Waban variety). When you buy from us you get the variety that has been exhibited and certificated and the one that has attracted such favorable mention.

If you are in the vicinity of New York, we should be glad to have you call and see White Killarney growing at our Scarborough range, and you will say at a glance—as everyone who has seen it growing—that it is by far the best white rose that has ever been placed on the market.

It is not only a good winter-flowering rose, but is good the entire year, and it is a splendid shipper. Read the following letter received from Mr. Willis N. Rudd, Secretary of the Society of American Florists, dated January 18th, in which he writes as follows:

"Dear Mr. Pierson:—I cannot refrain from writing you and expressing my admiration for the White Killarney as shown at Chicago on Thursday. It is an exquisitely beautiful thing and attracted much attention. I took half the blooms home with me, and they were finer on Saturday than they were at the show. The record is that these blooms were shipped from Tarrytown, staged and exhibited during the afternoon. They were then carefully wrapped up in a box, and remained in that box until one o'clock Friday morning, at which time I reached home; improved in quality up to Saturday, and were in fairly presentable condition on Sunday.

"In addition to being the most beautiful white rose of its class which I have seen, this demonstrates its splendid keeping and shipping quality."

W. N. RUDD "

We were awarded Silver Cup at National Flower Show, Chicago, for best new rose with White Killarney.

Strong Plants, 2½ inch pots, own roots, \$30.00 per 100; 250 for \$70.00; 500 for \$125.00; 1000 for \$250.00. Grafted plants \$5 per 100 additional.

Primula Kewensis

This beautiful hybrid primula, which was sent over from England a few years ago with such high recommendations, has well justified the good opinions which were given it by the raisers. Owing to its parentage it was confidently expected to prove an acquisition of more than ordinary merit, and so far as our experience goes, we have found it to be the most useful primula in cultivation at the present time.

The two parents of *Primula Kewensis*, *Primulas floribunda* and *verticillata*, are both well known greenhouse varieties, which have been extensively grown for many years in cool houses, where they have been highly valued. The hybrid variety has, however, far surpassed its parents, being more floriferous, much more valuable for decorative purposes and when well grown makes a plant which for real beauty cannot be equalled by any other primula in cultivation.

There are quite a few people who have failed to get good results with this primula. The most common complaint is that their plants after having thrown up two or three flower spikes, become exhausted, and cease to produce more. Other growers have tried the plan of "growing on" a few of their last year's plants, but the experiment met with very indifferent results.

Personally we have found no difficulty in growing this primula. Our plan is to sow the seed about the first week in February, and, as soon as the seedlings are large enough, we prick them off into flats and place them on shelves in the coolest house we have. When the plants are ready for a shift we pot them into 2 1/2 inch pots and give successive shifts as required. Like all other primulas they should be grown in frames outside during the summer months and kept well shaded.

Perhaps the best method to follow, when growing *Kewensis* for exhibition, or if you wish a batch for late flowering, is to plant them out in cool frames, about the beginning of June. By this method, they will make huge plants for lifting and potting up, in the fall. As

Kewensis will not flower freely, until the pots are well matted with roots, by the planting out method the plants are from a month to six weeks later in flowering than those which have been grown in pots all summer. This year I noticed *P. Kewensis* grown in this manner, with from a dozen to eighteen spikes in flower at one time, each averaging about eighteen inches in length, foliage being perfect, making a pot plant of unusual beauty and elegance. This primula, from a decorative point of view, is as near being perfect as one could wish. The color of the flowers is of a delightful primrose shade, the foliage is always healthy and green, and with a little care in the watering and picking off dead flowers it will last easily two or three weeks in the dwelling house. As a commercial plant, or merely for decorative purposes under glass *P. Kewensis* is well worthy of a trial.

W. M. Ch. Brown.

North Easton, Mass.

Pentstemons

Memories of a choice bed of pentstemons are among my earliest recollections of garden flowers and it seems to me strange that such a beautiful flower should be so little grown. Only in the last year or two have they been seen at our exhibitions and gradually the quality has been improved until now some of the finest strains are offered by several enthusiasts who have evidently woken up to the possibilities of this grand flower, and there seems a probability that it will assume its place among the finest of our half hardy perennials.

The imported strains are undoubtedly the best, and this can be readily explained when we consider that a period of many years of the most careful selections has been necessary to produce such perfection of form and color as we see among the varieties of today. No haphazard methods could produce the wonderful strains now in evidence. The most beautiful colors and flowers of immense size, combined with a strong sturdy growth and long spikes of gorgeous bell-shaped flowers, makes it one of the most indispensable garden flowers, for cutting, in beds alone or mixed with other plants.

Seed sown now will produce plants that will flower this season, and cuttings may be taken in the fall, of any desirable kinds worthy of growing another year. They also make good pot plants for the decoration of the conservatory, and never fail to be admired.

If, when planted out in beds, you find the tips of the young leading shoots curled up, by investigating you will find it is caused by a small grub which eats a hole through the centre of the growth, but if these are gone over carefully by hand and removed, even should the centre growth for the present be destroyed, the side shoots will throw up strong and give an abundance of flowers. If given a good rich soil to grow in nothing will give more satisfactory results than a bed of pentstemons.

Clifford J. Lawrence.

We are greatly pleased to be able to present so valuable a contribution—valuable because so straight-forward and practical—as appears on another page of this issue over the signature of Wallace R. Pierson on the

experience of this observant man with "My Maryland" rose up to the present time. It is not to be expected that a rose absolutely new will so demonstrate its requirements within the first year of its dissemination that every grower who has invested in a batch of the plants will be found singing its praises as a success in all respects. To condemn an introduction on the basis of a few months' trial is unfair to the variety, unjust to the raiser and disseminator and discouraging to every one who seeks to contribute to the advancement of horticulture by devoting his time and energies to the production of new varieties. It is only by experiment carefully followed up that the ideal conditions for any new plant can be prescribed. Nothing short of that can be called a square deal.

Impressing
the public

The notable exhibition which has just closed in Boston, of which a full account appears in this paper, was a very different affair from any of its predecessors,

held heretofore in the market salesroom and regarded as a trade affair exclusively. In its direct appeal to the people—its invitation to the public to come to Horticultural Hall and see the products of the commercial flower growers, it opened up a new conception of the opportunities for trade expansion. Possibly the direct exchanges of stock between growers were no larger than under the old arrangements but who will say that the broad benefits to the flower trade of the city were not many fold greater on this occasion? The very creditable presentation of the artistic productions of the retail florists was a long step in the direction of educational publicity. Another year we do not doubt that this department will attain still greater prominence. For best results we would recommend a study of the plan followed at several of the fall exhibitions in Chicago. No better method of bringing out the retail flower dealers has yet been devised.

Some Dutch
bulb observations

The improved market values enjoyed during the past winter by forced bulb flowers are attributed generally to the cautious buying of bulbs last summer. Whether the pendulum will now swing to the other side again and excessive buying follow the satisfactory market conditions we do not know but that is not an unlikely eventuality. The Dutchmen are now abroad in the land by scores and it will not be their fault if the import orders are not doubled up. In this connection it may not be out of place to ask what is the matter with the hyacinths. On certain of the popular standard varieties the quality has been deteriorating from year to year until now such sorts as Czar Peter, Charles Dickens in three varieties and Norma no longer fill the bill, Morena being now substituted for Norma, for instance. Within a few years the tulip bulb trade has increased five hundred per cent. while the hyacinth has remained stationary, which is not to be wondered at when we note the inferior quality of the flowers now obtained as compared with the magnificent trusses of bygone days. This collapse of many varieties is attributed by good judges to the unwise methods of culture practiced by many Holland growers who, in their haste to build up stock rapidly, have followed processes of quick reproduction by forcing in heat whereby big healthy-looking but soft bulbs are procured in two or three years instead of four as formerly, with the result that the flowering quality is permanently impaired.

European Horticulture

NEW INTRODUCTIONS IN HELIOTROPES

The earliest to appear in commerce in recent years was Frau von Poschinger of a dark tint which soon became a favorite variety for groups and pot culture, but it now has a strong rival in Mathilde Cremieux, a grand, lilac-blue flower, and an excellent plant for pots, window boxes, groups, etc. The variety is of French origin and is of compact habit, and withal very vigorous. Last year the variety was quite unaffected by the long-continued drought in the summer—a proof of its being capable of withstanding the influences of the weather. It is probably the best heliotrope introduced up to the present year.—Karl Ziskoven in "Moller's Deutsche Gartner-Zeitung, No. 7."

NEW HYBRID ORCHIDS—LÆLIO-CATTLEYA FELICIA

This handsome hybrid was raised by Messrs. Charlesworth & Co., Ltd., by crossing L. C. Haroldiana and Cattleya Triane, and was awarded a first-class certificate at the Royal Horticultural Society's meeting on January 26. The hybrid possesses the grand proportions of C. Hardyana with a striking introduction of dark purplish coloring on the edges and front of the side lobes of the labellum, which makes an effective contrast with the silvery white and pink color of the rest of the bloom.

CYPRIPEDIUM EARL OF TANKERVILLE

This striking new hybrid was obtained by Messrs. Sander & Son, St. Albans, by crossing C. exul and C. nitens Sander's variety—a plant which received an award of merit at the R. H. S.'s meeting on January 9, 1906. A portion of the original plant passed into the collection of Lieut. Col. G. L. Holford, who exhibited a flowering plant on January 26 last. There are numbers of hybrid cypripediums with larger flowers than the Earl of Tankerville variety but a more beautiful bloom is difficult to indicate. The bloom is of waxy consistency, and possesses a pure white dorsal sepal, with a small green base, and it bears dark chocolate purple blotches which change on the upper area to rosy purple. The rest of the flower is of a yellowish tint, tinged with brownish purple.

CYCAS REVOLUTA

One of the most valuable plants for decorative purposes is *Cycas revoluta*; but few persons have seen them in flower. Here on the Riviera the plant has found a second home and as solitary objects in groups in the open ground they are frequently met with. These are chiefly of the fruit-bearing sex, the male plant being rarer. The figures given in No. 7 of "Moller's Deutsche Gartner-Zeitung" show the male and female plants in flower and fruit. The male bloom measured 55 cm. in length, and weighed when removed from the plant 5 kg., and as thick as a man's arm. The fruit on the female plant looked like an enormous Globe Artichoke, and measured 50 cm. in diameter. Each single fruit-leaf concealed four fruits, with, in all, 400 seeds. *Cycas revoluta* must be artificially fertilized in June and July. The pollen had to be brought in this case several kilometers.—G. Schupisser, at Cannes.

THE PRUSSIAN HORTICULTURAL AND THE GERMAN ORCHID SOCIETIES

The immediate effect of the amalgamation of these two societies is to form the much desired National German Horticultural Society, or at least to steer in that direction, although the orchidists may not be inclined to become Prussianized. Next to the Verein Deutscher Rosenfreunde the only special society for the interest of one class of flowers eleven years ago, the Deutsche Dahlien gesellschaft came on to the scheme. In spite

of the zeal with which this society worked, the members soon saw that the field of work must be extended and pushed on with greater vigor. And similarly with other special societies and clubs in Germany.

Andréck Moore

Regarding "My Maryland"

We must live with people to know them and the same is true of roses. Killarney is now the leading rose of commerce and we cannot but remember how it was discarded as worthless by more than one expert rose grower when it first came out. With "My Maryland" problems have arisen, but with an understanding of the needs and absolute requirements of this variety, the difficulties have been overcome and I believe success with the variety will be almost universal where the rose is properly treated.

As this article is, in a way, a reply to adverse criticisms of the variety, and as we believe we have solved the problem, I wish to place before the rose growers of the country a few facts concerning "My Maryland" as it has acted with us.

Last season we bought heavily and throughout the months of December, January and February we were receiving wood for grafting purposes from the introducer, and without exception this wood was good-sized canes and the flowers, in many cases left on, were of extra fine quality.

Our planting of "My Maryland" consisted of 4,500 grafted plants, no own-root being used, and were divided in three sections of the place. One thousand were bedded in April in a house of mixed roses. From this one thousand plants we cut an average of over thirty flowers per plant up to December 1st. These plants were then cut hard for wood for grafting and have since been thrown out to make room for Easter stock.

A second one thousand were planted in a house of Bridesmaid and this temperature was entirely unsuited to the variety, and it also was taken out recently to make room for Easter plants.

At Plant No. 2 a house holding 2,500 Maryland was planted June 15th and up to January 1st it has produced 67,000 blooms. From this house we have taken 25,000 blind-wood cuttings and 50,000 eyes for grafting since the date mentioned (Jan. 1st).

We were holding this house 58 degrees to 60 degrees in December and the tendency to stop growing became noticeable, especially so in one bed with poor drainage. Raising the temperature to 64 degrees resulted in increased vigor and the character of the rose changed completely. The house at this date is coming into full crop, in spite of the fact that 2,000 canes have been taken in one day for propagating purposes, and it would be a pleasure to us to show those interested in the rose the house as it stands today.

The solution of the whole problem seems to be heat and by increasing the temperature to at least 62 degrees and not over 65, the rose can be kept productive and profitable in mid-winter, and the nature of the plant is such that it will almost grow itself at other times in the year. Almost every small rose grower has a warm corner and this should be for "My Maryland," and the larger grower, with separate houses or sections, if his heating system works, should be the master of the situation.

Cromwell, Conn.

THE BOSTON FLOWER MARKET EXHIBITION

The commercial growers of Boston and their co-workers from far and near are entitled to great credit for the splendid show they put up at Horticultural Hall, Boston, on Saturday and Sunday, February 27 and 28. HORTICULTURE felt safe in predicting a sensational success for this undertaking, as there was an unmistakable enthusiasm in the air which said that the local growers would do their best and, that being the fact, the outlook was full of big things.

As might be expected from a trade show at this time of the year, carnations predominated, and there was a vast and inspiring display of these which for quality and beauty has rarely, if ever, been equalled anywhere. The tables with vases of hundreds, fifties and twenty-fives filled the entire centre area of the main hall. Roses were displayed in only moderate quantity, the product running very short at the present time. Violets and sweet peas were seen in large numbers and there were some fine groups of flowering and foliage plants in marketable sizes which, together with the promiscuous flower groups and the interesting contributions of the ever-willing private gardeners sufficed to fill the hall to repletion and make a picture of rare brilliancy.

In the smaller adjoining hall were displayed the "made up" exhibits of the local flower stores. The number of exhibits in this department was unusually large and in every one of them good taste was displayed. The unsatisfactory results of exhibiting this class of work in a competitive way in the usual exhibition hall style was demonstrated here as elsewhere. Floral baskets of varying pattern and size, each a beautiful object in itself, can never be made to form an attractive picture when arranged in a row on an exhibition table, and the effect is bound to be incongruous no matter how meritorious the individual components may be.

The scoring for certificates of merit resulted as follows: Seedling No. 9 (white), by G. E. Buxton, 85 points; Shasta, by Baur & Smith, 87 points (a big record after 1000-mile trip); crimson seedling by Sam Kinder & Bros., 80 points; yellow seedling by N. D. Pierce, 74 points; seedling, 50x20, by Leonard Cousins, 72 points. J. D. Cockeroff's Georgia arrived in damaged condition, having got overheated by some means on the way, and O. V. Zangen's Mrs. Pender was also seen under unfavorable conditions.

For the T. J. Grey prizes for vase of 100 one color, novelty or standard, which the veracious Boston Herald reporter described as "100 blooms of the gray trophy variety," the only competitor that had the courage to face Roper with his invincible Bay State was Cottage Gardens with Alma Ward, but it was doomed to defeat and Bay State still holds the belt.

In quite a number of the carnation classes the first and second prize fell to the same variety. In the fifties, according to color, White Perfection, En-

chantress, Winsor, Beacon and Fenn held this distinction, and in the twenty-fives it was Enchantress, Winsor, Afterglow and Fenn. In the fifties Afterglow had Helen Goddard and Mrs. Patten had Variegated Lawson as seconds, and in the twenty-fives Pres. Seelye had to take second place to White Perfection, and Beacon had to follow Victory.

The Gardeners' and Florists' Club prize for most meritorious exhibit was worthily awarded to Thomas Roland's cyclamens. These were splendid specimens of yearling stock and the varieties were of highest strain, including the new feathered Bush Hill type and the salmon pink colors. The groups of foliage and flowering plants from W. W. Edgar Co. and A. Leuthy were excellent. F. R. Pierson Co. was represented by a fine table of carnations and the two fern novelties, Nephrolepis superbissima and improved elegantisima.

The number of varieties of carnations in evidence was not large, and it is worthy of notice that they were confined mainly to the more recent introductions. Even the great Lawson was represented by but two vases in the entire exhibition. Of the varieties that impressed us most forcibly we might mention Beacon, President Seelye, Helen Goddard, Winsor, Ruby, Gov. Guild, Lady Bountiful, Winona (for color), Genevieve and Pierson's Fresh Pink Winsor, Prosperity Lawson, white seedling No. 30 and crimson seedling No. 60.

In roses W. H. Elliott made an interesting display of the old-fashioned favorites, such as Perle, Safrano, Isabella Sprunt and Bonsilene. The vases of My Maryland from S. J. Reuter & Son and A. N. Pierson (not for competition) were a centre of interest. The display of violets was large and drew a crowd. The sweet pea tables were lovely. Among the newer varieties Greenbrook, white tinged with lavender, was looked upon as the fore-runner of a different type of flower from the ordinary. Among the gems of the show were the orchids from Julius Roehrs Co., W. A. Manda and Thos. Watt, gardener for Mrs. H. F. Durant, and cinerarias from Martin Sullivan, gardener for Wm. Whitman.

The contributors in the retail florists' decorative classes were S. Hoffman, The Rosary, Kensington Flower Shop, Penn the Florist, F. H. Houghton and J. J. McCarthy. W. N. Craig showed in this department a beautiful mound of schizanthus and Wm. Sim a mound of sweet peas of exquisite beauty.

Ian Bliffe was in evidence with a section of a greenhouse, displaying his qualifications as a builder and fitter. Buxton & Allard of Nashua, N. H., had samples of their Eucalyptus in a greenhouse use on exhibition; this device has met with an enormous sale among growers, especially the plant growers, who use it as a quickly adjusted and reliable shelf supporter.

Among the trade visitors from outside the forty-mile limit were the following: New York State—F. R. Pierson and J. R. Fotheringham, Tarrytown; O. V. Zangen, A. C. Zvolanek, Winfried Rolker, A. Goldenberg, C. W.

Scott, Chas. Schwabe, John Scheepers, New York City; E. P. Tracey, Albany; Philip Warner, Newtonville; M. W. Gary and W. N. Taylor, Northport.

New Jersey—W. A. Manda, South Orange; Ed. Roehrs, Rutherford. Connecticut—Wallace R. Pierson, Cromwell.

Rhode Island—Mr. and Mrs. S. J. Reuter, Miss Reuter and L. J. Reuter, Westerly; John Gibson and John Marshall, Newport; Peter S. Byrnes, Wickford; N. D. Pierce, Norwood.

New Hampshire—Geo. E. Buxton, Nashua.

Pennsylvania—S. S. Skidelsky, Robert Kift, Paul Berkowitz, Philadelphia. Maine—H. R. Mitchell, Waterville; Alex. Wallace, Portland; Mr. and Mrs. C. S. Strout, Biddeford.

Massachusetts—E. A. Richards, Greenfield; G. H. Sinclair, Northampton; A. H. Lange and A. A. Hixon, Worcester; Jos. Fuller, Leominster; E. O. Orpet, So. Lancaster; Henry Barton, Westfield, and about everybody of any account within the forty-mile limit of the Hub; also quite a delegation of Dutch bulb salesmen from Holland and Paul Kaese of Hamburg.

LIST OF AWARDS.

Carnations.

CLASS A. Vase of 50. White, F. R. Pierson Co., first; Wm. Nicholson, second; Fresh Pink, Peter Fisher, S. J. Goddard; Light Pink, F. R. Pierson Co., Patten & Co.; Dark Pink, F. R. Pierson Co., S. J. Goddard; Red, Cottage Gardens, Patten & Co.; Crimson, Wm. Nicholson, Wilfrid Wheeler; Variegated, Wm. Nicholson, Patten & Co.

CLASS B. Vase of 25. White, Lemoine Bros., F. R. Pierson Co.; Fresh Pink, Lemoine Bros., Patten & Co.; Light Pink, Lemoine Bros., F. R. Pierson Co.; Dark Pink, Patten & Co., C. S. Strout; Red, Lemoine Bros., A. Batley & Son; Crimson, Ed. Winkler, Lemoine Bros.; Variegated, Patten & Co.

CLASS C. Vase of 100 assorted. Peirce Bros., first; F. R. Pierson Co., second.

CLASS D. Vase of 100, one variety. T. J. Grey cut to A. Roper for Bay State; cut glass vase to Cottage Gardens for Alma Ward. Six vases of 50 each: A. H. Hews cut to Cottage Gardens. Fifty Beacon, Peter Fisher prize, Wm. Nicholson. Twenty-five Beacon, Peter Fisher prize, Chas. S. Strout. Fifty Beacon, Cottage Gardens prize, S. J. Goddard. Fifty Afterglow, R. Wintersatter prize, F. R. Pierson Co., first; Wm. Nicholson, second. Fifty Winsor, F. R. Pierson Co. prizes, Peirce Bros., first, C. S. Strout, second.

CLASS E. Twelve blooms, unnamed seedlings: Peter Fisher, No. 409, scarlet, first; Peirce Bros., dark sport of Winsor, second; Peirce Bros., No. 60, crimson, third.

CLASS F. Best single bloom in the different colors: Various winners.

Roses.

CLASS G. Vase of American Beauty, Waban Rose Co. prizes, 25 pink. Montrose Greenhouses, first with Bridg-maid, 25 red, W. H. Elliott, first with Richmond, 25 white, Montrose Greenhouses, first with Bride, W. H. Elliott, second with Bride, 25 any other color, W. H. Elliott, first with Perle.

CLASS H. Vase of 50 mixed roses: A. N. Pierson, first; Montrose Greenhouses, second.

CLASS I. Premiums to be competed for by growers having not over 30,000 feet of glass. No entries.

CLASS M. Vase of best new rose undiscriminated before 1909: Park Street Flower Market prize to Waban Rose Conservatories for White Kill rose.

Sweet Peas.

CLASSES K, L, M. 100 white: Wm. Sim, first with Florence Denzer; Passade Ave Greenhouses, second, 100 pink: Sim

with Christmas Pink, Passaic, second. 100 light pink; A. C. Zvolnek with Gov. Fort. 100 lavender; Wm. Sim with Mrs. Alex. Wallace. 100 any other color; Wm. Sim with Greenbrook. Best new variety: Flower Market prize and certificate to A. C. Zvolnek for Pink Beauty. Collection of standard varieties, vase of 100 each: Zvolnek prize to Wm. Sim. Five standard varieties, twenty-five of each: Zvolnek prize to Wm. Sim.

Violets.

CLASSES N, O, P, Q. 200 Campbell; H. F. Calder. 200 any other variety; H. W. Sanderson with Farquhar, first; Amelia S. Fraleigh, second. Princess of Wales; Estey Bros. with Wm. Sim. Any other single: Wm. Sim with Boston. Best display of Boston violet: Wm. Sim prize to Sidney Hoffman. Best new single violet: Market prize and certificate to Wm. Sim for Kaiser Wilhelm.

Bulbous Stock.

CLASS R. 50 Tulips: J. T. Butterworth, Mann Bros. 50 Narcissi: Mann Bros. A. S. Fraleigh. 12 varieties of bulbous stock: Mann Bros. 50 Lily of the Valley: H. M. Robinson & Co., J. T. Butterworth. 12 Dots of Easter Lilies: H. F. Michell prize to F. E. Palmer. 12 Cyclamens: Pottery prize to Thomas Roland. Most Meritorious Exhibit in the Show, Gardeners and Florists' Club prize to Thomas Roland for display of yearling cyclamens.

Miscellaneous.

CLASS S. Marguerites: Wm. Nicholson, S. J. Goddard. Mignonette: Wm. Nicholson, H. Waldeck. Pansies: W. C. Ward. Decorative Basket of Carnations: F. E. Palmer with Beacon and Piersol fern; second, H. R. Comley with Winsor. Bride or Bridesmaid Bouquet of Carnations: Penn the Florist with White Perfection. Mound for Taber, Park Street Market prize to F. E. Palmer for Fair Maid and Coelogyne.

The small grower who is generally represented as yearning for a chance to win a few prizes on his own account without having to struggle against the competition of the big fellows, did not put in an appearance, and the eight very liberal prizes—aggregating \$48 for 100 roses—were untouched.

ANOTHER BOSTON MARKET SHOW.

Boston is to have another commercial florists' show, this time on March 20 at the salesroom of the Music Hall Market, Winter street. The managers and stall holders are very enthusiastic as to the prospects and promise a display of floral products and novelties in all lines that will be worth seeing and, for the dealer who has spring stock to sell, an excellent opportunity to show his goods. We can't have too many of these shows. One a month throughout the business season of the year would waken things up wonderfully in the vicinity of the Hub. See the advertisement.

A SIGN OF SPRING.

Have you heard the robins or the blue birds yet? There's yet another infallible sign of approaching spring—the red flag waving defiantly at the belated wintry blasts or rippling softly in the zephyrs from across the Hudson at 42 Vesey street, and the date set for this annual festivity is March 9. Wm. Elliott & Son's advertisement gives full particulars.

MASSACHUSETTS AGRICULTURAL COLLEGE.

On Wednesday, March 3, W. J. Stewart addressed the students of the short-term course in floriculture on wholesale marketing.

FLORISTS' CLUB OF PHILADELPHIA.

A very interesting paper on the culture of gardenias was read by William Kleinheinz at the monthly meeting of this club, held on the 2nd inst. A lively discussion took place after the reading of the paper, the sharp questions of some of the rose experts leading to the impression that they are envious of the seventy-five cents a bloom, and getting ready to invade new territory.

W. W. Allabaugh, Perkasie, Pa., exhibited a vase of seedling antirrhinums, showing excellent culture and were a striking example of the value of this subject as a cut flower. A vase of the new white carnation, known at present as "Craig's seedling," was shown by W. Kleinheinz, who has been growing a few plants to try it out. Looks like a good thing. Not too stiff in the stem. Pennock-Meehan Co. sent a magnificent lot of Waban White Killarney, which were in fine condition and remarkable as to size and substance. The subject for next meeting will be a talk on Cuba and the Isle of Pines, by Messrs. Craig and Westcott. These gentlemen are bursting with the astonishing things they have discovered in these favored isles during their recent trip, and see "millions in it," and want all of the club members to know of the possibilities.

Robert Kift made an interesting report on what he saw at the Boston trade exhibition Feb. 27. It must have been worth seeing. Robert is always rosy and appreciative. It's a fine thing to be an optimist. But in the voyage of life the rosy sunsets are not all there is in it getting into port. If the captain and the crew are any good they will think of the hidden rocks and the sharks. Most of the too much optimists I've ever known got skinned alive. Keep your weather eye open as well as your cheerfulness.

ROCHESTER (N. Y.) COMMERCIAL FLORISTS' ASSOCIATION.

On March 1 the Association was the guest of the Rochester Chamber of Commerce, and the invitation was accepted by about 60 members. The most cordial welcome was extended, and after the meeting a bounteous lunch and smoker followed. During the meeting, which was for the purpose of ratifying the plans of the Chamber relative to the building of a larger exhibition hall in connection with the present Convention Hall, the plans were freely discussed by citizens and A. H. Secker presented the views of the association as to the necessity of such addition. Much enthusiasm prevails here concerning the securing of the convention of the S. A. F. for Rochester in 1910, and we hope, with such increased facilities, to be successful in this endeavor. The regular monthly meeting occurs March 8, at which time the subject of a local show this fall will be discussed and a paper read on "Plants for Easter, 1909."

MASSACHUSETTS HORTICULTURAL SOCIETY.

The spring exhibition, always a big affair, at Horticultural Hall, Boston, will be exceptionally so this year, several sensational exhibits having been promised. The most pretentious display of Japanese gardening ever made indoors in this country will be presented by R. & J. Farquhar & Co., occupying about two-thirds of the area of the main hall. Rich accessories have been imported especially from Japan for this stupendous piece of work, and no effort or expense has been or will be spared in making it a truthful and complete representation of gardening art in Japan. Full provision has been made, also, for a display of Easter flowering plants, bulbous flowers, orchids, roses and carnations, for all of which very liberal premiums are offered and also for mantel decorations of plants and flowers for which a silver medal and fifty dollars constitutes the first prize, a bronze medal and thirty dollars second prize, and twenty dollars third prize.

MINNESOTA STATE FLORISTS' ASSOCIATION.

The meeting of the Minnesota State Florists' Association held at Merriam Park, February 23, was fairly well attended, considering the stormy weather. In the exhibition Messrs Nagel & Son scored 63 1-2 points for Empress Narcissus, 76 for Carnation Winsor and 79 for Carnation Lawson, Karl Hagan 82 1-2 for Cyclamens and 96 for Violet Prince of Wales.

The subject of the fall flower show was discussed, and the prospects to hold one in one of the two cities are very promising. Messrs. May, Olson and Swanson will report about the matter at the next meeting.

The question came up: How should lily of the valley be packed for cold storage and at what temperature should they be kept? It was decided to submit the question to the trade papers for publication.

The great loss of *L. Longiflorum* amounting to 40 to 60 per cent was discussed. Prof. Le Roy Cady from the Agricultural School will read a paper at the next meeting.

SOUTHAMPTON HORTICULTURAL SOCIETY.

The bi-monthly meeting of this society was held February 18, vice-president U. G. Ager in the chair. After the regular routine of business, B. C. Palmer explained how to grow sweet peas. Discussion followed. Chas. E. Frankenhach gave a few points about the transplanting trees growing within the surrounding woods such as cedars, mountain laurel, etc.

The schedule for the next show to be held in July, 1909, was sent to every member of the society. There is hope for a keen competition.

C. F. GUILLOZ.

WE WILL OPEN THE SEASON TUESDAY, MARCH 9TH, AT NOON

And will offer on that day by Auction a fresh Importation of

**Choice Roses, dwarf and standard; also Conifers,
Rhododendrons, Azalea Mollis, Hydran-
geas, Privet, Bulbs, Roots, etc.**

W. ELLIOTT & SONS, AUCTIONEERS 42 Vesey St., NEW YORK

SOCIETY OF AMERICAN FLOR- ISTS AND ORNAMENTAL HORTICULTURISTS.

The Legislative and Tariff Committee of the Society of American Florists met on Wednesday, Feb. 24th, 1909, at 35 Cortlandt street, New York; present, Messrs. Benjamin Hammond, Frank R. Pierson, Patrick O'Mara, J. D. Elsele and Patrick Welch. Mr. E. A. Moseley reported inability to be present on this date. There was a mass of correspondence and Mr. Hammond suggested that Frank R. Pierson act as chairman and he would act as secretary.

The entire committee settled down to business. The following motion was moved and seconded: Resolved, That it is the sense of this committee that the Society of American Florists recommend wherever possible that a specific duty upon bulbs and plants be imposed. Carried.

On motion moved and seconded: Resolved, That the schedule be by count and not by measure. Carried.

On motion moved, seconded and carried: Resolved, That this committee do recommend that the following specific duties be levied on a ratio per one thousand, namely:

Hyacinths	\$4.00
Tulips	1.50
Narcissi	1.50
Liliums, all kinds.....	7.50
Lily of the Valley, pips.....	1.50
Lily of the Valley, clumps.....	10.00
Iris, Spanish and English varieties.....	.50
Iris, all other varieties.....	10.00
Oxalis25
Crocus50
Jonquils (Narcissus Jonquilla).....	.50
Iris50
Montbretia50
Galanthus-Snowdrop50
Ranunculus50
Chionodoxa50
Freesia50
Gladioli	1.00
Scillas50
Anemones, bulbous sort.....	1.00
Begonias	2.00
Gloxinias	2.00
Colchicum	1.50
Astilbe	3.00
Cyllas	10.00
Dahlias	15.00
Paeonies	15.00
Amaryllis	15.00
Arums	5.00
Richardia	5.00
Zephyranthes50
Crown Imperials	5.00
Oreclameus	5.00
Muscarias50

All bulbs, bulbous roots or corms which are cultivated for flowers or foliage not specially provided for in this Act, 50 cents per 1000. Plants will be taken up at next meeting.

On motion moved, seconded and car-

ried: Resolved, That collected orchids be placed on the free list, but that orchids established be subject to a duty of 25 per cent. ad valorem.

It is the intention of the committee to meet with the Seed Trade and Nurserymen's Associations upon all points of common interest.

BENJAMIN HAMMOND, Secretary.

Registration of Carnation.

Mr. W. H. Shumway, of Berlin, Conn., offers for registration the Carnation "Edward" described as follows. This application having been submitted to the American Carnation Society and having received their approval is accepted and the carnation as described is registered:

This new seedling carnation is a product of five years' development. Enchantress is one of its parents; the other not known. The habit of growth is good, branching well, with foliage of good color and substance, easy to propagate, a rapid grower with stems twenty-four to thirty inches; flowers from three to four inches in size, well built up, very full, color a deep pink with good calyx.

W. N. RUDD, Secretary.

February 27, 1909.

BAR HARBOR (ME.) HORTICUL- TURAL SOCIETY.

A most interesting lecture upon fertilizers was given before this society on February 18 by Prof. W. D. Hurd of the University of Maine. From the analysis given Prof. Hurd of some pulverized sheep manure, it was shown to be worth a little over \$11 a ton. From the analysis of Clay's Fertilizer and Thompson's Vine Manure their value was respectively \$23.36 and \$30 per ton, this being the price at which fertilizers of the same value can be bought. Sheep manure is retailing at \$35 per ton; Clay's fertilizer at \$7 per 100 lbs., Thompson's vine manure at \$6.75 per 100 lbs. About one hundred and thirty members were present.

The first Ladies' Night of the society was held on February 23 in Society Hall. This proved to be the winter event of Bar Harbor, about one hundred and twenty couples being present. After a brief address of welcome by the vice-president, the grand march was led by Miss Vesta Stubbs and William Miller. The floor director, John Stalford, had a most excellent program prepared. He also had charge of the decorations, which were most elabo-

rate, and his corps of aids did themselves credit. Over 1000 feet of garlands were used and the hundreds of Japanese lanterns lighted by electricity, together with the rich costumes of the ladies, produced a gorgeous effect. To Mr. Stalford perhaps more than any other is due the great success of the first Ladies' Night. Refreshments under the direction of Edward Kirk with assistants were served about midnight. Card playing was also enjoyed by many.

A paper on Peonies will be read by William Miller at the meeting on March 4. W. MILLER.

NEW LONDON COUNTY (CONN.) HORTICULTURAL SOCIETY.

This society held its meeting in the parlors of the Buckingham Memorial Hall, Norwich, on February 22nd, President S. Alpheus Gilbert in the chair. Mrs. Edna Miner Rogers, botanist, gave a lecture on evergreens, natives of the vicinity, of which there were 13 species. Mrs. Rogers showed specimens of them all. Several questions were asked and answered. The next speaker was Charles Thos. Beasley, gardener for Mrs. Lanmon, who gave a short practical talk on annuals, dealing particularly with the sweet peas. Mr. Beasley also made numerous valuable suggestions on their cultivation in response to the questions asked him.

NEW YORK

AMERICAN ASSOCIATION OF HORTICULTURAL INSPECTORS.

The following condensed account of the meeting of the Horticultural Inspectors may be of special interest to nurserymen. As is probably well known, this Association is made up of all the nursery inspectors in the United States. The seventh annual meeting was held at the Rennet Hotel, Baltimore, the first session opening at 8 p. m., December 29th, with President Summers in the chair.

Q. 1. How can a national importation inspection law be secured?

Committee of three appointed by the Chair to take charge of promoting such legislation during the ensuing year.

Q. 2. Is it desirable for this Association to draft an inspection law for adoption by the several states?

Laid on the table.

Q. 3. Is it desirable to change the present method for certification of stock sold by nurseryman, which was not grown in his state?

In connection with this question the following resolution was offered by Dr. J. B. Smith of New Jersey, and adopted:

"That a committee of five members be appointed to formulate a system by means of which the leading members of the Association may notify the other members of the Association of such views concerning special nurserymen, as it may seem desirable for the inspectors of other states to know."

Further remarks showing benefit of the tag system as applied to this subject were made by various members.

Q. 4. What rule should govern the conditions of a certificate to a nurseryman in whose nursery stock San Jose Scale has been found?

No definite action.

Q. 5. What is the present opinion regarding the dipping of nursery stock in a contact insecticide, as compared with fumigation with hydrocyanic acid gas.

The following resolution adopted: "That it is the sense of this body that the present method of fumigation with hydrocyanic acid gas is the most approved method of treating nursery stock where there is danger of infestation from San Jose Scale."

Q. 6. What conditions should govern the certification of strawberry plants from nurseries in which the Strawberry Root Louse is known to be present?

The following resolution was adopted:

"That it is the sense of this Association that where the Strawberry Root Louse occurs in a nursery patch, if the attack be severe, the patch should be destroyed, but if only a slight infestation, the nurseryman should be required to burn off the patch, and dip plants in tobacco water before shipping."

Q. 7. Peach Yellows.

Resolved, "That this Association recommend that nurserymen, as far as possible, cut scions from healthy trees and encourage proper fumigation of all propagated nursery stock used in the nursery with hydrocyanic acid gas."

Q. 8. Crown Gall.

Resolved, "In view of the proven facts that this is a bacterial disease, communicated from one susceptible plant to other plants, to another, that the practice on the part of the nurseryman of propagating nursery plants visibly affected with Crown Gall with unaffected plants is extremely dangerous, and should be discontinued in the interest of fruit growing."

Election of Officers: The undersigned was elected President for the ensuing year, and Prof. T. B. Symons of Maryland, Secretary-Treasurer.

Respectfully,

F. I. WASHBURN,

Inspector for Minnesota.

GARDENERS' AND FLORISTS' ASSOCIATION (TORONTO, CAN.).

The annual exhibition of this society was held on Feb. 24 in St. George's Hall, Toronto; it was open to the public from 3 to 10 P. M., and

Gladiolus Gandavensis Hybrids

Many florists plant these in boxes, or among their carnations, in the Winter. They are excellent for decorative purposes and realize good prices, either wholesale or retail. Gladiolus are a good catch-crop and take up but little room. The following are the best for this purpose:

America. The flowers, which are of immense size, are of the most beautiful flesh-pink color, \$4.00 per 100; \$35.00 per 1000.

Augusta. The florists' best white Gladiolus. First-size bulbs, 1½ inches and up, \$2.00 per 100; \$18.00 per 1000.

Bulbs 1¼ to 1½ in. \$1.75 per 100; \$16.00 per 1000.

Shakespeare. White and rose. \$4.75 per 100; \$45.00 per 1000.

May. Pure white, flaked rosy crimson; the best forcer. Selected bulbs, \$1.75 per 100; \$15.00 per 1000.

Brenchleyensis (true). Fiery scarlet. Selected bulbs, \$1.50 per 100; \$13.00 per 1000. First-size bulbs, \$1.25 per 100; \$10.00 per 1000.

Boddington's White and Light. Extra selected bulbs, 1¼ in. and up, \$1.50 per 100; \$14.00 per 1000.

Bulbs 1¼ to 1½ in. \$1.25 per 100; \$10.00 per 1000.

American Hybrids. A mixture of the choicest varieties of Gladiolus in cultivation. \$1.00 per 100; \$9.00 per 1000.

ARTHUR T. BODDINGTON

SEEDSMAN

342 West 14th Street,

NEW YORK CITY

was well patronized. The Toronto Agricultural Society and the Toronto Horticultural Society assisted in the finances. The local growers put up some very fine exhibits.

The H. Weber & Sons Co., Oakland, Md., were awarded the gold medal for vase of best carnations and scored 95 points with Toreador. Its fragrance was a matter of frequent comment, a point which growers of new varieties should remember. Its keeping qualities are good; after traveling three days it stood up in good style.

Baur & Smith, Indianapolis, showed Shasta, which excited favorable comment and scored well; J. D. Cockcroft, Northport, N. Y., sent Georgia, but it had suffered in transit, as had also the shipment sent by the Chas. Knopf Floral Co., Richmond, Ind., of Ruby and Mrs. Chas. Knopf. The latter was considered by the judges an improvement in size and form over Enchantress, but color a trifle light.

The Dale Estate put up a fine exhibit of four vases of 100 each Beacon, Enchantress, Winsor and White Enchantress, which scored respectively, 90, 93, 89, 87; also magnificent Bride and Bridesmaid roses with stems three feet long. Other exhibits were by W. Lawrence, Eglinton, very fine Lady Bountiful, Winsor and Enchantress carnations, and mignonette New York Express, with spikes 15 inches long; W. Morgan, Hamilton, Princess violets of enormous size; S. Manton, Eglinton, Dendrobium Wardianum, Cymbidium Lowianum, Cattleya Trianae alba; T. Jay & Son, ferns, including some superb Nephrolepis superbissima and Amerophylli.

In conclusion I would say that the position taken by the judge was, that the best variety was the one which would attract the buying public the most and quickest.

RUTHERFORD, N. J.

NORTH SHORE HORTICULTURAL SOCIETY.

The North Shore Horticultural Society, Manchester, Mass., will offer at their August show the Lord & Burnham Gold Medal for the best group of

greenhouse foliage and flowering plants arranged for effect, each group to cover 100 square feet.

The accompanying cuts which show the obverse and reverse side of this rich medal, will undoubtedly bring out a sharp competition. Following are the names of former winners:

Wm. Inglis, gardener to J. J. Riker, Portchester, N. Y., awarded by Tarry-

town Hort. Society; Thos. A. Lee, gardener to Mrs. M. E. Sand, Ardley, N. Y.; Dobbs Ferry Hort. Society; Thomas Proctor, gardener for R. W. Patterson, Lenox, Mass.; Lenox Hort. Society; H. Skjoldager, gardener to E. G. Uhlen, Chicago, Ill.; National Flower Show.

EASTERN BRANCH OF AMERICAN ASSOCIATION OF PARK SUPERINTENDENTS.

This is the name of a new society, subordinate to the American Association of Park Superintendents, which was organized at Hartford, Conn., on February 26. It was at a little reunion of a few of the original members of the former New England Association that later broadened out into

a national society, which Superintendent Parker of the Hartford park department had called together for the purpose of reviving old comradeships, that the suggestion was made and enthusiastically acted upon to organize a local body which might meet more frequently and cultivate the social and fraternal relations to better advantage than is possible in the national body with its widely scattered membership.

By-laws and rules conformable to those that govern the larger association were adopted, and officers were elected as follows: President, J. A. Pettigrew, Boston; secretary-treasurer, G. A. Parker, Hartford, Conn.; executive committee, the president, secretary-treasurer and W. J. Zartmann of Brooklyn, N. Y. The first meeting will be held in Brooklyn, April 16, 1909.

Among those present were J. A. Pettigrew and J. B. Shea, of Boston park department; Robert Cameron, Botanic Garden, Cambridge, Mass.; G. X. Amrhy, of New Haven parks; Samuel Parsons, Jr., superintendent of New York parks; Geo. A. Parker, of Hartford parks; J. F. Huss, Goodwin Castle, Hartford; J. D. Flitts and Mr. Barker of Providence parks; W. J. Zartmann, superintendent of Prospect Park, Brooklyn; Mr. Ladd of Springfield, and J. H. Hemingway of Worcester, and C. E. Keith of Bridgeport departments, and W. J. Stewart of HORTICULTURE.

FLORISTS' CLUB OF WASHINGTON.

The regular meeting of the Florists' Club was held at Eagle's Hall, March 2. Owing to the stress of business, incident to the approaching inaugural ceremonies, there was an unusually slim attendance.

The re-election of President Kramer was made unanimous, as was that of Vice-President Robertson. For secretary, James L. Carbery reiterated his declination of the office, despite the pressure brought to bear to the contrary, and O. A. C. Oehmler was elected. Wm. T. Gude was elected treasurer. On the board of directors, Geo. H. Cooke and Theo. Dietrich were chosen. As is the custom of the club, the new officers will take their seats at the next meeting, which will close with a banquet. Geo. Shaffer was elected chairman of the banquet committee, assisted by J. L. Carbery, J. K. Davis and Geo. H. Cooke. All details will be decided later.

Lucille Won Highest Honors

At Springfield, St. Louis and Utica.

A carnation which while a fancy of the highest exhibition type, yet has all the best qualifications as a profitable commercial crop. Its beautiful color

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St., NEW YORK CITY.

CONNECTICUT HORTICULTURAL SOCIETY.

The regular semi-monthly meeting of the society was held on February 26th, President Huss being the presiding officer. Two new members were admitted. Secretary Alex. Cumming, Jr., who has faithfully and well performed the duties of that office for two years, resigned owing to his immediate departure for Seattle, Washington, to take part in the work on the exposition grounds. He was presented with a purse in recognition of his efficient services to the society, and of the esteem in which he was held. This was "Carnation Night," and a fine exhibit was tabled. The judges were H. A. Pinney, C. Calverly and Newton Osborn, all of Hartford. Their awards were as follows: Whiting's Greenhouses (Carl Peterson, gardener), West Hartford, first; A. N. Pierson, Cromwell, second; J. F. Huss, Hartford, third. W. H. Shumway, of Berlin, received honorable mention for two carnation seedlings. An able and eloquent paper, on "The History of the Carnation," was read by H. A. Pinney, of Hartford, who was tendered a rising vote of thanks. Two fine specimen cyclamen plants, grown from old bulbs, were exhibited by Geo. T. Whitten, of the Hartford School of Horticulture. George W. Smith, of Melrose, was chosen secretary, to succeed Mr. Cumming. President Huss has in preparation a schedule of coming events, announcements of which will be made in due course.

GEORGE W. SMITH, Secretary.

ILLINOIS STATE FLORISTS' ASSOCIATION.

Editor of HORTICULTURE:

My apology is due to you and to the readers of your paper for having failed to advise you previous to publication that the supplemental report summarized by you in a recent issue as having been presented by me at the meeting of the Illinois State Florists' Society, had been withdrawn after being presented to the meeting.

The report was withdrawn by my instructions and by vote of the meeting all reference to the matter was expunged from the records.

Truly yours,

W. N. RUDD.

February 26, 1909.

DETROIT FLORIST CLUB.

The Detroit Florist Club had a very interesting meeting March 1, and the flower show next fall at the Wayne Casino is now an assured fact. While the affair is just beginning to shape itself still the committee on prizes has completed a schedule which totals the amount of \$1023.00. Chrysanthemums of course are favored, but handsome prizes are also offered for many other classes of plants. The retailers will exhibit without competition.

F. DANZER.

CLUB AND SOCIETY NOTES.

The Pasadena Gardeners' Association (Calif.) has decided to hold the annual spring flower show on April 1, 2, 3.

The Worcester County Horticultural

Society, Worcester, Mass., will hold its annual reunion and banquet on March 10.

The Miami Valley Nurserymen's Association held their annual banquet at the Phillips House, Dayton, O., on Feb. 18. T. J. Dinsmore was elected president and W. N. Scarff of New Carlisle, secretary.

The Massachusetts Fruit Growers' Association will hold its annual meeting in Horticultural Hall, Worcester, on March 10 and 11. On the afternoon of the 11th the Worcester County Horticultural Society will have an exhibition.

At the meeting of the New York Florists' Club on Monday evening, March 8, W. H. Elliott of Brighton, Mass., will give a talk on Roses. An additional prize of a book elegantly bound in red morocco (value \$14.00) for the best vase of new roses, introductions of 1908-9, has been offered by a member of the club.

The lecture at Horticultural Hall, Boston, on Saturday, February 27, was by Mrs. C. R. F. Iadd, on "Rural New England." It was listened to by a large and deeply interested audience and among those who followed in the discussion were Ex-Governor Bachelor, of New Hampshire, secretary of the N. H. Board of Agriculture, C. R. F. Iadd, past master of the Mass. State Grange, and A. A. Hixon, secretary of the Worcester County Horticultural Society. The next lecture, March 6, will be on Propagation of Plants by Jackson Dawson.

The New Crested SCOTTII FERN...

NEPHROLEPIS SCHOLZELI

NEPHROLEPIS SCHOLZELI

This crested sport of Scottii will hold the same position to all the crested forms of Nephrolepis that Scottii now holds to the Boston. It is entirely distinct from all others and will become even more popular than its parent, with which it is identical in every way except that the pinnae are subdivided, giving it a beautiful crested appearance.

We have shown the plant at the exhibitions noted below and have been awarded the following honors:

SHAW GOLD MEDAL, St. Louis Horticultural Society, Nov. 3rd, 1908, for "Best plant, of decided merit for cultivation, not previously an article of North American commerce."

SILVER MEDAL, offered by the Society of American Florists, through the St. Louis Horticultural Society, Nov. 3rd, 1908, for "The most meritorious plant, or flower of American origin."

CERTIFICATE OF MERIT, of the Horticultural Society of St. Louis, Nov. 3rd, 1908.

SILVER MEDAL, Pennsylvania Horticultural Society, Philadelphia Nov. 3rd, 1908, for the best new plant.

CERTIFICATE OF MERIT, Massachusetts Horticultural Society, Boston, Nov. 6th, 1908.

CERTIFICATE OF MERIT, Dutchess County Horticultural Society, Poughkeepsie, N. Y., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Morris County Gardeners and Florists' Society, Madison, N. J., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Chestnut Hill Horticultural Society, Philadelphia, Pa., Nov. 4th, 1908.

We are booking orders now which will be filled in strict rotation June 1st, 1909.

Price per doz., \$3.50; per 100, \$25.00; per 1000, \$200.00. Twenty-five supplied at hundred rate and five hundred at thousand rate.

HENRY A. DREER, 714 CHESTNUT STREET, PHILADELPHIA, PA.

Obituary

E. V. Hallock.

It is a very sorrowful duty we are called to perform in announcing the sudden death from apoplexy, of E. V. Hallock, of Queens, N. Y., president of the New York Florists' Club, on Tuesday night, March 2. Mr. Hallock presided at the annual dinner of the club last Saturday night and was, so far as we know, in his usual health and spirits. The shock will come as a severe one and painful to a host of friends who loved Mr. Hallock. No one could help loving him. His was a genial, affectionate character. Full of the milk of human kindness, with a heart ready to overflow with sympathy for his fellowman he was at all times the personification of the Golden Rule and well worthy of the high regard in which he was held by the trade and society associates without exception.

Mr. Hallock was a well-read horticulturist, experienced especially in the history and culture of bulbous and tuberous rooted plants, a class of plants in which as a member of the old firm of Hallock, Son & Thorpe and the later firm of V. H. Hallock & Sons, he did a very large business, particularly in lilies and gladioli.

Mr. Hallock was appointed a director of the Society of American Florists and Ornamental Horticulturists by President Vanhan in 1905 and again by President Traendly in 1908, to fill out his own term of one year. Mr. Hallock was elected president of the

New York Florists' Club at the last annual meeting and took his seat at the first meeting in January.

He was to have delivered a lecture on Bulbous and Tuberous-rooted Plants at the meeting of the Gardeners' and Florists' Club of Boston on March 16, and preparations were

E. V. HALLOCK

already under way to extend him special hospitality at that time.

Mr. Hallock has for years taken a lively interest in school gardens and horticultural education for children and has written some very valuable papers for the S. A. F. on that topic.

Eugene Germain.

Eugene Germain, who died in Los Angeles, Calif., on February 18, at the age of 61, was a native of Switzerland and settled in Los Angeles in 1870. In 1882 he started the Germain Fruit Co., and later became president of the Germain Seed & Plant Co., which position he held at the time of his death. In addition to a mammoth seed store he owned the Germain building and the Germain Hotel. He leaves a widow and sons. The business will continue as at present under the management of Fred H. Hunter.

George A. Dickson.

The news of the death of this nurseryman, head of the firm of Messrs. Dicksons, Chester, at his home, Springfield, Newton, Chester, will be received with regret. The deceased was in his 74th year. He entered the Chester City Council in 1879, was elected mayor of that city in 1886, and alderman in 1896; retiring in 1904. He was also a city and county magistrate.

Charles Bramley, Sr.

Chas. Bramley, who has resided in Cleveland, O., since 1855 and conducted a flower business from 1894 to August, 1908, under the firm name of Chas. Bramley & Son, passed away on February 17. His golden wedding was to have been celebrated on February 22. A widow and nine children survive him.

Mrs. G. Wythes.

Some readers of HORTICULTURE will learn with much regret of the death of Mrs. Wythes, whose husband was gardener at Syon House, Brentford, England, for many years.

DREER'S SPECIALS FOR FEBRUARY

Adiantum Farleyense The finest lot of five inch pot plants we have yet offered; elegant stock to give a finishing touch to fine work and choice decorations. \$9 per doz., \$70 per 100. In other sizes we can supply:

PERSONAL.

Carl Jurgens of Newport, R. I., started on a European tour February 19.

J. B. Klaws of Crawfordsville has taken a position with the Attica Floral Co., Attica, Ind.

Mr. and Mrs. P. Welch, of Boston, are in Washington, enjoying the inauguration festivities.

H. Hornebrook, recently of Philadelphia, succeeds Edgar Knight as gardener for Clement Moore, Hackensack, N. J.

Visitors in Boston this week: H. S. DeForest, Winfried Rolker and Charles Loechner, New York City; Paul Berkwitz, Philadelphia.

C. L. Washburn, of Bassett & Washburn, Chicago, has been in poor health for some time and is now taking treatment at West Baden, Ind.

Mrs. Albert Meyer of the Flower Growers' Market, Chicago, lost her father, Ernest Dickinson, on the 23rd. It was the first death in the family for over 50 years.

John Burroughs and John Muir, the California explorer and forestry authority, are starting on a trip together to explore the Grand Canyon of Colorado.

Ernest Oechslin, of Chicago, whose accidental shooting we mentioned in our last issue, is improving nicely and hopes are entertained for his speedy recovery.

Chicago visitors: Mr. Newhall, Aurora Greenhouse Co., Aurora, Ill.; Wm. Graff, Columbus, O.; J. A. Swart, Surling, Ill.; Mr. and Mrs. Alpha Eberfeld of Kansas City.

Visitors in Albany, N. Y.: J. J. Karins, representing Henry A. Dreer, Philadelphia; James Merklejohn, representing H. F. Darrow, and J. Shattis, representing Lion & Co., New York.

Recent visitors in Bar Harbor are Robert Laurie, representing W. W. Rawson & Co.; Thomas Mead, representing Schlegel & Fottler Co., Boston, and D. D. P. Roy representing Vaughan's Seed Store, New York.

Mrs. J. F. Kidwell has been ill for three weeks. Though her case is considered serious the attending physician expects her recovery. Mr. Kidwell has a retail store and greenhouse at 38th St. and Wentworth Ave., Chicago, and is well known to the trade.

Sir D. Morris, late Imperial Commissioner of Agriculture for the West Indies, has been selected for the newly created post of Scientific Adviser to the Secretary of State for the Colonies on matters of an agricultural nature relating to British possessions in the tropics.

Messrs. Nutting & Sons, Ltd., have incorporated with a capital of \$100,000 to take over the business of seed merchants, carried on at 106 Southwark street, London, S. E., as Nutting & Sons, and to adopt an agreement with W. J. Nutting, H. W. W. Nutting and H. R. Nutting.

Frank Schaffer, who has been foreman for Frank Oechslin, Chicago, for some time, leaves to take an interest with the Aurora Greenhouse Co., Mr. Schaffer is a competent grower, well known in Chicago, and he will be well qualified to further extend the business of this company.

The Burpee Quality in Sweet Peas

Few Florists' or Market Gardeners located near summer resorts and large towns seem to realize that by planting Sweet Peas early (as early in April as possible) they can add largely to their summer and early fall income. We have recently received letters from progressive planters stating that in 1908 they were able to add hundreds of dollars to the profit side of the ledger by selling Sweet Pea blooms grown from "Burpee's Seeds."

Florists and Market Gardeners like other Horticulturists differ as to what is best - we suggest as the most desirable of their color in the grandiflora type of Sweet Peas:—

	Per oz.	¼ lb.	Per lb.
DOROTHY ECKFORD. The best white.....	\$0.06	\$0.15	\$0.45
WHITE WONDER. Fre- quently produces six to eight blooms to a spray.....	.10	.25	.75
MRS. COLLIER. Best cream or primrose colored.....	.10	.30	1.00
JANET SCOTT. "The Best Pink".....	.06	.15	.40
PRIMA DONNA. Flush-pink COUNTRESS OF LATHAM. Soft cream pink, very large flowers.....	.06	.15	.40
PRINCE OF WALES. large self-rose colored.....	.06	.15	.45
KING EDWARD VII. The best crimson scarlet.....	.07	.18	.60
QUEEN ALEXANDRA. Bright scarlet.....	.10	.30	1.00
FLORA NORTON. Beautiful rich lavender.....	.06	.15	.40
Mrs. WALTER WRIGHT. Deep mauve.....	.06	.15	.45

	Per oz.	¼ lb.	Per lb.
BRILLIANT BLUE. (Lord Nelson.) Finest dark blue... ..	.12	.35	1.25
BLACK KNIGHT. Rich ma- roon.....	.06	.15	.40
HELEN PIERCE. White ground mottled with blue....	.10	.30	1.00

If you wish the Sweet Peas forwarded by mail postpaid kindly remit at the rate of 8 cts. per lb. additional.

The fourteen varieties offered above together with all the other best Grandiflora varieties and also the superb new Spencer's are fully described in

BURPEE'S FARM ANNUAL FOR 1909

The Leading American Seed Catalog

An elegant book of 174 pages. It is "The Silent Salesman" of the World's Largest Mail-Order Seed Trade. It tells the plain truth about the Best Seeds that can be grown. Bound in covers lithographed in nine colors, it shows, with the beautiful colored plates, Seven Superb Novelties in Vegetables, Three New "Spencer" Sweet Peas, and the most beautiful New Giant-flowered Pansies—all accurately painted from nature. It is a Safe Guide to success in the garden, and should be consulted by every one who gardens either for pleasure or profit. It is mailed FREE to all who appreciate Quality in seeds. Shall we mail YOU a copy?

You should also ask for a copy of THE BLUE LIST which gives special prices quoted Florists and Market Gardeners. Time for planting all seeds is close at hand,—you had better write for either or both catalogs To-day.

TARGET BRAND, Box 732, Martinsburg, W. Va.

"SOLD BY SEED DEALERS"

"HORICUM"

TRADE MARK

HORICUM

Poly-Sulphides of Calcium 30%. Specific Gravity 1.50

DIRECTIONS FOR USE

San Jose Scale Killer and Fungicide

This preparation is lime, sulphur and salt, making a concentrated Poly-sulphide of Calcium. The salt adds to the adhesive properties, but the destructiveness to Scale Life lies in the Calcium Sulphide.

Aside from its ability to destroy San Jose Scale, **HORICUM** is a Fungicide, preventing the free development of fungoid troubles. Shake the package thoroughly or take the top off.

The color in its concentrated form is a deep bronze green. **Do not pour off the clear liquor only**, stir the Horicum from the bottom of the package, and add 20 quarts of water (hot, if you can get it) for ordinary use. For a stronger dilution when the growth is all dormant use 16 parts of water only (hot, if you have it) and spray thoroughly. By grading your dilution you make it any desired strength.

JOHN S. WEAVER

Glenn Mawr Seed Farms. Kinners, Lancaster Co., Pa.

PHILADELPHIA NOTES.

W. K. Harris has the sympathy of the trade on the death of his daughter, Flora, on Feb. 25.

W. Atlee Burpee and companions arrived home in Philadelphia Feb. 25. All well and a pleasant trip.

Fred Ehret, of Broad and Fairmount avenue, is about again, after a severe siege of inflammation which threatened serious consequences for many days.

John Thatcher, late of Wynnewood, Pa., now located in Virginia, was a visitor in Philadelphia this week. He greeted many of his old-time friends and admirers at the club meeting March 2.

Writing Feb. 26, from Castle Springs, Ariz., Charles Sim, the well-known landscape gardener of Rosemont, Pa., expresses regret to read in HORTICULTURE of the death of his life-long friend, David Bearn, at Kirriemuir, Scotland. Mr. Sim is accompanied by his wife and is making a tour of the Golden West. Their next stop will be Los Angeles, Cal., then San Francisco. Home about the first of April.

John Westcott appeared in his usual haunts on Thursday, the 25th, looking fine after his trip to Southern seas. He is giving them all the earache on the beauties of Cuba and the Isle of Pines. A bungalow a la Ware-town in the latter island is in prospect; many are saving up for the trip already. Robert Craig and Julius Roehrs were left behind, looking up desirable sites for winter cottages and other interesting propositions.

An informal meeting of the committee of the credit bureau of the Wholesale Seedmen's League was held in Philadelphia on the 26th ult. After business W. Atlee Burpee invited the committee to dinner at the Union League. To make the occasion pleasant for the visitors, Mr. Burpee invited a few of the representative seedsmen of Philadelphia to join the festive board. Among those present were: T. W. Wood, Richmond, Va.; Charles H. Breck, Boston; S. F. Willard, Weathersfield, Conn.; Walter P. Stokes, Robert Buist, H. W. Tull, Herbert W. Johnson, Burnet Landreth, Howard M. Earl, H. W. Burt and Mr. Smith, attorney for the credit bureau. The scope and usefulness of the bureau to the trade was the serious subject discussed, but wit and wisdom on divers topics had free vent, as might be expected from such a gathering of shining lights.

INCORPORATED.

San Francisco, Cal.—The Luther Burbank's Products: Hartland Law, O. E. Law, O. E. Dinner. Capital, "several millions."

Paul Kaese who has been engaged with his father-in-law, William Hageman, in the bulb-importing and apple exporting trade in New York is about to start in business for himself in Hamburg, Germany.

Everything "For the Land's Sake."

The one firm in Boston where all good forms of plant food may be obtained, is the Bowker Fertilizer Company, opposite Faneuil Hall at 43 Chatham St. All greenhouse chemicals, Nitrate of Soda, Ground Bone, Potash Salts, Sheep Manure and Wood Ashes can there be had at first hands.

BOWKER FERTILIZER COMPANY

Everything "For the Land's Sake."

NEWS NOTES.

Toledo, O.—S. W. Peck is rapidly getting settled in his new location on South street.

Calla, O.—The Templin Co. is reported to be paying an eight per cent. dividend through its trustee.

Buffalo, N. Y.—F. H. Stafford and J. Benson have started in the florist business on upper Main street.

Baltimore, Md.—L. H. A. Klein has started in carnation growing at Towson, with H. Bauer as manager.

Geneva, N. Y.—Smith & Cannett are equipping their new florist store at 53 Seneca street with all the modern appliances and will soon take possession.

Flower Market Reports.

Outside of the violet and BOSTON bulbous stock no fault can be found with the present market conditions here. Manifestly the violet is overdue for the time being, but in the long run it may come out as a winner from the viewpoint of the grower. For the wholesaler and retailer it is, however, pretty thin ice. Lily of the valley has taken a downward turn and so have tulips and yellow narcissi. Of roses the stock increases slowly and not sufficiently to affect values. First-class Beauties are practically out of this market for the time being.

A few sunny days BUFFALO brought on the stock a little faster than was required the past week, especially carnations and bulbous stock which were in heavy supply, and while the wholesalers were trying to hold up the prices a vast amount was carried along from day to day awaiting an outlet. Lilies, peas, mignonette and other stock except Beauties were too plentiful with no floral work to consume any portion which finds the wholesale market once more carrying an over-supply. Roses are becoming more plentiful each day but no over-supply on this line and prices very satisfactory. The demand for violets has been weak and several bargain signs on this item as well as tulips and daffodils are seen, especially on Friday and Saturday.

An anticipated Lent CHICAGO brought a sudden falling off in business. The early part of the week trade was brisk and the flowers rapidly moved off from the wholesalers' counters. But Ash Wednesday marked a turning point and the balance of the week's trade was kept up mostly by funeral orders. Most of the trade report February sales as ahead of anything they had anticipated and in some cases the best in several years. The high quality of the stock no doubt had much to do with the satisfactory results. The scarcity in the supply of Beauties is somewhat abated and there is every promise of a good supply ahead. Killarneys, Richmonds, Chatenays, &c., are reported by the growers as in fine shape for a big Easter crop. Carnations are almost too plentiful and the sales apt to be slow. A large jar of pussy willows in Poehlmann Bros. gives evidence the spring is near. Daffodils are going very slowly and violets do not find as ready sale as could be desired. Tulips are much in evidence and very few are lost.

Settled weather conditions DETROIT have increased counter sales perceptibly while orders are holding their own. Easter lilies are a little more in supply than they have been and the outlook for plenty of them in good healthy form for Easter is excellent. Stock in general is rather scarce, roses being off crop with most of the growers. Bulbous stock is coming in quite liberally and cleans up at good figures. The supply of wild smilax has been

very poor in quality with no improvement in sight.

INDIANAPOLIS The business of the past week was very fair. There was an increasing supply of all stocks but as a rule every thing cleaned up fairly well. American Beauty roses are more plentiful, select stock bringing top-notch prices. Tea roses are more plentiful with prices a trifle lower. The same may be said of carnations. Conditions are more encouraging than they have been for some time. The nearest approach to a glut is with the yellow narcissi which are very abundant. Green goods with exception of smilax are very scarce. Flowering plants have a satisfactory demand. The weather varies from day to day, but is all that could be desired.

PHILADELPHIA Trading last week was rather spasmodic. Monday and Tuesday were fairly good, but Ash Wednesday, a stormy Thursday and the first week of Lent, combined to depress conditions. Friday improved things a little, and Saturday was very good. More American Beauty roses are coming in but they are by no means overplentiful as yet. Pink roses, such as Bridesmaid and Killarney, sold better than whites, but the prospects for the latter are better from now on. A few white Killarneys are coming in and find ready sale. Prices eased up a little in the carnation market consequent on larger receipts and dull trading, but the quality of the product is up to high water mark. The mild weather was expected to have affected quality in violets, but so far they are coming in excellent. Of course, they

are so plentiful now that prices have receded very considerably. Single daffodils are less conspicuous, and fine tulips are now a larger feature in the bulbous stock market. Lily of the valley moves nicely and is excellent stock. Early arbutus from the south is coming in freely. Cattleyas are producing better, and fine flowers can now be had at reasonable figures.

TWIN CITIES Reports from retailers and wholesalers declare that business is good with supply about equaling demand. Quality is good. Plenty of fine bulbous stock on hand.

Washington reports that flowers are somewhat scarce, owing to so much cloudy, rainy weather, but the supply fully equals the demand on everything.

PACIFIC COAST NOTES.

Rudolph Fischer of San Gabriel, Calif., has returned from a two months' tour in the East.

John C. Bodger, Jr., of John Bodger & Sons, Gardena, Calif., has just returned from an extended business trip through the Eastern States and Canada.

San Francisco, Cal.—Lewis Larson, who is accused of having passed spurious checks on fifteen florists within three days, was arrested in the store of the Wickston Floral Company, 810 Van Ness avenue, on Feb. 20. In each case the man bought \$5 worth of flowers and tendered a check for \$16.50 apparently drawn and indorsed by a prominent business man.

EVERYBODY KNOWS

Gardening cannot be properly done without the aid of an accurate leveling instrument.

Bostrom's Improved Levels, No. 2 at \$15.00 and No. 3 at \$25.00, are conceded by all who KNOW to be the only Levels on the market which meet all the requirements, at the price.

Our guarantee back of every Level we sell, and satisfied users in every State in the Union heartily endorse every claim we make.

Shipping weight 12 lbs. Description on request.

NEW YORK MARKET.
Business is of moderate volume since Ash Wednesday came in and it is only because the product increases by very slow steps that the stability of the market is not stamped. Roses and carnations are on the increase in quantity, but hold their own fairly well against the elements that would depress selling values. Bulbous stock is also in supply ahead of the demand and the tendency is steadily downward. All told, however, no serious cause for dissatisfaction has materialized thus far and nothing has suffered since Lent came in that was not already in the frying-pan.

MADISON (N. J.) NOTES.
Herbert Entwistle leaves Mrs. Julius Catlin's on March 15th.
John Whalen has resigned his position as gardener to C. W. Armour, Normandie Heights.
Dudley Olcott, 2nd, is erecting a gardener's cottage on his place, Normandie Park. Jeffrey Lindaburg takes charge on March 1st.
John Jones, the Convent Florist, has had a very successful orchid season. As may be remembered, he purchased the Robt. D. Foote collection.
William Hyland, now at Mrs. Lord's place, takes charge of Stewart Haris-

horne's place, Short Hills, on April 1st, Arthur Caparn having resigned.
Louis J. Reuter, of S. J. Reuter & Son, Westerly, R. I., lectures on the Carnation on March 10th before the Morris County Gardeners' and Florists' Society. This is the annual carnation night. The society solicits novelties for that occasion. The general public are admitted.
John Downing, grower for Dr. McAlpin, Morris Plains, is going into pears and peaches in pots on quite a large scale. Whatever John does he seems to do well, and he will no doubt acquit himself in this line with credit. Wm. Duckham is the only other grower around here who uses the pot system.

During Recess

NEW YORK FLORISTS' CLUB.

The banquet of the New York Florists' Club, Saturday evening, Feb. 27, was a great success, 159 well-known growers and florists—wholesale and retail—and their friends, attending. Sixty ladies graced the affair with their presence and added greatly to the enjoyment of the evening.

The Roman Banquet Hall never saw a prettier decoration nor catered to a more harmonious gathering. Alex. McConnell was chairman of the decorating committee and D. W. Scott directed the arrangements, ably assisted by Alfred Zeller and a force of artists. A superb effect was produced with great masses of forsythia, and acacia with background of wild smilax, and all the tables were lavishly supplied with roses, carnations, orchids, lily of the valley and bulbous stock. The flowers were the courteous gift of the members. Peter Crowe, of Utica, sent a big vase of assorted roses and a large plant of his immortal fern.

Pres. Hallock's reception began at 6 o'clock, and it was long after 1 Sunday morning when the company, led by Will Rickards, sang "Auld Lang Syne." The menu was high class. Everything on the bill of fare was provided in abundance; the only regrets are from those unable to be there. The artists all did nobly and aroused great enthusiasm. The orchestra dispensed popular music and in the chorus everybody joined. The scheme of family tables proved very popular. President Hallock's address was full of good council and hopefulness. Walter Sheridan presented Ex-President C. B. Weathered with a beautiful assortment of solid silver, the gift of his friends in the New York Florist Club. It is needless to say Mr. Weathered's response was full of feeling and gratitude. Patrick O'Mara's address on "Our Night" was inspired by the greatest attendance he had seen in the club's 22 years of banquetting, and though still an old bachelor, the influence of the ladies was potent in inspiring his eloquence.

Leonard Vaughan was called upon to respond to the toast of the S. A. F. in the absence of his father on account of illness. C. H. Totty spoke eloquently for the Chrysanthemum, S. S. Butterfield for the Press and W. J. Elliott for the Auctioneer. A. J. Gutman, Harry Turner and John T. Withers were the "Ladies' Men" and did their subject justice.

We had intended to add here the menu and program so admirably gotten up by the committee, Messrs. W. J. Elliott and J. Austin Shaw, but the

HELP WANTED

GOOD MEN

When you need good men, skilled or unskilled, Write:

THOS. H. BAMBRICK

34 South 7th Street Philadelphia

Help of all kinds, including that for Florists, Nurserymen, Seedsmen and the Horticultural trade generally.

WANTED—A working head gardener, married man, small family or none; must have thorough experience in outside gardens and greenhouse; Scotch or German preferred. Apply by letter to F. H. Beebe, 6 Beacon Street, Boston, Mass.

WANTED—A gardener familiar with orchid culture in every detail. State experience, age, married or single, nationality and salary required. Address Dr. J. F. Shaffer, 408 Penn. Ave., Pittsburg, Pa.

FOR SALE

FOR SALE—Retail nursery, sixth year, doing good, steady and increasing trade. Stock in excellent condition. Only local supply for population of 50,000. For particulars address: K. N., care HORTICULTURE, 11 Hamilton Place, Boston.

WANTED—To meet thoroughly experienced man to manage florist store in Boston, or would consider partnership in establishment business. Address, giving experience, F. S., care Horticulture, Boston.

SITUATIONS WANTED

SITUATION WANTED—First-class German gardener, trustworthy, experienced and competent, aged 30, married, would like position on a private estate. Best of references. Address, Julius Erdman, 3101 R Street, N. W., Washington, D. C.

FORESTRY—A young man wishes a position on gentleman's estate. Understands reproduction and improvement of trees. Also experienced in pruning and cypress work. J. P. D., care Horticulture.

sad news received since the sudden death of the club's president and leading figure in this entertainment deers us. The last words on the program, "Good-night, Good-night Till We Meet in the Morning" impress us with an unpeakable sadness as we read them to-day.

The next event of importance is the Rose Night of the club on Monday evening, Mar. 8. The outing will take place the last week in June or the first week in July.

NEWS NOTES.

White Marsh, Md.—A miniature cyclone swept over the greenhouses of R. Vincent, Jr. & Sons Co., on Feb. 16, which wrenched the three-story office building from its foundations, broke hundreds of lights of glass and left its mark on everything in its path.

The Geo. M. Garland Co., inventors and manufacturers of the Garland gutters, now includes Harry Garland, son of Geo. M., as secretary of the company. This firm is located at Des Plaines, one of Chicago's suburban towns on the North Western R. R., about seventeen miles out. Their plant is running at full capacity and their space is taxed to the utmost limit, but they expect to enlarge their establishment in the near future. George M. Garland has been in the gutter business for twelve years. This year his specialty is a new truss especially adapted for houses requiring protection against high winds.

"REVERO"

Braided Moulded Construction—Seamless Throughout

LIGHT--STRONG--FLEXIBLE

The above cuts represent the non-kinking tendency of Revero as compared with the old style hose of wrapped duck construction.

Revero is furnished on Reels in Continuous Lengths up to 500 feet.

THE TEST PRACTICAL

The practical part is this: to manufacture materials only, is one thing, but to prove their defects by erecting them ALSO, is quite another. We both manufacture and erect our own materials, which gives us every chance to see defects and make improvements. The question is do you or do you not want the up-to-date enduring construction? If you do, then get into communication with us.

Send at once for Half Iron Frame Circular.

Hitchings & Company
1170 Broadway New York

Some Things You Ought To Know

It's good to have in a convenient form bits of information that will help you in making up your mind—AND YOUR ORDER—for a greenhouse.

Cypress is furnished in even foot lengths only. For instance, a 20 foot wide house, having roof built with the usual pitch, requires a roof bar 12 ft. long. Figure it this way: For every additional 2 ft. of roof bar the width of house is increased 3 ft. 4 in. Thus a 14 ft. bar would make a house 23 ft. 2 in. wide. This rule applies to all bars up to 20 ft. long. Now when you come to buy your materials it's a satisfaction—and a saving—to know that you HAVE AN ESTIMATE THAT COVERS EVERYTHING, GUARANTEEING YOU against a series of vexatious delays—those extra expenses that creep up before you know it and pull your first year's profits down.

An estimate we submit, will completely cover the entire proposition. You won't have a lot of "left-outs." You can be sure of being sure. It's just so much insurance. Get our estimates.

Lord & Burnham Co.

Main Sales Office: 1133 BROADWAY, N.Y.

BOSTON: 569 Tremont Building. PHILADELPHIA: 1215 Filbert St.

FROM THE INSIDE—OUT

You know there is not a house built today, no matter what the construction, that has the extreme lightness, beauty and practicalness of our U-Bar Curved Eave.

Just look at this side view! You never saw anything like it in any other house! It is the patented U-Bar Construction that makes such an interior possible. At no points are there heavier roof supporting members than you see right in this interior, and all these are galvanized steel, aluminum finished.

If you want a house that you can show to your friends with the satisfaction of knowing it is the lightest and most attractive, "the best there is" then the U-Bar is the house for you.

It might be well to drop us a line at once.

ROSES FOR SPRING FORCING

Remember You May Deduct 5 Per Cent if Cash Accompanies Order

Hardy Perpetual Roses

We offer exceptionally strong two-year-old dormant, low-budded stock (on Manetti) in the following varieties, true to name:

Alfred Colomb. Carmine.
Anne de Diesbach. Bright carmine.
Ball of Snow. Pure white.
Baron de Bonstetten. Dark crimson shaded.
Baroness Rothschild. Satiny pink; extra.
Captain Christy. Delicate flesh color.
Duke of Edinburgh. Bright vermillion.
Frau Karl Druschki. The finest white in exi tence.

Fisher Holmes. Dark rich scarlet.
General Jacqueminot. Rich velvety crimson.
John Hopper. Beautiful rose-pink.
General Washington. Beautiful red, shaded carmine.
La France. The finest light pink.
Margaret Dickson. White, pale flesh center.

Magna Charta. Clear rosy pink.
Mme. Gabriel Luizet. Light, satiny pink.
Mme. Plantier. White.
Mrs. John Laing. Soft pink; most desirable variety.
Paul Neyron. Beautiful dark pink.
Prince Camille de Rohan. Velvety crimson.
Ulrich Brunner. Cherry-red.

The Grand Pink Hybrid Perpetual Rose Mrs. Sharman Crawford. One of the finest Roses grown. Deep rosy pink, the outer petals shaded with pale flesh-color, white at the base of petals, and distinct from all other Hybrid Perpetual Roses. Bundle of 5 for 75c; 100 for \$15.00.

We also carry about 25 other varieties. Write for list and price. Prices on Hardy Hybrid Perpetual Rose, \$1.50 for 10; \$12.00 per 100; \$110.00 per 1000.

ENGLISH MOSS ROSES

Assorted, White, Pink, Red. Large dormant plants, from open ground. 85c for 5; \$12.00 per 100.

STANDARD, or TREE ROSES

(Grafted on Rosa Canina or Rugosa Stock)

Large well-grown, selected plants in the best and most serviceable varieties. 35c each; \$3.25 for 10; \$25.00 per 100.

Baby Ramblers

THE TREE BABY RAMBLER—Grown as a Standard

35c each; \$3.50 per doz.; \$25.00 per 100.

Mme. Norbert Levavasseur (Baby Rambler). Strong, field-grown plants: \$1.25 for 10; \$12.00 per 100.

Catherine Seimeth. A very important novelty. A white Baby Rambler rose, larger and better flowers than the type. White with yellowish center. It has the true rose perfume in a high degree. 4c each; \$4.00 per doz; \$3.00 per 100; extra strong, 6c each; \$6.00 per 100; \$45.00 per 1000.

Anny Muller. The pink Baby Rambler, and bound to find favor where the Baby Ramblers are popular. 45c each; \$4.50 per doz; \$35.00 per 100.

Mrs. Wm. H. Cutbush. A grand acquisition to the Baby Rambler class.

Color intense crimson, and exceptionally free-flowering. 25c each; \$1.00 for 5; \$18.00 per 100.

Baby Dorothy. The same in habit as Baby Rambler, but the color of the flowers is similar to Dorothy Perkins. This variety has created quite a sensation when exhibited at the English National Rose Society's and other shows. "Baby Dorothy," when planted out, flowers perpetually from spring until autumn. It makes an excellent pot plant for forcing. Price for strong, field grown plants, 50c each; \$5.00 for bundle of 5; \$35.00 per 100.

Hybrid Tea, or Everblooming Roses

Hybrid Tea, or Everblooming Roses are becoming more popular every year. As hardy as the perpetuals, with slight protection in winter, they give a wealth of bloom all through the summer months and late in the fall till frost checks them.

The Grand New Rose Lyon. Originated by the raiser of Etoile de France. Perpetual flowering. Vigorous grower. The blooms are very large with broad petals, full and globular in form; shrump pink at the ends of the petals, center coral-red or salmon-pink shaded with chrome-yellow. Very fragrant. \$1.75 each; \$5.00 for bundle of 5; \$12.00 for 10.

The Killarney Rose. This is a grand rose for either indoor or outdoor cultivation; is a strong grower, and the blooms, which are of a beautiful pink, are borne in great profusion. Strong, two-year-old field-grown stock, 25c each; \$1.00 for bundle of 5; \$18.00 per 100.

Hamam Cochet Roses. The best of all Roses for summer flowering and cutting.

Pink—Color a clear, rich pink changing to silvery rose; very double and fragrant.

White—A sport from the above with all its characteristics; color a beautiful snow-white, at times tinted with the faintest suggestion of blush, the same as is often found in the Bride. 25c each; 75c for bundle of 5; \$12.00 per 100.

Rose, Etoile de France. Flower large, possessing petals of very good substance; magnificent cupped form. Superb crimson-red velvet, the center of the bloom vivid cerise-red. The flowers are very fragrant and last very

long. The Queen of the Everblooming Red Roses. The most free-blooming and vigorous Red Rose ever intro. duce. Strong, 2-year-old plants, field-grown, 25c each; \$1.00 for bundle of 5; \$18.00 per 100.

Gruss an Teplitz. No rose in commerce can compare with Gruss an Teplitz as a bedder. It is a perfect sheet of richest crimson-scarlet all summer. A strong, vigorous grower. Hardy. 25c each; \$1.50 for 10; \$12.00 for 100.

New Hybrid Tea Rose, Queen of Spain. This a grand rose is without doubt the Rose of the season, a seedling from Antoine Rivoire and a H. P., with the scent of *Souvenir de la Malmaison*; the color is pale flesh, darker in the center. Flowers are erect on stout stems, very full, and of excellent form; petals broad and leathery, a good opener and strong grower. 75c each; \$3.75 for bundle of 5.

Countess of Gosford. (New.) A very beautiful variety of the Hybrid Tea class, somewhat resembling Killarney. Color delicate pink; fine flower and bud; splendid acquisition. 40c each; \$2.50 for bundle of 5.

POPULAR HYBRID TEA ROSES

American Beauty, Kaiserin Augusta Victoria, Clothilde Soupert, Caroline Testout, Hermosa. 50c each; 75c for bundle of 5; \$12 per 100.

Rambler Roses

Dorothy Perkins. Resembles the Crimson Rambler, except in color, which is a lovely shell-pink. 15c each; 65c for 5; \$12.00 per 100.

Crimson Rambler Rose. American grown. We can supply extra-strong,

2-year-old plants, grown on their own roots, at the following prices: 3 to 4 ft., 15c each; 65c for bundle of 5; \$12.00 per 100; 4 to 5 ft. long, 20c each; \$1.50 for 5; \$15.00 per 100; 4 to 10 ft. long, 25c each; \$1.75 for 5; \$17.50 per 100.

Well-Known Climbers. Mme. Plantier, white. Seven Sisters, clear pink. 15c each; 65c for 5; \$12.00 per 100.

New Climbing Rose, Climbing Frau Karl Druschki.

Frau Karl Druschki, and should become very popular. Good, strong plants are offered as follows: 5c each; \$1.00 for 5.

Our Wholesale Catalogue of Quality seeds and bulbs now ready and it contains forty pages of seeds and bulbs and roses you need, fully described. Write for it today—a postcard will fetch it.

ARTHUR T. BODDINGTON, Seedsman, 342 West 14th St. NEW YORK CITY

**NEW
ROSE****WHITE KILLARNEY**

We Know You Will Want to Buy White Killarney

Every live, progressive, up-to-date grower who has seen it is buying it; but when you buy White Killarney, be sure you get the right White Killarney (the Waban variety). When you buy from us you get the variety that has been exhibited and re-verified and the one that has attracted such favorable mention.

If you are in the vicinity of New York, we should be glad to have you call and see White Killarney growing at our Scarborough range, and you will say at a glance—as everyone who has seen it growing—that it is by far the best white rose that has ever been placed on the market.

It is not only a good winter-flowering rose, but is good the entire year, and it is a splendid shipper. Read the following letter received from Mr. Willis N. Rudd, Secretary of the Society of American Florists, dated January 18th, in which he writes as follows:

"Dear Mr. Pierson:—I cannot refrain from writing you and expressing my admiration for the White Killarney as shown at Chicago on Thursday. It is an exquisitely beautiful thing and attracted much attention. I took half the blooms home with me, and they were finer on Saturday than they were at the show. The record is that these blooms were shipped from Tarrytown, staged and exhibited during the afternoon. They were then carefully wrapped up in a box, and remained in that box until one o'clock Friday morning, at which time I reached home; improved in quality up to Saturday, and were in fairly presentable condition on Sunday.

In addition to being the most beautiful white rose of its class which I have seen, this demonstrates its splendid keeping and shipping qualities.

W. N. RUDD."

We were awarded Silver Cup at National Flower Show, Chicago, for best new rose with White Killarney.

Strong Plants, 2 1/4 inch pots, own roots, \$30.00 per 100; 250 for \$70.00; 500 for \$125.00; 1000 for \$250.00. Grafted plants \$5 per 100 additional.

Roses Under Glass

GREEN-FLY AND RED-SPIDER

With the approach of spring we may expect a rapid increase of green-fly and red-spider and special efforts should be made to exterminate them before they become too numerous.

Fumigating with tobacco stems is a common practice but withal unsatisfactory, as it is almost impossible to fumigate as often as is necessary to keep green-fly in check without at the same time causing injury to the flowers and foliage. The petals of Killarney and other pink varieties are so easily bleached that heavy fumigation sometimes renders the flowers quite unfit for market and although the injury to the foliage may not be so apparent, it is there nevertheless and should not be ignored.

One of the most effective substitutes for tobacco stems and at the same time least injurious to plant life that has come under the writer's observation, is Nicotinic. The chief drawback to this preparation is its expense, but if used carefully and at the proper time this may be kept within reasonable bounds. Syringe carefully every time this operation is performed and there will be little trouble from red-spider. Give particular attention to the young plants in pots, as red-spider is one of the most injurious pests they have to contend with in their present stage.

During the remainder of the season when the plants are healthy and vigorous and the soil well filled with roots, considerable benefit may be obtained from the use of liquid food. For this purpose there is nothing safer than the liquid from fresh cow manure which contains many of the elements necessary to plant life and in their proper proportions. For a first application it is important that the liquid be rather weak and the soil not very dry, otherwise, the result may be entirely opposite to that which is expected. As the plants become accustomed to this class of food the preparation may be made stronger without incurring any danger. Of equal importance in the administration of liquid manure is a knowledge of when to apply it—the period of growth in which the plants can use this food to advantage. Plants which have lapsed into a semi-dormant condition should not receive food in any form other than that contained in the soil until, by a judicious use of water, heat and ventilation they have been coaxed into renewed activity and made a new growth of several inches in length.

Conditions over which we have no control are sometimes responsible for the check to root action or other troubles that occasionally retard the growth of our plants, but more often these checks may be traced to indiscriminate use of fertilizers in liquid and other forms and it is only by careful observation of conditions, sound judgment in administering food and frequent

reference to past experiences that we may hope to avoid these troubles in the future.

J. E. Simpson

The Rose in Floral Work

Acknowledged queen of flowers, the rose lifts itself in mighty grandeur above her exquisite but less pretentious sisters of the soil, and for her sweet innocence and ever readiness to mingle with them we bow our tenderest respect and compliments.

We do not speak slightly of all else of Flora's kingdom when lauding the charms of the rose, as each flower in turn can boast its votary, and justly so, as the blossom devoid of beauty and without an admirer is unknown. In its willowy grace and loftiness of mien the rose may be depended upon when displayed with its kind, only, to produce results in the matter of natural charm not to be obtained by the clustering of blooms of any flowering plants not embraced in its class, and it is conceded the rose is in a class, alone. Unselfish by nature it is willing at all times to go hand in hand with a companion of different type, even though its adaptability to such combinations is comparatively slight.

In company with carnations the rose loses its importance, while the carnation itself appears to suffer, the latter being more at ease unaided by the former.

There are opportunities, nevertheless, for roses being used to advantage with other flowers as floral emblems may mutely attest, be they fashioned for the living or the dead.

A funeral wreath composed of roses, any color, furnished at one side with lily of the valley or orchids is pretty and in harmony, while a cluster of roses in contact with a generous bunch of violets on a wreath of galax is by no means disturbing to the eye.

A bridal bouquet of white rosebuds embellished with a few white orchids at one side is beautiful as it is popular. There are other instances where the rose may be used in connection with other flowers with excellent effect, notably in bridal outfits.

What is most desired in the use of roses is an avoidance of commonplace combinations, such as roses and violets, roses and gardenias, roses with sweet peas or lily of the valley; in fact with any small flower in the construction of corsage bouquets, small flowers being infinitely better alone than when in company of the rose, whose preeminence enables it to stand alone in the fulness of its dignity.

The call
to Buffalo

Important horticultural events follow one another in rapid succession at this season of the year. Indianapolis and the carnation hosts, together with a number of other notable events of more local interest, have barely passed into history when the call to Buffalo is heard and the beloved Queen of Flowers begins preparations for her great annual reception. Although the Rose Society's meeting and exhibition have thus far presented and will probably continue to present in a somewhat lesser degree the distinctly trade aspect which characterizes the corresponding annual affairs of the American Carnation Society yet it is easy to see that this society is now in a way to find its interests in the commercial cut flower field rapidly growing. La Detroit, Kate Moulton, Mrs. Marshall Field, Mrs. Potter Palmer, My Maryland, Rhea Reid, Queen Beatrice, White Killarney and other recent aspirants for recognition in the winter cut flower markets are undoubtedly only the pioneers of a numerous host of American-raised youngsters that are being eagerly nourished and groomed by fond sponsors for coming tests. The awakening is a healthy one, the "still, small voice" whispers seductively of possible triumphs and solid profits and the Rose Society's place is in the forefront.

The garden
rose problem

The motto of the American Rose Society, "A rose for every home, a bush for every garden," well expresses one great aim of that organization. Yet the Society has thus far found very scanty picking in that part of the field and were it not for the substantial support extended by the forcing rose element in the past few years its fate would probably now be a matter of history. Popular support such as is freely accorded in the old country is apparently out of the question, at least for the present, in this country and we might as well accept the fact that the fostering of a general interest along the line of hardy garden rose culture must necessarily be an up-hill task, so long at least as the main reliance for material is on the old-fashioned one-crop varieties. Individually beautiful as the time-honored, so-called H. P. varieties are, their future in a very large section of the United States will amount to but little in view of the expected rapid development of a native race of sturdy ever-bloomers with characteristics of which Killarney, Wellesley, Rhea Reid and other well-tested varieties have only given us a little foretaste. The Rose Society will show wisdom in accepting the situation and devoting its energies in the outdoor field to encouraging the improvement of and extending the popular knowledge of the hardy continuous blooming varieties and leaving the rest to their fate.

About the
"Formosa" lily

Environment and circumstances, avoidable or unavoidable, at some particular stage, have much to do with the final outcome of the culture of a plant, from seed, bulb or cutting and there are generally two or more opinions or kinds of experience forthcoming as soon as any direct opinion, favorable or otherwise, is made public concerning any important recent introduction. The criticism which appears in this issue of HORTICULTURE in regard to the behavior of the Formosa lily bullis imported this year is a case in point.

Beyond a question it is unprejudiced, and trustworthy, as it is outspoken and explicit, yet we happen to receive by the same mail a high tribute to the Formosa lily as to its behavior this year with Bassett & Washburn of Chicago, who are large growers and who announce their intention of growing the Formosa lily exclusively next year because it has pleased them so well. They do find fault, however, with the great diversity in length of stem under forcing conditions. One of the most extensive growers of lilies for the Boston market says that the Formosa is by far the best lily he has ever grown but he admits that the types are badly mixed. It is to be deplored that the lily situation all over the world wherever bulbs are commercially grown is so unsatisfactory and it intensifies the apprehension to learn of the failure of this latest "hopeful" to make good at any stage. The subject is one for diligent investigation and intelligent discussion.

British Horticulture

SOME FLORAL NOVELTIES

For those garden enthusiasts who delight in securing new attractions for their flower beds there is no lack of variety in the novelties being offered. Gardening here was never more popular than it is at the present time; this is due in a large measure to the skill and enterprise of the trade in continually extending the range of the amateur's interest in floral subjects. There is no limit to the field of selection. For instance, from America has been introduced a new nasturtium of the Tom Thumb variety, Golden Midnight. This has similar foliage to Golden Feather, with neat, deep maroon flowers. This is likely to prove useful as a bedding subject. Queen Alexandra is the popular name selected for a winter stock, of the same type as Beauty of Nice, which produces a profusion of fragrant pure white blooms.

The new Namaqualand daisy, which received an award of merit at the Temple show last summer, is being sent out this spring. This is a dwarf half-hardy annual, with daisy-like flowers of a glossy, salmon-orange shade, with a black central ring. The latest form of the perennial sweet pea is the Picotee, the blooms having a light ground color, edged with pink similar to a picotee. The sweet pea is showing no diminution in the hold it has attained on public favor. Besides the many new kinds which are being issued by the British specialists, some novelties have been imported from across the Atlantic. These include: King Edward Spencer, bright crimson; Apple Blossom Spencer, deep rosy pink; Mrs. Chamberlain Spencer, white tinged with bright rose; Dainty Spencer, pale primrose, changing to white, with pink edge; Princess Alice Spencer, delightful shade of lavender; Mrs. Routzahn, deep crimson ground, with rose edge, etc.

Progression is the name of a new delphinium, which is described as the purest white variety yet raised. The outer petals are white, the inner three being tinged with pale yellow, the blooms being of a shapely form and imposing size.

Sweet Williams still find a place in many gardens;

Giant White is an attractive hardy biennial, producing good trusses of large smooth-edged blooms. The new asters include Beauty of Colwall, which has received a first-class certificate from the Royal Horticultural Society. The lavender-blue flowers are double, borne erect on stout stems about four feet high. Feltham Blue is also another welcome addition.

Very useful for bedding, the pyramidal forget-me-not will be in demand in many quarters, its upright habit of growth being a notable feature. A new type of sunflower is offered in Starlight; the blooms are of a canary-yellow tint, with graceful twisted petals. This is an improvement on the race of annual sunflowers, particularly adaptable for cut flower purposes.

Rose lovers will appreciate a white variety of the ever-popular Dorothy Perkins, which has emanated from the Colchester Nurseries, where so many good things have been raised. This has secured the gold medal of the National Rose Society. Begonia raisers have been very active in producing new forms of this charming flower. Recent additions comprise: Beatrice Mabbett, pure white, with a lemon shading towards the centre; Amy Bruce, rose colored; Gladys, a dark red variety for hanging baskets; Mrs. G. F. Fry, salmon pink; Mrs. T. R. Rossiter, red-edged yellow with waved petals; Mrs. Peter Clowes, salmon. For bedding purposes a new sort has been raised, producing numerous bright crimson blooms on compact plants; this is known as the Surprise single bedding begonia.

There is always a wide range of chrysanthemums available, as the supplies of the home growers are supplemented by the introductions of the Australian and continental raisers. Amongst the new aspirants for honors are the Rev. R. D. Eves, white flushed over with delicate pink; W. Howe, a bold incurved Japanese bloom, of a rich crimson-maroon tint, with silvery buff reverse; Melchet Beauty, resembling F. S. Vallis, deep yellow, flushed with crimson; George H. Godfrey, amaranth-purple; F. W. Lever, creamy-white; H. J. Jones, 1908, golden-yellow.

THE NEW EXHIBITION

The "White City" in western London which last year formed the site of the Franco-British exhibition, this season is being utilized for a great Imperial International show, organized by that great Napoleon of the exhibition world, Mr. Inure Kiralffy. An important agricultural and horticultural section has been formed, under the chairmanship of Lord Carrington. Two large flower shows of an international character are being arranged. Many of the leading nurserymen will also make displays of bedding, and an interesting comparison will be provided of the British and continental methods of arranging-parterres. I have been appointed Hon. Secretary of this section: any of your readers requiring further information should send a letter to me, addressed, the White City, Shepherd's Bush, London, W. I shall be most happy to afford them every possible assistance. The exhibition promises to be one of the chief attractions of the London season, and crowds are expected from all parts of the empire. The opening takes place on May 1st, the season lasting for six months. Lord Strathcona is acting as President.

Wm. H. Adsett.
London, Eng.

AMERICAN ROSE SOCIETY

Program of 10th Annual Meeting and Spring Exhibition

To be Held at Iroquois Hotel, Buffalo, N. Y., March 17, 18, and 19, 1909

The Annual Meeting of the American Rose Society will open at 7:45 p. m. sharp on Wednesday, 17th, and continue on Thursday, 18th, at 2:30 p. m., or as may be adjourned.

The transaction of business will be in the following order:

Calling to order by President August Pochlmann.—Address by the President.—Reading minutes of previous session.—Secretary's report.—Treasurer's report.—Reports of Committees.—Selection of place for next year's meeting.—Miscellaneous business.—Election of officers.—Appointment of committees.—Adjournment.

A question box will be opened at the secretary's desk.

Under the order of essays and discussions, addresses will be made as follows:

First Session.

A Paper by Mr. Walter W. Coles, Kokomo, Ind. "Advantages and Disadvantages of a Wholesale Florist in a Country Town."

A Paper by Mr. J. F. Huss, Hartford, Conn. "The Rose Garden."

Second Session.

A Paper or address, upon "The Value of Soils for Special Work," by Prof. F. C. Corbett, Horticulturist of the Bureau of Plant Industry, Dept. of Agriculture, Washington, D. C.

A Paper, by Mr. George D. Leadle, Springfield, Ohio. "Roses as Popular Home Flowers and how they are grown."

Thursday evening—8 p. m. An illustrated lecture by Leonard Barron of New York City.

THE EXHIBITION.

Judges for 1909.

Adam Graham . . . Cleveland, Ohio
Peter Bisset . . . Washington, D. C.
Paul M. Pierson . . . Scarborough, N. Y.
Lawrence Cotter . . . Jamestown, N. Y.
George Asmus . . . Chicago, Ill.

Rules and Regulations.

1. All exhibits for competition must be in position by one o'clock, p. m., Wednesday, March 17th, and are not to be removed until after the close of the exhibition.

2. An entrance fee of \$3.00 is required for all non-members. Any person paying dues is entitled to make entry without further fee.

3. All judging shall be by the scale of points given below. No certificate or first premium shall be awarded to any exhibit scaling less than 85 points; no second premium to any exhibit scaling less than 75 points; and no third or special premium to

any exhibit scaling less than 65 points.

4. In all cases where money prizes are offered, plate of equal value may be taken at the option of the winner.

5. All exhibitors winning premiums must keep their respective exhibits in good, fresh condition until the closing of the exhibition.

6. Any article manifestly unfit to show may be excluded by the management and the judges shall withhold any premium when the entries are unworthy of awards. The management may at any time order the removal of an exhibit which is in bad condition. All cut roses (excepting Killarney) in the competitive classes must be from a single growth of the current season.

7. All plants and flowers for com-

and any improperly named variety will disqualify the exhibit.

11. When it is desired that exhibits be staged by the management, notice should be sent in advance, by mail, and a full list of articles, number of packages, number of entries, and notice of when and how they will be shipped should be given. A copy of the letter should be placed inside the package at the top, and such exhibit plainly marked with the section and class in which entered, in addition to the variety label.

NOTE:—For information concerning Exhibition Hall, address J. Rowland Cloudsley, Secretary of Florists' Club, 584 Main street, Buffalo, N. Y.

Scale of Points.

All exhibits will be judged by points in accordance with the following official scales:—

Points of Value.	Competitive Classes.	Novelties for Certificates, Etc.
Size	15	10
Color	20	20
Stem	20	15
Form	15	15
Substance	15	10
Foliage	15	15
Fragrance (for novelties only)	—	5
Distinctiveness	—	10
	100	100

All exhibitors not members shall pay an entrance fee of \$3.00 before placing anything on exhibition.

Schedule of Prizes.

American Rose Society's medals and certificates for novelties.

Gold medal for the best new rose not yet disseminated, whether of domestic or foreign origin. Exhibits to be judged by the official scale of the American Rose Society, and no gold medal to be awarded to any rose scoring less than 95 points.

Silver medal is offered at the same time and under the same conditions for a novelty scoring not less than 85 points.

A Certificate of Merit is awarded to all novelties scoring 80 points, but neither medal or certificate will be issued until the variety is named and 12 blooms shown.

It is further ordered that the complete scores of all the entries in the competition be filed with the Secretary of the American Rose Society before the award of any medal is confirmed. No duplicate medal will be awarded. It is understood that though the award of the gold or silver medal or certificate may be made to the same variety from one exhibitor exhibited in different centers, only one medal will be delivered to the exhibitor.

The Executive Committee of the American Rose Society reserves to itself the right of selection of the judges who shall pass upon the ex-

IROQUOIS HOTEL.

petition (except imported plants shown for the first time in this country) must have been grown by the exhibitor for the last three months preceding the exhibition unless otherwise specified.

8. The pots or tubs of exhibition plants must be clean; dirty pots or tubs shall be sufficient cause for the judges to disqualify an exhibit.

9. Class cards will be furnished by the management. None other may be used. The class card shall be inclosed in an envelope having on the outside nothing but the number of the exhibitor's entry. The envelope must be sealed before placing it with the exhibit, and must not be opened until after the judges have passed on the exhibit. Any violation of this rule will disqualify an exhibit.

10. Each variety exhibited for competition shall be properly and plainly labeled with its name, in such a manner that it can be easily seen. Label cards, which will be furnished by the management, shall contain nothing but the name of the variety (or, if unnamed, a reference number). The writing or printing must be legible,

hibits in the competition for these medals.

Division A—Pot Roses.

Class 1—Best display of hardy roses in bloom. Exhibit to consist of 150 or more plants, in 30 or more varieties, not more than 10 plants allowed of any one variety, to be grown in pots or tubs, six inches or larger. All types and classes of roses suitable for outdoor planting may be exhibited in this class. First prize \$200, offered by Hon. Philip Breitmeyer, Detroit; second prize \$100, offered by Arthur T. Boddington, New York.

2—Collection of Teas and Hybrid Teas in not less than 5-in. pots, 25 plants or more; first \$25; second \$15.

3—Collection of Wichuraiana Hybrids, 6-in. pots or over, not less than 25 plants; first prize \$25; second \$15.

4—Collection of Hybrid Perpetuals in 6-in. pots or over, not less than 25 plants; first \$25; second \$15.

5—Six climbing roses in not less than 7-in. pots; first \$12; second \$8.

6—Six roses, not climbing, in not less than 7-in. pots; first \$12; second \$8.

7—Twelve Baby Ramblers, any variety, in not less than 5-in. pots; first \$6; second \$3.

8—Specimen in pot or tub not climber; first \$5; second \$3.

9—Specimen Crimson Rambler in pot or tub; first \$10, second \$5.

10—Specimen Lady Gay in pot or tub; first \$10; second \$5.

11—Specimen Hiawatha in pot or tub; first \$10; second \$5.

12—Specimen Newport Fairy in pot or tub; first \$10; second \$5.

AUGUST PÖHLMANN

President.

13—Specimen Dorothy Perkins in pot or tub; first \$10; second \$5.

14—Specimen Yellow Rambler in pot or tub; first \$10; second \$5.

NOTE.—All plants in these classes to be correctly labeled. No exhibit shall be awarded a prize unless in the opinion of the judges the same shall be deemed worthy.

Division B.

15—For the best vase American Beauties, 50 blooms, first \$25; second \$15. First prize offered by Traendly & Schenck, New York City.

16—For the best vase Killarney, 50

blooms; first \$25; second \$15. First prize offered by Eric Floral Co., Buffalo.

17—For the best vase Richmond, 50 blooms; first \$25; second \$15. First prize offered by Frank V. Pierson, Tarrytown, N. Y.

Division C—Teas and Hybrid Teas.

Twenty-five cut blooms.—Open to all.

18—American Beauty (stems not less than four feet nor more than six feet), first prize \$15, offered by W. J. Palmer & Son; second prize \$10, offered by W. J. Palmer & Son, Buffalo, N. Y.

In classes 19 to 41 the prizes are, in each class, first \$10; second \$5; the varieties are as follows:

Class 19, Bride, 20, Bridesmaid, 21 Kaiserin Augusta Victoria, 22 Cardinal, 23 Rhae Reid, 24 My Maryland, 25 Mrs. Jardine, 26 Mrs. Potter Palmer, 27 Queen Beatrice, 28 Bon Silene, 29, Souv. du President Carnot, 30 Perle des Jardins, 31, Golden Gate, 32, Mme. Abel Chatenay, 33, Mrs. Oliver Ames, 34, Ivory, 35, Liberty, 36, Sunrise, 37, Wellesley, 38, Killarney, 39, Richmond, 40, Uncle John, 41, any other named disseminated variety.

Note.—Any variety not named above may be shown in Division C, and first and second prizes may be awarded to each variety shown at the discretion of the judges. Entries are unlimited.

42—Best and largest collection of Teas and Hybrid Teas, 6 or more varieties, not less than 12 flowers of a kind; first \$30, offered by Robert Simpson, Clifton, N. Y.; second \$20, offered by Robert Simpson, Clifton, N. Y.

WILLIAM F. KASTING

Vice-President

BENJ. HAMMOND

Secretary

HARRY O. MAY

Treasurer.

P. WELCH
Executive Committee.

P. J. LYNCH
Executive Committee.

PHILLIP BREITMEYER
Executive Committee.

Division D—Twelve Cut Blooms.
Open to private gardeners and amateurs only.

43—American Beauty (stems not less than four feet, nor more than six feet) \$8, offered by Benjamin Hammond, of Fishkill-on-Hudson; 47, offered by Benjamin Hammond.

In classes 44 to 63 the prizes are, in each class, first \$1; second \$2; and the varieties are:

Class 44, Bride. 45, Bridesmaid. 46, Kaiserin Augusta Victoria. 47, Mrs. Pierpont Morgan. 48, Souv. du President Carnot. 49, Perle des Jardins. 50, Bon Silene. 51, Mrs. Oliver Ames. 52, Ivory. 53, Safrano. 54, Golden Gate. 55, Mme. Chatenay. 56, Liberty. 57, Sunrise. 58, Mrs. Jardine. 59, Cardinal. 60, Rhea Reid. 61, My Maryland. 62, Marechal Neil. 63, any other named variety disseminated.

Note.—Any variety not named above

may be shown in Division D and first and second prizes may be awarded to each variety shown, at the discretion of the judges. Entries are unlimited.

64—Best and largest collection of Teas and Hybrid Teas, six of a kind, first \$12; second \$6.

Division E—Hybrid Perpetuals
(Stems not less than twelve inches.)

Open to all.—Prizes are, first \$25, offered by August Pochmann, Morton Grove, Ill.; second \$15, offered by W. F. Kasting Co., Buffalo, N. Y.

65—For the largest and best collection, not less than twelve varieties, nor less than three of a kind.

Division F—Hybrid Perpetuals
(Stems not less than twelve inches.)

Open to private gardeners and amateurs only.—Prizes are, first \$10, offered by W. F. Kasting Co., Buffalo,

N. Y.; second \$5, offered by Benjamin Hammond, Fishkill-on-Hudson, N. Y.

66—For the best and largest collection, not less than six varieties, and not less than three of a kind.

SPECIAL PRIZES.

Division G.

67. The Dorrance Challenge Prize, valued at \$250.00. For the Best Display of Cut Roses, all Varieties. Offered by Benjamin Dorrance; the winner to hold the prize a year and on relinquishing it to the Society for another competition at the end of that period to receive a silver shield, suitably engraved, as a permanent record of his having held the prize. The names of the winners will be engraved consecutively on the prize.

68. For the best Fifty Blooms of Kate Moulton in the show; a silver vase, valued at \$25.00, offered by

A. FARENWALD
Executive Committee.

PETER BISSET
Executive Committee.

E. GURNEY HILL
Executive Committee.

Henry F. Michell Co., Seedmen, of Philadelphia, Pa.

69. For the best Twelve named varieties of Hybrid Perpetuals in pots. Prize of \$10.00, offered by Kroeschell Bros. Co., Chicago.

70. For the best 100 Richmond. Prize a Silver Vase, value \$40, offered by A. N. Pierson Inc., Cromwell, Conn.

71. For the best arranged vase or other receptacle containing not to exceed one dozen Roses (American Beauty barred). No foliage or other accessories except Rose foliage permitted. The competition to be open to all florists and employees. Prize, \$10 first; \$5 second. Both offered by J. A. Valentine, Denver, Colo.

72. For the best 25 Killarney Pink or White, prize Silver Cup, value \$25, offered by Welch Bros., Boston, Mass.

73. For the best 36 My Maryland, stems not to be less than 20 inches long on single growth. Prize \$25, offered by A. Farenwald, Roslyn, Pa.

74. For the best 25 My Maryland, Prize \$10, offered by John Cook, Baltimore, Md.

75. For the best 50 Killarney.

J. ROLAND CLOUDSLEY
Superintendent of Exhibition.

Prize a Silver Tray, value \$25, offered by Henry F. Michell Co., Philadelphia, Pa.

76. For the best 25 American Beauties. Prize \$25, offered by The Pulverized Manure Co., Chicago, Ill.

77. For the best collection of Hybrid Wichuraina novelties, not disseminated, five or more plants, in pots or tubs. Prize \$25, offered by Ellwanger & Barry, Rochester, N. Y. The best variety in this collection may receive the Society's Silver Medal; second best, a Bronze Medal, if considered worthy.

78. Special Prize of \$25.00 offered by the Lakeview Rose Gardens, Jamestown, N. Y.

Sweepstake Medal.

The Society of American Florists offers a Silver Medal for the best collection in the exhibition.

The Henry F. Michell Co. offer a beautiful silver tray to be awarded for the best exhibit of fifty pink Killarney roses. It makes an ideal piece on which to stand a cut glass vase, filled with flowers. A space has been provided in the centre of the tray for the inscription of the winner's name.

CHARLES SANDIEORD
Retiring President Buffalo Florists' Club

E. C. BRUCKER
Representative of Horticulture.

PROF. J. F. COWELL
Chairman Reception Committee

WM. SCOTT MEMORIAL.

We have received from Mr. Fred Breitmeyer, chairman of the Scott Memorial Fund Committee the following communication, signed by the committee, Fred Breitmeyer, A. Gude, John Birnie, H. H. Ritter, E. F. Winterson.

At the Niagara Falls Convention the undersigned were appointed a committee to receive subscriptions for a memorial to the late William Scott. At that time the committee received a large number of subscriptions and many individuals, florists, clubs, business houses and the trade press interested themselves in the movement, turning over to the committee the sums raised by them, together with the names of the contributors.

Consultation with the family of the late Mr. Scott, and with others interested, indicated that possibly the best form that the memorial could take would be a monument to mark the grave in Forest Lawn Cemetery, Buffalo, N. Y. It seemed desirable to complete the matter with as little delay as possible, but considerable time was consumed in that the block of granite must needs be quarried specially in Vermont, for the stone selected. The memorial is now in place, however, and the unexpended balance of the fund has been turned over to Mrs. Scott for the maintenance of the plot.

One hundred and seventy-seven

W. J. PALMER
Chairman Entertainment Committee.

names of contributors are appended subscribing various amounts, the aggregate sum subscribed being \$554.00.

BUFFALO FLORISTS' CLUB.

The regular meeting of the Buffalo Florists' Club was held on Tuesday last, and brought out a good attendance as election of officers for the ensuing year was in order. Benj. Hammond, secretary of the American Rose Society, who was present addressed the club in relation to the coming Rose Show which is to be held at the Troquois Hotel on March 17. His remarks were brief and to the point and will no doubt help the committee in charge of the show. This being the first Rose Show ever held in this city the committee will spare no effort to make it a notable one.

The following officers were elected for the ensuing year: President, Edw. Slattery; vice-president, Chas. Guenther; secretary, Wm. Legg; financial secretary, D. B. Long; treasurer, W. H. Fliss.

Personal

Visitor in Boston: L. De Smet Duivier, Gand, Belgium.

Mrs. J. F. Kidwell of Chicago is very low and all hope for her recovery is given up.

H. A. Neuper of Erie, Pa., has taken a position with Van Bochove & Bro., Kalamazoo, Mich.

August Millang and Miss Emma Trojan, of New York city, were married on Thursday evening, March 4.

Walter Taepke and Albert Pochelon of Detroit, have started on a trip to eastern cities in search of novelties.

T. Mellstrom representing Sander & Son, Bruges, Belgium, will return to New York on the S. S. Mauretania which sailed from Liverpool March 6.

Prof. Wendell Padock has been elected to take charge of the horticulture department and Prof. W. R. Lazenby of the forestry at the Ohio State University, Columbus, next year.

We regret to learn of the serious illness of Mr. L. B. Crawl of the Lord & Burnham Company, New York. Mr. Crawl has gone to Buffalo, accompanied by Mrs. Crawl, for special medical advice.

Ernest Oechslein, of Chicago, who was accidentally shot by his nephew, continues to improve and expects to return from the hospital in another week. No effort has been made to remove the bullet.

John Bonell, florist, of Meriden, Conn., celebrated his sixty-fifth birthday on the evening of March 2. Music, recitations and a bountiful lunch served by Mrs. Bonell made the occasion a pleasant one.

J. W. Lawrence, of Toronto, Can., was in Chicago with the Mendlesohn Choir, which gave three concerts in that city. Mr. Lawrence did not lay aside all business for music, but went out to see the O. P. Bassett carnation and was so impressed that he could not resist the temptation to order a thousand.

J. H. Pepper, Chicago representative for the Florists' Exchange has been called to the N. Y. office. Mr. Pepper has made many friends during his stay in Chicago who will be very sorry to learn of his intended departure which is set for the 16th inst. Uncle John Thorpe will look after the Chicago business hereafter.

Visitors in New York: E. Wienhoeber, H. N. Bruns, J. C. Vaughan and M. Barker, Chicago; W. Atlee Burpee, Philadelphia; P. Welch, Boston; Harry A. Barnard, with Hugh Low & Co., London; A. Leuthy, Boston; Miss Celia Murray, Montreal, P. Q.; Newton H. Carter of Z. J. Carter & Son, and J. F. Bradshaw, Wallace, N. C.

The Burpee Quality in Sweet Peas

Few Florists' or Market Gardeners located near summer resorts and large towns seem to realize that by planting Sweet Peas early (as early in April as possible) they can add largely to their summer and early fall income. We have recently received letters from progressive planters stating that in 1908 they were able to add hundreds of dollars to the profit side of the ledger by selling Sweet Pea blooms grown from "Burpee's Seeds."

Florists and Market Gardeners like other Horticulturists differ as to what is best - we suggest as the most desirable of their color in the grandiflora type of Sweet Peas:-

HENRY F. MICHEL CO., 1018 Market Street, PHILADELPHIA

MOVEMENTS OF GARDENERS.

Wm. Huseman, superintendent of parks at Great Falls, Mont., has resigned his position.

William Murphy has resigned his position as manager of the Hugo Johnstone estate at Hamilton, Mass.

Charles Newton recently assistant to Mr. Griffin at the E. T. Gerry greenhouses has succeeded John Davidson as gardener to Mr. I. T. Burden at Newport, R. I.

PHILADELPHIA PERSONALS.

Wm. Fonda of Mandeville & King, Rochester, N. Y., was a visitor recently and was hospitably entertained by Howard M. Earl of W. Atlee Burpee & Co. and P. Joseph Lynch of Dingee & Conard Co. Another recent visitor was Leonard Vaughan of Chicago. He was much interested in the new Michell store and especially in the onion sets that Mr. Henry claimed were from Illinois. On the 5th inst. he left in company with Mr. Burpee to attend the Hallock funeral.

ALBANY PERSONALS.

Thomas Tracey, employee of W. C. Gloeckner, is ill at his home. Herbert Whittle, of the firm of Whittle & Riggs, is also quite ill. Visitors: Mr. Wm. Dykes, representing Ed. Jansen, New York; Mr. E. V. Wood, of Wood Bros., Fishkill, N. Y.; Wm. B. Lake, of Philadelphia.

The number of out-of-town buyers and liberal buying noticed at Elliot's opening auction sale for the season, although one week ahead of the usual date, speaks well for the prospects for business this season.

F. 9. Bridesmaid—50 flowers, prize, cash \$8.00.
G. 10. Best New Rose of 1909—50 flowers, two prizes: 1st prize, Schlegel & Fottler, cup, value \$25.00; 2nd prize, cash \$10.00.
 Note—Exhibitors competing in Classes A and B must do so from places not exceeding 35.00 feet of glass.
 Classes C, D, E, F and G are open to all.

Carnations.

H. 11. White—50 flowers, two prizes, \$5.00, \$3.00.
 12. Scarlet—50 flowers, two prizes, \$5.00, \$3.00.
 13. Light Pink—50 flowers, two prizes, \$5.00, \$3.00.
 14. Dark Pink—50 flowers, two prizes, \$5.00, \$3.00.
 15. Crimson—50 flowers, two prizes, \$5.00, \$3.00.
 16. Variegated—50 flowers, two prizes, \$5.00, \$3.00.
 I. 17. Seedling, not Disseminated—100 flowers, T. J. Grey & Co., value \$25.00.
 J. 18. Seedling, White, Not Disseminated—50 flowers, \$5.00.
 19. Seedling, Red, Not Disseminated—50 flowers, \$5.00.
 20. Seedling, Dark Pink, Not Disseminated—50 flowers, \$5.00.
 21. Seedling, Light Pink, Not Disseminated—50 flowers, \$5.00.
 22. Seedling, Scarlet, Not Disseminated—50 flowers, \$5.00.
 23. Seedling, Variegated, Not Disseminated—50 flowers, \$5.00.
 K. 24. Vase of 100 Carnations, Any Color, Joseph Bros. & Sons, special prize, \$15.00.
 L. 25. Vase of 100 Mixed Carnations, Limited to Five Prizes, T. J. Grey, Esq., Flower Co., special prize, cut glass, value \$25.00.

Violets.

M. 27. Bunch of 100 Blooms of Lind Home Campbell—Two prizes, \$2.00, \$1.00.
 28. Bunch of 100 Blooms of Marie Louise—Two prizes, \$2.00, \$1.00.
 29. Bunch of 100 Blooms of any other Double Variety—Two prizes, \$2.00, \$1.00.

30. Bunch of 100 Blooms of Princess of Wales—Two prizes, \$2.00, \$1.00.
 N. 31. Collection of Violets, Display of not less than Five Varieties—H. E. Fiske Seed Co., cup, value \$15.00.

Miscellaneous.

O. 32. Snapdragon—25 spikes, Two prizes, \$3.00, \$2.00.
 P. 33. Wallflower—25 spikes, Two prizes, \$2.00, \$1.00.
 Q. 34. Lily of the Valley—100 spikes, \$4.00.
 R. 35. Mignonette—25 spikes, \$3.00.

Sweet Peas. No. 2.

S. 36. White—100 flowers, Two prizes, \$2.00, \$1.00.
 37. Pink—100 flowers, Two prizes, \$2.00, \$1.00.
 38. Purple or Lavender—100 flowers, Two prizes, \$2.00, \$1.00.
 39. Any other Color—100 flowers, Two prizes, \$2.00, \$1.00.

Miscellaneous.

T. 40. Marguerites—50, Two prizes, \$3.00, \$2.00.
 U. 42. Group of Commercial Foliage and Flowering Plants. Not to cover more than 60 sq. feet of space—A. H. Hews, \$25.00.
 W. 44. Cyclamen. Plants in Bloom—25 pots, \$10.00.
 X. 45. Best Arranged Floral Basket—Prize value \$10.00.
 Y. 46. Best Arranged Center Piece for Table, Cut Flowers, H. M. Robinson & Co., cut glass vase, \$15.00.
 Z. 47. Best Shower Bouquet for Bride. To be made of Lily of the Valley and Green, \$10.00.
 M. Floral Wreath, \$15.00.
 48. Best Display of Vegetables Grown under Glass, Hall & Cole, cup, value \$15.00.
 Judges in Classes X, Y, Z and M will be chosen on day of exhibition.

A BOOK EVERY GARDENER WILL FIND USEFUL.

A Garden Diary.—Underwood. Each day of the year has a page, and each page is divided into four parts, for the record of four years. It is equal to a shelf full of books. Price \$3.25; by mail, \$3.55.

BUSINESS CHANGE.

Marion, Ind.—Andrew S. Smith has purchased the property of the Marion Floral Co. at Meridian and 31st streets.

Mr. Thos. J. Grey calls our attention to a mistake in our account of the competition at the Boston Market Exhibition last week, stating that instead of two there were ten competitors for his special trophy offered for the best vase of one hundred carnations, one variety, standard or novelty.

GREEK AMERICAN FLORISTS' ASSOCIATION.

The second annual ball of this thriving New York organization took place at the Palm Garden, New York city, on the night of March 2, with all the luxuriance of decoration and liberality of hospitality which characterizes the Greek American who, when he undertakes to do anything, always goes the limit. The attendance was tremendous and included many members of the wholesale trade, as well as the entire retail interests of the city.

The New York Florists' Club bowling contingent has gathered strength in numbers and has good practice meetings regularly now. It begins to look as though they would have something to say at Cincinnati next August, and any other aggregation which aspires to get a look-in would do well to get busy at once. Last Monday afternoon the high scores in four games were as follows:

Mathews	151	Burns	160
Fenrich	171	Shaw	165
Schreiner	179	Donaldson	168
Manda	182	Tallman	150
Lorentz	150	Whitbeck	204

The St. Paul bowlers asked their Twin City brethren to meet them on March 6th in the Saintly City for another tournament. While the scores were pretty good all around they have to get higher a few notches on the Mill City team to beat these old hand bowlers like Olson, Hansen and Dill. Nevertheless, Minneapolis took their licking without saying much, (they might have thought a great deal). The last tournament of the season will take place at Minneapolis, March 18th.

The scores of the teams was as follows:

ST. PAUL.	MINNEAPOLIS.
Dysinger ..88-168-109	Wirth ..134-111-106
Hansen ..169-136-145	Bueglin ..98-107-95
Puvogel ..119-147-100	Carlson ..117-195-153
Dill	Meyer ..159-129-117
Olson ..176-172-204	Ruedlger ..87-189-192

RHODE ISLAND COLLEGE LECTURES.

Lectures were given at the Coles Laboratory, Newport, R. I., on the evenings of March 3, 4, 5, under the auspices of the R. I. College of Agriculture and Mechanics Arts. President Edwards of the college opened the first meeting with an explanation of the aim of the lectures, saying the object was to help the owners of homes to get more pleasure and profit from their grounds. The balance of this evening was then used by Professor G. E. Adams with a very interesting lecture on soils. Mr. Henry M. Howard of West Newton, Mass., lectured the two following evenings on vegetable gardening, covering the subject thoroughly, to a very appreciative audience, the Newport Horticultural Society being well represented.

The New Crested SCOTTII FERN...

NEPHROLEPIS SCHOLZELI

NEPHROLEPIS SCHOLZELI

This crested sport of Scottii will hold the same position to all the crested forms of Nephrolepis that Scottii now holds to the Boston. It is entirely distinct from all others and will become even more popular than its parent, with which it is identical in every way except that the pinnae are subdivided, giving it a beautiful crested appearance.

We have shown the plant at the exhibitions noted below and have been awarded the following honors:

SHAW GOLD MEDAL, St. Louis Horticultural Society, Nov. 3rd, 1908, for "Best plant, of decided merit for cultivation, not previously an article of North American commerce."

SILVER MEDAL, offered by the Society of American Florists, through the St. Louis Horticultural Society, Nov. 3rd, 1908, for "The most meritorious plant, or flower of American origin."

CERTIFICATE OF MERIT, of the Horticultural Society of St. Louis, Nov. 3rd, 1908.

SILVER MEDAL, Pennsylvania Horticultural Society, Philadelphia, Nov. 3rd, 1908, for the best new plant.

CERTIFICATE OF MERIT, Massachusetts Horticultural Society, Boston, Nov. 6th, 1908.

CERTIFICATE OF MERIT, Dutchess County Horticultural Society, Poughkeepsie, N. Y., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Morris County Gardeners and Florists' Society, Madison, N. J., Oct. 30th, 1908.

CERTIFICATE OF MERIT, Chestnut Hill Horticultural Society, Philadelphia, Pa., Nov. 4th, 1908.

We are booking orders now which will be filled in strict rotation June 1st, 1909.

Price per doz., \$3.50; per 100, \$25.00; per 1000, \$200.00. Twenty-five supplied at hundred rate and five hundred at thousand rate.

NEWS OF THE CLUBS AND SOCIETIES

NEW YORK FLORISTS' CLUB.

The regular monthly meeting on Monday evening, 8th inst., was to have been Rose Night. W. H. Elliott of Boston was to have read a paper on rose culture and preparations had been made for an extensive exhibition of the Queen of Flowers but instead the meeting was turned into a Lodge of Sorrow. No business was transacted and after appropriate remarks by Vice-president Harry Turner, who occupied the chair, and several other members and the report of a set of resolutions on the death of President Hallock by a committee appointed for that purpose the club adjourned.

On the exhibition tables a beautiful array of roses was displayed. The judges examined them and will make their report at the next meeting. White Killarney was shown in fine shape by Waban Rose Conservatories and F. R. Pierson Company. My Maryland from Robert Simpson, A. N. Pierson and Myers & Santman was grand. Nothing finer than Richmond as staged by A. Farenwald has been seen for a long time. Mrs. Jardine, Kate Moulton and Mme. Abel Chatenay were also included in Mr. Simpson's collection, and Mr. Farenwald was further represented by Killarney. The Brant Hentz Flower Company sent superb American Beauties; Valentine Haman. Bridesmaids; W. G. Badgley, Killarney, Bride and Bridesmaid; W. A. Manda, Cherokee and South Orange Beauty and Henry Hentz, Jr., had Bride and Bridesmaid in good form.

Following is the report of the special committee on the death of President Hallock:

Whereas, We, the members of the New York Florists' Club, are overwhelmed with grief at the sudden demise of our friend and President Edw. V. Hallock, who was struck down on the night of March 2 while apparently in the full possession of his health and faculties, and

Whereas, The club has sustained a great loss in the death of its president at the beginning of his term of office, when the prospects of a brilliant year seemed most promising.

He was an able executive, an ear-

nest worker in the club's behalf and exerted his best energies for its up-building.

Mr. Hallock stood for all that was elevating in horticulture, lending his speech and pen for its advancement; not the least of his efforts was directed to the introduction of a course of practical horticulture in our public schools.

He was a man whose attractive personality appealed to all; generous, sympathetic; of fine impulses; kind and considerate of the feelings of others, he leaves many friends to mourn him.

Therefore be it

Resolved, That these minutes be spread upon the record of this club and a copy be forwarded to his bereaved family, to whom we tender our deepest sympathy.

W. F. SHERIDAN,
FRANK H. TRAENDLY,
JOHN YOUNG.

March 8, 1909.

CINCINNATI FLORISTS' SOCIETY.

The Cincinnati Florists' Society have selected the following chairmen of committees in connection with local preparation for the S. A. F. Convention to be held in Cincinnati next August:

President's reception—Albert McCullough, Charles McCullough and Peter Olinger. Entertainment—J. A. Peterson. Badges—E. A. Forter. Program—A. Sunderbruch. Transportation—G. Adrian. Hall—J. W. Rodgers. Women's entertainment—E. G. Gillett and C. E. Critchell. Ball game—Frank Dellar. Bowling—C. E. Critchell.

William Murphy has been selected for recommendation to the S. A. F. executive committee for the position of superintendent of the trade exhibition.

DETROIT FLORIST CLUB.

Next meeting night will bring forth definite plans as to the arrangement of our fall show. Fortunately the sentiment prevails to arrange a genuine show which will interest the public, not one of those bench and bottle compositions which draw the florists only.

NEWPORT HORTICULTURAL SOCIETY.

The Newport Horticultural Society held a real business meeting Tuesday evening, March 9th, when the schedule and other matters connected with the June Show came up and were all settled. This schedule does not differ much from those of recent years except that an important addition was made to the School Children's Classes which is provided for by a substantial donation from Mrs. Lorillard Spencer. Mrs. Robert Goellet's liberal donation of one hundred dollars a year for five years also provides for two new classes for this show, the first being a specified table of flowering plants, and the other a vase of cut flowers. John B. Urquhart, gardener for Mr. R. L. Beekman, had on the exhibition table a specimen plant of the new fern *Nephrolepis superbissima*, which was its first appearance before this society. On account of its rich dark green color and being unusually well grown it was awarded a first class certificate of merit.

The Society then voted to offer one silver medal and one bronze medal to the New England Dahlia Society for two worthy exhibits of dahlias to be specified later, and shown at the proposed exhibition of the N. E. Dahlia Society this year. The Society also voted to order for distribution to the school children of Newport, a large number of printed leaflets giving helpful directions for the growing of flowers and vegetables.

J. R.

PERPETUAL FLOWERING CARNATION SOCIETY.

The annual general meeting took place at the Hotel Windsor, London, Eng., on Feb. 10. Mr. J. S. Brunton presided, and about a score of the members were present. A scheme for the registration of the names of new varieties has been adopted and nine such have been registered during the year. A variety must gain at least 85 points to entitle it to first-class certificate. Two cups have been presented to the society, one by Lord Howard de Walden and the other by the American Carnation Society.

NEW YORK FLORISTS' CLUB BANQUET

Dreer Special Offer OF Hardy Perennials

NEW OR LITTLE KNOWN VARIETIES WORTHY OF SPECIAL ATTENTION

TROLLIUS (Globe Flower)

PRIMULA CORTUSOIDES SIEBOLDI. These are not so well known as they deserve: they are of free, vigorous growth, and can be flowered in pots in early spring, and respond quickly to forcing when placed in a temperature of 50 degrees, forming pretty pot plants in a short time, making excellent window plants, which meet with ready sale when in bloom.

We offer six distinct varieties, from pure white to the deepest rose in color.
\$1.50 per doz.; \$10.00 per 100.

RUDEBECKIA RAYS OF GOLD. In this new variety we have a refined form of the popular "Golden Glow," to which it is identical in color, habit, etc., but the flowers have narrower petals, full to the centre, forming a perfect ball of gold,
\$1.50 per doz.; \$10.00 per 100.

ANCHUSA ITALICA DROPMORE VARIETY. A grand improvement on the type, with intense deep blue flowers, \$2.00 per doz.; \$15.00 per 100.

ANTHERICUM LILIASTRUM GIGANTEUM. A giant form of the N. Bruno Lily with very large white flowers, \$2.50 per doz.; \$18.00 per 100.

AQUILEGIA HELENÆ. One of the best of the Columbines, large pretty blue flowers, with large white corolla,
85 cts. per doz.; \$8.00 per 100.

CAMPANULA PERSICIFOLIA HUMOSA. A very large semi double form of the peach leaved Campanula, flowers of a pleasing shade of blue,
\$1.10 per doz.; \$10.00 per 100.

DELPHINIUM GOLD MEDAL HYBRIDS. The finest strain ever offered in mixed varieties,
\$1.25 per doz.; \$3.00 per 100.

DELPHINIUM BELLADONNA. The freest flowering of all Delphiniums, it is never out of bloom, beautiful turquoise blue, \$2.00 per doz.; \$15.00 per 100.

FUNKIA ROBUSTA ELEGANS VARIEGATA. A decided improvement on all variegated forms,
\$1.50 per doz.; \$10.00 per 100.

HELENIUM RIVERTON GEM. A new variety that originated on our trial grounds. Flowers of a gold, suffused with bright terra cotta, changing as they mature to a wallflower-red,
\$1.50 per doz.; \$10.00 per 100.

HELENIUM RIVERTON BEAUTY. Another variety which originated with us, quite distinct in color, which is lemon-yellow, with a large disc of purplish-blue.
\$1.10 per doz.; \$10.00 per 100.

HELIANTHUS SPARSIFOLIUS. The most desirable of all the hardy sunflowers, especially valuable as a cut flower, 85 cts. per doz.; \$6.00 per 100.

FOUR VALUABLE HEMEROCALIS. The four varieties here offered are great improvements upon the well-known Yellow Day Lilies.

Aurantiaca. Very large, bright, orange-yellow, sweet-scented flowers,
15 cts. each; \$1.50 per doz.

Aurantiaca Major. Large trumpet-shaped, sweet-scented, deep orange flowers. Requires protection,
35 cts. each; \$3.50 per doz.

Florham. Large golden-yellow sweet-scented flowers; very free flowering,
15 cts. each; \$1.50 per doz.; \$10.00 per 100.

Gold Dust. Large golden-yellow flowers,
15 cts. each; \$1.50 per doz.

INCARVILLEA DELAVAYI. Popularly known as the hardy Gloxinia, extra strong roots,
\$2.00 per doz.; \$15.00 per 100.

IRIS PALLIDA DALMATICA FOLIA VARIEGATA. A strikingly handsome variegated leaved form of this beautiful blue Iris,
35 cts. each; \$3.50 per doz.

GYPSOPHILLA PANICULATA FLORE PLENA. This is a perfect gem and as a summer cut-flower invaluable. We have a large stock of strong roots to offer this season,
\$2.00 per doz.; \$15.00 per 100.

LUPINUS POLYPHYLLUS ROSEUS. This is a most attractive rosy pink form of Lupinus, producing gigantic spikes of flowers,
\$2.00 per doz.; \$15.00 per 100.

PENSTEMON GENTIANOIDES SENSATION. Gloxinia-like flowers in a variety of bright colors, including rose, cherry, crimson, purple, lilac, etc. For bedding they rival Phloxes, Petunias, etc. Not quite hardy 3-inch pots,
\$1.00 per doz.; \$7.00 per 100.

STOKESIA CYANEA ALBA. A white form of the popular blue Stokesia, equally valuable and a desirable addition; strong plants,
\$1.25 per doz.; \$8.00 per 100.

CHOICE NEW TROLLIUS. (New Globe Flowers.) The five varieties listed below are decided improvements on all sorts heretofore offered; of exceptional large size and good, rich colors.

Götterfunke. Large open orange-yellow flowers.

Helios. Very free flowering, pure yellow, on strong branched stems.

Leuchtkugel. One of the finest deep orange.

Lichtball. Large, globular orange-yellow flowers on stiff stems.

Salamander. Soft orange-colored flowers of globular form,
35 cts. each; \$3.50 per doz. The set of 5 for \$15.00

HENRY A. DREER, 714 Chestnut Street, Philadelphia, Pa.

THE GARDENERS' AND FLORISTS' CLUB OF BALTIMORE.

The Club held their regular meeting in the hall of the Florists' Exchange Building. This being the annual meeting the election of officers for the ensuing year was held and all were re-elected, viz.: J. J. Perry, president; Geo. Morrison, vice-president; N. F. Flinton, secretary; Geo. Talbot, financial secretary; F. G. Burger, treasurer, and C. M. Wagner, librarian. The customary banquet was held at the Hotel Caswell and something less than a hundred members partook. The custom of inviting guests was not observed this year, speaking being confined to members of the club. Israel Rosnosky of Michell's, Philadelphia, was present.

SOCIETY OF AMERICAN FLORISTS AND ORNAMENTAL HORTICULTURISTS.

The regular mid-Lent meeting of the executive board is called for Saturday, 8 P. M., March 13 next, at the Sinton Hotel, Cincinnati, Ohio.

By order of President Valentine.

Withdrawal of Registry Application.

Under date of March 1, 1909, Mr. C. G. Roebing, by Mr. James Goodier, gardener, withdraws application of Feb. 5, 1909, for the registration of Cattleya Eureka, stating that he has been informed by Mr. Orpet of South Lancaster, Mass., that the same hybrid was exhibited by him under the name of L. C. Johannson.

W. N. RUDD, Secretary.

March 5, 1909.

NORTH SHORE HORTICULTURAL SOCIETY.

At the North Shore Horticultural Society regular meeting, March 5, J. K. M. L. Farquhar interestingly talked on Dahlias. A lively discussion followed, in which it was brought out that dahlias were thought to threaten the supremacy of the rose fifty or sixty years ago. Mention was made of the fact that the now popular Cactus, Anemone and other free-flowering forms were formerly discarded as freaks. Propagation, culture, varieties, etc., were discussed.

After adjournment there were refreshments as usual and "heap big" smoke talk.

HUNTINGTON (N. Y.) HORTICULTURAL AND AGRICULTURAL SOCIETY.

The fifth annual carnation exhibition of this society was held on March 5. Owing to the quasi blizzard which came the day before, many intending exhibitors failed to get their flowers in. The most conspicuous vase of carnations in the hall was that of "Bay State," exhibited by A. Roper, of Tewksbury, Mass. These were splendid blooms on magnificent stems and were awarded first prize for vase of undissemated variety. Other awards were White Brothers, 1st for Enchantress and 1st for scarlet, with Beacon. H. F. & A. H. Funnell, 1st for White Enchantress. Huntington Nursery Co., 1st for 25 assorted. August Heckscher, Adolph Alius, gardener, 1st for roses, both classes, for violets double and single, mignonette, blooming plant, frillage plants, bulbous flowers and greenhouse vegetables. H. L. Pratt, Henry Gaut, gardener, 1st for freesias.

AMERICAN CARNATION SOCIETY.
Carnation Registered.

By The Chicago Carnation Co., Joliet, Ill. "Conquest," Parentage, Day-break Lawson and unknown seedling; color, light pink overlaid with deep rose pink; size of flower, 3 to 3 1/2 inches; habit like Lawson with a stem as long as Enchantress and very stiff. **ALBERT M. HERR.**

Lancaster, Pa.
LOS ANGELES (CAL.) FLORIST CLUB.

At a recent meeting of this club the new officers invited the ladies

JACOB DEITRICH
President.

and friends and engaged an orchestra of eighteen pieces, under the leadership of Prof. Rudderoff, for the even-

a huge bouquet of Eschscholtzia Californica, California's state flower, and a large vase of American Beauty roses, which represented the florist trade of the city. An address was delivered by P. D. Barnhart upon "The Advancement of Floriculture in Southern California". J. G. Morley, superintendent of parks, also spoke entertainingly. Refreshments were served, the orchestra rendered its choicest music at frequent intervals and the evening was pronounced the most enjoyable in the history of the club.

TARRYTOWN HORTICULTURAL SOCIETY.

The February meeting of this society was held on the evening of the 26th instant and was observed as Carnation Night. There was an unusually large attendance of the members, who all seemed mesmerised on seeing such a display of carnations. The prize offered by Mr. Marshall Katonah for three varieties, six of each, brought forward a heavy competition, first honors going to James Stuart, Mamaroneck, who put up Pink Enchantress, Rose Pink Enchantress and Victory in great shape. Robert Angus was second and Thomas Aitchison and W. Jamieson each were awarded an honorable mention. F. R. Pierson Co. exhibited two very promising seedlings, one pure white and the other pink. Both were awarded certificates, and Wm. Roberts, Ossining, also received a certificate for a very dark seedling, and Francis Gibson a cultural certificate for a magnificent bunch of single violets. The work of the evening was devoted to revising the schedules and fixing the dates for the June and fall shows.

A Profitable Side Crop

Asparagus plumosus is a main crop with many growers having extensive modern plants but those with less up-to-date establishments, or parts of same defective in lighting or otherwise unsuitable for high grade crops, will find this subject one of the very best. We have prepared a cultural circular giving concise directions how to make money out of this crop. Send for it. No charge. An important feature in asparagus culture is good seed. The P. M. quality of greenhouse grown seed has earned a high reputation for freshness and purity. It is the true nanus and greenhouse grown. Send for trial pkg., 100 seeds fifty cents, if you wish to experiment only. In quantity \$3.75 per 1000 seeds, \$32.50 per 10,000 seeds. Asparagus Sprenger 75c. per 1000, \$5.00 per 10,000 seeds.
